

In 1972, Judge Boochever was named to the Alaska Supreme Court and served as chief justice for three years. In 1980, President Carter nominated Judge Boochever to the Ninth Circuit. In an oral history, Judge Boochever described himself as a champion of individual rights who was also sympathetic to the problems of law enforcement. His Ninth Circuit colleague, Judge Dorothy Wright Nelson, the former dean of the University of Southern California Law School, described Boochever as the best writer on the court.

But a distinguished legal career was but one measure of this outstanding Alaskan. Judge Boochever was a gentleman who greeted women with the tip of a hat, a family man whose daughter would sing out loud, "Oh, we're the happy Boochevers" to the tune of "Jolly Good Fellow," an avid birdwatcher, a poet, a singer and a pianist.

According to a 1997 tribute in the Alaska Bar Rag, he was "revered by his friends and neighbors as a dedicated advocate who championed causes that helped shape the Juneau community."

He was the first chairman of the Juneau Planning Commission, a vocal opponent of efforts to move Alaska's capital out of Juneau, and a leader in the successful campaign to create the University of Alaska Southeast in Auke Bay. Judge Boochever, and Connie, who predeceased him, were selected by the Juneau Rotary Club as Man and Woman of the Year. Connie will long be remembered as a champion of the arts in Juneau. What an outstanding team.

Outstanding families are the product of outstanding patriarchs. Judge Boochever was the father of four outstanding daughters. Barbara, an avid skier, whose daughter Hillary Lindh, would grow up to be an Olympic silver medalist in downhill skiing; Linda, an Anchorage businesswoman; Mimi, a teacher nationally renowned for teaching the fine arts to young people; and Ann, a music teacher who cofounded two of Juneau's finest restaurants.

Judge Boochever was outstanding in every respect. It is people like Judge Boochever who moved Alaska from the last frontier of the prestatehood period to the best place in America to live, work and raise a family. I am grateful for his significant contributions to the quality of life we today enjoy in the State of Alaska. That is why I was proud to cosponsor legislation naming the Juneau Federal courthouse in perpetuity for Judge Boochever. That is why I am proud to honor his life and legacy today.●

RECOGNIZING THE ASPEN CENTER FOR PHYSICS

● Mr. UDALL of Colorado. Mr. President, today I wish to congratulate the distinguished Aspen Center for Physics, located in Aspen, CO, on the occasion of its 50th anniversary. I offer these congratulations on behalf of Senator BENNET of Colorado as well.

We would like to commend the Aspen Center for Physics for their dedication and excellence in the field of theoretical physics. Since the 1960s the Center has been one of the world's foremost research centers for the pursuit of basic scientific understanding on topics ranging from cosmology to biophysics.

With Federal funding primarily from the National Science Foundation and the support of dozens of corporate, institutional, and individual sponsors, the Aspen Center for Physics has become an international hub for revolutionary physics research. More than 10,000 scientists, representing 65 countries and including 52 Nobel Laureates, have participated in Center programs. They come to Aspen to converse with their peers, conduct groundbreaking research, and explore uncharted areas in theoretical physics.

The atmosphere created by the Aspen Center for Physics is unique. While surrounded by beautiful landscapes, researchers are encouraged to participate in informal dialogue and pursue creative and novel paths in their research, both individually and in collaborative groups.

The unstructured environment has been key to the exchange of ideas among the world's best theoretical physicists, and it has led to impressive results: more than 10,000 scientific papers and books have cited the Center's influence.

The Center is also a good neighbor. For more than 25 years, the Center has offered free public lectures on cutting-edge science to the community. It offers informative and interactive programs designed to engage children in learning and get them excited about science. Physicists from the Center also visit local schools and serve as mentors for students.

Colorado is fortunate to be home to the Aspen Center for Physics. Senator BENNET and I would like to congratulate them for an impressive first 50 years and wish them continued success for the next 50 years.●
