

Mr. REED led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

WELCOMING REVEREND DR.
LESLIE CALLAHAN

The SPEAKER. Without objection, the gentlewoman from Ohio (Ms. FUDGE) is recognized for 1 minute.

There was no objection.

Ms. FUDGE. Mr. Speaker, it is my pleasure to welcome Dr. Leslie D. Callahan to serve as our guest chaplain today. I have known Dr. Callahan since she was a toddler and am proud to say that she is the dedicated senior pastor of St. Paul's Baptist Church in Philadelphia, Pennsylvania, its first female leader in 119 years.

Dr. Callahan is a religion scholar who received her bachelor of arts in religion from Harvard University/Radcliff College, a master of divinity from Union Theological Seminary in New York, and doctor of philosophy in religion from Princeton University.

A native of Gary, West Virginia, and resident of Philadelphia, Pennsylvania, Dr. Callahan has been publicly preaching since the age of 19. She is noted for her dynamic preaching and teaching gifts and as a minister who plays a major role in shaping the future of the African American church. She is the mother of 2-month-old Annabelle, or Bella.

Reverend Callahan's character is captured in her favorite scripture from Psalm 27:4:

One thing I desired of the Lord, that I shall seek; that I may dwell in the house of the Lord all the days of my life, to behold the beauty of the Lord and to seek God in God's temple.

ANNOUNCEMENT BY THE SPEAKER
PRO TEMPORE

The SPEAKER pro tempore (Mr. BASS of New Hampshire). The Chair will entertain up to 15 further requests for 1-minute speeches on each side of the aisle.

MLR AND FRAUD

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Yesterday, we had an Energy and Commerce Health Subcommittee hearing on how we can combat waste, fraud, and abuse in our health care system. We heard from private sector representatives about some of the innovative ways that they prevent fraud before it happens. At the same time, Medicare loses billions of dollars annually because most fraud is only discovered after it has been perpetrated.

Now, under ObamaCare, we have a new medical loss ratio rule, or MLR,

that may actually create perverse incentives for private insurers to behave like Medicare. Some have suggested that the consumer protections provided by the MLR rule are too important to subject the rule to change in order to prevent fraud. Setting aside whether individuals or employers have received the benefit of the MLR rule, clearly the best way to save money is prevent it from being stolen in the first place, not chasing criminals after they have received and spent their illicit gains.

The flawed MLR rule is just another example of how ObamaCare's sloppy legislating and rulemaking has the potential to cost the American people dearly.

MORE MONEY FOR WAR?

(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. The same geniuses who involved the U.S. in a war against Libya, who knocked off the pro-U.S. Libyan Government, who created in Benghazi an extremist shooting gallery which has claimed four American lives including our Ambassador, who have not been held accountable or responsible for those events, who have opened the door for radical fundamentalists to run roughshod over Libya, these same experts are working out of the same playbook for Syria.

Assad was no angel, but he was not a significant threat to the U.S. Apparently, flush from success in Libya, the administration is preparing to ratchet up the war in Syria.

Why would Qatar, our partner in Libya, be supplying surface-to-air missiles to rebels in Syria without the support of this administration? NATO—meaning the U.S.—discusses putting missiles in Turkey, which would create a de facto no-fly zone over northwest Syria, expanding the war.

Is this why we need a tax increase? More money for more war? Really?

CONGRATULATING RANDOLPH
HIGH SCHOOL CARDINALS

(Mr. REED asked and was given permission to address the House for 1 minute.)

Mr. REED. Mr. Speaker, I rise today to congratulate the Randolph High School Cardinals on their victory in the New York State Class D title game on November 23, 2012, at the Carrier Dome in Syracuse, New York. Led by Head Coach Pat Slater and the game's Most Valuable Player, Cody Oldro, the Cardinals won 28-7. It is with no small amount of pride that we recognize all of the players, cheerleaders, coaches, advisers, administrators, and, most importantly, the parents and the kids for their achievements and congratulate them on their third State championship since 2005.

The 2012 New York State Class D title game was also Coach Slater's

final game as head coach of the Cardinals, capping a 33-year career at the helm. His teams earned three State titles, eight Section Six championships, and a career record of 213 wins and 99 losses. Today, we honor Coach Slater for the positive impact he has had on the young people at Randolph for so many years.

CRUMBLING INFRASTRUCTURE

(Mr. HIGGINS asked and was given permission to address the House for 1 minute.)

Mr. HIGGINS. Mr. Speaker, our national policy for transportation and budgetary commitment is a disgrace and an embarrassment. Our roads and bridges are a mess. Transportation for America says that we have 69,000 structurally deficient bridges in this Nation. We have over 2,000 structurally deficient bridges in New York State, and we have 99 structurally deficient bridges in my home community of western New York. Every second of every day, seven cars carrying our families drive on a bridge that is structurally deficient.

In the city of Buffalo, we are preparing to make a decision about the future of the elevated Skyway bridge, a roadway classified by transportation officials as being structurally deficient, fracture-critical, and functionally obsolete.

Federal investments should help communities make smart decisions and become more self-sufficient. Investing in smart infrastructure is not simply about tearing down our crumbling bridges; it's about rebuilding our Nation.

CONGRATULATING COLORADO
STATE BOARD OF EDUCATION
CHAIRMAN BOB SCHAFFER ON
HIS RETIREMENT

(Mr. GARDNER asked and was given permission to address the House for 1 minute.)

Mr. GARDNER. Today, I rise today to honor Colorado State Board of Education Chairman Bob Schaffer on his recent retirement.

Chairman Schaffer proudly served the State of Colorado and our country in this Chamber, representing Colorado's Fourth Congressional District. Throughout his career in Congress and on the State Board of Education, he has dedicated himself to improving the education of Colorado and this Nation's youth. He's a passionate advocate of education policies that reach all students in our Nation.

In addition to his work on the State board, Bob serves as the principal at Liberty Commons in Fort Collins, Colorado. Liberty is a public charter school and is consistently ranked among the State's top-performing schools.

Chairman Schaffer has been an advocate for State and local control over education. He promotes the value that

all schools need to be competitive and accountable, including faculty and administration.

While the challenges of education have been many over the past two decades, Bob knows they are worthy of our time and our best efforts. Through his leadership, we have seen education in Colorado improve for our kids; they have a brighter future ahead and the tools to achieve success.

And today, I recognize Bob Schaffer's service in this Chamber and his service to the people of Colorado.

CONGRATULATING SHALER NORTH HILLS LIBRARY

(Mr. ALTMIRE asked and was given permission to address the House for 1 minute.)

Mr. ALTMIRE. Mr. Speaker, recently I had the honor of attending a ceremony recognizing the Shaler North Hills Library for receiving the National Medal for Library and Museum Service. This is the highest Federal honor any museum or library can earn.

The Shaler North Hills Library serves over 50,000 families, providing assistance for everything from job searching to computer training. The library also presents outstanding programs for all ages, including showcasing local gardeners, art exhibits, and a speaker series. Their interactive science program, "Discovery Kids," won a Pennsylvania Library Association Best Practices Award, recognizing the program as the best of the best for early learning. The Shaler North Hills Library truly sets the standard for all ages in library services. I congratulate them on this well-deserved honor.

DEDICATED LEADERSHIP OF SHERIFF MARK CURRAN

(Mr. DOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOLD. Mr. Speaker, I rise today to honor the work that Sheriff Mark Curran and the Robert Crown Center are doing in Illinois' 10th Congressional District.

Heroin and prescription drug abuse are on the rise in our local communities. Families of all backgrounds are being affected by this epidemic in the Chicagoland region. As a result of the increase in heroin deaths and prescription drug overdoses, Sheriff Mark Curran and the Robert Crown Center and other individuals in the community have come together to raise awareness of the dangers of these drugs.

Throughout the past 2 years I've had the privilege of working with these leaders so that we can help educate our communities and to help get help for those who are struggling with addiction. From roundtables to awareness events and a recent community

forum—which we held in Vernon Hills, Illinois—I'm proud of the work that's being done to end this epidemic. We do have much more work ahead of us, but I'm confident that Sheriff Mark Curran and others will continue to champion this cause and provide valuable resources to our community. I look forward to helping in any way possible.

WORLD AIDS DAY

(Ms. CASTOR of Florida asked and was given permission to address the House for 1 minute.)

Ms. CASTOR of Florida. Mr. Speaker, I rise today on World AIDS Day to highlight the remarkable progress that has been made over the past 30 years in the fight against HIV and AIDS.

I commend local leaders from my Tampa Bay area district like the Reverend Dr. James Favorite, who understands the importance of speaking to his congregation about HIV and AIDS. Reverend Favorite has urged more than 100 local churches and pastors across the Tampa Bay area to put AIDS and HIV awareness at the heart of their sermons. Reverend Favorite's impact has garnered national acclaim from the National Black Leadership Commission on AIDS.

I also commend the Test Tampa Bay campaign, which is an initiative designed to intensify HIV education, awareness, and prevention brought along by local health departments and other health advocates. Test Tampa Bay aims to increase the number of Tampa Bay residents who know their HIV status by encouraging HIV testing.

Finally, I would like to voice my strong support for H.R. 6138, Ending the HIV/AIDS Epidemic Act, by Representative BARBARA LEE and others, of which I'm a proud sponsor. We must remain committed to ending the HIV/AIDS epidemic and improving the lives of those infected with the disease.

We are at a tipping point in the fight against AIDS, so let's recommit to ensure that America continues to lead the way to achieve an AIDS-free generation.

HONORING MARGARET OBRAY FOR DEDICATION TO EDUCATION

Mr. BISHOP of Utah. Mr. Speaker, schoolteachers are an overworked and undercompensated group, but the good ones are always appreciated for the time and effort and commitment they make to kids. So I stand today to honor one of the best examples of a dedicated teacher, Margaret Obay, who was a government and history teacher at Mountain Crest High School in Hyrum, Utah. Mrs. Obay has dedicated the past three decades of her life to encouraging her students, both in and out of the school. She has worked tirelessly to open their minds to guide them towards a productive and meaningful life.

Mrs. Obay has decided to retire at the end of this school year, having

changed the lives of literally thousands of students who had the opportunity of being taught by such an outstanding educator. I have watched Mrs. Obay for many years and can verify that she is the epitome of what a good educator should be, and she will be sorely missed. So, Mrs. Obay, we want to thank you for what you have done, for the impact you've had on students you have taught in the past, the ones you are teaching currently, and we have pity for all those kids in the future who will never have that experience.

HIV/AIDS

(Mr. McDERMOTT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McDERMOTT. Mr. Speaker, as we celebrate World AIDS Day today, we have reason to be proud of what we've done to fight HIV/AIDS.

When I came to the Congress in 1989, AIDS was a death sentence; now, with the right medicine, it's a manageable chronic disease. And we've made real progress toward a vaccine. That happened because the United States Congress took action. It wasn't magic. People living with the disease fought to make it happen, and leaders in the Congress and the White House fought to make it happen too.

As we recognize World AIDS Day today, we cannot get complacent. We can create an AIDS-free generation—it is possible. But it will slip away if we let these essential programs get cut. Today, we should resolve to stay the course, to keep the pressure on, and win the fight, to honor all those who died of AIDS and all those who are still fighting for AIDS today. This Capital has an epidemic of AIDS. We need to deal with it.

CONGRATULATING TEACH ELEMENTARY SCHOOL IN SAN LUIS OBISPO

(Mrs. CAPPS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CAPPS. I rise today to congratulate Teach Elementary School in San Luis Obispo on becoming a National Blue Ribbon School.

For 30 years, the Department of Education has bestowed this coveted award for outstanding academic achievement, and I am delighted that one of our local schools on the central coast of California was awarded such a tremendous honor.

This distinguished recognition highlights the hard work and dedication of the entire staff at Teach Elementary, and I would specifically like to note the outstanding leadership of Principal Dan Block.

For Teach Elementary to have such remarkable results—particularly during these tough budget times—is truly commendable. At a time when we must
