

Upon joining CRS, Mr. Ahearn quickly established himself as a leading expert in U.S. trade policy. He wrote numerous reports and confidential memoranda and conducted hundreds of briefings for Members and congressional staff on a broad range of international economic issues. These issues addressed core topics on U.S. trade policy, such as U.S. trade laws to open markets for U.S. exporters, trade reorganization, the debate over free trade versus trade protectionism, and the future of U.S. trade policy. He also focused his authoritative and objective analysis on international financial issues, including the 2008 global financial crisis and the Eurozone sovereign debt crisis.

Mr. Ahearn is well known for his expertise and deep institutional knowledge of the global trading system, particularly with respect to the World Trade Organization and related multilateral "rounds" of trade negotiations over the past 4 decades. More recently, he led important innovative research on rising economic powers and their trade policy implications for the United States. As a policy issue of growing congressional interest, his insightful analysis will continue to support Congress in understanding the transformative changes underway in the global economy.

Mr. HATCH. Mr. President, I rise to join with Senator BAUCUS in commending Mr. Ahearn for his service. Over the years, Mr. Ahearn's impressive portfolio of work also examined major U.S. trading partner policies. Early on in his career, for example, he was a lead CRS expert on the U.S.-Japan trade and economic relationship during heightened trade tensions between our two countries. From September 1993 to August 1994, he worked for the Office of the U.S. Trade Representative, USTR, to serve as Director of Trade Strategy for Japan and China. More recently, Ray became the "go to" CRS analyst on the U.S.-EU trade and economic relationship, writing reports and confidential memoranda and consulting Congress on numerous topics, including on the EU's preferential trade agreements and regulatory issues.

Mr. Ahearn has been especially adept at examining complex issues in international economics of immediate importance to Congress and making his analysis accessible to an audience that approaches the issues with varying degrees of understanding. This skill has played an especially critical role in successfully conveying to Congress the complex, multidimensional challenges associated with globalization. For example, in 2009, Mr. Ahearn wrote a CRS report titled *The Global Economic Downturn and Protectionism* that addressed the issue of the perceived and real growth of trade restrictions by the United States and its trading partners in response to the global economic crisis that emerged in 2008. In analyzing the issue, he constructed an analytical

framework of three potential categories of restrictions that might be taken and the potential consequences of each. Mr. Ahearn applied a similar analysis in his timely CRS report *Globalization, Worker Insecurity and Policy Approaches*, which examined the complex relationship between the increased integration of the U.S. economy with the rest of the world and the decline in U.S. wages and worker security, an issue faced by all Members of Congress as they consider trade agreements and other global economic issues.

We wish Mr. Ahearn the very best in his retirement and thank him for his exemplary record of service to Congress in directly supporting our work on international trade and finance policy issues.

ADDITIONAL STATEMENTS

REMEMBERING BOBBY PRICE

• Mrs. BOXER. Mr. President, today I ask my colleagues to join me in honoring LT Bobby Price, who died this month in Chula Vista, CA. For many years, I had the pleasure and honor of working with this great champion of America's veterans.

In fact, just 2 months ago, despite his grave illness, Bobby traveled to Washington, DC as the representative of the Veterans of Foreign Wars to meet with me regarding veterans' healthcare, homelessness, and job opportunities for our returning troops. As always, I was impressed by Bobby's knowledge and understanding of issues affecting our veterans and by his passionate commitment to work on their behalf.

During more than 24 years on active duty in the U.S. Navy, Bobby was known for his diligence and determination to carry out any task. Later, he brought this same zeal and perseverance to his work as an advocate for veterans.

No matter how hard Bobby worked, he always made time for his family. As his wife, Julia, wrote, "Day after day he showed me, our children and grandchildren how much he cared for us by giving his time, compassion and generous spirit."

Bobby Price received many awards recognizing his remarkable dedication to veterans including the San Diego County Veteran of the Year award. He served as commander of all California Veterans of Foreign Wars posts and was active in other veterans organizations at the local, State, and national level. At the time of his death, he was president of the nonprofit Chula Vista Veterans Home Support Foundation and had served on the charity's board for 6 years.

On behalf of the people of California, who have benefitted so much from Bobby's life and work, I send my deepest gratitude and condolences to his wife, Julia; his sons, Paul Hoch, Russ Price, Marcus Bush, and Adam Price; his

daughter, Adriana Bush; and his five grandchildren. Bobby Price will be truly missed by all who were touched by his energy, passion for service, and devotion to his fellow veterans.●

OHIO UNIVERSITY POST CENTENNIAL

• Mr. BROWN of Ohio. Mr. President, I rise to commemorate the centennial of the Post, an independent, student-run newspaper at Ohio University in Athens, OH.

Finley Peter Dunne once noted that "the newspaper . . . comforts the afflicted, and afflicts the comfortable." Newspapers also connect concerned citizens with their elected officials by providing a venue for valuable discussion on issues that affect our lives and communities. It is no secret that a free press is critical to strengthening and preserving our democracy.

For 100 years, students at Ohio University have celebrated their first amendment rights by creating a newspaper that informs residents, students, and business leaders in Athens County about vital news on campus, around Ohio, and throughout the world.

When students are encouraged to present structured, well-written views in writing, they are given the opportunity to develop life-long skills that will serve them as citizens—and leaders—of our enduring American institutions.

Ohio University has produced many first-class journalists, including thirteen Pulitzer Prize winners and reporters and columnists whose bylines and photographs appear in our Nation's leading newspapers. I regularly witness the fine reporting of several Post alumni, including Columbus Dispatch senior editor Joe Hallett and Washington correspondent Jessica Wehrman, among others.

As the tools and resources of journalism evolve, the Post continues to respond to a changing world. Whether students read the news on a handheld device or hold newsprint in their hands, Ohio University students can expect to hear from an independent voice on campus and in Athens.

Throughout the next century, the Post will undoubtedly continue to play a critical role in training student-journalists to shape and inform Ohio University. As we mark this milestone, it is my privilege to salute the students who work to keep this publication alive while fully participating in our first amendment freedoms. As the proud husband of a Pulitzer Prize-winning columnist, Connie Schultz, I have immense respect for journalists and the role they play in the public sphere. Improving our democracy starts with papers like the Post, that are willing to cultivate America's next generation of journalists.●

COMPLETION OF THE SERIES CULTURE AND CIVILIZATION OF CHINA

• Mr. LIEBERMAN. Mr. President, I wish to commemorate the completion of the series, "Culture and Civilization of China," published jointly by Yale University and China International Publishing Group. Having been published since the early 1990s, the award winning series will be concluded this year with its final volume, "Chinese Silks." The series has brought together leaders from both the United States and China. Former President George H. W. Bush and Secretary of State Henry Kissinger have each head consulting committees.

I congratulate everyone who worked to make this series happen, in particular the Director of Yale University Press John Donatich, the President of China International Publishing Group Zhou Mingwei, and U.N. Under Secretary General Joseph V. Reed.

I ask that Under Secretary General Reed's remarks at a September 19, 2012, event to celebrate the completion of this series be printed in the RECORD.

The remarks follow.

REMARKS BY AMBASSADOR JOSEPH VERNER REED AT THE CELEBRATORY LUNCHEON FOR THE CONCLUSION OF THE CHINESE CULTURE & CIVILIZATION PUBLISHING PROJECT WITH YALE UNIVERSITY PRESS AND THE CHINESE INTERNATIONAL PUBLISHING GROUP, SEPTEMBER 19, 2012

We have come a long, long way with the great publishing project known as CCC . . . started in 1988 and completed with our final volume (our ninth) on "Silks" this autumn.

In President Levin's words—"CCC is the "Crown Jewel" of Yale University".

I have been very proud to have been associated with the Press and CIPG on this historic publishing adventure.

Our Honorary Chair President George H.W. Bush has declared:

"I have been privileged to serve as Honorary Chair for the Culture & Civilization of China project. The CCC project has had a profound impact on international relations between China and the United States in a way that no other undertaking has accomplished. The achievement of collaboration in the development of this superb series of beautiful volumes examining the cultural and artistic heritage of China will serve as a model of cooperation for the future generations committed to building an enduring bond between our two great countries".

The Chair of the Advisory Council Dr. Henry A. Kissinger has called CCC—a "seminal work".

China has recognized the effort with bestowing the highest Award—"The Special Book Awards of China" to President Levin and yours truly in the Great Hall of the People, by Madame Liu Yangdon, a member of China's Politburo and State Councilor.

CCC has published nine volumes—several having been awarded distinguished honors the volume on painting {Three Thousand Years of Chinese Painting} (1997) won The Hawkins Prize, the highest award in the publishing industry. This volume was the State Gift of the People's Republic to the United States during President Jiang Zeming's State Visit in 1997. President Jiang Zeming gave a copy of this work and the volume on Chinese Architecture to President Bush for the Bush Presidential Library in 2002.

President Hu Jintao visited Yale University in 2006 and donated a large number of

Chinese books to the University including the Culture & Civilization series. President Hu also introduced the newly published Chinese Sculpture to Yale faculty, staff and students.

The publishing effort was arduous and not without many differences and difficulties. It is a miracle that we published the volumes in such a cooperative manner. How can one forget the drama with our very first volume on "Painting"? The map of China caused great review/discussion—back and forth for weeks—the borders, the provinces, the islands. There were other "to and froes" but, in the end we have had "a splendid and cooperative result".

There are so many to salute and thank for their efforts starting with President Levin, Vice President Linda Lorimer, former Yale University Press Director John G. Ryden (the godfather of CCC), current YUP Director John Donatich and, of course, all our colleagues at CIPG led by Vice Minister Cai Mingzhao, President Zhou and the distinguished and brilliant Editor Huang Youyi.

To the donors to CCC a special vote of appreciation and admiration for their generosity.

CCC involved 435 specialists including 56 authors, 39 translators and 340 consultants. 348 Museums and research institutes from around the globe provided images, line-drawings, photographs and maps.

I thank Julianne Griffin and Taiping Chang Kneeknes and Mary Pasti and Cynthia Forbes for their signal contributions. A special salute to Charles Hill who first introduced me to the Press for work on the CCC project and to James Watt of the Metropolitan Museum for superb counsel.

All in all, CCC was a splendid effort. It has truly contributed to the mutual understanding of the People's Republic and the United States as well as having provided a platform for education for citizens from around the world.

CCC is an historic publishing project. It is a gift for future generations.

Once again, a salute and vote of thanks to one and all.●

RECOGNIZING THE HUDSON RIVER SCHOOL

• Mr. MENENDEZ. Mr. President, for half a century after its formation in the 1820s, the Hudson River School was the dominant movement in American art. Its 10 celebrated painters were inspired by the scenery of the Catskills Mountains and the Hudson Valley, with its panoramic vistas and natural landscapes. These artists helped create a conservation and environmental movement whose legacy lives on today. The Hudson River School paintings helped inspire the development of the National Park Service.●

RECOGNIZING HYDRO-PHOTON, INC.

• Ms. SNOWE. Mr. President, 70 percent of the earth is covered by water. Of that, 98 percent can be found in our oceans, which makes it unusable for drinking due to the salt content. Only about 2 percent of the world's water is fresh and, once polar ice caps and glaciers are subtracted, it is a very small percentage that is available for human consumption. Here in the United States we are blessed with, and rely on,

an abundance of available clean drinking water. However, even here, mechanical failures, natural disasters, and remoteness of location, can diminish the availability of this vital resource.

I rise today to recognize Hydro-Photon, located in Blue Hill, ME, a company that has identified this problem and works diligently to supply innovative, accessible solutions. By harnessing and shrinking the ultraviolet—UV—technology used by many municipal water treatment plants, Hydro-Photon founder Miles Maiden created the SteriPEN which offers the same safe, efficient water purification used by the treatment plants in a portable, personal device.

The SteriPEN, originally patented in 1999, was the first portable UV water purifier on the market. The product kills viruses, bacteria, and protozoa by emitting UV light that is absorbed by the microbes, preventing their reproduction. With this compact purifier, users are able to have safe drinking water anywhere.

A company conscious of the need to preserve and protect our natural beauty and resources seems right at home in my home State where we are blessed with serene mountains and foothills, dense untouched wilderness, and a shoreline both beautiful and bountiful. Hydro-Photon is dedicated to the preservation and enjoyment of our natural splendors and with the clean water supplied by their SteriPEN, they are making it easier and safer for all to enjoy the great outdoors not only in Maine but around the world.

Not only useful to the active outdoorsmen, the SteriPEN finds use in a vast array of situations and locations. One example is the recent hurricane Sandy that had devastating affects along the northeastern coast. Hydro-Photon recognized the necessity of clean water in such dire situations and selflessly stepped up to help, donating SteriPENs to those affected by the storm in New York and New Jersey.

For their inventiveness, dedication, and compassion for supplying an element so basic to human life, Hydro-Photon is truly a remarkable company. I am proud to extend my congratulations on their success and offer my best wishes for the future.●

TRIBUTE TO KELSEY LUCKHURST

• Mr. THUNE. Mr. President, today I wish to recognize Kelsey Luckhurst, an intern in my Aberdeen, SD, office, for all of the hard work she has done for me, my staff, and the State of South Dakota over the past several months.

Kelsey is a native of Garden City, SD and a graduate of Clark High School. Currently, she is attending Northern State University, where she is pursuing degrees in history and political science. She is a very hard worker who has been dedicated to getting the most out of her internship experience.

I would like to extend my sincere thanks and appreciation to Kelsey for
