STATEMENTS ON INTRODUCED
BILLS AND JOINT RESOLUTIONS

By Mr. LEAHY (for himself and Mr. COONS):

S. 3652. A bill to allow acceleration certificates awarded under the Patents for Humanity Program to be transferable; to the Committee on the Judiciary.

Mr. LEAHY. Mr. President, our intellectual property system in the United States is the envy of the world and the engine of economic growth. By granting inventors exclusive rights in their discoveries for a limited time, the patent system incentivizes research and development by independent inventors and large multinational companies. Consumers benefit from new technologies, and our economy benefits from continued investment.

I am introducing legislation today that will encourage patent holders to apply their intellectual property to address global humanitarian needs. This has long been an interest of mine. In 2006, I introduced legislation that would have created a statutory license to manufacture and export life saving medicines to eligible, developing countries.

Today's legislation, rather than creating a statutory license, improves on a program created by United States Patent and Trademark Office, PTO, earlier this year. The PTO's "Patents for Humanity" Program provides rewards to selected patent holders who apply their technology to a humanitarian issue that significantly affects the public health or quality of life of an impoverished population. Those who receive the award are given a certificate to accelerate certain PTO processes.
