

their annuity would be adjusted, increasing the employee's lifetime retirement income. The Senate amendment excludes from eligibility law enforcement officers, firefighters, nuclear materials couriers, air traffic controllers, customs and border protection officers, or members of the Capital Police or Supreme Court Police.

CONFERENCE REPORT

The conference report follows the Senate amendment with three changes. First, Postal Service employees are exempted from the requirement to spend 20 percent of their time mentoring. Second, the provision provides that certain law enforcement officers such as Customs and Border Protection Officers hired before 2008 (when they were granted law-enforcement type status which makes them ineligible for phased retirement under the Senate Amendment because they are subject to mandatory retirement) are eligible for phased retirement. Finally, the conference agreement provides an exception to the additional tax under section 72(t) of the Internal Revenue Code for distributions from federal retirement plans to qualified phased retirees.

Effective Date—The provision is effective on the date the implementing regulations are issued by the Director of the Office of Personnel Management.

Technical correction to the disaster recovery FMAP provision

The ACA included a provision known as the 'disaster-recovery FMAP' designed to help states adjust to drastic changes in FMAP following a statewide disaster. Once triggered, the policy would provide assistance for as many as seven years following the disaster, as long as the state continued to experience an FMAP drop of more than three percentage points. The Middle Class Tax Relief and Job Creation Act of 2012 corrected the formula. This policy moves the effective date to October 1, 2012 and adjusts the formula for fiscal year 2013.

Ocean freight differential

The United States provides humanitarian food aid to developing countries. This assistance is subject to an additional cargo preference, which requires 75% of food assistance be shipped from U.S. flagged vessels. The Maritime Administration at the Department of Transportation is required to reimburse the U.S. agencies that sponsor food aid shipments for the increased costs associated with the U.S. flag shipping requirement. This proposal would reduce to 50% the incremental ocean freight differential, which would reduce the amount of quarterly payments made by Maritime Administration at the Department of Transportation.

Abandoned mine land

This proposal would cap abandoned mine land (AML) reclamation payments to states that have completed all high-priority abandoned coal mine reclamation projects. Under this proposal, payments to those states (certified states) would be capped at \$15 million annually.
