

translate their findings into inventions that may benefit society. To date there are more than 500 members in the NAI, each being awarded a patent by the United States Patent and Trademark Office.

The NAI provides a valuable role in the translation of science and technology within the university community, and for the benefit of society. It serves to promote creative thinking and originality, encourage the development and utilization of inventions, and offer guidance to new and existing inventor's efforts. Moreover, the NAI has assisted in awarding hundreds of successful patents for universities around the world.

More specifically, USF has progressed into a leading research university with important economic ties to the Tampa Bay community and Florida. The aptitude of the faculty, staff and students are the fundamental components that drive USF's research initiatives. USF lists among 14 universities in the top 300 organizations to receive patents from the U.S. Patent and Trademark Office in 2010 with 83 patents awarded.

Innovation, based on new inventions and technologies, has proven to be a key factor in the industrial and economic development of the world. The support, encouragement and development of technology and innovation are also fundamental to the success of a university, non-profit research organization or federal research institute. Furthermore, in addition to submitting this record, I am honored to introduce a House Joint Resolution recognizing the significance of the NAI.

A TRIBUTE IN HONOR OF THE
LIFE OF HOWARD M.
DASCHBACH, JR.

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 16, 2012

Ms. ESHOO. Mr. Speaker, I rise today to honor the life and work of a good friend and neighbor, and a highly respected member of our community, Howard M. Daschbach, Jr., who died on February 9, 2012, at the age of 87.

Howard was a man of deep and abiding faith. He was installed as a Knight of Malta in 1982, and a member of Saint Raymond's Church in Menlo Park, California, where he was seen daily, attending Mass. He had a special devotion to the Religious of the Sacred Heart who educated his children, and his Faith carried him through good times as well as difficult times.

Howard grew up in Pittsburgh, Pennsylvania, graduated from Duquesne University, and served his country proudly during World War II. He served with the Army in Europe, the Philippines and Japan, and then moved to California to attend Stanford Law School. Upon graduation, Howard embarked upon his lifelong career of serving the legal needs of hundreds of people.

Howard was a member of the Circus Club and the Serra Club. He was an avid tennis player, an ardent Giants fan and a winning dominos player.

Howard and his beloved wife of 59 years, Leonore, who survives him, were the proud and devoted parents of LeeLee and her hus-

band Steve; Rooney and his wife Claire; Lisa and her husband Rory; Laura and her husband Mark; Mark and his wife Elizabeth; and Michele, who died on October 12, 2011, and her husband Patrick. He adored his 18 grandchildren and two great grand-daughters, and is also survived by his sister Jeanne and sister-in-law Joan.

Mr. Speaker, I ask my colleagues to join me in extending our sincere condolences to the family of Howard Daschbach Jr., and to all those who were privileged to know and love him. He was a wise and good man whom I was proud to call my friend and neighbor. Our country was blessed with his service, strengthened by his faith, and bettered by his devotion to his family, his community and his country.

RECOGNIZING RANDELLA LINDSAY
AS THE 2013 WALTON COUNTY,
FLORIDA SCHOOL TEACHER OF
THE YEAR

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 16, 2012

Mr. MILLER of Florida. Mr. Speaker, I rise today to recognize Mrs. Randella Lindsay as the 2013 Walton County, Florida School Teacher of the Year. For more than 38 years, Mrs. Lindsay has served the students of Northwest Florida, inspiring them to strive for excellence. I am honored to recognize her achievements.

Teachers are amongst our nation's most valuable public servants. They are responsible for mentoring our students and ensuring that our next generation emerges ready to lead our nation in the future. Mrs. Lindsay's assiduous work and unbridled enthusiasm for her profession exemplify the characteristics of a successful teacher. Today, Mrs. Lindsay approaches the challenge of teaching with the same energy and excitement that she has harnessed since she stepped into the classroom in 1973. Her enthusiasm and dedication to her students fosters an atmosphere of success, where individual students can pursue their education goals at their own pace.

Mrs. Lindsay clearly understands the important position that teachers serve as role models for their students. Being a role model demands an incontrovertible commitment to professionalism in all aspects of life. Mrs. Lindsay treats her students, their parents, faculty, and staff with the utmost respect. She also understands the importance of mentoring young teachers and always seeks to help young people interested in pursuing a career in teaching. By sharing her years of wisdom and experience with all of her fellow colleagues, Mrs. Lindsay improves the quality of her own classroom, as well as the entire school.

Throughout her career, Mrs. Lindsay has been selected to serve in important roles in both her school and her school district. In 1983, while teaching Florida History as part of her 4th grade curriculum in Okaloosa County, Florida, Mrs. Lindsay recognized that the state's Florida studies program did not include any information on Okaloosa County. Over the next two years, she worked with two of her colleagues to research the history of Okaloosa County, and they produced a work book to supplement the Florida History course for fu-

ture students. Mrs. Lindsay was also chosen to serve as one of three members on a committee responsible for planning the opening of a new elementary school, where she was later selected as their Teacher of the Year.

The importance of teachers is unquantifiable. Each and every teacher should be commended for their commitment to our nation's future. Mrs. Lindsay has proven to be among the many exceptional teachers in our nation. To be selected as Teacher of the Year, chosen from a large pool of extremely qualified applicants, is a reflection of Mrs. Lindsay's tremendous work ethic and steadfast dedication to the students of Northwest Florida.

Mr. Speaker, on behalf of the United States Congress, I am privileged to recognize Randella Lindsay for her accomplishments and her continuing commitment to excellence at Mossy Head Elementary School and in the Walton County School District. My wife Vicki joins me in congratulating Mrs. Lindsay, and we wish her all the best.

ZERO G AND I FEEL FINE

HON. TIM RYAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 16, 2012

Mr. RYAN of Ohio. Mr. Speaker, a long time ago in a galaxy far, far away, a world watched as a lone American sat inside a small capsule on top of an Atlas rocket waiting for blast off. Fifty years ago, after several disappointing and discouraging postponements, all systems were "GO" at Cape Canaveral's launch pad 14, the weather clear, and the countdown pounded as the voice of Astronaut Scott Carpenter at Mission Control wished—"Godspeed John Glenn."

Friendship 7 lifted off with 360,000 pounds of thrust on its mission to put a man into Earth orbit, observe his reactions in space and safely return to Earth. It was the third Project Mercury manned mission and the first orbital flight. People around the world stopped and held their breath. Glenn felt six times the force of gravity on lift off and then once in space, we heard his voice crackling over the radio, "Zero-g and I feel fine." "Capsule is turning around. Oh! That view is tremendous!" The space race had begun in 1957 with Sputnik, the sinister Soviet satellite that propelled America into the new space age. Caught from behind, the U.S. scrambled to catch up. The first federal college loans were established under the National Defense Education Act of 1958 and federal support for basic research and development and the space program dramatically increased.

NASA was reorganized from the National Advisory Committee for Aeronautics (NACA) in 1958 and began the manned space program. In 1959, NASA selected 7 military test pilots to fly in space with Project Mercury. In 1961, Soviet Cosmonaut Yuri Gagarin became the first man to orbit the Earth. America was on a mission. The Nation focused in a united cause, identified the challenge, built and organized a plan for that challenge, and rose to meet it. We pulled together. A collection of scientists, soldiers, and contractors, with tremendous public support welded together a national program without an established infrastructure that would later become the Kennedy Space Center and the Johnson Space Center. Flight tests

and training occurred at Langley, Virginia, the space capsule was built by McDonnell Douglas in St. Louis, rocket development at Huntsville, Alabama, medical examinations at the Lovelace Clinic in Albuquerque, New Mexico, and Wright Patterson Air Force Base in Dayton, Ohio, the Altas rocket was built by General Dynamics in San Diego, and rocket launches occurred at Cape Canaveral, Florida.

Tom Wolfe described the astronauts in "The Right Stuff" as if they were single combat warriors, our best against their best and they were worshiped as heroes even before the battle for they were sure to die. With a successful splashdown off Gran Turk Island, John Glenn in *Friendship 7* had reached speeds of over 18,000 miles an hour, and in 4 hours 55 minutes and 23 seconds became the first American to orbit the Earth and rocketed the Nation back into the space race and took a vital step on man's journey to the moon. The Post Office issued the first stamp depicting a manned spacecraft. Sales of Tang, the orange flavored powdered soft drink, went through the roof when advertised as first used by Astronaut John Glenn. The number one song was "Duke of Earl" by Gene Chandler—West Side Story was playing in theaters. A television situation comedy, "I Dream of Jeannie" with Barbara Eden and Astronaut Larry Hagman was soon on the air.

John Glenn's incomparable life of service began as a Marine Corps fighter pilot flying the F4U Corsair in the South Pacific in World War II and the F9F Panther and F-86 Sabre-jet in Korea. In 1957, as part of Project Bullet, he made the first supersonic transcontinental flight from California to New York in an F8U Crusader. In 1974 he became a U.S. Senator from Ohio and served for 24 years. In 1997, John Glenn announced his retirement from the Senate stating that there was no cure for the common birthday. Nonetheless, in 1998, he returned to space aboard the Space Shuttle *Discovery* STS-95 at age 77 to study the effects of space flight on seniors. He worked to establish the John Glenn School of Public Affairs at the Ohio State University and he served as Chairman of the National Commission on Math and Science Teaching for the 21st Century. Recently, he and Astronauts Neil Armstrong, Buzz Aldrin, and Michael Collins were awarded the Congressional Gold Medal.

Project Mercury, followed by Projects Gemini and Apollo, were the stepping stones to extraordinary and monumental accomplishment. America began a new age that day 50 years ago and we were all together. John Glenn, a hero in war, a hero in peace, remains an American hero and legend in our hearts. Once upon a time he helped unify a Nation and led us into the future. Congratulations to John and Annie Glenn.

KAHOKS' 2000 WINS

HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 16, 2012

Mr. SHIMKUS. Mr. Speaker, I proudly rise today to honor the achievement of the boys basketball team from my high school and hometown, my Collinsville Kahoks. On January 21st of this year, the Kahoks recorded

their 2000th victory, becoming only the second team in Illinois and the third in the country to reach this great milestone.

This achievement is the result of the combined efforts of more than one hundred years of Collinsville players, coaches, and families. These are today's Collinsville Kahoks: Jaris Wellmaker, J'Vaughn Williams, Jacob Shaffer, Falando Wilkinson, Briley Kellison, Jared Blasingame, Chris Mathes, Devonta Crochrell, Daryn Foster, Jason Kusnerick, Travis Dunnette, Tanner Houck, Caleb Johnson, Sean Davis, Kelyn Conner, and Coaches Darin Lee and Eric Anderson.

These players and coaches have proven beyond a doubt that they can uphold our tradition of success, a tradition forged by past players such as Bob Bone, who set the all-time scoring record at the University of Missouri-St. Louis and also coached the Kahoks for twenty years, and other players such as Kevin Stallings, who went on to play at Purdue and now serves as head coach at Vanderbilt University.

But the one man most responsible for our tradition of excellence was the legendary coach of the Kahoks for thirty-three years, the late Vergil Fletcher. In his tenure, Coach Fletcher amassed 747 victories, leading the team to twenty conference championships and two State titles, one of which included an undefeated season. Coach Fletcher was an excellent coach and an exemplary role model, and we can only imagine how proud he would be today. May we all find the same measure of success.

And so once more I congratulate my Collinsville Kahoks, and I extend my gratitude to all those who helped make this achievement possible. I wish them continued good fortune in their future endeavors.

HONORING THE RETIREMENT OF MR. JIM CAVANAUGH

HON. TAMMY BALDWIN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 16, 2012

Ms. BALDWIN. Mr. Speaker, I rise today to honor the career and achievements of Mr. Jim Cavanaugh, President of the South Central Federation of Labor (SCFL), as he retires from his esteemed position after 25 years of service.

For the past three decades, Jim Cavanaugh has guided the local progressive labor movement with an unwavering hand. Jim's tenure is underscored with victories, such as the strike for sick pay against Aramark Laundry in 1999, and his place in labor's history was solidified this month one year ago, when he worked tirelessly to help unite hundreds of thousands of Wisconsinites in solidarity against the repeal of collective bargaining rights. His ability to rise above petty disputes and remain focused on the task at hand resulted in a tremendously successful career.

As President of SCFL, an organization for labor unions in Dane, Dodge, Sauk, Columbia, Jefferson and Iowa counties that represents over 100 labor organizations and more than 45,000 workers, Jim helped bring the struggles of Midwest workers to the forefront of political discussions. Jim recognized the importance of advocating on behalf of all workers

and, in 2001, SCFL was recognized as one of the first fourteen central labor councils in the nation to fully achieve the goals of the AFL-CIO Union City program. As a member of the Union City program, SCFL advocates on behalf of both unionized and non-unionized workers to make our community one that provides a living wage and good benefits. Jim also helped expand the role of SCFL by forging new partnerships with existing labor groups like Madison Teachers Inc. (MTI) and reaching out to underserved counties.

Jim cherishes the value of education and understands the need for a highly educated workforce. To help bridge the gap between labor and education, Jim began a vital relationship with the University of Wisconsin-Madison's Student Labor Action Coalition (SLAC). For fifteen years, Jim also served on Madison College's (MATC) board in various capacities and was even nominated for the statewide Board Member of the Year award in 2008. Jim always recognized that a better educated workforce and community was directly correlated to a strong labor movement.

Furthermore, Jim worked to strengthen the local labor community by emphasizing the importance of building labor's diversity. In 1999, Jim began outreach to a plethora of faith-based communities which eventually led to the creation of the Interfaith Coalition for Worker Justice (ICWJ). And as an early and staunch supporter of the immigrant worker movement, Jim successfully organized and fought back after two dozen Latino custodians were fired over questions related to their immigration status, helping to secure a significant settlement for the workers.

From advocating for an increased minimum wage to organizing and mobilizing union voters, it is nearly impossible to mention everything Jim has accomplished in the past 25 years; it is even harder to overstate the positive impact he has had on our community. It is without a doubt that Jim's work has bettered the lives of countless workers in Wisconsin, the Midwest, and across our great nation. Today, we join together in solidarity to honor Mr. Jim Cavanaugh for his 25 years of fearless leadership of the South Central Federation of Labor. May Jim's unwavering dedication, vision, and lifelong commitment to worker's rights serve as an inspiration for all of us.

PROTECTING INVESTMENT IN OIL SHALE THE NEXT GENERATION OF ENVIRONMENTAL, ENERGY, AND RESOURCE SECURITY ACT

SPEECH OF

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 15, 2012

The House in Committee of the Whole House on the state of the Union had under consideration in the bill (H.R. 3408) to set clear rules for the development of United States oil shale resources, to promote shale technology research and development, and for other purposes:

Mr. STARK. Mr. Chair, I rise in opposition to H.R. 3408, the so-called "PIONEERS Act." The Republican majority is bringing this bill to the floor under a procedural charade that has us voting on three separate bills that will magically become a transportation bill at some
