

billion worth of goods through all 50 states. Additionally, ports move 99.4 percent of overseas cargo volume by weight and generate \$3.95 trillion in international trade. These numbers speak for themselves: ports are a crucial component of our national economy, and they deserve Congress' attention.

This resolution honors both the tremendous contribution ports make to our national economy and the extraordinary service of Americans employed at our nation's ports. I urge my colleagues to support this resolution in order to advance our national dialogue on ports.

HONORING U.S. ARMY STAFF SERGEANT JORDAN L. BEAR'S SERVICE IN AFGHANISTAN

HON. REID J. RIBBLE

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 20, 2012

Mr. RIBBLE. Mr. Speaker, I rise today to remember and honor the life and sacrifice of Staff Sergeant Jordan L. Bear. A resident of Elton, Wisconsin, Staff Sergeant Bear died while serving our country in the Kandahar Province of Afghanistan in support of Operation Enduring Freedom. He was assigned to B Company, 2nd Battalion, 508th Parachute Infantry Regiment, 82nd Airborne Division, Fort Bragg, North Carolina. Jordan Bear died protecting the freedoms we take for granted every day. His heroic sacrifice will not soon be forgotten.

Mr. Speaker, Staff Sergeant Bear embodied the best qualities of a true American soldier. He served this country with honor and exhibited profound bravery and selflessness. Staff Sergeant Bear was a loving son, a devoted father and now he will forever be known as an American hero. He is remembered by friends and family as a man with a courageous and strong spirit who earned the unwavering respect of his peers. Although the loss of Staff Sergeant Bear left a void in the hearts of many, his dedication and exemplary service has made Northeast Wisconsin and his country proud.

It is my honor to commemorate him and I urge my colleagues to join me today in honoring the life of Staff Sergeant Bear for the sacrifice he made for the United States of America.

DYESS AIR FORCE BASE
MILESTONES

HON. RANDY NEUGEBAUER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 20, 2012

Mr. NEUGEBAUER. Mr. Speaker, today I rise to honor the work of the men and women of Dyess Air Force Base in Abilene, Texas.

Mr. Speaker, we are a country that has been at war for over 10 years. Whether it is the 317th Airlift Group delivering troops and supplies to the front lines, or the 7th Bomb Wing putting metal on target, the missions at Dyess have played indispensable roles in the war against terror. Today I would like to honor two recent major milestones that have been achieved by these exemplary airmen.

Earlier this month the B-1 bomber flew its 10,000th combat mission. Since 2001, the B-1 has been providing intelligence, surveillance, reconnaissance, and close air support to our troops on the ground nearly 24 hours a day, 7 days a week. In fact, at this very moment, there is a B-1 in the air over southwest Asia. Able to carry a larger payload than any other aircraft in the military, one supersonic B-1 can do the same job of multiple aircraft. It is truly a workhorse in our military.

Additionally, March 7th marked the 3,000th consecutive day of deployment for the 317th Airlift Group. Since December of 2003, more than 7,000 airmen from this unit have been put in harm's way. The air mobility mission is one of the most important missions in the modern military. Operations that used to take weeks or months now take days or hours. The 317th has often been labeled the "busiest C-130 unit" in the Air Force, and this current deployed streak is another honored mark in the long history of Dyess Airlifters.

Mr. Speaker, I have come to the floor today to recognize and celebrate these achievements, and to honor the sacrifices the men and women of Dyess have made. And I am a firm believer that when one member of the family serves this country—the whole family serves. Deployments across the globe over the last decade have meant many missed birthdays, holidays, and special moments for our soldiers and their families. May we never take for granted the sacrifices our men and women in uniform make every day for our freedom and security.

I ask that the two attached articles also be made a part of the RECORD.

[Feb. 27, 2012]

THE BONE NOTCHES 10,000 COMBAT MISSIONS

(By Philip Ewing)

America's favorite low-flying, long-loitering, wing-swinging bomber has flown its 10,000th combat mission, Boeing announced Monday.

The B-1B Lancer in question flew its sortie over Afghanistan—where the Bone has had a second career supporting troops on the ground—and returned to its base in, er, "Southwest Asia," Boeing announced. (The bases in Qatar and the UAE aren't actually there, and the Air Force clings to that non-fact like a vise.)

Here's more of what Big B said:

The heavy bomber entered service with the U.S. Air Force on June 29, 1985, and has been in nearly continuous combat for the past 10 years. The milestone mission took off from a base in Southwest Asia and was flown in support of operations over Afghanistan before returning to base.

"The B-1 brings tremendous flexibility to our nation's defense," said Lt. Col. Alejandro Gomez, mission team lead. "In any mission, the B-1 has the ability to loiter, dash, positively identify targets, show force, and strike targets precisely. Whatever our aircrews are asked to do, they can perform with this aircraft."

B-1 crews in Southwest Asia fly a variety of missions, including close air support for troops on the ground, giving them cover and alerting them to threats they cannot see. On-site maintainers keep the fleet ready to fly.

"10,000 conventional combat missions for a relatively small fleet of 66 B-1s is a major milestone and a testament to the men and women who built, sustain and modernize the fleet, including the U.S. Air Force, Boeing and our subcontractors," said Rick Greenwell, Boeing B-1 program director. "We

continue to draw on expertise and experience from across Boeing to enhance our support of this amazing aircraft."

The B-1 bomber has advanced over the years as it is modified for current needs. The aircraft began as a nuclear bomber and moved into a solely conventional role in the 1990s. It carries the largest payload in the Air Force's long-range bomber fleet—during Operation Iraqi Freedom, it dropped 40 percent of all weapons while flying only 5 percent of the sorties.

Today's B-1 can carry a mixed load of weapons in each of its three bays. Its long range allows it to base far from the conflict and loiter unrefueled for long periods. Its swept wings allow it to fly fast, slow, low or high as the situation demands. With only four crewmembers required, missions can rapidly be adjusted in flight to keep up with adversaries. The radar and targeting pod can be used for positive target identification and the aircraft can employ a variety of other weapons, including Joint Direct Attack Munitions (JDAMs), Laser JDAMs, Joint Air-to-Surface Standoff Missiles-Extended Range, and BLU-129 warheads.

"The B-1 fleet and crews have readily adapted to an ever-changing environment to accomplish this 10,000th combat sortie milestone," said Greenwell. "This aircraft has proven its ability to continue to evolve and be effective well into the future."

And as the B-1's adopted parent, Boeing isn't the only one pleased with its performance. The Air Force appears to have quietly shelved its onetime idea of beginning to pare back bombers to save money, at least in the near term. Its fiscal 2013 budget submission this month included this unambiguous sentence: "The Air Force does not plan to retire any bomber aircraft in FY 2013."

That will mean ever more combat missions for the Lancer fleet, at least for now.

DYESS' 317TH AIRLIFT GROUP CELEBRATES
3,000 CONTINUOUS DAYS OF DEPLOYMENT
TODAY

(By Brian Bethel)

They call Dyess Air Force Base's 317th Airlift Group "purple ops" these days, said Maj. Jason Anderson, who bears the lengthy title of 317th operation support squadron assistant director of operations.

"We called the 40th blue squadron, the 39th red squadron," Anderson said, musing about the tail colors that once graced the C-130s of the base's 39th and 40th Airlift Squadrons.

But now the 317th, which today at the base marked 3,000 days of continuous deployment, is one. Since Dec. 20, 2003, Dyess' 317th has had "folks in the theater fighting the war," Anderson said.

"The tails changed," Anderson said. "They're now both red and blue. And the attitudes changed. It's one team fighting for one another."

It takes a four-month on, four-month off rotation to keep up that tempo, he said, with both squadrons, a "maintenance package," and numerous others, from tactics to intelligence, working together to keep planes flying and missions running smoothly.

In general, "a little over 200" people from the 317th Airlift Group are deployed at any time, with more than 7,000 airmen deployed over the 3,000-day period, Anderson said.

"There's always a squadron that's out there at any given time," he said.

Gray Bridwell, an honorary commander for the 317th Airlift Group, said that when the initial deployment began, he was honorary commander for the 317th Maintenance Squadron and "as a civilian" had little understanding about "massive deployments of this nature."

"Little did I know 3,000 days later this routine would be the normal mode of operations," he said.

Typically, deployments are a little more than 120 days, Anderson said, meaning that there have been more than a million "airmen days" of deployment since the first.

Dyess' C-130s have been key in providing combat and humanitarian aid in overseas operations, most recently in Operation New Dawn since the withdrawal of combat troops from Iraq, said Master Sgt. Matt Rossi, 39th Airlift Squadron loadmaster superintendent.

"But when we're not doing that, we answer the nation's call with humanitarian aid, whether it's in South America, Japan, Africa or wherever it's needed," Rossi said.

Anderson said that the airdrop and medical evacuation are essential pieces of what the 317th's planes are regularly called to do.

"The airlift piece is probably something you could equate to the air-land mission of FedEx or UPS," he said. "We are delivering goods, but with us, we're delivering what the military needs. So it's not only beans, bullets and water but people, as well, to different locations. And a lot of the time, we do that in harm's way, so that's where we're different."

The airdrop portion of the C-130 mission is primarily dropping "air packages, supplies, sometimes even special reconnaissance teams" to forward-operating bases, such as those in the mountains of Afghanistan.

The medical evacuation component is "the saving lives piece" of the mission, Anderson said.

"You can think of us as a hospital in the sky," he said.

Wounded soldiers, "even wounded Iraqis," are served by that part of the mission, he said, while other humanitarian missions, such as providing aid to those affected by flooding in Pakistan, are another vital component.

Time away from home can be tough, said Rossi, who once spent a year deployed in Afghanistan as an air adviser.

Being away from home for a year, and working with individuals of an at-times profoundly different culture, proved challenging but rewarding, he said.

"You're not only building an air force but a good relationship between the Americans and the Afghans, and not just the soldiers but the civilians," he said.

When squadron members come home, their work doesn't end, Rossi said.

"We have to maintain proficiency in the aircraft," he said. "We're constantly training, and we train like we fight."

Such training can include low-level flying, tactical approaches and landings, Rossi said, with a goal of becoming proficient in such before being in a deployed environment, especially if facing combat.

For Anderson, training also is time to prepare for "a multitude of different types of contingencies."

"We have to be forward-looking at what could happen and make sure our military is ready," he said. "If we fight in other theaters, like we're down in South America or we're in a different theater, it's a very different scenario."

Looking back on the accomplishment of 3,000 deployment days Tuesday, Bridwell said he was exceptionally proud of all the Dyess personnel "who serve our country so well."

"I especially want to thank the families for their daily contributions to our nation's hard-earned security," he said.

Anderson said that the support of the community is essential in achieving the milestone.

"Living in Abilene, folks here understand what we go through and support us, and they do that in a million different venues," he said.

Rossi said that the accomplishment was important not only to highlight what troops had done but also to "highlight the support that we've received."

"People on the base would be lying if they say they don't get a warm spot in their heart when someone out in the public thanks them for their service," he said.

A seven-aircraft launch is among activities scheduled today, a day of storytelling and remembrances, Anderson said.

"When you're running so hard, a lot of the time you don't remember how far you've gone," he said of the need to stop and reflect.

And then? Back to work.

"We know this is not stopping," Anderson said of the 317th's future. "And we know we are ready and will be ready to answer the nation's call."

HONORING DR. BERNARD SIEGEL FOR HIS CONTRIBUTIONS TO THE COMMUNITY

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 20, 2012

Ms. DELAURO. Mr. Speaker, it is my privilege to stand today to join the many family, friends, colleagues and community members who have gathered to pay tribute to an outstanding member of our community and my good friend, Dr. Bernard Siegel, as he is honored by the Connecticut Children's Center of Hamden. Bernie, an Oncologist who earned national and international acclaim for his focus on the correlation between a patient's emotional state and the healing process, has not only brought a powerful voice to patient empowerment, but has also devoted much of his time to supporting local organizations like the Children's Center of Hamden. His work has touched countless lives around the world and I am honored to have this opportunity to join our community in recognizing his remarkable career and invaluable contributions.

Bernie has dedicated a lifetime to teaching those facing the most difficult of life's challenges about the healing power they hold within themselves. Well before his time, Bernie recognized that the better a patient was able to cope with the emotional complexities of health issues, the more improved their overall health outcome was—the mind-body connection. Upon this simple, yet innovative idea, Bernie has built a distinguished career. He is the founder of ECaP, an individual and group therapy program for recovering cancer patients, the author of twelve books which have been invaluable resources to patients and loved ones alike, and retired from Yale-New Haven Hospital as the Assistant Clinical Professor of General and Pediatric Surgery.

I would be remiss if I did not extend a personal note of thanks to Bernie for his many years of special friendship and counsel. During my tenure in Congress, I have focused much of my attention on health issues and I have often sought Bernie's expertise and guidance. He has always made himself available, proving to be a wealth of knowledge on even the most complex of matters. I, like so many others, consider myself fortunate to call him my friend.

Physician, author, advocate, mentor, community leader, and friend, Dr. Bernard Siegel has changed the face of how we view the re-

lationship between the patient and the healing process. His compassion and generosity has also gone a long way in helping those most in need in our community. For his many invaluable contributions, I am proud to rise today to join the Children's Center of Hamden and all of those who have gathered in extending my deepest thanks and appreciation to Bernie Siegel as well as my very best wishes to him, his wife, Bobbie, and their five children and eight grandchildren for many more years of health and happiness.

HONORING THE DISTINGUISHED MILITARY SERVICE OF LIEUTENANT COLONEL MICHELLE GREENE

HON. MARK S. CRITZ

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 20, 2012

Mr. CRITZ. Mr. Speaker, I rise to recognize Lieutenant Colonel Michelle Greene, an exceptional Army officer and true patriot, in honor of her upcoming retirement. For over twenty years, Lieutenant Colonel Greene has worn her nation's colors with grace and honor. Her career-long steadfast commitment to the defense of liberty is a testament to her inherent courage and selflessness.

Lieutenant Colonel Greene began her distinguished career in the Army at Fort Stewart in Georgia, where she served as the C Company Ambulance Platoon leader and Battalion S-1/Adjutant in the 24th Forward Support Battalion, 24th Infantry Division, and then as the Patient Administration Officer at Winn Army Community Hospital. From there, she went on to work at Walter Reed Medical Center as the A Company Commander of the Medical Center Brigade, before going to work within the North Atlantic Regional Medical Command, first in the Office of Clinical Operations, and then as Secretary to the General Staff.

After earning a Master's of Science in Health Evaluation Sciences from the University of Virginia in 2001 through the Army's Long Term Health Education and Training program, Lieutenant Colonel Greene moved to Hawaii, where she served in the Patient Administration Division at Tripler Army Medical Center in Honolulu.

Lieutenant Colonel Greene's most recent assignments have been in Washington, DC. In 2004, she became the Executive Assistant to the Deputy Surgeon General. After two years in this capacity, she went to work as a Legislative Liaison in the Army Budget Congressional Liaison Office. It was here that then-Major Greene began working with my boss and predecessor, the late-Congressman John P. Murtha—and she soon became a capable and trusted liaison between the Chairman and the Army. Most recently, she has served as Chief of Congressional Affairs for the Office of the Army Surgeon General.

Lieutenant Colonel Greene moves on to the next chapter of her life bolstered by the abiding love and support of her husband, Lieutenant Colonel (Retired) Craig Greene, her two sons, Jackson and Austen, and her parents, Ken and Linda Snow.

Mr. Speaker, the strength of Lieutenant Colonel Greene's character will ensure that she is successful in whatever she chooses to
