

An industry review of the statute, regulations and legislative and operating history demonstrates that Congress specifically intended the Missouri River reservoir system be operated to benefit downstream areas on the Mississippi River as well as the Missouri. Corps management of the Missouri reservoirs has deviated from the AOP during exceptional circumstances. The navigation community recognizes the legitimate needs of the other users of Missouri River waters, and believes this problem can be solved without significant impact on other water claimants.

We trust that you recognize the importance of this issue to U.S. jobs and industries, and are hopeful that you will work with all parties involved in these impacted areas. Thank you for your consideration of our request.

Respectfully,
