

universities need money for research for things that we can use here in the United States to make our life better?

Why did the USDA give the SB Group Consultants \$25,000 for education in China?

Why did the USDA give Management and Engineering Technologies International \$40,000 to improve forest health in China? We don't need any help with our forests here, do we?

Why did the USDA give Yangzhou University \$36,000 to improve biological controls in China?

Why did the USDA give Management and Engineering Technologies International \$8,000 for administrative purposes in China?

Why did the USDA give Utah State University almost \$400,000 for biomass research in China? I happen to know American companies and people who are investing in biomass research. Why are we giving almost \$400,000 to help the Chinese in biomass research, which will compete with our own companies that are trying to develop this very important and unique energy source? Which by the way for the environmentalists who are watching, who think that I may be making light of climate change, I support biomass and other clean-energy programs that make sense. This one makes sense. Our companies are investing in it, and yet we're borrowing money from China in order to give it to them to do biomass research to compete with our own people and put them out of business.

Why did the USDA give Tetra Tech EM \$325,000 for administrative purposes for environmental programs in China?

Why did USAID give the Institute of Sustainable Communities—get this—another \$500,000 to save energy and reduce greenhouse gases in China? Don't we have the need in our communities to do things in a sustainable way in the United States? No. They don't have that money now. It's in China. We borrowed it from China to give to them. Now we're going to have to pay the bill back after we've given it to them.

Why did USAID give the University of the Pacific \$500,000 for environmental governance in China? Again a half a million dollars.

Why did USAID give the American Bar Association \$500,000 for environmental governance?

Why did USAID give the University of Massachusetts \$420,000 for Environmental Governance in China?

Why did USAID give the Organization for Economic Cooperation and Development \$150,000 for Development Assistance in China?

Why did USAID give Management Systems International \$47,484 for Development Assistance in China?

Why did USAID give Rockefeller Philanthropy Advisors \$2.4 million for Sustainable Livelihoods in China?

Why did USAID give The Asia Foundation \$1,025,000 to improve Disaster Management in China?

Why did USDA give the University of Science and Technology of China \$150,000 for Research?

Why did USDA give Guangzhou Dxccl Advertising \$18,500 for Administrative Purposes in China?

Why did USDA give Management and Engineering Technologies International \$40,994 to improve forest health in China?

Why did USDA give Management and Engineering Technologies International \$7,973 for administrative purposes in China?

Why did USDA give Southern University \$300,000 for improved Education in China?

Why did USDA give Colorado State University \$300,000 for improved Education in China?

I will end my remarks tonight by suggesting that what we are doing is insane. America will never survive with such a mindset with these mind-boggling giveaway programs where we're giving away money, we're giving this type of support to a country and a government that is totalitarian, that kills Christians and other religious people, who hates the United States and is our biggest potential enemy. That is not the Chinese people. That's the Chinese Government.

The Chinese dictatorship has cover today, and the reason why these policies go on is they have cover from some of our most powerful corporations. We have permitted overly subsidized American corporations to set up manufacturing facilities in China, and now they need to stand in the good graces of the Chinese Government. When I come up and say things like this, corporations in the United States try to provide cover for the Chinese dictatorship. We should not be providing aid to the Chinese. We should not be encouraging our corporations to go there and become vulnerable to the Chinese in order to make a quick profit.

I would suggest over the last 10 years, since most-favored trading status has been given to China, we have put America in a very vulnerable spot. We at the very least should reassess our relationship with China, but at the very least cut off any aid programs that go to this communist regime, this totalitarian regime that looks at us as their enemy.

Mr. Speaker, I yield back the balance of my time.

## RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.
