throughout the State of Georgia, including serving as president and as campaign chair for the United Givers Fund (now United Way). As a youth, he was a Boy Scout and reached the rank of Eagle Scout. As an adult, he was Scoutmaster of Troop 19 in Macon and served as chair of the Central Georgia Council, and received the Silver Beaver Award.

He is survived by his wife of 75 years, Elizabeth Walton Bowen Reichert; his son, Albert Phillips Reichert, Jr. and Albert's wife, Burnam "Bebe" Walker Reichert; his son, Stephen Allan Reichert; his son, Robert Adger Bowen Reichert and Robert's wife, Adele Dunwody Reichert; his grandchildren, Albert Phillips Reichert, Ill and Albert's wife, Dr. Gillian Tracy Braulik, John Walker Reichert, Elizabeth Bowen Reichert, and Thomas Dunwody Reichert; and his great-grandchildren, Eden Pape Reichert, Luna Walker Reichert, and Sarana Burnam Reichert; his sister, Mary Louise Reichert Earnhardt, and his sister, Beverly Reichert Kennon.

I would like to ask my colleagues to join me in paying homage to Albert Phillips Reichert. He lived a full life and the people of Middle Georgia will always be indebted to him for his high legal acumen and years of dedicated community service. Our thoughts and prayers are with his family, friends and the Macon, Georgia community at this time of great loss.

UNIVERSITY OF ILLINOIS' JAMES COLEMAN ELECTED TO NA-TIONAL ACADEMY OF ENGINEER-ING

#### HON. TIMOTHY V. JOHNSON

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES Friday, February 17, 2012

Mr. JOHNSON of Illinois. Mr. Speaker, James J. Coleman, professor of materials science and engineering at the University of Illinois, was one of 66 to be elected into the National Academy of Engineering. A pioneer of photonics and semiconductor lasers, Coleman will join the 2254-member, 206 foreign associates Academy. He was elected for his contributions to the fields of technology and engineering.

Coleman, who earned his bachelor's, master's and doctoral degrees from the University of Illinois, is a researcher in the Micro and Nanotechnology Lab and the Coordinated Science Lab.

"Dr Coleman's research has added considerable knowledge to the field of semiconductor lasers and photonic devices, and his many successful patents and contributions to the engineering literature remain a testament of those achievements," comments llesanmi Adesida, dean of the College of Engineering. "He is also an Illinois alumnus, so we are doubly proud of his achievements."

[From SemiconductorToday.com]

Photonics and semiconductor laser pioneer James J. Coleman (the Intel Alumni Endowed Chair in Electrical and Computer Engineering and a professor of materials science and engineering at the University of Illinois) is one of 66 people newly elected to membership of the U.S. National Academy of Engineering (NAE), along with new 10 foreign associates (joining the existing 2254 members and 206 foreign associates, distinguished by outstanding contributions to the fields of technology and engineering).

Coleman, a researcher in the Micro and Nanotechnology Lab and the Coordinated Science Lab, was cited for his work in semiconductor lasers and photonic materials. His research focuses on materials for optoelectronics. Having helped to develop metal-organic chemical vapor deposition (MOCVD), as the director of the Semiconductor Laser Laboratory at Illinois he oversees research using MOCVD growth of III-V semiconductors to explore applications in lasers, quantum dots and other optical structures.

"Dr Coleman's research has added considerable knowledge to the field of semiconductor lasers and photonic devices, and his many successful patents and contributions to the engineering literature remain a testament of those achievements," comments Ilesanmi Adesida, dean of the College of Engineering. "He is also an Illinois alumnus, so we are doubly proud of his achievements."

Coleman earned his bachelor's, master's and doctoral degrees in electrical engineering from the University of Illinois. He worked at Bell Laboratories and Rockwell International before joining the faculty in 1982. He has published more than 400 journal articles and holds seven patents. Coleman is a fellow of the Institute of Electrical and Electronics Engineers (IEEE), the Optical Society of America (OSA), SPIE (the international society for optics and photonics), the American Association for the Advancement of Science (AAAS), and the American Physical Society (APS).

Also among the new members and foreign associates announced by the NAE was Illinois engineering alumnus Supriyo Datta (MS 1977, PhD 1979, Electrical Engineering), who is the Thomas Duncan Distinguished Professor of Electrical and Computer Engineering at Purdue University in West Lafayette, Indiana (cited for "quantum transport modeling in nanoscale electronic devices").

70TH ANNIVERSARY OF THE DAY OF REMEMBRANCE

## HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, February 17, 2012

Mr. HONDA. Mr. Speaker, February 19, 2012 marks the seventieth anniversary of President Franklin Delano Roosevelt's signing of Executive Order (EO) 9066, authorizing the relocation of 120,000 men, women, and children of Japanese descent living in the United States—my family included—to internment camps. As I look back on the past seventy years, I cannot help but reflect on the bravery and courage of three men whose intertwined stories shaped my inherent values and life's work: Fred Korematsu, Gordon Hirabayashi, and my own father, Giichi "Byron" Honda.

At the outbreak of World War II, Gordon was studying at the University of Washington. Fred tried to enlist in the U.S. National Guard and U.S. Coast Guard to serve his country but was turned away because of his Japanese ancestry. My father was pursuing his dream of becoming a doctor by working as a truck driver in order to pay his way through community college.

All three men's lives and dreams were shattered when President Roosevelt signed EO 9066. Once the West Coast was declared as a military zone, my family and I were hauled to the Merced Assembly Center and then incarcerated at the Amache internment camp in

southeast Colorado. While my family lived behind barbed wire, my father was recruited into the U.S. Military Intelligence Service at the University of Colorado Boulder, where he taught Japanese.

Although this gross injustice propelled my family into years of separation, it would also unknowingly propel both Fred and Gordon—two ordinary men—to become preeminent Asian American and Pacific Islander civil rights leaders. Believing that the executive order violated the freedoms guaranteed by the Constitution, Fred refused to comply with it, was subsequently arrested, convicted and sent to an internment camp in Utah. Gordon was also arrested, convicted and sent to an Arizona prison.

In the face of these challenges, Fred and Gordon still maintained their core belief in the American justice system and equality. With the help of the American Civil Liberties Union, both appealed their cases all the way to the Supreme Court. The Court, however, ruled unfavorably to both, declaring the incarceration a "military necessity," justified by the Army's claims.

Although Fred and Gordon's fights to overturn their convictions took more than four decades, American justice and equality did ultimately prevail. Fred's conviction was overturned in 1983, and Gordon's in 1987. Fred and Gordon's resistance paved the way for the eventual passage of the Civil Liberties Act of 1988, which granted reparations to Japanese Americans and was a fundamental step in acknowledging the injustices of the government's actions.

Mr. Speaker, on today's Day of Remembrance, exactly seventy years after the signing of EO 9066, it is important to remember and share the lessons of those who bravely stood their ground against discrimination. Fred and Gordon's stories remind us that all individuals have the potential to do extraordinary deeds in extraordinary times by simply standing up for what is right, even if it feels like all forces are against us. Although life in Amache taught me that being Japanese in America was bad, my father reminded me that I should never feel ashamed of my heritage and that I should continue to work hard in order to be recognized.

It is important to revisit the lessons that Fred Korematsu, Gordon Hirabayashi, my father, and other civil rights heroes have taught us because their stories are ones that transcend race, class and politics. They taught us that we must face discrimination and xenophobia with strong resolution or else we are vulnerable to repeating the egregious mistakes of the past.

Discrimination is always lurking just below the surface and often reveals itself in trying times, but as all three men showed, ordinary Americans are capable of achieving extraordinary feats for themselves, their families, and their country. In the end, I learned that the highest respect and honor we can bestow upon those who struggled for a more perfect union is to continue their legacies, apply their unwavering principles, and make sure history, as in the case of EO 9066, does not repeat itself.

RECOGNIZING JEREMY HILTON FOR HIS ADVOCACY OF MILI-TARY FAMILIES AFFECTED BY DISABILITIES

# HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES Friday, February 17, 2012

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise to honor Jeremy Hilton, of Burke, a U.S. Air Force finalist for the 2012 Military Spouse of the Year. Mr. Hilton is a graduate of the United States Air Force Academy and a Navy veteran. In 2002, Mr. Hilton was stationed in Navy Yard Washington, D.C. when his daughter, Kate, was born with significant medical issues. Given the longer deployments required of naval officers, Mr. Hilton chose to separate in order to care for Kate, his two-year-old son, Jack, and support his wife, Renae, who is stationed at Andrews AFB.

Mr. Hilton has made it his mission to advocate for military families impacted by a disability, and he has taken on several leadership roles to help military and non-military families on issues including medical care, long-term care, Medicaid, and special education. He spends much of his free time speaking and advocating for legislation. Mr. Hilton has become a respected authority on issues involving military families with special needs and disabilities. He has briefed the White House, the Congressional Military Family Caucus, and the staff for several Congressional committees.

Mr. Hilton was instrumental in bringing attention to major inadequacies in the U.S. Air Force Exceptional Family Member Program. He and fifteen other Air Force families organized support for a Department of Defense Inspector General report that played a major role in reforming the program. Mr. Hilton also worked with Congressional staff on provisions in the 2011 National Defense Authorization Act to institute feedback from disability-impacted military families to the Department of Defense, establishing the Military Exceptional Family Member Panel. Currently, Mr. Hilton is working to gather support on H.R. 2288, the "Caring for Military Kids with Autism Act."

When not caring for his family or working to improve the lives of other families, Mr. Hilton spends the remaining hours of the day working toward a graduate degree at the George Washington University and producing a video series titled Creating Access for All, which encourages churches to start disability ministries.

Mr. Speaker, I ask my colleagues to join me in recognizing Jeremy Hilton and his sacrifice, service and passionate advocacy for both military and non-military families impacted by disabilities. I believe there to be few others more deserving of the 2012 Military Spouse of the

#### PERSONAL EXPLANATION

### HON. MICK MULVANEY

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES Friday, February 17, 2012

Mr. MULVANEY. Mr. Speaker, on rollcall No. 65, I missed rollcall 65 on February 16, 2012. Had I been present, I would have voted "no."

TRIBUTE TO ROBERT M. O'NEIL

### HON. JOHN W. OLVER

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES Friday. February 17, 2012

Mr. OLVER. Mr. Speaker, I rise today to pay tribute to the life's work of Robert M. O'Neil, a lifelong resident of Pittsfield, Massachusetts who has served his community in many capacities, including service Pittsfield residents as a teacher at Taconic High School since 1996. He and his beloved wife, Betty O'Neil, raised one daughter, Angela, and enjoyed the company of 22 nephews and nieces.

Mr. O'Neil started a long career as a girls' basketball coach at the Catholic Youth Center, Pittsfield Boys and Girls Club and with AAU teams. He also refereed countless games since 1987 and was Assistant Girls Basketball Coach at Pittsfield High School from 1995 until 2005. At various times his Pittsfield teams won the City Championship, League Championship, Berkshire County Championship, Western Massachusetts Championship, and appeared in the Massachusetts State Championship Final. He then became Head Girls Basketball Coach at Taconic High School in 2005 and served in that capacity until 2011. During his career, he was named the recipient of the Berkshire County Sportsman of the Year and radio station WBEC's Girls Coach of the Year, and on two different occasions was named Girls Basketball Coach of the Year by his

Robert M. O'Neil has unselfishly devoted his life to improving the lives of students and basketball players and their families. On February 21, 2012, his life will be celebrated, and he will be given a Certificate of Recognition and the Key to the City of Pittsfield in deep appreciation for his distinguished service, and that date will be known forever as Robert M. O'Neil Day in Pittsfield. Mr. Speaker, I join my friends, colleagues and neighbors in commemorating his life and wonderful accomplishments.

RED TAIL PILOTS TRIBUTE EVENT HOSTED BY THE YMCA OF CEN-TRAL FLORIDA AND LOCKHEED MARTIN

# HON. CORRINE BROWN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES Friday, February 17, 2012

Ms. BROWN of Florida. Mr. Speaker, I rise today to congratulate the Central Florida YMCA for their "Red Tail Pilots Tribute" event to congratulate the Tuskegee Airmen.

I am very pleased to talk about the pioneers who laid the groundwork for what we as African Americans have been able to accomplish over the last 70 years. In fact, when President Roosevelt began training African American troops, the Tuskegee Airmen excelled in protecting the bombers attacking enemy positions better that any other units in the United States Army Air Force.

And every single one of the first class of pilots of what became known as the Tuskegee Airmen had a college degree. One of them was Benjamin O. Davis, a graduate of the Untied States Military Academy at West Point,

who became the first African American to earn 3 stars in the United States Air Force.

In 1940, the Selective Service and Training Service Act, enacting the first peace-time draft in the United States' history was signed into law by President Franklin D. Roosevelt. Under the Act, all American males between the ages of twenty-one and thirty-five years had to register for the draft . . and it went on to say "there shall be no discrimination against any person on account of race or color."

Following this, the first aviation class at the Tuskegee Institute with 13 cadets began in 1941. In March 1942, five of the 13 cadets in the first class completed the Army Air Corps pilot training program and earned their silver wings and became the nation's first black military pilots.

Soon afterwards, the newly formed United States Air Force began plans to integrate its units as early as 1947, and in 1948, President Harry Truman enacted Executive Order Number 9981, which directed equality of treatment and opportunity to all in the United States Armed Forces. This order, in time, led to the end of racial segregation in the military forces. This was also the first step toward racial integration in the United States of America.

Beyond a doubt, the positive experience, the outstanding record of accomplishments and the superb behavior of the black airmen during World War II, and after, were important factors leading up to the historical social change that led to racial equality in America.

The Tuskegee Airmen will live on forever in the pages of history because they accepted the challenge proudly, and succeeded in proving to the world that blacks could fly. These men fought two wars—one against a military enemy force overseas and another one against racism at home.

I am reminded of the words of the first President of the United States, George Washington, whose words are worth repeating at this time:

"The willingness with which our young people are likely to serve in any war, no matter how justified, shall be directly proportional as to how they perceive the veterans of earlier wars were treated and appreciated by their country."

Thank you for your service for your country and your continued service for your fellow veteran in these difficult times we all endure.

PERSONAL EXPLANATION

## HON. EMANUEL CLEAVER

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Friday, February 17, 2012

Mr. CLEAVER. Mr. Speaker, due to a commitment in my district, I had to miss votes on H.R. 3408. Had I been present, I would have voted "aye" on Amendment 13, "aye" on Amendment 15, "no" on Amendment 16, "aye" on Amendment 17, "aye" on Amendment 18, "no" on Amendment 19, "aye" on the Motion to Recommit, and "no" on Final Passage.
