SEC. 1024. NOTICE TO CONGRESS FOR THE REVIEW OF PROPOSALS TO NAME NAVAL VESSELS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Navy traces its ancestry to October 13, 1775, when an Act of the Continental Congress authorized the first vessel of a navy for the United Colonies. Vessels of the Continental Navy were named for early patriots and military heroes, Federal institutions, colonial cities, and positive character traits representative of naval and military virtues.

(2) An Act of Congress on March 3, 1819, made the Secretary of the Navy responsible for assigning names to vessels of the Navy. Traditional sources for vessel names customarily encompassed such categories as geographic locations in the United States; historic sites, battles, and ships; naval and military heroes and leaders; and noted individuals who made distinguished contributions to United States national security.

(3) These customs and traditions provide appropriate and necessary standards for the naming of vessels of the Navy.

(b) NOTICE TO CONGRESS.—Section 7292 of title 10, United States Code, is amended by adding at the end the following new subsection:

“(d)(1) The Secretary of the Navy may not announce or implement any proposal to name a vessel of the Navy until 30 days after the date on which the Secretary submits to the Committees on Armed Services of the Senate and the House of Representatives a report setting forth such proposal.

PART II—DUCK STAMPS

SEC. 3661. FINDINGS.

Congress finds that—

(1) Federal Migratory Bird Hunting and Conservation Stamps (commonly known as “duck stamps”) were created in 1934 as Federal licenses required for hunting migratory waterfowl;

(2)(A) duck stamps are a vital tool for wetland conservation;

(B) 98 percent of the receipts from duck stamp sales are used to acquire important migratory bird breeding, migration, and wintering habitat, which are added to the National Wildlife Refuge System; and

(C) those benefits extend to all wildlife, not just ducks;

(3) since its inception, the Federal duck stamp program has—

(A) generated more than \$500,000,000;

(B) preserved more than 5,000,000 acres of wetland and wildlife habitat; and

(C) been called one of the most successful conservation programs ever initiated;

(4)(A) since 1934, when duck stamps cost \$1, the price has been increased 7 times to the price in effect on the date of enactment of this Act of \$15, which took effect in 1991; and

(B) the price of the duck stamp has not increased since 1991, the longest single period without an increase in program history; and

(5)(A) with the price unchanged during the 20-year period preceding the date of enactment of this Act, duck stamps have lost 40 percent of their value based on the consumer price index, while the United States Fish and Wildlife Service reports the price of land in targeted wetland areas has tripled from an average of \$306 to \$1,091 per acre; and

(B) a duck stamp would need to cost more than \$24 as of the date of enactment of this Act just to maintain the earlier buying power of the stamp.

SEC. 3662. COST OF STAMPS.

Section 2 of the Migratory Bird Hunting and Conservation Stamp Act (16 U.S.C. 718b)
