IN RECOGNITION OF MATTHEW
PETER O'CONNOR

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2012

Ms. SPEIER. Mr. Speaker, I rise to honor Matthew Peter O'Connor who retired as the Chief of Police for the Hillsborough Police Department after more than 30 years of service.

Chief O'Connor has a stellar record of keeping the residents of Hillsborough safe. He maintained the lowest crime rate for a municipality with a population of over 10,000 for the entire decade of the 2000's. His leadership was instrumental in the department's radio and computer technological advances and in establishing lasting relationships with the Hillsborough school district. He has engaged our youths with bike rodeos, reading events and police officer lunches.

Mr. O'Connor followed in his father's footsteps in pursuing a career in law enforcement. The son of Matthew M. O'Connor, who was a special agent at the San Francisco office of the California State Bureau of Narcotics Enforcement, Matthew P. O'Connor began his career as a community service officer with the San Bruno Police Department at age 20. In 1981, he was hired as a deputy sheriff for the Alameda County Sheriff's Office. The following year he moved to the Hillsborough Police Department where he worked his way from police officer to field training officer to sergeant to commander and eventually chief of police in 2002.

Chief O'Connor has received numerous awards including the Life Saving Act of Heroism, the Notre Dame de Namur University Dean's Award for academic excellence and service to the University, the Notre Dame de Namur Alumni Award for achieving prominence in a profession and the Leadership in Action Award. Chief O'Connor's dedication and commitment to law enforcement are reflected in the many roles he has taken on over the years: he served as president of the San Mateo County Police Chiefs and Sheriff Association, Member of the California Police Chiefs Association and International Association of Chiefs of Police, chair of the County Communications & Technology Committee, member of the California State Police Chiefs Communications & Technology Committee, President of the 100 Club of San Mateo County, and graduate of the Leadership Program of San Mateo, Foster City, Burlingame and Hillsborough. He has also been a strong supporter of the annual Hillsborough Concours d'Elegance, the Centennial Celebration, the Memorial Day Parade and dignitary visits.

Matthew O'Connor was born in Glendale, California and raised in South San Francisco. He attended St. Veronica's Catholic School and South San Francisco High School. He earned his Associate in Science Degree from

San Francisco City College. He received both his Bachelor of Science in Human Services and Counseling and his Master's Degree in Public Affairs Administration from Notre Dame de Namur University. In addition, he is a graduate of the FBI National Academy Class 191 and the Delinquency Control Institute at the University of Southern California.

Chief O'Connor and his wife of 28 years, Janie, have two children, Matthew and Tayler. Upon his well deserved retirement Mr. O'Connor will be spending more time with his family and friends, traveling and taking photos.

Mr. Speaker, I ask this body to rise with me to honor Matthew Peter O'Connor for his outstanding service to our community. He personifies what a law enforcement officer ought to be and has touched and improved the life of every resident in Hillsborough.

RECOGNIZING TWO-YEAR ANNI-
VERSARY OF THE DEEPWATER
HORIZON OIL SPILL

HON. LAURA RICHARDSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2012

Ms. RICHARDSON. Mr. Speaker, I rise today to recognize the tragic two-year anniversary of the Deepwater Horizon Oil Spill on April 20, 2010. The explosion that day and subsequent fire claimed the lives 11 American workers and after the sinking of the oil rig two days later led to the largest oil spill in U.S. waters. The damaged well was estimated to have lost approximately 60,000–100,000 barrels of oil each day. The effects of the oil spill on the Gulf Coast were staggering and still today have lingering effects.

Hundreds of miles of delicate ecosystems were devastated along the tidal shorelines of Louisiana, Mississippi, Alabama, and Florida. Approximately 83,927 square miles of Gulf of Mexico federal waters were closed to fishing because of health concerns. Even after the eventual sealing of the well and the shutting off of crude oil flow, the work was not done. Extensive efforts were made to rid the water of oil and to restore the shorelines to their prior beauty. The untold economic impact on the fishing, tourism, and other industries of the Gulf cannot be overlooked.

I praise the valiant efforts of the men and women that spent countless hours dedicating themselves to containing and cleaning up of this disaster. The team included the U.S. Coast Guard (USCG), EPA, the Department of

Homeland Security (DHS), Department of Commerce (DOC), Department of Interior (DOI), as well as state and local representatives. Workers diligently worked to get the necessary equipment to coastal waters but there were delays that can't be ignored.

I commend our efforts to immediately respond to the disaster by passing H.R. 5503, the SPILL Act, to reform the following maritime liability laws: Death on the High Seas Act, Jones Act, and Limitation on Liability Act. These bills are to ensure the families of those killed or injured in the BP Spill and other similar tragedies are justly compensated. We also passed H.R. 5481 that gave subpoena power to the National Commission on the BP Deepwater Oil Spill and Offshore Drilling tasked with providing recommendations on how to prevent future oil spills that result from offshore drilling. Our efforts should not stop there.

Strides have been made to establish a clear chain of command and developing a coordinated and efficient response to disasters. But, there is much more that has to be done to avoid another oil spill of this magnitude. We must stay vigilant in evaluating our nation's capacity to respond to oil spills. Develop standard national protocols for oil spill response and clean up assessments and develop guidance and tools for oil spill responders. Establish direct research and take action to improve the ability of the United States to conduct oil spill prevention, response, and recovery in Arctic waters. Our civic responsibility is to learn from our mistakes and apply those lessons to future oil spills and other such disasters that unfortunately may occur.

Mr. Speaker, I rise today to recognize the tragic two-year anniversary of the Deepwater Horizon Oil Spill. I urge this body to continue to introduce and support legislation that prevents and protects our environment, economy, and families from future unfortunate disasters that may occur.
