

things like CO<sub>2</sub>, which are not a threat to our health. That's how we have kept America on an upward course, even though we've been dragged down scare after scare after scare.

□ 1530

I remember when we had Meryl Streep come to this Congress and testify about Alar in apples. What happened was, for 2 years apple farmers went broke throughout the United States. There were thousands of families who suffered because their product was not being bought because they were afraid of Alar. What happened to that? Alar, it was found 2 years later that it was all a scare. There was nothing to it. The same thing with cranberries. When I was a kid, we couldn't eat cranberries for Thanksgiving.

The gentleman that I quoted here, that I mentioned, who is the godfather of the global warming theory, James Lovelock, he is also the man who discovered fluoro hydrocarbons, which gave people the analysis of the ozone hole. Well, guess what? The ozone hole, as we have found out—and as it was mentioned in passing there—the ozone hole was overrated as a threat. In fact, it went away, and it's a natural cycle.

What we have had on this planet is a natural cycle of weather, of temperatures, and that will continue. But what's happened is, we've had people step forward, trying to create hysteria for their own political ends, trying to frighten people into accepting policies they otherwise would never accept.

So today, I'm hoping that as we celebrate the Fourth of July, we, again, reaffirm that we will never give up our liberty. We will never be frightened out of our liberty by foreigners who threaten us with weapons, and we will not be frightened out of our liberty by people who do not believe in the same type of freedom that we believe in but are using scare tactics to create hysteria among our people that are phony scare tactics to try to frighten us into giving up our freedom.

So on this Fourth of July, I hope we all reconfirm that guarantee of our commitment in this Nation to freedom, to opportunity for ordinary people so that ordinary people can live decent lives with liberty and justice, prosperity for all.

I yield back the balance of my time.
