S. RES. 562

Whereas healthcare information technology and management systems have been recognized as essential tools for improving patient care, ensuring patient safety, stopping duplicative tests and paperwork, and reducing healthcare costs;

Whereas the Center for Information Technology Leadership has estimated that the implementation of national standards for interoperability and the exchange of health

information would save the United States approximately \$77,000,000,000 in expenses relating to healthcare each year;

Whereas Congress has made a commitment to leveraging the benefits of healthcare information technology and management systems, including supporting the adoption of electronic health records that will help to reduce costs and improve quality while ensuring the privacy of patients;

Whereas the ability to exchange health information confidently and securely between different providers, systems, and insurers is critical to transforming the healthcare delivery system of the United States to improve clinical outcomes for patients, control costs, and expand access to care through the use of technology;

Whereas Congress has made real-time health information exchange a priority and an essential component of the Medicare and Medicaid Electronic Health Records Incentive Programs;

Whereas Congress has emphasized improving the quality and safety of delivery of healthcare in the United States; and

Whereas, since 2006, organizations across the United States have united to support National Health Information Technology Week to improve public awareness of the benefits of improved quality and cost efficiency of the healthcare system that the implementation of health information technology could achieve: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week beginning on September 10, 2012 and ending on September 14, 2012 as “National Health Information Technology Week”;

(2) recognizes the value of information technology and management systems in transforming healthcare for the people of the United States; and

(3) calls on all interested parties to promote the use of information technology and management systems to transform the healthcare system of the United States.

S. RES. 563

Whereas phenylketonuria is a rare, inherited metabolic disorder that is characterized by the inability of the body to process the essential amino acid phenylalanine, and which causes mental retardation and other neurological problems, such as memory loss and mood disorders, when treatment is not started within the first few weeks of life;

Whereas newborn screening for phenylketonuria was initiated in the United States in 1963 and was mandated by the Newborn Screening Saves Life Act of 2008 (42 U.S.C. 201 note);

Whereas approximately 1 of every 15,000 infants in the United States is born with phenylketonuria;

Whereas the 2012 Phenylketonuria Scientific Review Conference affirmed the recommendation of lifelong dietary treatment for phenylketonuria made by the National Institutes of Health Consensus Development Conference Statement 2000;

Whereas adults with phenylketonuria who discontinue treatment are at risk for other serious medical issues such as depression, impulse control disorder, phobias, tremors, and pareses;

Whereas women with phenylketonuria must maintain strict metabolic control before and during pregnancy to prevent fetal damage;

Whereas children born from untreated mothers with phenylketonuria may have a condition known as maternal PKU syndrome, which can cause small brains, mental retardation, birth defects of the heart, and low birth weight;

Whereas phenylketonuria is treated with medical food;

Whereas, although there is no cure for phenylketonuria, a treatment involving medical food and restricting phenylalanine intake can prevent progressive, irreversible brain damage;

Whereas maintaining a strict medical diet for phenylketonuria can be difficult to achieve, and poor metabolic control can result in a significant decline in mental and behavioral performance;

Whereas access to health coverage for medical food varies across the United States, and the long-term costs associated with caring for untreated children and adults far exceed the cost of providing medical food treatment;

Whereas scientists and researchers are hopeful that breakthroughs in phenylketonuria research will be forthcoming;

Whereas researchers across the United States are conducting important research projects involving phenylketonuria; and

Whereas the Senate is an institution that can raise awareness of phenylketonuria among the general public and the medical community: Now, therefore, be it

Resolved, That the Senate—

(1) designates December 3, 2012, as “National Phenylketonuria Awareness Day”;

(2) encourages all people in the United States to become more informed about phenylketonuria; and

(3) respectfully requests that the Secretary of the Senate transmit a copy of this resolution to the National PKU Alliance, a non-profit organization dedicated to improving the lives of individuals with phenylketonuria.

S. RES. 564

Whereas over-the-counter and prescription medicines approved by the Food and Drug Administration have been determined to be safe and effective when used properly;

Whereas the misuse or abuse of these medicines can be extremely dangerous and produce serious side effects;

Whereas the Office of National Drug Control Policy reports that medicine abuse is the fastest-growing drug problem in the United States, and the Centers for Disease Control and Prevention has classified medicine abuse as an epidemic;

Whereas the 2011 Monitoring the Future survey, funded by the National Institutes of Health, and the 2011 National Survey on Drug Use and Health, sponsored by the Substance Abuse and Mental Health Services Administration, both illustrate that, after marijuana, over-the-counter and prescription medicines account for the most frequently abused drugs among 12th graders;

Whereas the access teenagers often have to prescription medicines in home medicine cabinets and the lack of understanding by teenagers of the potential harms of these powerful medicines make it more critical than ever to raise public awareness about the dangers of medicine abuse;

Whereas the Drug Enforcement Administration and many State and local law enforcement agencies have established drug disposal programs (commonly referred to as “take-back programs”) to facilitate the collection and destruction of unused, unwanted, or expired medications, thereby helping to take outdated or unused medications off household shelves and out of the reach of children and teenagers;

Whereas National Medicine Abuse Awareness Month promotes the message that over-the-counter and prescription medicines are to be taken only as labeled or prescribed, and that using such medicines to get high or in large doses can cause serious or life-threatening consequences;

Whereas observance of National Medicine Abuse Awareness Month should be encour-

aged at the national, state, and local levels to increase awareness of the abuse of medicines;

Whereas a nationwide prevention and education campaign has been launched by the national organization that represents 5,000 anti-drug coalitions nationwide, along with the association representing makers of over-the-counter medicines, to provide local coalitions with tools, training, and outreach strategies to engage and educate parents, grandparents, teachers, law enforcement officials, retailers, doctors, and other healthcare professionals about the potential harms of cough medicine abuse; and

Whereas educating the public about the dangers of medicine abuse, encouraging parents to talk about medicine abuse with their teenagers, mobilizing parents to safeguard their home medicine cabinets, and promoting abuse prevention are critical components of what must be a multi-pronged effort to curb over-the-counter and prescription medicine abuse: Now, therefore, be it

Resolved, That the Senate—

(1) designates the month of October 2012 as “National Medicine Abuse Awareness Month”; and

(2) urges communities to carry out appropriate programs and activities to educate parents and youth of the potential dangers associated with medicine abuse.

Whereas the public good is advanced when young people are taught the importance of good character and the positive effects that good character can have in personal relationships, in school, and in the workplace;

Whereas scholars and educators agree that people do not automatically develop good character and that, therefore, conscientious efforts must be made by institutions and individuals that influence youth to help young people develop the essential traits and characteristics that comprise good character;

HONORING THE CONTRIBUTIONS OF LODI GYALTSEN GYARI

Mr. REID. Mr. President, I ask unanimous consent that the Foreign Relations Committee be discharged from further consideration of S. Res. 557 and the Senate proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 557) honoring the contributions of Lodi Gyaltzen Gyari as Special Envoy of His Holiness the Dalai Lama and in promoting the legitimate rights and aspirations of the Tibetan people.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table with no intervening action or debate, and that any statements relating to the measure be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 557) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 557

Whereas Lodi Gyaltzen Gyari, who was born in Nyarong, Kham in 1949, was recognized according to Tibetan Buddhist tradition as a reincarnate lama and began his monastic studies at 4 years of age in Lhumorhab Monastery, which was located in what is now Kardze Prefecture, Sichuan Province;

Whereas, in 1958, 9-year-old Lodi Gyari fled Nyarong with his family to avoid pursuit by the Chinese People's Liberation Army and was said to have led his group to safety in India through prayer and divinations;

Whereas Lodi Gyari, as a young man in India, began a career-long commitment to the Tibetan struggle against Chinese oppression in Tibet, becoming editor for the Tibetan Freedom Press, founder of the Tibetan Review, the first English language journal published by Tibetans in exile, and a founding member of the Tibetan Youth Congress;

Whereas Lodi Gyari served as a civil servant in the Central Tibetan Administration of His Holiness the Dalai Lama, as Chairman of the Tibetan Parliament in exile, and as a Deputy Cabinet Minister for the Departments of Religious Affairs and Health and Cabinet Minister for the Department of Information and International Relations;

Whereas, in 1991, Lodi Gyari moved to the United States in the capacity of Special Envoy of His Holiness the Dalai Lama and was soon after selected to be President of the International Campaign for Tibet;

Whereas, for 3 decades, Lodi Gyari has met with leaders and diplomats of governments around the world and with Members of the United States Congress and parliaments of other nations—

(1) to explain the Tibetan position with regard to engagement with China;

(2) to urge supportive strategies and policies from governments;

(3) to explain the Dalai Lama's "Middle Way" philosophy of seeking genuine autonomy for Tibet within the People's Republic of China that contributes to harmony between the Tibetan and Chinese peoples; and

(4) to promote Tibetan statecraft as the Dalai Lama's senior ambassador-at-large;

Whereas, during his time as Special Envoy based in Washington, DC, Congress approved many policy and programmatic measures on Tibet, which served to institutionalize the Tibet issue within the Government of the United States, most notably the establishment of a Special Coordinator on Tibetan Issues within the Department of State and support for Tibetan refugees;

Whereas, in 1999, Lodi Gyari became a United States citizen;

Whereas in May 1998, His Holiness the Dalai Lama authorized Special Envoy Lodi Gyari to be the principal person to reestablish contact with the Chinese government on the Tibetan issue;

Whereas, between September 2002 and January 2010, Lodi Gyari led the Dalai Lama's negotiating team in 9 formal rounds of meetings with Chinese officials with tireless drive and immense skill, winning the respect of the international community;

Whereas Lodi Gyari presented the Chinese government with the Memorandum on Genuine Autonomy for the Tibetan People and its accompanying Note, thus detailing the Tibetan side's vision for a political solution for Tibet consistent within the framework of the Chinese constitutional and laws on autonomy;

Whereas Lodi Gyari, in service to the Dalai Lama, came to represent in national capitals around the world, the great hope and conviction that the rights of Tibetans could be protected and their repression could be ended.

Whereas, in the personally and professionally difficult task of representing Tibetan interests in dialogue with the People's Republic of China, Lodi Gyari demonstrated spirit, intelligence, and extraordinary tact, and brought civility, reason and a measure of mutual understanding to the Tibetan-Chinese relationship;

Whereas Lodi Gyari has credited the far-sighted wisdom of His Holiness the Dalai Lama in empowering the Tibetan people by his devolution of his political authority to an elected Tibetan leadership; and

Whereas, Lodi Gyari resigned his position, effective June 1, 2012, in the context of the deteriorating situation inside Tibet, including increasing incidents of Tibetan self-immolations, and expressing deep frustration over the lack of positive response from the Chinese side in their nearly 10-year dialogue, and in respect for the process of the devolution of political power to the elected Tibetan leaders.

Now, therefore, be it

Resolved, That the Senate—

(1) honors the service of Lodi Gyaltzen Gyari as Special Envoy of His Holiness the Dalai Lama;

(2) commends the achievements of Lodi Gyaltzen Gyari in building an international coalition of support for Tibet that recognizes—

(A) the imperative to preserve the distinct culture and religious traditions of Tibet; and

(B) that the Tibetan people are entitled under international law to their own identity and dignity and genuine autonomy within the People's Republic of China that fully preserves the rights and dignity of the Tibetan people;

(3) acknowledges the role of Lodi Gyaltzen Gyari, as a naturalized United States citizen, to promoting understanding in the United States of the Tibetan people, their culture
