

EXTENSIONS OF REMARKS

CHAMPAIGN NATIVE, TYLER
MCGILL, WINS OLYMPIC GOLD IN
SWIMMING

HON. TIMOTHY V. JOHNSON

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. JOHNSON of Illinois. Mr. Speaker, I rise today to recognize the achievements of Olympic Swimming Gold Medalist Tyler McGill.

Champaign native, Tyler McGill, took home Olympic Gold last month. McGill was part of the 4X100-meter medley relay team that won gold in London.

McGill, born and raised in Champaign, Illinois, was a State Champion swimmer at Champaign Central High School, and went on to become an All-American swimmer at Auburn University.

Tyler has consistently been one of the top butterfly swimmers in the country. He qualified for the London Games, finishing second behind Michael Phelps at the USA Swimming Trials, with a time of 51.31 seconds.

In London Tyler qualified third for the finals of the 100-meter butterfly, eventually finishing seventh. His medaling opportunity came shortly after his seventh place finish as he swam the butterfly leg during the prelims of the 4X100-meter medley relay. USA went on to capture gold in that event and McGill took home some hardware.

I would like to congratulate Tyler's parents, Jeff and Susan, for the encouragement and support they have given Tyler over the years to become the exceptional Olympian that he is today.

PERSONAL EXPLANATION

HON. DAVID N. CICILLINE

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. CICILLINE. Mr. Speaker, on the Legislative Day of September 10, 2012, upon request of a leave of absence, a series of votes were held. Had I been present for these rollcall votes, I would have casted the following votes: On Motion to Suspend the Rules and Pass H.R. 6122, To revise the authority of the Librarian of Congress to accept gifts and bequests on behalf of the Library, and for other purposes (Roll No. 557)—I vote "Yes"; On Motion to Suspend the Rules and Pass, as Amended H.R. 2139, Lions Clubs International Century of Service Commemorative Coin Act (Roll No. 558)—I vote "Yes"; On Motion to Suspend the Rules and Pass H.R. 6186, To require a study of voluntary community-based flood insurance options and how such options could be incorporated into the national flood insurance program (Roll No. 559)—I vote "Yes."

On the Legislative Day of September 11, 2012, upon request of a leave of absence, a

series of votes were held. Had I been present for these rollcall votes, I would have casted the following votes: On Ordering the Previous Question for H. Res. 773, Providing for consideration of H.R. 5544, to authorize and expedite a land exchange involving National Forest System land in the State of Minnesota for the public school system, and for consideration of H.R. 5949, to extend the FISA Amendments Act of 2008 for 5 years (Roll No. 560)—I vote "No"; On Agreeing to the Resolution H. Res. 773, Providing for consideration of H.R. 5544, to authorize and expedite a land exchange involving National Forest System land in the State of Minnesota for the public school system, and for consideration of H.R. 5949, to extend the FISA Amendments Act of 2008 for 5 years (Roll No. 561)—I vote "No"; and On Motion to Suspend the Rules and Pass, as Amended H.R. 4264, FHA Emergency Fiscal Solvency Act (Roll No. 562)—I vote "Yes."

RECOGNIZING OVARIAN CANCER AWARENESS MONTH

HON. DARRELL E. ISSA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. ISSA. Mr. Speaker, I rise today in support of tens of thousands of women and their families. In 2012, over 22,000 women will be diagnosed with ovarian cancer. Tragically, 15,500 will die from this disease. Ovarian cancer is the deadliest gynecological cancer among American women.

This September, we recognize Ovarian Cancer Awareness Month, honoring those who have battled cancer—and those who continue to struggle with the disease. Their courage is an inspiration to all of us and a reminder that together, we can beat ovarian cancer.

With early diagnosis, ovarian cancer is survivable. Over 95% of women who detect ovarian cancer during the early stages of the disease defeat the disease. By learning the symptoms, checking their family histories and visiting with their doctors, women can detect ovarian cancer before it's too late.

No one and no family should have to face ovarian cancer without the knowledge necessary to detect and defeat it. Along with my fellow Congressmen and citizens, I am proud to have helped fight ovarian cancer. In 2005, I joined my colleagues to create a federal educational campaign for gynecological cancer, urging the Center for Disease Control and the Office of Women's Health to cooperate with non-profits to raise cancer awareness among women and health practitioners.

That year, I also successfully introduced Johanna's Law. In memory of Johanna Silver, who lost her life to cancer after a three and a half month battle with ovarian cancer, Johanna's Law has helped increase awareness of gynecological cancers.

I urge all members to recognize and remember Ovarian Cancer Awareness Month and the impact of cancer upon our community.

RECOGNIZING THE 175TH ANNIVER-
SARY OF ZION LUTHERAN
CHURCH

HON. PETER J. ROSKAM

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. ROSKAM. Mr. Speaker, I am pleased to rise today to congratulate Zion Lutheran Church on its 175th Anniversary. On September 30th, Zion Lutheran Church will celebrate its legacy of faith and service.

Founded in 1837, Zion Lutheran Church is the second oldest established church in the State of Illinois. Spanning three different centuries, Zion Lutheran Church has helped make Bensenville a better place to live, learn, and worship. Members of the Zion Lutheran Church community have helped share the grace of God with others by helping establish 11 additional Lutheran churches in DuPage County. Over the years, Zion Lutheran Church has brought hope and fellowship to countless individuals and families.

Zion-Concord Lutheran School is also commemorating its 156th Anniversary this year. Since its inception, Zion-Concord Lutheran School has succeeded in its mission to provide families with a high quality Christian education and to nurture and enrich its students through the teaching of Holy Scripture.

Mr. Speaker and Distinguished Colleagues, please join me in recognizing these significant milestones for the Zion Lutheran Church and Zion-Concord Lutheran School, and in wishing them many more years of achievement and faithful service. May God bless the congregation on this special occasion.

SUPPORT OF OVARIAN CANCER MONTH

HON. DAVID LOEBSACK

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. LOEBSACK. Mr. Speaker, I rise today to express my support for women and families affected by ovarian cancer. In 2012, it is estimated that approximately 22,280 women will be diagnosed with ovarian cancer and 15,500 will die of the disease. In Iowa alone an estimated 190 women will die from ovarian cancer this year. Too many American women—sisters, daughters, nieces, wives, friends, neighbors, and coworkers—are losing their lives to this disease.

Ovarian cancer is the ninth most common cancer among women and the fifth leading cause of cancer-related deaths, making it the deadliest of gynecologic cancers. If ovarian cancer is treated before it spreads, the five-year survival rate is 93 percent. Currently, only 15 percent of ovarian cancers are found at such an early stage and overall the relative five-year survival rate is 46 percent. I urge my

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

colleagues to help make women aware of the potential warning signs to prevent future deaths.

September is National Ovarian Cancer Awareness Month—an important time during which ovarian cancer organizations, advocates, and others will be helping to raise awareness about the disease and its symptoms. As a member of the bipartisan House Cancer Caucus, I urge my colleagues and their staff to join me in recognizing September as National Ovarian Cancer Awareness Month and to join us year round in working to increase public knowledge about this deadly disease and work towards a cure.

TAIWAN OBSERVER STATUS IN THE INTERNATIONAL CIVIL AVIATION ORGANIZATION

SPEECH OF

HON. PHIL GINGREY

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 11, 2012

Mr. GINGREY of Georgia. Mr. Speaker, as one of the Co-Chairs of the bipartisan Congressional Taiwan Caucus, I rise in strong support of S. Con. Res. 17. I particularly want to commend Chairwoman ROS-LEHTINEN and Ranking Member BERMAN for bringing this concurrent resolution to the floor. Additionally, I would like to applaud the work and leadership of our other Co-Chairs—Ms. BERKLEY of Nevada, Mr. DIAZ-BALART of Florida, and Mr. CONNOLLY of Virginia—for their work supporting our relationship with Taiwan.

Since its inception in 1947, the International Civil Aviation Organization, ICAO, has been a great resource for the international community to develop and foster the most efficient and safest means of airline travel across the world. In the aftermath of the horrific terrorist attacks 11 years ago today on September 11, 2001, it was the ICAO that convened a conference to endorse a uniform international strategy to ensure aviation safety throughout the world.

Mr. Speaker, unfortunately, our friends in Taiwan have been excluded from participation in the ICAO since 1971. Not only has that diminished Taiwan's ability to stay at the cutting edge of aviation, it has also presented obstacles to the international community as a whole because the ICAO cannot completely fulfill its mission to meet the needs of all people in efficient and safe air travel.

Taiwan has a very large footprint within commercial aviation that warrants its inclusion within the ICAO. The Taipei Flight Information Region covers airspace of 176,000 square nautical miles and provides air traffic control services to over 1.3 million flights annually. Additionally, there are over 174,000 international flights carrying more than 35 million passengers that fly in and out of Taiwan each year. With this high volume of air traffic, Taiwan certainly deserves to have a seat at the table of the ICAO—at least as an observer.

Mr. Speaker, this is precisely what this concurrent resolution seeks to accomplish. Providing Taiwan with meaningful participation at the ICAO only benefits both the Taiwanese and the international community as a whole. Due to our longstanding relationship and respect for our friends in Taiwan, I urge all of my colleagues to support S. Con. Res. 17.

HONORING THE UNIVERSITY OF
NOTRE DAME DU LAC ON THE
OCCASION OF ITS 170 YEARS IN
SOUTH BEND, INDIANA

HON. JOE DONNELLY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. DONNELLY of Indiana. Mr. Speaker, I rise today joined by members of the Indiana delegation, Senators DAN COATS and RICHARD LUGAR, Representatives LARRY BUCSHON, DAN BURTON, ANDRÉ CARSON, MIKE PENCE, TODD ROKITA, MARLIN STUTZMAN, PETE VISCLOSKEY, AND TODD YOUNG to honor The University of Notre Dame du Lac on the occasion of its 170 years in South Bend, Indiana. The University has made significant contributions to the United States of America since its founding in 1842 by Rev. Edward F. Sorin, C.S.C. Fortified by a deep faith in God and an unwavering commitment to the common good, the University has impacted the Nation's history, its educational accomplishments, and its outreach and ministry to the vulnerable and the poor.

As Fr. Sorin sought to bridge the education gap in the expanding frontier, he began a history that intertwined with and influenced the history of our Nation. During World War II, Notre Dame established a Naval center that trained 12,000 officers in South Bend, Indiana, an episode that is commemorated yearly in a respectful football rivalry.

Notre Dame has been a leader in promoting diversity in higher education and American culture, especially the pioneering work of Fr. Theodore Hesburgh as the guiding voice of the Civil Rights Commission that crafted the framework to end segregation with the Civil Rights Act of 1964. An association with the Peace Corps goes back to the agency's founding in 1961, when the first volunteers were trained on campus under the strong support of Fr. Hesburgh; since then, more than 800 Notre Dame graduates have entered the Peace Corps, more than from any other Catholic college or university.

Notre Dame's dedication to educational excellence is reflected in its highly ranked Mendoza College of Business and Law School in addition to a well-regarded School of Architecture. Its research programs have made great contributions to national science and health over the years, ranging from the discovery of synthetic rubber by Fr. Julius Nieuwland in the 1920's to the mapping of the mosquito genome in this century as a way to prevent the spread of malaria and other diseases. More recently, the Nuclear Science Laboratory began construction on a new nuclear accelerator, the first accelerator the National Science Foundation has funded in nuclear physics in nearly a quarter century.

The University encourages research and innovation as evidenced by Innovation Park at Notre Dame which connects aspiring innovators with Notre Dame faculty, students and resources, collaborates with industry experts, and supports entrepreneurs.

Notre Dame continues to build on its inspiring legacy of service which has left a positive and lasting impact on the soul of this Nation for over 170 years. Its Summer Service Learning Program has provided some 4,000 undergraduate students with a scholarship to perform eight weeks of community service in the

communities of Notre Dame alumni clubs across the Nation. The Alliance for Catholic Education, ACE, sends nearly 200 recent graduates each year to teach in about 100 understaffed Catholic schools across the country.

The administrators, faculty, students and graduates, have provided leadership that has helped shape our Nation—and the world—with approximately eighty percent (80%) of Notre Dame students active in social service each year through the University's Center for Social Concerns. In addition, the Notre Dame family contributes more than 400,000 hours of volunteer service each academic year.

The University's mission is to cultivate in its students not only an appreciation for the great achievements of human beings, but also a love of God and a disciplined sensibility to the poverty, injustice, and oppression that burden the lives of so many. Its aim is to create a sense of human solidarity and concern for the common good that will bear fruit as learning becomes service to justice. Notre Dame makes our Nation stronger and deserves our deepest appreciation.

Once again, we offer congratulations to the University of Notre Dame and join the Northern Indiana Center for History as they celebrate Notre Dame's 170 years of vision, leadership, and engagement in the community, the State, the country, and the world.

HONORING THE LIFE OF J.R.
"DICK" BIRDWELL

HON. BILL FLORES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. FLORES. Mr. Speaker, today I rise to pay tribute to J.R. "Dick" Birdwell, a proud lifelong Aggie and former City Councilman of College Station, Texas, and Mayor and City Councilman of Lake Jackson, Texas. He passed on April 4th at the age of 81, only two days after he and his beloved wife Joyce celebrated their 59th wedding anniversary.

Dick Birdwell was born in Stephenville and moved to College Station in 1945. He graduated from A&M Consolidated High School and went on to receive his undergraduate and masters degrees from Texas A&M University. While at A&M he was a member of the Ross Volunteers and a battalion commander in the Corps of Cadets.

Birdwell was a longtime Dow Chemical Company employee in Houston; Brisbane, Australia; Lake Jackson, Texas; and Baton Rouge, Louisiana. After retiring he returned to College Station.

Mayor Birdwell served the citizens of Lake Jackson as Councilman and Mayor from 1979 to 1982, he also served as Councilman of College Station for three terms, serving two consecutive terms from 1988 to 1992, and a third term from 1996 to 1998.

While serving on City Council, Birdwell was known to extensively study the issues and was not shy about expressing his ideas. He was always well prepared for council meetings and showed pride in serving his community.

While residing in College Station, Birdwell would begin to serve his community through numerous engineering organizations, as a mediator for the Dispute Resolution Agency of
