

Act signed into law—a dream long overdue, a dream of the Dingell family, a dream finally realized for all Americans.

To work alongside JOHN DINGELL is to be inspired by his strength and passion, by the history of our institution, by the seriousness of our work. This year, we recognize JOHN DINGELL as the longest-serving Member in Congress. But it is not only about the length of his service—it is about the quality of his leadership.

It is an honor to serve with him as a colleague. It is a privilege to know him as a friend. It is a source of pride to work with this living legend in the Congress of the United States.

May we all continue to be moved and strengthened by the dedication, commitment, and conviction of the great JOHN DINGELL.

OFFSHORE ENERGY AND JOBS ACT

SPEECH OF

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 27, 2013

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 2231) to amend the Outer Continental Shelf Lands Act to increase energy exploration and production on the Outer Continental Shelf, provide for equitable revenue sharing for all coastal States, implement the reorganization of the functions of the former Minerals Management Service into distinct and separate agencies, and for other purposes:

Mr. LEVIN. Mr. Chair, I strongly oppose the offshore drilling bill before the House. Sadly, this legislation is representative of the unbalanced, partisan, and ultimately self-defeating approach that the Republican Majority has taken on energy issues.

H.R. 2231 would mandate lease sales along the east and west coasts and elsewhere with inadequate environmental review and scant attention given to local concerns. In total, leasing would be mandated off the coasts of 14 states, whether they want it or not. If this heavy-handed giveaway to the oil industry seems familiar, that's because it is. Last July, the Republican leadership brought a nearly identical bill before the House. That bill never advanced beyond the House, and this drilling bill won't either. The Senate won't take it up. The President has said he'd veto it, so other than demonstrating the Majority's fealty to Big Oil, why are we again wasting the House's time on this?

We're told that this bill is about making the U.S. more energy independent. Let the record show that domestic energy production is booming under the current Administration's policies. In 2012, American oil production reached a 20-year high. Natural gas production is at an all-time high. The U.S. is expected to surpass Saudi Arabia as the world's top oil producer within seven years.

We're also told that this bill is all about driving down gas prices for American families. What guarantee do we have that the oil and gas production mandated by this legislation would actually stay in the United States? Over the last decade, U.S. exports of petroleum products like gasoline and diesel fuel have nearly tripled. Every day U.S. refineries export

millions of gallons of refined petroleum products, including gasoline and diesel. This is no doubt good for the petroleum industry's bottom line, but it's hard to argue that it helps consumers at the pump.

At the end of the day, the country needs an all-the-above energy strategy, including responsible oil and gas development, increased energy efficiency, support for renewable energy, and investment in advanced energy research and development. Unfortunately, the House Majority remained locked in an oil-above-all policy. The oil drilling bill before the House deserves to be defeated.

CELEBRATING THE HUNTERDON MEDICAL CENTER

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, June 28, 2013

Mr. LANCE. Mr. Speaker, I rise today to celebrate the Hunterdon Medical Center for sixty years of excellence in medicine. The Hunterdon Medical Center is a product of community initiative, with county residents petitioning the Hunterdon County Board of Agriculture to build a hospital—the last county in the state without one. In 1953, the medical center opened its doors and has since built an esteemed reputation providing expert care.

The Hunterdon Medical Center attracts excellent doctors from our finest medical schools. They come to practice in Hunterdon and to live and work in one of the most beautiful areas in the country. The Family Practice Residency Program is among the oldest in the Nation, and one of the most respected.

New Jersey is a world leader in medical and biopharmaceutical research and development and the Hunterdon Medical Center is a proud partner in this distinction. I commend the physicians, nurses, support staff and community of the Hunterdon Medical Center for sixty years of fine work.

PERSONAL EXPLANATION

HON. VICKY HARTZLER

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Friday, June 28, 2013

Mrs. HARTZLER. Mr. Speaker, on Thursday, June 27, 2013, I was unable to vote. Had I been present, I would have voted as follows: on rollcall No. 296, "yea, on rollcall No. 297, yea, on rollcall No. 298, yea.

HONORING CARL BENNETT, A FOUNDING FATHER OF MODERN PROFESSIONAL BASKETBALL AND THE NATIONAL BASKETBALL ASSOCIATION

HON. SUSAN W. BROOKS

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 28, 2013

Mrs. BROOKS. Indiana. Speaker, I rise today to pay tribute to Carl Bennett. I was honored to know Carl for over two decades

and will mourn his passing. He passed away on May 15, 2013, at the age of 97½, but his legacy will continue to inspire basketball coaches, players, and fans for generations to come.

Carl Bennett was born in Rockford, Indiana, in 1915. He began his illustrious career first by playing for Fred Zollner's Pistons softball team and later served as the head coach and general manager of the Fort Wayne Pistons professional basketball team, also owned by Zollner. Under his leadership, the Pistons were invited to leave the National Basketball League and become part of the Basketball Association of America. This meeting in Carl's Fort Wayne home led to the merger of the two leagues and, ultimately, to the modern National Basketball Association. As a result of his involvement, Carl served on the NBA's executive committee and is considered one of the founding fathers of professional basketball.

Carl's influence led to many changes in the way basketball, Indiana's favorite game, is played. He encouraged Zollner to buy a team plane, a first for a sports franchise, and his coaching of the Pistons in a 1950 win over the Minneapolis Lakers led to the introduction of the 24-second shot clock. This major change resulted in a dramatic increase in average game scores. One of Carl's foremost contributions to the game was widening the lane from six feet to twelve feet, a change that is still in effect today. He also successfully campaigned for Fred Zollner's enshrinement in the Basketball Hall of Fame.

Carl Bennett was a man of vision and determination. My condolences and well wishes go out to his wife, Mrs. Carol Popp Bennett, his children Kirk and Gary Bennett, Sandra Dodane, Catherine Popp Hoffman, their spouses, his sister Bertha Bennett Christie, his eleven grandchildren, thirty great-grandchildren, and five great-great grandchildren. His loving touch will be missed by everyone who knew him, and he will be always remembered for transforming so many lives through the wonderful sport of basketball.

INTRODUCTION OF THE INTERSTATE LAND SALES UPDATE ACT OF 2013

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, June 28, 2013

Mrs. CAROLYN B. MALONEY of New York. Mr. Speaker, I rise to introduce the Interstate Land Sales Disclosure Act Update of 2013.

The Interstate Land Sales Disclosure Act was enacted in 1969 to protect consumers from being sold property where the property's description in the contract and related materials was not what was to be delivered to the buyer.

It was intended to protect out-of-state buyers who were sold land that was not what was advertised and provides a right of action to rescind the contract and walk away from the deal. However, Courts have ruled over the years that ISLA applies to condominiums, and developers are required to file redundant paperwork that is unnecessary and out of keeping with modern condominium development.

During the economic downturn, some buyers have used the recording requirements of

ILSA to rescind otherwise valid contracts for economic reasons, an unintended consequence of the act and its intent. The law now needs a technical fix to distinguish condominium sales from other types of land sales and to recognize the unique conditions under which these units are sold in today's market.

I fully support the consumer protections that were enacted through ILSA, and this proposed legislation does nothing to affect those protections. But I also believe that we need to make distinctions for condominiums in order to allow the condominium development industry to rebound from the recession. The bill would only exempt condominiums from ILSA's registration requirements but will maintain the consumer protections to ensure consumers still have the right to rescind contracts in cases of fraud. Developers would, of course, still be required to comply with state laws that require specific disclosures.

As we recover in this still fragile economy, we want to encourage, not discourage, buyers and sellers to enter into real estate deals responsibly.

That is why this bill is important to ensure development and the return of an important industry in our country, residential condominium sales. I urge my colleagues to support this legislation.

HONORING MONTICELLO MIDDLE
SCHOOL

HON. RODNEY DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 28, 2013

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to honor the outstanding achievement of the Monticello Middle School in Monticello, Illinois, a town of 5,500 people located in my district.

Monticello Middle School has been recognized as one of only 103 institutions throughout the country as a School to Watch by the National Forum to Accelerate Middle Grades Reform in 2013.

The National Forum to Accelerate Middle-Grades Reform is an alliance of over 60 educators, researchers, national associations, and officers of professional organizations and foundations.

The Schools to Watch program dates back to 1999 when the Forum selected its first schools.

There are numerous criteria which schools on this distinguished list must meet.

Among them, all students are expected to meet high academic standards, teachers use a variety of methods to assess and monitor student progress, the faculty and master schedule provide time to meet rigorous academic standards, and teachers know what each student has learned and still needs to learn.

This dedication to success is why I am proud to stand up and recognize the Monticello Middle School. Go Sages.

HONORING THE GRADUATION OF
JOSHUA OLIN WILLIAMS FROM
THE UNITED STATES AIR FORCE
ACADEMY

HON. STEVEN M. PALAZZO

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Friday, June 28, 2013

Mr. PALAZZO. Mr. Speaker, I would like to take this opportunity to recognize Mr. Joshua Olin Williams as a member of the United States Air Force Academy Class of 2013.

Joshua graduated from the U.S. Air Force Academy with a degree in English and a minor in Russian, and he received a commission as a Second Lieutenant in the United States Air Force on May 29th.

His career in the service has just begun, but it is a testament to Joshua's unselfish devotion to the people of this great nation. The challenges will be many and the time, although it may seem like an eternity, will fly by almost unnoticed. The challenge for this young man will be to retain as much as possible, pass what he learns to others, and live life for every moment.

South Mississippi is proud of Joshua and his accomplishments, and we look forward to his continuing to represent not only Mississippi, but also the entire nation, as a United States Air Force officer.

As Joshua embarks on a new chapter in life, it is my hope that he may always recall with a deep sense of pride and accomplishment graduating from a program as prestigious as the Air Force Academy. I would like to send Joshua my best wishes for continued success in his future endeavors, thank him for his service, and congratulate him on this momentous occasion.

PANCREATIC CANCER

HON. JOHN LEWIS

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 28, 2013

Mr. LEWIS. Mr. Speaker, I rise today to share my concerns about the future of an essential cancer research program which suffered dreadful cuts from sequestration.

As you know, our country made great strides in overall cancer research efforts, but we must do more. There is a long way yet to go in the pancreatic cancer battle in particular. There is still no way to detect the disease early, or to treat it effectively after diagnosis. Pancreatic cancer is the only major cancer where less than ten percent of those affected live for five years, and this is heartbreaking.

Last year, Congress passed the Recalcitrant Cancer Research Act, a bipartisan bill which I was proud to support. In doing so, we tasked the National Cancer Institute with the responsibility of developing a strategy for fighting pancreatic and other deadly cancers. The Recalcitrant Cancer Research Act will support new research programs and will help find diagnostic tools and more effective treatments for pancreatic cancer and similar diseases.

Unfortunately, Mr. Speaker, none of that progress will be realized without protecting the resources which allow the National Institutes of Health and the National Cancer Institute to

accomplish this law's life-saving goals. With sequestration in effect, the NIH has already lost \$1.55 billion in funding necessary for grant programs and other projects.

Mr. Speaker, I urge my colleagues to protect these resources. We must come together to fight one of our greatest health challenges, and finding a positive, sustainable solution to sequestration. Too many people, too many families are praying and expecting a solution. Sequestration must come to an end. We must come together, and we must end this terrible reality now.

IN HONOR OF MARINO BERTINI

HON. ROBERT E. ANDREWS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, June 28, 2013

Mr. ANDREWS. Mr. Speaker, I rise today to honor the service of Marino Bertini on his 80th birthday. Mr. Bertini began his career working at the Portsmouth Naval Hospital. After a ten month stint at the hospital, he spent the remainder of his career as a medic aboard the USS Randolph. While in the Navy, Mr. Bertini traversed the globe, visiting Europe, North Africa, Turkey, India, Madagascar, Zanzibar, Cuba, and Hong Kong. Over the course of his service he dealt with a variety of injuries and assisted in saving many lives.

In addition to his service to his country, Mr. Bertini is a loving family man. He married the love of his life, Sylva, and the couple have three wonderful daughters: Lisa, Vanessa, and Sonya. Mr. Bertini has always given them unwavering love, support, and dedication. Mr. Bertini is proud of his Italian heritage, a trait he showcases through his penchant for storytelling and his love of history.

Mr. Speaker, on behalf of the first district of New Jersey, I would like to thank Mr. Bertini for his service and wish him the very best on his 80th birthday. Happy Birthday, Marino.

THE OUTER CONTINENTAL SHELF
TRANSBOUNDARY HYDROCARBON
AGREEMENTS AUTHORIZATION
ACT (HR 1613) AND THE OFF-
SHORE ENERGY AND JOBS ACT
(HR 2231)

HON. CHRIS VAN HOLLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Friday, June 28, 2013

Mr. VAN HOLLEN. Mr. Speaker, while I support the responsible development of our nation's resources, this week's legislation prioritizes drilling over protecting investors, improving rig safety, respecting coastal communities and conducting appropriate environmental review. For these reasons, I will be voting no and encouraging my colleagues do the same.

The Outer Continental Shelf Transboundary Hydrocarbon Agreements Authorization Act (HR 1613) provides specific authorization for the recently negotiated U.S.-Mexico transboundary agreement and establishes standards for all future offshore oil and gas agreements with potential foreign partners like Canada, Russia, the Bahamas and Bermuda. If
