STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mrs. SHAHEEN (for herself and Ms. AYOTTE):

S. 910. A bill to amend title 38, United States Code, to ensure that veterans in each of the 48 contiguous States are able to receive services in at least one full-service Department of Veterans Affairs medical center in the State or receive comparable services provided by contract in the State, and for other purposes; to the Committee on Veterans' Affairs.

Mrs. SHAHEEN. Mr. President, today I am introducing the Veterans Health Equity Act of 2011. This bill would require the Department of Veterans Affairs to ensure that every State has either a full-service veterans hospital or, in the alternative, that veterans in every State have access to comparable in-state hospital care and medical services. I am pleased that my colleague from New Hampshire, Senator AYOTTE, has agreed to be an original cosponsor of this measure.

New Hampshire is currently the only State that does not have either a full-service veterans medical center or a military hospital providing comparable services to veterans. While the staff of the Manchester VA Medical Center does an excellent job of caring for our State's veterans, this facility does not provide inpatient surgical care, emergency services or care in a number of critical specialties. This imposes a great burden on many New Hampshire veterans who are forced to travel out of state for a range of medical services.

New Hampshire has over 130,000 veterans and this number continues to grow as our troops return from major deployments in the Middle East. It is unconscionable that our veterans must board shuttles to larger VA facilities in Massachusetts or Vermont to get the medical care they have been promised in exchange for their service. Often, especially during the winter months, travel is difficult in New England, and our veterans should not be forced to drive long distances in order to receive the medical care they have earned and deserve.

Our goal is to ensure that New Hampshire veterans get the care they need as close to home as possible. This legislation provides the Department of Veterans Affairs with the flexibility to achieve this end in the most cost-effective manner. If it is not feasible for the VA to construct a new full-service hospital in New Hampshire or to provide the full panoply of hospital services at its existing medical center in Manchester, the legislation simply requires the VA to contract with other health providers to offer comparable in-state care.

I introduced similar legislation in the 111th Congress with our former colleague, Senator Judd Gregg. Since that time, the VA has established an effective contractual relationship with one hospital in New Hampshire, Concord Hospital, to expand in-state care for our veterans. I believe this type of partnership could be readily expanded. I have begun working with officials at the Department of Veterans Affairs to
