The costs of agreements under this section for any year may be paid from annual appropriations for that year. Funds received by the Secretary as reimbursement for providing installation-support services pursuant to such an agreement shall be credited to the appropriation or account charged with providing installation support.

“(d) **DEFINITIONS.**—In this section:

“(1) The term ‘installation-support services’ means those services, supplies, resources, and support typically provided by a State or local government for its own needs and without regard to whether such services, supplies, resources, and support are provided to its residents generally, except that the term does not include security-guard or fire-fighting functions.

“(2) The term ‘local government’ includes a county, parish, municipality, city, town, township, local public authority, school district, special district, and any agency or instrumentality of a local government.

“(3) The term ‘State’ means the several states, the District of Columbia, the Commonwealths of Puerto Rico and the Northern Mariana Islands, American Samoa, Guam, and the United States Virgin Islands, and any agency or instrumentality of a State.”.

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of such chapter is amended by inserting at the end the following new item:

“Sec. 2336. Intergovernmental support agreements with State and local governments.”.

SA 3033. Mr. KYL (for himself and Mr. CORKER) submitted an amendment intended to be proposed by him to the bill S. 3254, to authorize appropriations for fiscal year 2013 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle C of title XXXI, add the following:

SEC. 3136. REPORT ON FEASIBILITY, COST, AND ADVISABILITY OF REUSING PITS IN NUCLEAR WARHEADS.

(a) **FINDINGS.**—Congress makes the following findings:

(1) A key concept of the proposed interim plutonium pit strategy of the National Nuclear Security Administration is to reuse existing pits to supplement the 20 to 30 pits per year that the Administration asserts may be manufactured at Los Alamos National Laboratory, given extensive modifications to current facilities.

(2) Dr. Charles McMillan, director of the Los Alamos National Laboratory, testified before Congress on April 18, 2012, that “the extensive work required to convert these concepts into systems that could be certified is yet to be done”. Dr. McMillan elaborated that “we must do the scientific work to further understand the effects of aging and to provide modern safety, safety that starts [with insensitive] high explosive systems. If we choose this path, it will require an investment over the next 5 to 10 years.”.

(3) Pit lifetime is another critical aspect of the proposed interim plutonium strategy. The National Nuclear Security Administration has confidence that pits will last up to

100 years. Yet, Dr. Siegfried Hecker, former director of Los Alamos National Laboratory and a leading plutonium metallurgist, was quoted on July 17, 2012, as saying, “We have never done enough of those [plutonium lifetime] experiments that would make me feel more comfortable with plutonium lifetimes in pits. So as far as I’m concerned, we still haven’t demonstrated that these pits can last 50, 60, 80 or 100 years as some people claim.”.

(4) Regarding the performance of older pits, a 2007 report by the private scientific advisory group known as JASON suggested that “there must be a more detailed understanding of the different types of dynamic strengths involved in the weapons codes, and then a more complete understanding of how these strengths vary with aging through relevant experimental and theoretical work. This is fundamentally difficult . . . New experiments should be carried out on both naturally and artificially aged [plutonium].”.

(b) REPORT REQUIRED.—Not later than 60 days after the date of the enactment of this Act, the Secretary of Energy and the Secretary of Defense shall jointly submit to the congressional defense committees a report on the feasibility, cost, and advisability of reusing pits in nuclear warheads that includes the following:

(1) An assessment of the technical work and experimentation that needs to be done to determine whether or not pit reuse is likely to be a successful strategy that leads to the certification of the safety, security, and reliability of nuclear warheads using those pits and the schedule and cost for that work and experimentation.

(2) A description of the criteria that must be met to determine whether nuclear warheads that reuse pits can be certified as safe, secure, and reliable and an estimate of the time at which the National Nuclear Security Administration anticipates having sufficient data to make such a determination.

(3) A description of the experiments that have been performed to determine whether nuclear warheads that reuse pits can be certified as safe, secure, and reliable and an assessment of the results of those experiments.

(4) An assessment of how pursuing pit reuse increases the cost and complexity of life extension programs and program planning by the National Nuclear Security Administration and the effect of pursuing pit reuse on the safety, security, and reliability of nuclear warheads.

(5) An assessment of the extent to which pursuing pit reuse, as opposed to manufacturing new pits, limits the incorporation of enhanced safety and security features into life extension programs and limits improvements to the performance margin in such programs.

(6) A description of the technical process for and cost of—

(A) requalifying an existing pit for reuse with a weapon for which it was designed; and

(B) requalifying an existing pit for reuse with a weapon for which it was not designed.

(7) An assessment of the extent which the Nuclear Weapons Council has reviewed the processes described in paragraph (6) and the results of any such reviews.

(8) An explanation for the difference between the assessment of the National Nuclear Security Administration with respect to the lifetime of pits and the assessment of Dr. Siegfried Hecker described in subsection (a)(3).

(9) An assessment of the work that has been done by the national security laboratories of the Department of Energy or by other entities with respect to pit aging since 2007 and the results of that work.

(10) An assessment of the anticipated level of confidence of the Secretary of Energy and

the Secretary of Defense with respect to experiments to artificially age plutonium and any concerns that there may be differences between natural and artificial aging of plutonium.

(11) An assessment of experiments that have been performed to understand the performance of older pits across the full stockpile-to-target sequence of nuclear warheads, including in highly dynamic environments, and the results of those experiments.

(12) A statement of the military requirement for pit production to have a responsive infrastructure capable of rapidly responding to technical or geopolitical strategic surprises.

SA 3034. Mr. BROWN of Massachusetts (for himself and Mr. KERRY) submitted an amendment intended to be proposed by him to the bill S. 3254, to authorize appropriations for fiscal year 2013 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

(5) An assessment of the extent to which the Government of Afghanistan will provide continuing and enduring support to the criminal justice system of Afghanistan for purposes of maintaining the rule of law in Afghanistan after December 31, 2014.

(b) DEFINITIONS.—In this section:

(1) The term “detention facilities in Afghanistan under the control of the United States” means facilities in Afghanistan established to hold persons consistent with the law of war and international humanitarian law, including Additional Protocol II of 1977 to the Geneva Convention of 1949.

(2) The term “enemy combatant” means an individual who—

(A) after September 11, 2001, has purposefully engaged in or materially supported hostilities against the United States or its coalition partners; or

(B) is a member of, part of, or operated in a clandestine, covert, or military capacity on behalf of the Taliban, al Qaeda, or associated forces.

(3) The term “high-risk”, with respect to an enemy combatant, means that the transfer of the enemy combatant to the Government of Afghanistan would create unacceptable national security risks to the United States and its coalition partners.

SEC. 1536. REPORT ON INSIDER ATTACKS IN AFGHANISTAN AND THEIR EFFECT ON THE UNITED STATES TRANSITION STRATEGY FOR AFGHANISTAN.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States security strategy in Afghanistan, as established by the President and reaffirmed at the North Atlantic Treaty Organization Conference in Chicago in May 2012 and the North Atlantic Treaty Organization Defense Ministerial in Brussels in October 2012, prioritizes a process of “irreversible transition” of security responsibility from the International Security Assistance Force (ISAF) to the Afghanistan National Security Forces (ANSF) by the end of 2014, and the training of “sufficient and capable” Afghanistan National Security Forces by the Afghanistan Government through the assistance of international donors.

(2) As a key part of the strategy in Afghanistan, North Atlantic Treaty Organization/International Security Assistance Force (NATO/ISAF) forces have conducted partnered combat and training operations with the Afghanistan National Security Forces. In the course of these operations, as of November 13, 2012, there have been at least 60 deaths and 80 non-fatal casualties from insider attacks conducted by members of the Afghanistan National Security Forces or insurgent infiltrators in Afghanistan in 2012. These attacks account for 16 percent of coalition casualties in Afghanistan in 2012, an almost three-fold increase in the percentage of casualties caused by such attacks in 2011 and more than 16 times greater than the percentage of casualties caused by such attacks in 2008 and earlier.

(3) In September 2012, in a media interview, General John Allen, Commander of North Atlantic Treaty Organization/International Security Assistance Force forces in Afghanistan, stated that “we’re willing to sacrifice a lot for this campaign, but we’re not willing to be murdered for it”, in response to a question on insider attacks in Afghanistan.

(4) In September 2012, General Martin Dempsey, Chairman of the Joint Chiefs of Staff, stated that insider attacks in Afghanistan were a “very serious threat to the campaign” and stated that “something has to change” to rectify the situation.

(b) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall, in consultation with the Secretary of State and the Commander of North Atlantic Treaty Organization/International Security Assistance Force forces in Afghanistan, submit to Congress a report on the attacks and associated threats by Afghanistan National Security Forces personnel, Afghanistan National Security Forces impersonators, and private security

contractors against United States, Afghanistan, and coalition military and civilian personnel (“insider attacks”) in Afghanistan, and the effect of these attacks on the overall transition strategy in Afghanistan.

(c) ELEMENTS.—The report required by subsection (b) shall include the following:

(1) A description of the nature and proximate causes of the attacks described in subsection (b), including the following:

(A) An estimate of the number of such attacks on United States, Afghanistan, and coalition military personnel since January 1, 2007.

(B) An estimate of the number of United States, Afghanistan, and coalition personnel killed or wounded in such attacks.

(C) The circumstances or conditions that may have influenced such attacks.

(D) An assessment of the threat posed by infiltration, and a best assessment of the extent of infiltration by insurgents into the Afghanistan National Security Forces.

(E) A description of trends in the prevalence of such attacks, including where such attacks occur, the political and ethnic affiliation of attackers, and the targets of attackers.

(2) A description of the restrictions and other actions taken by the United States and North Atlantic Treaty Organization/International Security Assistance Force forces to protect military and civilian personnel from future insider attacks, including measures in predeployment training.

(3) A description of the actions taken by the Government of Afghanistan to prevent and respond to insider attacks, including improved vetting practices.

(4) A description of the insider threat-related factors that will influence the size and scope of the post-2014 training mission for the Afghanistan National Security Forces.

(5) An assessment of the impact of the insider attacks in Afghanistan in 2012 on the overall transition strategy in Afghanistan and its prospects for success, including an assessment how such insider attacks impact—

(A) partner operations between North Atlantic Treaty Organization/International Security Assistance Force forces and Afghanistan National Security Forces;

(B) training programs for the Afghanistan National Security Forces, including proposed training plans to be executed during the post-2014 training mission for the Afghanistan National Security Forces;

(C) United States Special Forces training of the Afghan Local Police and its integration into the Afghanistan National Security Forces; and

(D) the willingness of North Atlantic Treaty Organization/International Security Assistance Force allies to maintain forces in Afghanistan or commit to the post-2014 training mission for the Afghanistan National Security Forces.

(6) An assessment of the impact that a reduction in training and partnering would have on the independent capabilities of the Afghanistan National Security Forces, and whether the training of the Afghanistan National Security Forces should remain a key component of the United States and North Atlantic Treaty Organization strategy in Afghanistan.

(d) UNCLASSIFIED EXECUTIVE SUMMARY.—The report submitted under subsection (c) shall include an executive summary of the contents of the report in unclassified form.

SA 3043. Ms. COLLINS (for herself, Mrs. SHAHEEN, Mr. PORTMAN, Mr. UDALL of Colorado, Ms. SNOWE, and Mr. WICKER) submitted an amendment intended to be proposed by her to the bill

(a) PILOT PROGRAM REQUIRED.—Commencing not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall carry out a pilot program to determine the feasibility and advisability of requiring that the athletic footwear used by Army recruits undergoing Initial Entry Training complies with the domestic source requirements in section 2533(a) of title 10, United States Code.

(b) ELEMENTS.—In carrying out the pilot program, the Secretary shall—

(1) ensure that Army recruits, upon beginning Initial Entry Training, are provided with athletic footwear that complies with the domestic source requirements referred to in subsection (a), except that recruits may be provided with athletic footwear that does not comply with such domestic source requirements if such footwear is medically required to meet unique physiological needs that cannot be met with athletic footwear that complies with such requirements;

(2) designate the Under Secretary of Defense for Acquisition, Technology, and Logistics as responsible for the sourcing and distribution of athletic footwear produced in compliance with such domestic source requirements for purposes of the pilot program;

(3) require that the Department of the Army direct the appropriate program office to develop specifications for athletic footwear to comply with such domestic source requirements;

(4) structure the pilot with the goal of incorporating products from multiple domestic suppliers of athletic footwear; and

(5) require that to the extent any of the specified components of the final footwear products cannot be sourced domestically, necessary accommodations be made in accordance with the provisions of section 2533a(c) of title 10, United States Code.

(c) DURATION.—The Secretary shall carry out the pilot program for not fewer than three years, and not more than five years, beginning on the date of the commencement of the pilot program.

(4) During the past two years, both the overall number of backlogged claims and the percentage of all pending claims that are backlogged have doubled.

(5) In order to reduce the claims backlog at regional offices of the Department of Veterans Affairs located in Texas, the Texas Veterans Commission announced two initiatives on July 19, 2012, to partner with the Department of Veterans Affairs—

(A) to assist veterans whose claims are already backlogged to complete development of those claims; and

(B) to help veterans who are filing new claims to fully develop those claims prior to filing them, shortening the processing time required.

(6) The common goal of the two initiatives of the Texas Veterans Commission, called the “Texas State Strike Force Team” and the “Fully Developed Claims Team Initiative”, is to reduce the backlog of claims pending in Texas by 17,000 within one year.

(7) During the first two months of these new initiatives, the Texas Veterans Commission helped veterans complete development of more than 2,500 backlogged claims and assisted veterans with the submission of more than 800 fully developed claims.

(9) At the same hearing, Mr. John Limpose, director of the regional office of the Department of Veterans Affairs in Waco, Texas, testified that the “TVC is working very, very well” with regional offices of the Department in Texas, calling the Texas Veterans Commission a “very positive story that we can branch out into . . . all of our stakeholders.”

At the end of subtitle D of title XII, add the following:

SEC. 1246. STRATEGY FOR PROMOTING THE SECURITY OF AFGHAN WOMEN AND GIRLS DURING THE SECURITY TRANSITION PROCESS.

(a) **FINDINGS.**—Congress makes the following findings:

(1) According to the Department of Defense's April 2012 Report on Progress Toward Security and Stability in Afghanistan:

(A) “U.S. and coalition forces will continue to degrade the Taliban-led insurgency in

order to provide time and space to increase the capacity of the Afghan National Security Forces and the Afghan Government so they can assume full responsibility for Afghanistan's security by the end of 2014."

(B) "Transition to Afghan security lead began in July 2011 and transition to full Afghan security responsibility will be complete country-wide by the end of 2014."

(C) "The security of the Afghan people and the stability of the government are used to judge provincial readiness to move to each successive stage of transition implementation."

(D) For each area designated for transition, a transition implementation plan is developed by the Government of Afghanistan, NATO, and ISAF and approved by the Joint Afghan-NATO Inteqal Board (JANIB). JANIB is also responsible for recommending areas to enter and exit the transition process.

(2) According to a 2002 study on Women, Peace and Security submitted by the Secretary-General of the United Nations pursuant to Security Council resolution 1325 (2000), "the suspension of or restriction on women's enjoyment of their human rights" can act as an early-warning indicator of impending or renewed conflict. In Afghanistan, restrictions on women's mobility and rights can signal the presence of extremist or insurgent elements in a community.

(3) The security of Afghan women and girls in areas undergoing security transitions will be an important gauge of the transition strategy's success. Indicators by which to measure women's security include the mobility of women and girls, the participation of women in local government bodies, the rate of school attendance for girls, women's access to government services, and the prevalence of violence against women.

(4) Maintaining and improving physical security for Afghan women and girls throughout the country is critical in order for women and girls to take advantage of opportunities in education, commerce, politics, and other areas of public life, which in turn is essential for the future stability and prosperity of Afghanistan.

(5) Women who serve as public officials at all levels of the Government of Afghanistan face serious threats to their personal security and that of their families. Many female officials have been the victims of violent crimes, but they are generally not afforded official protection by the Government of Afghanistan or security forces.

(6) Protecting the security and human rights of Afghan women and girls requires the involvement of Afghan men and boys through education about the important benefits of women's full participation in social, economic, and political life. Male officials and security personnel can play a particularly important role in supporting and protecting women and girls.

(7) The Chicago Summit Declaration issued by NATO in May 2012 states: "As the Afghan National Police further develop and professionalize, they will evolve towards a sustainable, credible, and accountable civilian law enforcement force that will shoulder the main responsibility for domestic security. This force should be capable of providing policing services to the Afghan population as part of the broader Afghan rule of law system."

(8) Women face significant barriers to full participation in the ANA and ANP, including a discriminatory or hostile work environment and the lack of separate facilities designed for female personnel.

(9) As of September 2012, female recruitment and retention rates for the Afghan National Security Forces are far below published targets, as follows:

(A) Approximately 1,700 women serve in the Afghan National Security Forces, or less than half of one percent of the total force.

(B) In 2010, President Hamid Karzai announced plans to recruit and train 5,000 women in the Afghan National Police, or approximately 3 percent of the force, by 2014. Currently, there are approximately 1,370 women in the ANP, or 0.87 percent of the police force.

(C) Approximately 350 women currently serve in the Afghan National Army, representing only 0.17 percent of the force. The Government of Afghanistan has said that its goal is to achieve a force that is 10 percent female. As of May 2012, approximately 3 percent of new ANA recruits were women.

(10) Male security personnel often do not respond to threats or incidences of violence against women, particularly at the local level. They largely lack the training and understanding needed to respond appropriately and effectively to situations involving women. According to the Department of Defense's April 2012 Report on Progress Toward Security and Stability in Afghanistan:

(A) The Afghan Ministry of Defense "lacks the combination of policies, procedures, and execution to promote opportunity and fair and respectful treatment of women in the force."

(B) The Afghan Ministry of Interior "faces significant challenges in fully integrating and protecting women in the ANP workforce, especially among operational units at the provincial and district levels".

(C) In the Afghan National Police, "Many Provincial Headquarters Commanders do not accept policewomen, as they prefer male candidates and lack adequate facilities to support females."

(D) "While women are greatly needed to support police operations, a combination of cultural impediments, weak recruitment, and uneven application of policies hinder significant progress."

(E) "Although stronger documentation, implementation, and enforcement of policies, procedures, and guidance to better integrate women will help, time will be needed to change the cultural mores that form the basis of many of the current impediments."

(11) The United States, the North American Treaty Organization, and United States coalition partners have made firm commitments to support the human rights of the women and girls of Afghanistan, as evidenced by the following actions:

(A) According to the United States National Action Plan on Women, Peace and Security, "integrating women and gender considerations into peace-building processes helps promote democratic governance and long-term stability," which are key United States strategic goals in Afghanistan.

(B) The National Action Plan also states that "the engagement and protection of women as agents of peace and stability will be central to United States efforts to promote security, prevent, respond to, and resolve conflict, and rebuild societies." This policy applies to United States Government efforts in Afghanistan, where addressing the security vulnerabilities of Afghan women and girls during the period of security transition is an essential step toward long-term stability.

(C) The Chicago Summit Declaration issued by NATO in May 2012 states: "We emphasize the importance of full participation of all Afghan women in the reconstruction, political, peace and reconciliation processes in Afghanistan and the need to respect the institutional arrangements protecting their rights. We remain committed to the implementation of United Nations Security Council Resolution (UNSCR) 1325 on women, peace and security. We recognize also the

need for the protection of children from the damaging effects of armed conflict as required in relevant UNSCRs."

(12) The Strategic Partnership Agreement signed between the United States and Afghanistan by President Obama and President Karzai in June 2012 states, "Consistent with its Constitution and international obligations, Afghanistan shall ensure and advance the essential role of women in society, so that they may fully enjoy their economic, social, political, civil and cultural rights."

(b) STRATEGY TO PROMOTE SECURITY OF AFGHAN WOMEN.—

(1) IN GENERAL.—Not later than 60 days after the date of the enactment of this Act, the Secretary of Defense, in concurrence with the Secretary of State, shall submit to the appropriate congressional committees a strategy to be implemented by the Department of Defense, working with the NATO Training Mission Afghanistan (NTM-A) and Afghan partners, to promote the security of Afghan women during the security transition process.

(2) ELEMENTS.—The strategy required under paragraph (1) shall include the following elements:

(A) A strategy to monitor and respond to changes in women's security conditions in areas undergoing transition, including the following actions:

(i) Seeking to designate a Civilian Impact Advisor on the Joint Afghan-NATO Inteqal Board (JANIB) to assess the impact of transition on male and female civilians and ensure that efforts to protect women's rights and security are included in each area's transition implementation plan.

(ii) Reviewing existing indicators against which sex-disaggregated data is collected and, if necessary, developing additional indicators, to ensure the availability of data that can be used to measure women's security, such as—

(I) the mobility of women and girls;

(II) the participation of women in local government bodies;

(III) the rate of school attendance for girls;

(IV) women's access to government services; and

(V) the prevalence of violence against women; and incorporating those indicators into ongoing efforts to assess overall security conditions during the transition period.

(iii) Integrating assessments of women's security into current procedures used to determine an area's readiness to proceed through the transition process.

(iv) Working with Afghan partners, coalition partners, and relevant United States Government departments and agencies to take concrete action to support women's rights and security in cases of deterioration in women's security conditions during the transition period.

(B) A strategy to increase gender awareness and responsiveness among Afghan National Army and Afghan National Police personnel, including the following actions:

(i) Working with Afghan and coalition partners to utilize training curricula and programming that addresses the human rights of women and girls, appropriate responses to threats against women and girls, and appropriate behavior toward female colleagues and members of the community; assessing the quality and consistency of this training across regional commands; and assessing the impact of this training on trainee behavior.

(ii) Working with national and local ANA and ANP leaders to develop and utilize enforcement and accountability mechanisms for ANA and ANP personnel who violate codes of conduct related to the human rights of women and girls.

(iii) Working with Afghan and coalition partners to implement the above tools and develop uniform methods and standards for training and enforcement among coalition partners and across regions.

(C) A strategy to increase the number of female members of the ANA and ANP, including the following actions:

(i) Providing, through consultation with Afghan partners, realistic and achievable objectives for the recruitment and retention of women to the ANA and ANP by the end of the security transition period in 2014.

(ii) Working with national and local ANA and ANP leaders and coalition partners to address physical and cultural challenges to the recruitment and retention of female ANA and ANP personnel, including through targeted recruitment campaigns, expanded training and mentorship opportunities, parity in pay and promotion rates with male counterparts, and availability of facilities for female personnel.

(iii) Working with national and local ANA and ANP leaders to increase understanding about the unique ways in which women members of the security forces improve the force's overall effectiveness.

(iv) Working with national and local ANA and ANP leaders to develop a plan for maintaining and increasing the recruitment and retention of women in the ANA and ANP following the completion of the security transition.

(3) REPORT.—The Secretary of Defense shall include in each report on progress toward security and stability in Afghanistan that is submitted to Congress under sections 1230 and 1231 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 385, 390) a section describing actions taken to implement the strategy required under this subsection.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Armed Services and the Committee on Foreign Relations of the Senate; and

(2) the Committee on Armed Services and the Committee on Foreign Affairs of the House of Representatives.

TITLE XVIII—AUDIT OF DEPARTMENT OF DEFENSE FINANCIAL STATEMENTS

SEC. 1801. SHORT TITLE.

This title may be cited as the “Audit the Pentagon Act of 2012”.

SEC. 1802. FINDINGS.

Congress makes the following findings:

(1) Section 9 of Article 1 of the Constitution of the United States requires all agencies of the Federal Government, including the Department of Defense, to publish “a regular statement and account of the receipts and expenditures of all public money”.

(2) Section 3515 of title 31, United States Code, requires the agencies of the Federal Government, including the Department of Defense, to present auditable financial statements beginning not later than March 1, 1997. The Department has not complied with this law.

(3) The Federal Financial Management Improvement Act of 1996 (31 U.S.C. 3512 note) requires financial systems acquired by the Federal Government, including the Department of Defense, to be able to provide information to leaders to manage and control the cost of government. The Department has not complied with this law.

(4) The financial management of the Department of Defense has been on the “High-Risk” list of Government Accountability Office, which means that the Department is not consistently able to “control costs; ensure basic accountability; anticipate future costs and claims on the budget; measure performance; maintain funds control; [and] prevent and detect fraud, waste, and abuse”.

(5) The National Defense Authorization Act for Fiscal Year 2002 (Public Law 107-107) requires the Secretary of Defense to report to Congress annually on the reliability of the financial statements of the Department of Defense, to minimize resources spent on producing unreliable financial statements, and to use resources saved to improve financial management policies, procedures, and internal controls.

(6) In 2005, the Department of Defense created a Financial Improvement and Audit Readiness (FIAR) Plan, overseen by a directorate within the office of the Under Secretary of Defense (Comptroller), to improve Department business processes with the goal of producing timely, reliable, and accurate financial information that could generate an audit-ready annual financial statement. In December 2005, that directorate, known as the FIAR Directorate, issued the first of a series of semiannual reports on the status of the Financial Improvement and Audit Readiness Plan.

(7) The National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) requires regular status reports on the Financial Improvement and Audit Readiness Plan described in paragraph (6), and codified as a statutory requirement the goal of the Plan in ensuring that Department of Defense financial statements are validated as ready for audit not later than September 30, 2017.

(8) At a September 2010 hearing of the Senate, the Government Accountability Office stated that past expenditures by the Department of Defense of \$5,800,000,000 to improve financial information, and billions of dollars more of anticipated expenditures on new information technology systems for that purpose, may not suffice to achieve full audit readiness of the financial statement of the Department. At that hearing, the Government Accountability Office could not predict when the Department would achieve full audit readiness of such statements.

SEC. 1803. AUDIT READINESS OF THE FINANCIAL STATEMENTS OF THE DEPARTMENT OF DEFENSE.

(a) INCLUSION OF STATEMENT OF BUDGET RESOURCES WITHIN FIAR PLAN.—Subsection (a)(2)(A) of section 1003 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2439; 10 U.S.C. 2222 note) is amended—

(1) in clause (i), by striking “and” at the end;

(2) by redesignating clause (ii) as clause (iv); and

(3) by inserting after clause (i) the following new clauses:

“(i) ensuring that a complete and validated statement of budgetary resources of the Department of Defense is ready by not later than September 30, 2014;

“(iii) ensuring that the full set of consolidated financial statements of the Department for the fiscal year ending September 30, 2017, and each fiscal year thereafter, are ready in a timely manner and in preparation for an audit, including submitting the reports not later than November 15, 2017, and each year thereafter, in order to seek an audit opinion on its financial statements; and”.

(b) DEFINITION OF VALIDATED AS READY FOR AUDIT.—Such section is further amended by adding at the end the following new subsection:

“(d) VALIDATED AS READY FOR AUDIT DEFINED.—In this section, the term ‘validated as ready for audit’ means the following:

“(1) In the case of the financial statements of a military department, that the audit agencies of the military department have reviewed such statements and determined, in writing, that such statements are ready for audit.

“(2) In the case of the financial statements of a Defense Agency, that the audit agencies of the Defense Agency have reviewed such statements and determined, in writing, that such statements are ready for audit.”.

(2) DEPARTMENT OF DEFENSE.—The reporting requirements specified in subsection (b) shall cease to be effective when an unqualified audit opinion is issued on the financial statements of the Department of Defense, including each of the military departments and the Defense Agencies.

(1) The requirement for semi-annual reports in section 1003(b) of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2440; 10 U.S.C. 2222 note).

(2) The requirement for annual reports in section 1008(a) of the National Defense Authorization Act for Fiscal Year 2002 (Public Law 107-107; 115 Stat. 1204; 10 U.S.C. 113 note).

(1) A list of each report of the Department of Defense required by law to be submitted to Congress which, in the opinion of the Under Secretary, would no longer be necessary if the financial statements of the Department of Defense were audited with an unqualified opinion.

(2) A list of each report of the Department required by law to be submitted to Congress which, in the opinion of the Under Secretary, interferes with the capacity of the Department to achieve an audit of the financial statements of the Department with an unqualified opinion.

SEC. ____ . SENSE OF CONGRESS REGARDING SPECTRUM REALLOCATION.

It is the sense of Congress that—

(1) the Nation’s mobile communications industry is a significant economic engine, by one estimate directly or indirectly supporting 3,800,000 jobs, or 2.6 percent of all United States employment, contributing \$195,500,000,000 to the United States gross domestic product and driving \$33,000,000,000 in productivity improvements in 2011;

(2) while wireless carriers are continually implementing new and more efficient technologies and techniques to maximize their existing spectrum capacity, there is a pressing need for additional spectrum for commercial mobile broadband services, with one report predicting that global mobile data traffic will increase 18-fold between 2011 and 2016 at a compound annual growth rate of 78 percent, reaching 10.8 exabytes per month by 2016;

(3) as the Nation faces the current spectrum shortage, consideration should be given to both the supply of spectrum for licensed networks and for unlicensed devices;

(4) while this additional demand can be met in part by reallocating spectrum from existing non-governmental uses, the reallocation of Federal Government spectrum for commercial use must also be part of the solution, given that, according to a 2012 Government Accountability Office study, the percentage of the most highly valued spectrum, that below 3700 MHz, used exclusively or predominantly by the Federal Government ranges from approximately 39 percent to 57 percent with exclusive Government use accounting for 18 percent of the total amount of spectrum below 3700 MHz;

(5) existing law ensures that Federal operations are not harmed as a result of a reallocation of spectrum for commercial use, including through the establishment of the Spectrum Relocation Fund to reimburse Federal users for the costs of planning and implementing relocation and, with respect to spectrum vacated by the Department of Defense, certification by the Secretaries of Defense and Commerce and the Chairman of the Joint Chiefs of Staff that replacement spectrum provides comparable technical characteristics to restore essential military capability;

(6) wherever possible, Federal Government spectrum identified for commercial use should be reallocated for such use;

(7) commercial users should only be required to share spectrum with government users as a transition mechanism while spectrum is being cleared by Federal users or in limited exclusion zones where relocation of existing Federal uses is not feasible, or where it can be determined that sharing will not significantly impair use of the spectrum for broadband services;

(8) among existing Federal Government bands, the spectrum between 1755–1780 MHz is particularly well-suited for reallocation to commercial use because it is identified internationally for commercial mobile services and is used for that purpose throughout most of the world and because it is immediately adjacent to existing domestic wireless spectrum and would fit seamlessly into the current mobile broadband spectrum portfolio allowing for more immediate equipment development and deployment;

(9) the Department of Defense should prepare a long term plan in consultation with relevant agencies and private sector stakeholders to determine equitable outcomes for the Nation in relation to spectrum use that balances the private sector’s demand for spectrum with national security needs;

(10) in most cases Federal operations can and should be relocated from this band, possibly except for a limited subset of operations in rural areas where a Federal Government station cannot be relocated without jeopardizing essential military capability;

(11) auctioning this band on a paired basis with the band between 2155–2180 MHz that was designated for auction under the Middle Class Tax Relief and Job Creation Act of 2012 would permit alignment with existing services, facilitate faster deployment of services, maximize efficient use of the spectrum, and yield more dollars in auction revenues than if the 1755–1780 MHz were auctioned by itself;

(12) the President should therefore expeditiously direct Federal users on the 1755–1780 MHz band to prepare, not later than May 31, 2013, a relocation plan that includes the costs of relocating from this band; and

(13) the Federal Communications Commission reallocate this band to commercial use and auction it on a paired basis with the band between 2155–2180 MHz.

(1) by striking “EXCEPTION.—The Chief” and inserting the following: “EXCEPTIONS.—

“(1) EXEMPTION AUTHORITY.—The Chief”;

SEC. 1246. SENSE OF THE SENATE ON THE ISRAELI IRON DOME DEFENSIVE WEAPON SYSTEM.

(a) FINDINGS.—The Senate makes the following findings:

(1) The citizens of Israel have suffered under a continual barrage of missiles, rockets, and mortar shells from the Hamas-controlled Gaza Strip.

(2) Hamas has been designated by the Secretary of State as a Foreign Terrorist Organization.

(3) Hamas and other terrorist groups in Gaza have routinely used human shields and launched rockets from civilian areas.

(4) Israel has gone to extraordinary lengths to avoid Palestinian civilian casualties, including aborting attacks on military targets because of the presence of civilians, alerting civilians to leave areas of potential conflict, and allowing the importation of medical and other supplies into Gaza.

(5) Israel faces additional rocket and missile threats from Lebanon and Syria.

(6) The Government of Iran has supplied Hamas with advanced longer range missiles such as the Fajar-5.

(7) Hamas has deployed these weapons to be fired from within their own civilian population.

(8) The Government of Israel, taking seriously the threat of short range rockets and mortars, designed, developed, and produced the Iron Dome system to address those threats.

(9) The Iron Dome system has successfully intercepted hundreds of rockets targeting population centers in Israel.

(10) The Iron Dome system has maintained a success rate of close to 90 percent.

(11) The Government of Israel currently maintains 5 Iron Dome batteries, a number insufficient to protect all of Israel.

(12) It appears that approximately 10 additional Iron Dome batteries are needed to protect all of Israel.

(13) The United States Government, recognizing the threat to Israeli citizens and desirous of promoting peace, approved funding to assist the Government of Israel in procuring Iron Dome batteries.

(14) Israel maintains a significant inventory of Iron Dome interceptors which has been reduced due to attacks from Gaza.

(15) Israel used a significant number of precision-guided munitions in order to destroy military targets while minimizing civilian casualties in its recent defensive effort in Gaza.

(16) President Barack Obama has expressed his intention to seek additional funding for Iron Dome and other United States-Israel missile defense systems.

(b) SENSE OF THE SENATE.—The Senate—

(1) reaffirms its commitment to the security of our ally and strategic partner, Israel;

(2) fully supports Israel’s right to defend itself against acts of terrorism;

(3) sympathizes with the families of Israelis who have come under the indiscriminate rocket fire from Hamas-controlled Gaza;

(4) recognizes the exceptional success of the Iron Dome Missile Defense system in defending the population of Israel;

(5) desires to help ensure that Israel has the means to defend itself against terrorist attacks, including through the acquisition of additional Iron Dome batteries and interceptors; and

(6) urges the Departments of Defense and State to explore with their Israeli counterparts and alert the Senate of any needs the

Israeli Defense Force may have for additional Iron Dome batteries, interceptors, or other equipment depleted during the current conflict.

DIVISION E—STOLEN VALOR ACT

SEC. 5001. SHORT TITLE.

This division may be cited as the “Stolen Valor Act of 2012”.

SEC. 5002. FINDINGS.

Congress find the following:

(1) Because of the great respect in which military service and military awards are rightfully held by the public, false claims of receiving such medals or serving in the military are especially likely to be harmful and material to employers, voters in deciding to whom paid elective positions should be entrusted, and in the award of contracts.

(2) Military service and military awards are held in such great respect that public and private decisions are correctly influenced by claims of heroism.

(3) False claims of military service or military heroism are an especially noxious means of obtaining something of value because they are particularly likely to cause tangible harm to victims of fraud.

(4) False claims of military service or the receipt of military awards, if believed, are especially likely to dispose people favorably toward the speaker.

(5) False claims of military service or the receipt of military awards are particularly likely to be material and cause people to part with money or property. Even if such claims are unsuccessful in bringing about this result, they still constitute attempted fraud.

(6) False claims of military service or the receipt of military awards that are made to secure appointment to the board of an organization are likely to cause harm to such organization through their obtaining the serv-

ices of an individual who does not bring to that organization what he or she claims, and whose falsehood, if discovered, would cause the organization’s donors concern that the organization’s board might not manage money honestly.

(7) The easily verifiable nature of false claims regarding military service or the receipt of military awards, the relative infrequency of such claims, and the fact that false claims of having served in the military or received such awards are rightfully condemned across the political spectrum, it is especially likely that any law prohibiting such false claims would not be enforced selectively.

(8) Congress may make criminal the false claim of military service or the receipt of military awards based on its powers under article I, section 8, clause 2 of the Constitution of the United States, to raise and support armies, and article I, section 8, clause 18 of the Constitution of the United States, to enact necessary and proper measures to carry into execution that power.

SEC. 5003. MILITARY MEDALS OR DECORATIONS.

“(b) **FALSE CLAIMS TO THE RECEIPT OF MILITARY DECORATIONS, MEDALS, OR RIBBONS AND FALSE CLAIMS RELATING TO MILITARY SERVICE IN ORDER TO SECURE A TANGIBLE BENEFIT OR PERSONAL GAIN.**—

“(1) **IN GENERAL.**—Whoever, with the intent of securing a tangible benefit or personal gain, knowingly, falsely, and materially represents himself or herself through any written or oral communication (including a resume) to have served in the Armed Forces of the United States or to have been awarded any decoration, medal, ribbon, or other device authorized by Congress or pursuant to Federal law for the Armed Forces of the United States, shall be fined under this title, imprisoned for not more than 6 months, or both.

“(2) **TANGIBLE BENEFIT OR PERSONAL GAIN.**—For purposes of this subsection, the term ‘tangible benefit or personal gain’ includes—

“(A) a benefit relating to military service provided by the Federal Government or a State or local government;

“(B) public or private employment;

“(C) financial remuneration;

“(D) an effect on the outcome of a criminal or civil court proceeding;

“(E) election of the speaker to paying office; and

“(F) appointment to a board or leadership position of a non-profit organization.

“(c) **DEFINITION.**—In this section, the term ‘Armed Forces of the United States’ means the Army, Navy, Air Force, Marine Corps, and Coast Guard, including the reserve components named in section 10101 of title 10.”.

SEC. 5004. SEVERABILITY.

If any provision of this division, any amendment made by this division, or the application of such provision or amendment to

Subtitle D—Other Matters

SEC. 3141. SENSE OF CONGRESS ON OVERSIGHT OF THE NUCLEAR SECURITY ENTERPRISE.

(a) FINDINGS.—Congress makes the following findings:

(1) In 2000, the National Nuclear Security Administration was established as an independent entity within the Department of Energy to manage and secure the nuclear weapons stockpile of the United States and to manage nuclear nonproliferation and naval reactor programs.

(2) Serious security and health incidents continue to occur at sites of the National Nuclear Security Administration.

(3) In September 2012, an official of the Government Accountability Office testified to Congress that lax laboratory attitudes toward safety procedures, laboratory inadequacies in identifying and addressing safety problems with appropriate corrective actions, and inadequate oversight by site offices of the National Nuclear Security Administration were responsible for nearly 100 safety incidents since 2000.

(4) On July 28, 2012, three unarmed individuals compromised security at the Y-12 National Security Complex in Oak Ridge, Tennessee, and according to the Government Accountability Office, “gained access to the protected security area directly adjacent to one of the nation's most critically important nuclear weapons-related facilities”.

(5) In June 2006, hackers attacked an unclassified computer system at the National

Nuclear Security Administration's Service Center in Albuquerque, New Mexico, and gained access to a file containing the names and social security numbers of more than 1,500 employees of the National Nuclear Security Administration.

(6) As early as February 2005, the Inspector General of the Department of Energy identified problems with the retrieval of badges from terminated employees at Los Alamos National Laboratory and other sites of the National Nuclear Security Administration.

(7) In 2004, a pattern of safety and security incidents that occurred over the course of a year prompted the stand-down of Los Alamos National Laboratory.

(8) The National Nuclear Security Administration, independent of the safety and security reform efforts of the Department of Energy, has launched an overhaul of its contracting oversight, placing an emphasis on contractor self-policing through an untested "contractor assurance" approach.

(9) The Government Accountability Office has given the contractor administration and project management capabilities of the National Nuclear Security Administration a "high risk" designation and found there to be insufficient qualified Federal acquisition professionals to "plan, direct, and oversee project execution".

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) there is a need for strong, independent oversight of the United States nuclear security enterprise;

(2) any attempt to reform oversight of the nuclear security enterprise that transfers oversight from the Department of Energy to the National Nuclear Security Administration, reduces protections for worker health and safety at facilities of the National Nuclear Security Administration to levels below the standards of the Department of Energy, or transfers construction appropriations for the nuclear security enterprise from the Department of Energy appropriation account to the military construction appropriation account, should be rejected;

(3) the Office of Health, Safety, and Security of the Department of Energy, which reports to the Secretary of Energy but is also accountable for routinely reporting to Congress on the performance with respect to safety and security of the Department, including the National Nuclear Security Administration, and the role of that Office in overseeing safety and security at the National Nuclear Security Administration, should not be diminished; and

(4) any future modifications to the management or structure of the nuclear security enterprise should be done in a way that maintains or increases oversight of critical construction, security, and acquisition capabilities.

Mr. COBURN submitted an amendment intended to be proposed by him to the bill S. 3254, to authorize appropriations for fiscal year 2013 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:
