

much needed, quality medical care while the next generation of health care workers receives exceptional, hands-on training. The N.E.W. Clinic, like NWTC, has become a tremendous asset to the residents of Wisconsin.

Today, NWTC graduates more students than all other Green Bay area colleges combined, preparing tens of thousands of students for careers through its 180 programs of study. For the last 2 years, NWTC has rated in the top 10 percent of community colleges nationally as ranked by the Aspen Institute.

Northeast Wisconsin Technical College has built a strong reputation and steadfast foundation that helps support and grow the regional economy. With statistics showing that 95 percent of its 2011 graduates continue to work in Wisconsin and 73 percent remain in the region, NWTC also shapes the local economy. Students, thousands of area businesses, their employees, and the entire region all benefit from NWTC's commitment to building partnerships and alliances that help everyone succeed.

On behalf of our entire Nation, I join the people of Wisconsin in recognizing and commending Northeast Wisconsin Technical College for providing 100 years of outstanding service and quality education to its students. Today, we honor the leaders who founded the college, and all of the faculty, staff, and students who enrich Wisconsin's long, proud tradition of excellence in education.●

ENTERPRISE COMMUNITY PARTNERS

● Ms. MIKULSKI. Mr. President, today I wish to honor an outstanding nonprofit in Columbia, MD, Enterprise Community Partners, on the occasion of its 30th Anniversary.

In 1982, Jim Rouse and his wife Patty founded Enterprise Community Partners as a neighborhood-based partnership to revitalize communities. They founded Enterprise with the ambitious goal of making sure every American lives in a decent, affordable home. Over the years, this organization has grown to be a leading provider of capital and expertise for affordable housing in thriving communities. Today, Terri Ludwig leads the organization as it continues on the important work of its founders.

Enterprise Community Partners has invested more than \$11.5 billion to build and preserve nearly 300,000 affordable rental and for-sale homes and create more than 410,000 jobs nationwide. This includes almost \$1.2 billion invested directly in Maryland—building and preserving thousands of homes in the State. Because of Enterprise, over 14,000 individuals and families have a place to call home in Maryland.

As a member of the Transportation-HUD Appropriations Subcommittee, I put money in the federal checkbook to build and protect our communities. Providing safe, affordable and adequate

housing has always been one of my top priorities. Safe, sustainable, and affordable housing is essential for community growth and stability. Kids in quality housing do better in schools, neighborhoods have much less crime, and communities are stronger.

In 1992, I worked with Senator Kit Bond to create the HOPE VI program which revolutionized public housing by leveraging public and private resources to replace dangerous and run-down public housing projects with mixed-income communities that integrated schools, businesses and community services alongside public, affordable and market rate housing.

HOPE VI has been successful in transforming communities and transforming the lives of people living in public housing. Enterprise has been an important partner in stabilizing Baltimore's stressed communities and encouraging investment by residents and businesses so that neighborhoods in Baltimore remain places to live, work, shop and worship.

Enterprise stories include families who, due to a reduction in hours at work and layoffs, are at risk of foreclosure; young adults who age out of foster care and face homelessness; and homeless individuals with disabilities. Enterprise develops and preserves affordable housing in communities linking people to opportunities for success.

The Enterprise Green Communities Initiative is the first national framework for green affordable housing. The 5-year, \$555 million initiative plans to build more than 8,500 environmentally healthy homes for low-income families. It provides grants, financing, tax credit equity and technical assistance to developers who meet Green Communities Criteria for affordable housing that promotes health, conserves energy and natural resources, and provides easy access to jobs, schools, and services.

Four years ago, Enterprise announced the formation of the Save America's Neighborhoods Campaign, a coalition of national and local organizations concerned about the foreclosure crisis' impacts on communities. The coalition's efforts were important contributors to establishing the Neighborhood Stabilization Program at the U.S. Department of Housing and Urban Development, which offers grants to help families and communities at risk of foreclosure.

Enterprise should be recognized for its work to sustain and restore thriving communities nationwide. Enterprise tackles some of the toughest problems in our communities and continues to transform both communities and families throughout the country. They invest in neighborhoods that are working together to solve their own problems for the collective good of the community.

I thank the volunteers, staff, board members and foundations supporting Enterprise Community Partners for all of their work, for their commitment to each other, for their commitment to

community, and for their commitment to Maryland. And I congratulate you on this milestone.●

RECOGNIZING LACASSE BAT COMPANY

● Ms. SNOWE. Mr. President, as you are aware, baseball is considered our national pastime. Every spring millions of Americans eagerly await the crack of a wooden bat as baseball and softball season begin. With this in mind, today I rise to recognize and commend the success of LaCasse Bat Company, located in Skowhegan, ME and its owner, Jesse LaCasse.

Mr. LaCasse is a former local baseball standout, playing at Saint Joseph's College of Maine, where he earned a degree in Sports Management. While in college, he was inducted into the Saint Joseph's Athletic Hall of Fame. As a hitting fanatic who was driven by his love of the game, he began manufacturing wooden bats for his personal use in 2006. The custom bats caught on with his summer league teammates, and soon he was making bats for individual players, adding a logo and the player's name to the design.

LaCasse Bat Company, a one-person operation, was founded in 2008 using local Maine materials in production. From cutting the trees to the final product, each step of the development of these bats is meticulously crafted. LaCasse Bat Company uses premium quality wood and makes bats from solid ash, birch, beech, and maple. Mr. LaCasse turns each bat by hand on a wood lathe, a process which takes roughly 15 to 20 minutes, and brands it with his logo. Through this careful method, Mr. LaCasse is able to fine-tune the balance of the bat and make each bat distinctive to the individual player. This personal touch and dedication to craftsmanship contributes to the truly unique nature of each hand-made bat.

In 2010, LaCasse Bat Company teamed with Subway Restaurants to handcraft four custom-colored bats to be donated at the 2010 Senior League World Series held in Bangor, ME. These were the first colored bats made by LaCasse Bats and each features the green, yellow, and white colors of the Subway franchises.

Since the exposure of the 2010 Senior World Series, LaCasse has seen a high demand for tailor-made and colored bats. LaCasse Bats takes every aspect of personalization into account, offering customization of handle, barrel, and logo colors and sizes, as well as the specific bat weight and type of wood. LaCasse Bats currently supplies teams from Little League through college in the United States and Europe, with most of its sales coming from Maine. As sales continue to grow, Mr. LaCasse hopes someday one of his bats will make it to the plate in Major League Baseball.

As a small business, LaCasse Bat Company's success in just a few short

years has been exceptional. It is inspiring to know that entrepreneurs such as Mr. LaCasse continue to draw upon their passion, ingenuity, and energy to develop new businesses. I extend my congratulations to Jesse LaCasse for his tremendous effort and offer my best wishes for the continued growth and success for LaCasse Bat Company.●

SERVICES CENTER FEDERAL CREDIT UNION

● Mr. THUNE. Mr. President, today I recognize the Services Center Federal Credit Union, SCFCU, a member-owned, not-for-profit financial cooperative located in Yankton, Springfield, and Parkston, SD.

Chartered on April 2, 1962, this year marks the 50th anniversary of the SCFCU. As a community charter, membership is open to all who live or work in Bon Homme or Yankton Counties. Building upon their mission of being responsive to their members' needs by providing competitive financial services, their membership has grown to nearly 6,500 Bon Homme and Yankton County residents.

As a credit union member myself, I understand firsthand the benefit of a credit union membership. Credit unions are a part of the community and they are well aware of the specific needs of their members. Their commitment to providing the best possible service is commendable, especially in the financial environment we are faced with today.

The SCFCU commemorated their 50th anniversary during their annual meeting held in Yankton, SD, on June 23, 2012. I would like to offer my congratulations to the leaders and membership of the SCFCU on this milestone anniversary and wish them continued prosperity in the years to come.●

TRIBUTE TO LARRY MIZEL

● Mr. UDALL of Colorado. Mr. President, I rise today to pay tribute to a great Coloradan—Larry A. Mizel—on the occasion of his 70th birthday on September 14.

There are few Coloradans who embody the spirit of the Centennial State as well as my friend Larry, and it is a privilege today for me to be able to share my thoughts about him with my Senate colleagues.

Larry is many things to many people, but at root, I think of Larry as an independent thinker; a savvy businessman; a man who cares about the world, his community and his family; and a man whose philanthropic reach is as wide as the Rocky Mountains are tall.

I ask my colleagues to indulge me while I talk a bit about Larry and recount some of his most notable accomplishments. The list is long, but his work stands as a model for others.

Larry always has believed in the value of a good education, and his own educational history is impressive. He graduated with a bachelor's degree in

business administration from the University of Oklahoma in 1964, and 3 years later, Larry received his law degree from the esteemed University of Denver College of Law.

From there, Larry took off at warp speed.

In 1972, Larry founded the company that became M.D.C. Holdings, Inc., which is one of the Nation's top homebuilders. MDC is the parent corporation to Richmond American Homes and is a New York Stock Exchange-listed company.

Forty years after founding M.D.C., Larry still serves as chairman and chief executive officer of the company. That is an amazing run, with a lot more to come, I hope and predict.

Under Larry's visionary leadership, M.D.C. consistently has maintained one of the strongest financial positions in the industry.

But it is not just profits that distinguish M.D.C. M.D.C. also is known for its high-quality work. For example, M.D.C. has the distinction of being one of the few homebuilding-based companies to receive an investment-grade rating from all three rating agencies.

Larry has never been one to rest on his laurels. In addition to M.D.C., he has pursued other business ventures. Larry was a founder and, until 1996 chairman of the board of Asset Investors Corporation, a New York Stock Exchange-listed real estate investment trust, as well as of Commercial Assets Inc., a real estate investment trust that traded on the American Stock Exchange. In addition, Larry served as chairman of the board of directors of Omnibank, a multi-bank holding company, until its sale to KeyCorp in 1995.

Yet, Larry is known in Colorado for more than these business-world accomplishments, as impressive as they are. Larry stands as a shining example to Coloradans about how to enrich the communities in which we live and to give voice to those who sometimes cannot speak loudly enough for themselves.

Larry has been actively involved in numerous charitable, religious, and community causes, some that reach beyond our borders.

For example, there are few leaders in Colorado who care as deeply as Larry does about issues related to Israel and to Jews around the world. Larry is a member of the national board of directors of the American Israel Public Affairs Committee better known as AIPAC which works to ensure a strong United States-Israel relationship.

Larry also is one of the founders of the Simon Wiesenthal Center, an international human rights organization, based in Los Angeles, CA. He has served as the International Chairman of the board of trustees of the Wiesenthal Center since 2003. As most of us know, the Wiesenthal Center helps to accomplish goals that Larry holds dear—namely, promoting tolerance and combating racism and anti-Semitism around the world.

It bears noting that the educational arm of the Wiesenthal Center—the Museum of Tolerance—is a recipient of the 2004 Tolerance Award given at the United Nations. It is a world-class human rights laboratory and learning center dedicated to challenging visitors to confront important contemporary issues.

Closer to home, Larry also founded the Mizel Arts and Culture Center—known as the MACC—located in Denver at the Jewish Community Center. The MACC aims to illuminate the human experience through performing, visual, and literary arts for the Jewish community and the community at large.

Larry's interests and expertise in international affairs extend far. For example, he is a life member of the Council on Foreign Relations, an independent organization dedicated to finding solutions to the challenging foreign policy choices facing the United States and other countries—choices made all the more challenging after the terrorist attacks of 9/11.

Thankfully, Larry has brought his business acumen into the public policy arena. For example, in 1986 Larry founded and served as the inaugural chairman of Colorado Concern, an organization committed to promoting sustainable business growth and advancing the economic well-being of Colorado. I am privileged to work closely with Colorado Concern, especially in these tough economic times, when we are all searching for innovative ways to get our Nation back on sounder economic footing.

Larry also is a founding member of the Denver Rustlers, a group that has given him the opportunity to work with other Colorado business leaders to support community youth. As with Colorado Concern, I have been fortunate to participate in events with the Denver Rustlers. From raising scholarship money, to supporting participants at the Junior Livestock Sale at the annual Colorado State Fair in Pueblo, to opening the Denver Rustlers Kids Cafe in 1994 to combat childhood hunger, Larry has been instrumental in the Denver Rustlers' positive effect on children's lives.

I also want to take a moment to underline another great love of Larry's—another pursuit that fills Coloradans with pride. Larry is the founder of the Mizel Museum in Denver. The Mizel Museum provides regular artistic and educational programs that promote community understanding and tolerance for residents of the Rocky Mountain region. It is a stunning facility that makes a big difference in our state.

As part of the Mizel Museum and its related Mizel Institute, in 2004 Larry founded another crown jewel: the Counterterrorism Education Learning Lab, better known as the CELL. The CELL is a nonprofit institution dedicated to the prevention of terrorism through education. Located in Denver, the
