

opportunity to forging new ideas and scientific breakthroughs in the nation's fight against breast cancer.

My work to expand the Department of Defense ability to provide assistance and support for medical research related to breast cancer included Jackson Lee Amendment #1 which provided \$500,000 in increased funding for breast cancer research, which was adopted by the Full House. This additional funding raised the amount in the bill to \$130 million and will be made available for Triple Negative Breast Cancer research. Triple Negative Breast Cancer is one of the most deadly forms of the disease that is extremely difficult to detect, and has an extremely high mortality rate.

The threat of sexual assault of both women and men serving in the armed services is a real threat to unit cohesion and professional conduct among the ranks. The troubling aspects of the stories we have heard is the lack of comprehension of the traumatic nature of this crime among superior officers in a position to help. The Defense Department Appropriations bill offers an additional \$25 million for a new Sexual Assault Special Victims Program in addition to fully funding request of \$156.5 million for a Defense-Wide and the Military Service Program which I strongly support.

I sought and the Appropriations Committee provided \$80 million in funding for a Prostate cancer program to be included in the final bill at 100 percent of the requested amount. The most prevalent type cancer in men, and second most diagnosed cancer in the nation, kills over thirty thousand people per year.

Veterans, especially those exposed to defoliants have been identified as being more prone to this disease. Research on prostate cancer will lead to better early diagnostic tools as well as better treatments and improvements to quality of life for prostate cancer survivors.

The unique nature of combat can produce illnesses that threaten health and life expectancy. This is why I requested \$25 million and the Committee provided \$20 million or 80 percent of my request to fund a Gulf War Illness Research Program, GWIRP. The bill provides \$20 million in funding to support the identification of treatments and diagnostic markers for Gulf War Illness, a chronic multi-symptom illness with no effective treatment affecting 250,000 Gulf War veterans. Treatments will benefit military personnel at risk of similar neurotoxic exposures. The FY14 program funded by this bill will fund studies of promising treatments and larger clinical trials of treatments previously shown to be effective.

Jackson Lee Amendment #2 that was adopted by the full House under debate of the bill offered additional funds from \$10 million provided by a transfer to an account that could be used to support work to assist military persons suffering from Post Traumatic Stress Disorders, PTSD. As we look to PTSD, some of a soldier's wounds are invisible to the naked eye, for these are wounds that should be properly treated. One of the best ways to increase access to treatment is to increase the number of medical facilities and mental health professionals who are available to serve the needs of men and women currently serving and those who have become veterans.

Post traumatic stress disorder, one of the most prevalent and devastating psychological wounds suffered by the brave men and women fighting in far off lands to defend the

values and freedom we hold dear. A suicide bomber, an IED, or an insurgent can obliterate their close friend instantaneously and right in front of their face.

Yet, as American soldiers, they are trained to suppress the agonizing grief associated with those horrible experiences and are expected to continue on with the mission. And carry on they do, with courage and with patriotism.

The bill also provides \$125 million in funding for Traumatic Brain Injury (TBI), and Psychological Health research, and \$4 million for alcohol and substance abuse research. In addition, \$20 million is provided for suicide prevention and outreach.

My focus is also the military of the future and the overwhelming need for people who have strong science, technology, engineering and mathematics, STEM, educations to fill the positions required for the successful defense of our nation's cyber networks.

I sought \$30 million for Historically Black Colleges and Universities and Minority-Serving Institutions, HBCU/MI. The Funding requested was approved by the Appropriations committee at the level at over \$35 million or a 116 percent over the amount I requested. The funds appropriated will reinvigorate the relationship between the Department of Defense and the HBCU/MIs and to ensure that minorities are represented in the long-term development of the STEM workforce pipeline. The funding will support undergraduate and graduate STEM programs to increase the participation and success of minority students through engaged mentoring, enriching research experiences, and opportunities to publish, present, and network. Consistent with the report of the National Academy of Sciences "Expanding Underrepresented Minority Participation: America's Science and Technology Talent at the Crossroads," the funding is intended to enhance the Department's efforts to emphasize STEM education improvement within the Historically Black Colleges and Universities and Minority Institutions program. The Committee should encourage the Secretary of Defense to consider these factors when awarding competitive funding under this program, as well as ensuring that selected programs have a sufficiently large cohort of students to allow for effective peer-to-peer mentoring.

I offered language to create a report that the Secretary of Defense must present to Congress on the topic of hazing in the military, harassment and mistreatment of service members across the Armed Forces. The Committee directs the Secretary of Defense to provide a report to the congressional defense committees not later than 180 days after enactment of this act on the prevalence and consequences of hazing, harassment and mistreatment of service members and the policies in place to address cultural sensitivity and hazing and harassment prevention and intervention. Further, the report shall include recommendations for the services to accurately record and prevent incidences of hazing, harassment and mistreatment of service members and to adopt a more intentional diversity and inclusion effort. Finally, the report shall propose a plan to implement and monitor these recommendations.

On balance this Department of Defense Appropriations bill overall is a good thing for the men and women of the armed services espe-

cially with the additional of an amendment to prohibit the use of funds to deny Department of Defense civilian employees security clearance because of financial difficulties caused by "furloughs" due to sequestration.

I urge my colleagues to support the bill.

IN RECOGNITION OF PATTY SHAY

HON. EDWARD R. ROYCE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 25, 2013

Mr. ROYCE. Mr. Speaker, it is my privilege and honor to recognize Patty Shay, who is retiring after 34 years of distinguished service to the U.S. House of Representatives.

Patty is the Director of Constituent Services and Office Manager for my office, and will retire on August 31, 2013. Patty began her career in civil service in 1977 with the office of Assemblyman Bill Dannemeyer and remained on staff after he was elected to Congress in 1979. Fourteen years later, Patty continued her service by joining my office when I succeeded Dannemeyer as Representative of the 39th District. By this time, Patty knew that she preferred casework and that the U.S. Service Academy process was her specialty.

Patty has enjoyed the challenge of helping people. Her motto is always, "do the best that I can in the place where I am and be kind." Over her years of service, Patty has handled thousands of cases. And often, people will call after years have gone by and continue to say thank you.

Her favorite casework is the Department of Veterans Affairs, and in particular dealing with those who served in WWII. The stories told by these humble warriors left her forever grateful for the Greatest Generation.

Patty's true passion during her service was the U.S. Service Academy process. She developed a very structured nomination system in order to develop the young nominees, which has helped them to succeed at the academies. She became known as Mama Shay due to a Cadet from the 3rd class that attended West Point. Patty has worn this as a badge of honor. Many officers continue to write messages to Mom/Mama Shay today.

Through the years, the long line of Patty's kids that received appointments grew to 607. Of that number, 414 graduated and are serving all over the world today. Many have accomplished fulfilling military careers while others have become lawyers, doctors, or dentists. She feels privileged to know so many bright, capable nominees, and has been happy to provide them with support, guidance, and direction throughout the years.

As a testament to her work, Patty has received numerous public service awards including; the "Duty Honor Country" award by the West Point Society of Orange County; "The Donald" which is an award selecting the legislative staffer of the year by fellow Orange County staffers; and the "Everyday Hero Award" from the Fullerton Rotary Club. Patty is extremely thankful and grateful for the years she has spent in public service.

Patty has always kept family close and of the highest priority. Having raised two active boys as a single parent, she was constantly running from one event to another. Who knew this would be the prologue to her duties handling the Academy Nominations. Her non-stop

energy and attitude toward teaching and helping others has always translated into family. Now that her sons are grown, she continues that same philosophy with her three grandsons. She is constantly researching and providing pathways to higher learning for each of her grandsons. She does this by taking each one of their strengths individually and providing a specific learning goal for each one, which is very similar to the approach she uses to provide Military Academy Appointments each year. Patty loves sharing the accomplishments of her sons & grandsons to her many friends and extended family members. She stays in close contact with her sister, niece, and nephew who all live in Oregon and Washington.

So I ask all of my colleagues to join me in thanking Patty Shay for her service to Congress, and the Nation. I wish her all the best in her retirement.

**TRIBUTE TO BERNARD M.
LUKETICH**

HON. MICHAEL F. DOYLE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 25, 2013

Mr. DOYLE. Mr. Speaker, I rise today to commend the long service of Mr. Bernard M. Luketich as National President of the Croatian Fraternal Union, which is headquartered in Pittsburgh.

Since its founding in 1894, the Croatian Fraternal Union has grown with the Croatian community in the United States. It is estimated that 30,000 Croatian Americans currently live in the Greater Pittsburgh area, and I am very happy to represent many of our local Croatian Americans in the U.S. Congress.

The Croatian Fraternal Union has provided much-needed insurance, investment, and social services for its members since its inception and has helped many Croatian Americans establish successful families and communities over the past 100+ years.

The Croatian Fraternal Union also ardently supported the Republic of Croatia's establishment as a stable democratic and free market-oriented nation-state as a result of the devolution of the Soviet Union and the Balkan Wars in the 1990s. The CFU was instrumental in developing American support as a founding member of and in steady concert with the National Federation of Croatian Americans for the new Republic's full accession into western multilateral organizations. This includes full membership in the North Atlantic Treaty Organization, NATO, in early 2009 and the European Union on July 1, 2013.

This year, Mr. Luketich was re-elected to serve his 35th year as President of the CFU, the largest and oldest Croatian American organization in the United States. I would like to congratulate Bernie for his 35 years of strong leadership as President of the Croatian Fraternal Union.

As we all know, the president of any organization cannot do it alone. It is important to also note the contributions of his long-time senior staff at the Pittsburgh headquarters—Executive Assistant/Editor Lorraine Turkall, Secretary/Treasurer Ed Pazo, VP Franjo Bertovic, VP George Pavlecic, Editor Ivan Begg, and CFU Board of Trustees President Bernadette Luketich Sikaras.

Mr. Speaker, I submit a June 5th article on Bernie Luketich's career that appeared in the Croatian American community's premier ethnic newspaper, the "Zajednicar."

Mr. Speaker, congratulations again to Bernie for his steady leadership and service to his diaspora community and to our United States.

[From the *Zajednicar*, June 5, 2013]

**BERNARD M. LUKETICH—CELEBRATING 35
YEARS AS NATIONAL PRESIDENT OF THE CRO-
ATIAN FRATERNAL UNION OF AMERICA**

A record-setting milestone was achieved on June 1, 2013 as CFU National President Bernard M. Luketich began his 35th anniversary year serving as National President at the helm of the Croatian Fraternal Union of America. Consecutively elected as National President since the 1979 CFU National Convention, President Luketich is currently serving his ninth full term as president of the Society.

Prior to becoming National President on June 1, 1978, Luketich had served as a Member of the Society's National Administration in various capacities, beginning with his election to the National Board of Trustees at the 1959 CFU National Convention held at Detroit, Michigan.

The son of Emma and Ivan Luketic, Bernard Luketich was born and raised in Cokeburg, Pennsylvania. His father, Ivan, emigrated from the village of Zagorje, Ogulin, Croatia and settled in Cokeburg where he found work in the Pennsylvania coal mines. A coal miner himself in his youth, Bernard Luketich carried his family values and love for his Croatian ancestry to become a leader of the largest Croatian fraternal organization outside of the old homeland.

Recognized as the "Founding Father" of the CFU Junior Cultural Federation, President Luketich counts this youth cultural program among his proudest achievements since it perpetuates Croatian identity and heritage among CFU children and young adults. In addition to the annual Junior Tamburitza Festivals, President Luketich was further instrumental in initiating the annual CFU Adult Tamburitza Festivals, both cultural events which have flourished over the years to promote Croatian tamburitza music throughout the United States and Canada.

Interested in Croatian activities at a young age, Bernard Luketich became a member of the Croatian Fraternal Union in 1932. He was elected President of his local CFU Lodge 354 at Cokeburg, Pennsylvania at the age of 16 and has served in that capacity since that time. Luketich established the St. George Junior Tamburitzans of Lodge 354 in 1950 and later organized the St. George Adult Tamburitzans of Lodge 354 in which he currently participates as an active tamburitzan.

President Luketich has been the recipient of numerous prestigious awards, including the Redom Hrvatskog Pletera in 1996, the Redom Danice Hrvatske s Likom Katarine Zrinske in 1998, both bestowed upon him by the late Croatian President Dr. Franjo Tudjman, and the Red Kneza Trpimira s Ogrlicom i Danicom in 2003, presented to him by former Croatian President Stjepan Mesić.

Without question, Bernard Luketich has been the driving force in promoting Fraternal Unity among the CFU Membership and is the identifiable face of the Croatian Fraternal Union who has been instrumental in making our Fraternal Organization what it is today.

Bernard Luketich, along with his wife, Martha, and their family, continue to make their home in the small mining town of Cokeburg, PA. The full legacy of National President Luketich is yet to be written but

we can continue to expect great things from Bernard M. Luketich as he greets his 35th Presidential Year with the same pride that he has espoused since first becoming a member of our Fraternal Society. His lifelong passion remains the principles, programs and benefits of the CFU and the preservation of Croatian heritage, culture and identity.

"Zivio!", President Luketich!
