

Since PPTA's founding in 1992, the organization has been at the forefront of promoting innovation and patient access to safe and effective therapies used to treat rare and chronic conditions. PPTA is a globally active trade association, representing six plasma protein therapy manufacturers in the United States, and 16 plasma collection companies that operate nearly 400 plasma collection centers across the country.

PPTA is distinguished in the pharmaceutical and biologics industries for the Association's dedication to the continual innovation of therapies for rare disease patients. Today, plasma protein therapies are used to treat a range of rare diseases including primary immune deficiency diseases; neurological disorders such as chronic inflammatory demyelinating polyneuropathy; hemophilia, von Willebrand disease and other bleeding disorders; and alpha-1 antitrypsin deficiency, as well as specialty immune globulin therapies that treat a range of conditions. Recognizing the unique concerns of the patients living with these rare diseases, PPTA continues to act as a diligent advocate for the protection of therapeutic innovation and patient access to plasma protein therapies. One example of that commitment is the Association's strong support of my bill, the Medicare IVIG Access Act, H.R. 1845, which will make whole the home infusion benefit for patients with primary immune deficiencies. In addition to my work on this legislation, my interest, support, and commitment extend to all of the rare disease patients treated with life-saving plasma protein therapies, and I'm proud to work on issues so vital to the health of these fragile groups of patients.

In addition to the Association's outstanding advocacy, PPTA has also led the industry in quality and safety assurance. In 2000, PPTA and its members implemented the Quality Standards of Excellence, Assurance and Leadership (QSEAL) as voluntary standards that complement FDA regulatory requirements for manufacturing plasma protein therapeutics. QSEAL certification provides a pathway for industry participants to provide independent certification of adherence to the QSEAL standards. The QSEAL program works in concert with the International Quality Plasma Program (IQPP), instituted more than 20 years ago to help ensure the safety of plasma used to produce lifesaving therapies and plasma donors.

A global organization headquartered in the United States, with an office in Belgium, and that serves the needs of chronic, rare disease patients around the world, PPTA and its members should be commended for their ongoing commitment to supporting patient access to innovative, safe and effective treatments.

HONORING THE GRADUATING 5TH GRADERS AT GLEN MARLOWE ELEMENTARY SCHOOL

HON. HEATH SHULER

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 5, 2012

Mr. SHULER. Mr. Speaker, I rise today to honor the graduating 5th Grade class of Glen Marlowe Elementary School. They are about to enter an exciting new phase of their lives: making new friends, advancing their edu-

cation, and moving closer to the adults they are destined to become. Some of the most fundamental lessons that one can be taught, such as the importance of hard work and respect for others, have been instilled by the faculty of Glen Marlowe over the past few years and will shine through in every future action taken as they become young men and women.

I would like to offer my thanks to Ms. Kristi Duckett, Ms. Julia Meeks, Ms. Jessica Hudgins, Ms. Deanna McNaughton, and Ms. Kathy Plount for leading by example, and helping to build the foundation of a wonderful group of young people. I would also like to acknowledge the parents of the graduates. All of those carpools, parent-teacher conferences, and late night homework checks have not been in vain, and have helped prepare these graduates for a future that will be shaped by their values and vitality.

It is my honor to congratulate these graduates on achieving this important milestone and I encourage them to follow all of their dreams, wherever they might lead. I encourage my colleagues to join me today in honoring the graduating 5th graders at Glen Marlowe Elementary.

RECOGNIZING GOODWILL INDUSTRIES OF CENTRAL IOWA IN DES MOINES AND THE ABILITYONE PROGRAM

HON. TOM LATHAM

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 5, 2012

Mr. LATHAM. Mr. Speaker, today I rise to recognize the AbilityOne program, which in the last several years has helped more than 50,000 Americans who are blind or who have significant disabilities gain skills and training that ultimately led to gainful employment.

The AbilityOne program harnesses the purchasing power of the Federal Government to buy products and services from participating community-based nonprofit agencies that are dedicated to training and employing individuals with disabilities. This program affords Americans with disabilities the opportunity to acquire job skills and training, receive good wages and benefits, and gain greater independence and quality of life.

I am proud to acknowledge an important local partner of the AbilityOne program, Goodwill Industries of Central Iowa in Des Moines. It is one of 207 regional Goodwill organizations throughout North America and across the world. Goodwill Industries of Central Iowa has been serving Iowa communities since 1955 with a dedicated mission, a clear vision and a strong set of values to empower people with significant disabilities to achieve greater independence, education and employment. With the support of the AbilityOne program, Goodwill's training and job placement programs help clients and their families live more independently while allowing them to make positive contributions to their communities.

Mr. Speaker, for these reasons I strongly support the AbilityOne program and Goodwill Industries of Central Iowa in Des Moines. I also want to commend the dedication and commitment of President Marilyn McKeen and her staff for helping individuals who are blind

or have a significant disability find employment opportunities. Their work helps people live fuller lives and become more active members of society. I also commend each AbilityOne employee who works every day to improve their lives and make our country a better place to live.

HAZING IN THE U.S. MILITARY

HON. JIM McDERMOTT

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 5, 2012

Mr. McDERMOTT. Mr. Speaker, today I rise to remind my colleagues about the ongoing problem of hazing in the United States military. Hazing, particularly racially motivated hazing, undermines our military.

Multiple suicides in 2011 by service members of color after suffering hazing drew increased attention to this problem. These incidents involved dehumanizing service members through racist taunting, harassment and physical assault.

Private Danny Chen, 19, a Chinese American, took his own life in Kandahar, Afghanistan in October 2011 after being hazed. Investigators found that he had been physically assaulted and taunted with racial slurs. Eight soldiers were charged with dereliction of duty, assault and involuntary manslaughter in the death of Private Chen.

In his annual holiday message on December 23, 2011, U.S. Defense Secretary Leon Panetta condemned hazing in the military. He later directed military commanders to review hazing policies and ensure compliance.

At the outset of this year, our colleagues in the Congressional Tri-Caucus called for public hearings and hosted a forum on the issue. In March, the Armed Services Committees' Subcommittee on Military Personnel hosted a hearing on this subject and heard testimonies from U.S. Army, Navy, Marine Corps, Air Force and Coast Guard representatives. Those testifying all agreed that hazing is wrong and should not be tolerated.

However, the hearing also highlighted the need for greater transparency and regular oversight in order to ensure real, measurable success in combating hazing within the ranks of our military. Thankfully, a portion of the National Defense Authorization Act for Fiscal Year 2013 calls for annual reports by the U.S. Secretaries of Defense and Homeland Security as well as a report by the Comptroller General, which will create help define hazing as well as create systematic means by which data about hazing can be collected and tracked.

As a result of these reports, we will have the common language, tools, data and communication needed to better prevent hazing in our military. By learning from our failure to protect Private Chen and other victims, we also hope to honor their memory.

Mr. Speaker, we owe an immense debt to our brave members of our military who risk their lives for our national security. I join my colleagues in their steadfast effort to make sure that Congress does its due diligence to ensure that hazing has no place in our armed services.

HONORING SOUTH STANLY HIGH SCHOOL, HOME OF THE 2012 NORTH CAROLINA 1A BASEBALL AND SOFTBALL STATE CHAMPIONS

HON. LARRY KISSELL

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 5, 2012

Mr. KISSELL. Mr. Speaker, I rise today to recognize the students, faculty, staff and coaches of South Stanly High School in Norwood, North Carolina. This past weekend, the South Stanly Rowdy Rebel Bulls baseball and softball programs finished their seasons with each team capturing its second North Carolina 1-A State Championship, handily winning their championship games held this weekend in Durham and Raleigh, respectively. With their combined victories, South Stanly High School became just the third program in the history of North Carolina baseball and fast-pitch softball to sweep both titles in the same season.

The South Stanly baseball team finished the 2012 season with a 30–4 record, capping the season with a 6–1 victory over Voyager Academy in the State Championship game. I congratulate head coach Terry Tucker, who, in his fourth year with the program, has led the team to its third state championship appearance and its second state championship since 2009.

The South Stanly softball team finished the 2012 season with a 27–7 record, completing the season with a 9–2 win over Camden to win the state title. I congratulate South Stanly softball head coach David Poplin, who led the team to its second title since 1998.

Most importantly, sincere congratulations are due to the dedicated young men and women of these two teams. Their hard work and sacrifice throughout the season put them on the road to championships, and together their dedication and focus has brought two more state titles back to Norwood.

Folks throughout our community have always had a way of banding together in support of one another, and this year's baseball and softball seasons showed a perfect example of that at South Stanly. From dedicated parents and siblings, to friends and church members, our community came out in full force to cheer the Rowdy Rebel Bulls on to victory. I'm honored to represent the people of Stanly County, the players and their dedicated families, and the coaches and faculty of the school.

Before Congress and our great nation, I am proud to recognize the members of South Stanly High School's baseball and softball teams, Coach Tucker and Coach Poplin, Principal Mike Campbell, Athletic Director Sean Whitley and the entire Stanly County community as a whole for another local championship season. Go Rowdy Rebel Bulls!

GREENVILLE ELEMENTARY

HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 5, 2012

Mr. SHIMKUS. Mr. Speaker, I rise today to salute the dedication of the administration,

staff and students of Greenville Elementary School in Greenville, Illinois, who went above and beyond in caring for, and ultimately saving the life of, one of the school's kindergarteners.

Emma Young started kindergarten at Greenville Elementary this year, but Emma is not your typical kindergartener. Since she was very young, Emma suffered seizures and unconsciousness due to a condition that doctors were unable to diagnose due to a lack of data. Finally, doctors placed an implantable loop recorder in Emma's chest to collect data for up to three years in the hopes of collecting the information necessary to diagnose Emma's condition.

Emma's parents met with the school nurse to ensure that school staff were aware of her condition and knew what to do. But instead of just filing the information away, school staff made a superior effort to inform everyone involved with Emma's daily activities in the event that their help was needed in an emergency. The school nurse, Emma's teacher, and all the faculty and staff who had contact with Emma on a daily basis had a special meeting after school to learn about Emma's condition and about the monitor implanted in her chest. Her teacher made posters with her picture and a photo of the device, with step-by-step instructions for staff or substitutes to review. The staff even developed a plan called "Code Emma", and taught the other kindergarteners how to recognize when Emma needed help and how to announce a Code Emma.

This spring, Emma's mother, Jill, was at home when she received a breathless call from the school secretary informing her that Emma had suffered a seizure. She rushed to the school, where an ambulance had already arrived to take Emma to the hospital. Riding to the hospital, Jill was grateful for the fast response by the school staff, but wondered if the staff had remembered to press the button on Emma's device so that the data could be collected, and a diagnosis finally determined. Emma's condition returned to normal over the next few minutes, and she was released from the hospital that day. An hour later, Emma's cardiologist called and told Jill that the data had been collected, and Emma's condition could finally be diagnosed and treated. Emma now has a pacemaker and is receiving life-saving treatment, thanks to the doctors and nurses who worked with her, but perhaps most importantly, due to the students and staff at Greenville Elementary who called out and responded to the Code Emma.

Emma's mother writes that the students and staff at Greenville Elementary are deserving of recognition for their "commitment to education, and their dedication to nurturing and loving children in the community. The lessons that are taught inside of the walls at Greenville Elementary are not just the mandated ones, but the ones that will mold these children into the types of individuals they will become."

Mr. Speaker, I want to take this opportunity to salute the entire team at Greenville Elementary for the good work they do in educating children in not just the Three Rs, but in caring for others and being good citizens. I am proud to represent such an outstanding community and such outstanding people.

ETIENNE CHARLES

HON. HOWARD L. BERMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 5, 2012

Mr. BERMAN. Mr. Speaker, I rise today to pay tribute to a young and talented jazz trumpeter from the Republic of Trinidad and Tobago, Mr. Etienne Charles, in celebration of Caribbean American Heritage Month, nationally recognized during the month of June.

Born on the island of Trinidad in 1983, Etienne Charles defies easy musical categorization. An alumnus of the prestigious Julliard School, Mr. Charles has received critical acclaim for his exciting performances, thrilling compositions and a knack for connecting with audiences worldwide. Etienne's musical lineage runs at least four generations deep: His great-grandfather emigrated to Trinidad from the overseas French department of Martinique bringing his folk music to the village of Mayaro. The young trumpeter's grandfather's distinct *cuarto* style can be heard on the classic folk and calypso recordings of the Growling Tiger; and, Etienne's father was a member of Phase 11 Pan Grove, one of Trinidad & Tobago's most progressive steel bands and one that Etienne himself would later join. Immersed in his father's vast record collection, and suffused with the sounds of calypso, steel pan and African Shango drumming, Etienne imbibed many of the influences that presently constitute the diverse colors of his harmonic palette.

Perhaps more than any other musician of his generation or of Caribbean origin, Etienne brings a careful study of myriad rhythms from the French, Spanish, English and Dutch speaking Caribbean to the table. Crucially, this young jazz professional fully understands the New Orleans trumpet tradition (which is readily discernible in his trademark instrumental swagger) and what the famed Crescent City pianist, Jelly Roll Morton so succinctly captured in the now immortal phrase, "The Spanish Tinge".

In his latest opus, *Kaiso*, this Trinidadian trumpet maestro, Etienne Charles, cooks up an ambrosial bouillabaisse of New World music genres, with jazz and calypso genres standing out as piquant flavors. He explores the songbooks of three legends in calypso; The Lord Kitchener, The Mighty Sparrow and the Roaring Lion, using many different instrumental palettes ranging from duet to chamber orchestra.

Mr. Speaker, it gives me great pleasure to recognize this young talent, Mr. Etienne Charles, for the many contributions he brings to the nationals of the Republic of Trinidad and Tobago and the world.

**HONORING EULESS POLICE
CORPORAL ROGER GATLIN**

HON. KENNY MARCHANT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 5, 2012

Mr. MARCHANT. Mr. Speaker, it is with great pride that I recognize retiring Corporal Roger Gatlin for his 30 years of public service with the Euless, Texas, Police Department.
