

RECOGNIZING THE IMPORTANCE
OF PROPER SUPPORT FOR PUBLIC
EDUCATION

HON. RICHARD L. HANNA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, August 1, 2013

Mr. HANNA. Mr. Speaker, I proudly rise today in support of K–12 education and our national public school system. I recently voted in favor of H.R. 5, the Student Success Act, as an imperfect but essential piece of legislation to move forward the necessary reauthorization of the Elementary and Secondary Education Act (ESEA). Had the opportunity been presented, I would have supported measures to strengthen The Student Success Act by supporting altered Title I funding allocations as well as reiterating the importance of STEM education at a young age.

The intent of Title I funding within the original ESEA was, and should continue to be, to provide federal funding to public schools with the highest concentrations of poverty. Supporting our most vulnerable populations provides impoverished communities and students with some of the largest barriers to educational success an enhanced opportunity to flourish and reach their full potential.

The State of New York alone is home to thousands of public schools receiving Title I funding. We know that in order to prepare our students to succeed in a globally competitive environment, we need to equip them with the most relevant and enhanced resources available to expand their knowledge of 21st century demands. By supporting schools and students who wouldn't otherwise have the resources to improve efforts in early childhood education and emphasizing learning in in-demand subjects like science and math, we can truly support our future.

I will continue to advocate for an enhanced reauthorization of the Elementary and Secondary Education Act that fully supports our public school system, teachers, and students for a better America.

WINDI AKINS PASTORINI

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, August 1, 2013

Mr. POE of Texas. Mr. Speaker, today I am pleased to honor Windi Akins Pastorini, for being named the 2012 Texas Criminal Defense Lawyer of the Year and the 2012 Harris County Criminal Lawyer of the Year. This is the latest in a long line of awards given to this extraordinary lawyer. I have known Windi for over 20 years in my work as a judge and prosecutor in Texas. I witnessed first hand Windi's passionate dedication to the law and to her clients. Those who know her best describe her as dedicated, powerful, and relentless.

After graduating from the University of Texas at Arlington, Windi earned her law degree from the University of Texas in Austin. Windi began her legal career as a prosecutor for the Harris County District Attorney's office, and then she became a trial lawyer where she has served for over 25 years. She is an advo-

cate in every sense of the word who works passionately to defend those who are accused of crimes.

Windi's extensive knowledge of the justice system and her incredible work ethic quickly gained her respect from her colleagues in the law profession and citizens of Harris County. Over her career, Windi has a history of victories defending those charged with drug related crimes, white collar crimes, fraud and violent offenses. Her success in defending her clients has led to her inclusion into a selective group of lawyers certified to represent indigent defendants in death penalty cases in Texas. Windi has changed many lives. The fact that she was the defense lawyer has made the difference in the outcome of numerous cases.

Windi has a long history of advocating for victims. Recently, Windi defended the rights of a young 12 year old girl who had been repeatedly sexually abused by her father since she was just 6 years old. One evening, the young girl finally stood up for herself and told her father to leave her alone. After receiving threats by her father that she would "regret her actions", the young girl shot and killed her father later that night in fear for her life. Ms. Pastorini stood by her client and successfully fought for her right of self defense. The young girl was acquitted of murder, providing an invaluable win for abused victims everywhere.

Besides being an excellent trial lawyer, Windi drives Jeep Renegades/Wranglers. Being a Jeep owner myself, I appreciate others who drive such rugged, superior vehicles!

On behalf of the Second Congressional District of Texas, I commend this remarkable Texan for her exemplary service and dedication to Harris County and to the State of Texas. Thank you, Windi, for a lifetime of remarkable achievements within the legal community and for your steadfast commitment to representing the accused citizens of Texas in the court room.

And that's just the way it is.

OUR UNCONSCIONABLE NATIONAL
DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, August 1, 2013

Mr. COFFMAN. Mr. Speaker, on January 20, 2009, the day President Obama took office, the national debt was \$10,626,877,048,913.08.

Today, it is \$16,738,599,194,294.87. We've added \$6,111,722,145,381.79 to our debt in 4 and a half years. This is \$6 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

HONORING CARL FISHER

HON. BILLY LONG

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, August 1, 2013

Mr. LONG. Mr. Speaker, I rise today to recognize and honor the outstanding public education career of Carl Fisher.

Carl has been recognized as one of five 2013 Pioneers in Education in Missouri for his

commitment and contributions to public education in Missouri. Since he was just 16 years old, Carl has been serving the children in Pleasant Hope as their school bus driver. Now 83, Carl has transported three generations of students to and from school for 66 extraordinary years.

This remarkable feat makes Carl a Guinness World Record holder for the longest career as a school bus driver. However, Carl isn't the only one in his family with experience behind the wheel. Carl comes from a family of bus drivers where four out of five brothers, their father, uncle, and brothers-in-law all have served the community by safely getting students to and from school every day.

I am extremely proud of the work Carl has done for the children and families of the Pleasant Hope community over the past 66 years. His steadfast determination of truly doing what he loves is admired by all. I urge my colleagues to join me in congratulating Carl Fisher, recipient of the 2013 Pioneers in Education award in Missouri.

A TRIBUTE TO THE MILWAUKEE
SCHOOL OF ENGINEERING UNDERWATER
ROBOTICS TEAM

HON. GWEN MOORE

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, August 1, 2013

Ms. MOORE. Mr. Speaker, I rise today to recognize the accomplishments of the Milwaukee School of Engineering (MSOE). MSOE recently earned the top engineering evaluation score in this year's Marine Advanced Technology Education Center's International competition for Remotely Operated Vehicles (ROV). This year marks the first time MSOE has participated in this competition, and I am proud to support this great achievement.

For the past 11 years, Marine Advanced Technology Education (MATE) Center, which is funded by the National Science Foundation, has used its underwater robotics competition to help students obtain hands on science, technology, engineering and math experience, thereby preparing them for careers in the STEM fields. Through the ROV competition, students gain specialized knowledge and apply their skills in a teamwork oriented setting. Students produce technical reports as well as presentations and displays to showcase their engineering work to competition judges currently in the field. In addition, each team is required to exemplify an entrepreneurial spirit in each stage of the competition. The benefits of participating are far reaching.

A total of 53 teams participated in the 2013 international competition, and 23 teams entered MSOE's competition category. As the theme was ocean observing systems, MSOE's competition mission was to create technology that would assist in installing and maintaining instrumentation to monitor ocean activity in real time to then determine the ocean's impact on the weather. In successfully doing so, they earned the top engineering evaluation score. They demonstrated exemplary efforts and should be proud of their accomplishment.

Mr. Speaker, I am proud to recognize the Milwaukee School of Engineering Underwater Robotics team. Through their ability and diligence, they have distinguished their school

and the district. I am honored to pay tribute to MSOE.

CONGRATULATING KAZAKHSTAN
ON CONSTITUTIONAL DAY

HON. ENI F.H. FALEOMAVEAGA

OF AMERICAN SAMOA

IN THE HOUSE OF REPRESENTATIVES

Thursday, August 1, 2013

Mr. FALEOMAVEAGA. Mr. Speaker, I rise today to congratulate Kazakhstan on its Constitution Day. Kazakhstan celebrates Constitution Day on August 30.

Constitution Day is one of the most important state holidays in the country. On August 30, 1995, as a result of a nationwide referendum, Kazakhstan's Constitution—the supreme national law—was adopted establishing the rules and principles of building Kazakhstan as an independent, sovereign, and economically liberal, democracy.

All internationally recognized rights and freedoms are enshrined in the Constitution, thus making it a modern and progressive basis for a sustainable movement towards a full-fledged democratic system. Democracy is a gradual process and so I commend President Nursultan Nazarbayev for his extraordinary leadership in bringing about equality and unity, and in guaranteeing the growth and well-being of every citizen of the country.

Constitutional amendments approved in May 2007 will cede the powers of the President to the Parliament in a thoughtful way that protects the country's sovereignty and the rights of its citizens. The Constitution allows for accelerated economic reform while maintaining political and social stability and the Constitution consolidates the values the people of Kazakhstan have held for many centuries. It also consolidates unity among more than 120 nationalities of Kazakhstan.

In tribute to President Nazarbayev and all that he has accomplished for and on behalf of the people of Kazakhstan, I enter this statement for the historical record. President Nazarbayev has spared no effort in securing the rights to life and liberty for all Kazakhstanis. Because of his vision, Kazakhstan is also Central Asia's leader and a global leader on issues of importance, including nuclear non-proliferation.

So, once more, I congratulate the people of Kazakhstan on Constitution Day, and I send them my very best wishes for a peaceful and prosperous future.

NATIONAL HEALTH CENTER WEEK

HON. JEFF DENHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, August 1, 2013

Mr. DENHAM. Mr. Speaker, I rise today to acknowledge August 11 through 17, 2013, as National Health Center Week. America's community health centers are at the core of our health care system; the nation's safety net, delivering accessible, high quality, cost effective primary and preventative care to all individuals regardless of their ability to pay.

Health centers, located in medically underserved areas and locally-controlled by patient-majority boards, make each health center responsive to the needs of the individual community it serves. Currently, there are more than 1,200 health centers serving as health homes for more than 22 million individuals at more than 9,000 locations across the country.

Health centers offer patient-focused, coordinated health care—preventive and primary care that families and individuals need, where and when they need it.

Health centers employ more than 9,500 physicians and more than 6,300 nurse practitioners, physician assistants, certified nurse midwives, social workers, case managers, and community health workers. These employees are part of a multi-disciplinary clinical team designed to treat the whole patient; coordinating care and managing chronic disease, at the same time reducing unnecessary, avoidable and wasteful use of health resources.

The health home model that health centers use is at the forefront of pioneering and goes beyond primary medical care. They provide behavioral health and dental services, case management and enabling services to ensure care is provided in an efficient and timely manner.

The health center model has proven to be an effective means of overcoming access barriers for the medically underserved. In doing so, health care outcomes are improved and health care costs are reduced. This unique model allows health centers to save the healthcare system approximately \$24 billion annually by keeping patients out of costlier health care settings, such as emergency rooms.

As locally owned and operated small businesses, health centers serve as critical economic engines helping to power local economies, particularly in times of recession. In these difficult economic times, health centers are economic drivers in their communities. In 2009 alone, health centers generated \$20 billion in combined economic impact and were responsible for creating nearly 200,000 jobs in areas hit hardest by the recession.

This year, over 400 communities nationwide submitted applications seeking a health center with only 25 new centers anticipated, demonstrating an overwhelming demand for access to comprehensive primary care across the nation. Health centers are expected to become the health care home for many new patients, but the demand for health centers continues to outpace growth, considering many existing health centers are already at capacity. Health centers are committed to expanding and meeting the needs of the communities they serve in order to grow their reach to more individuals who lack regular access to a health care home.

National Health Center Week offers the opportunity to recognize America's health centers, their staff, board members, and all those responsible for the continued success and growth of the program since its creation almost 50 years ago. During this National Health Center Week, we recognize the multitude of ways in which America's Health Centers transform care in local communities by delivering comprehensive, high quality, cost effective, and accessible health care.

Mr. Speaker, please join me in celebrating the community health centers in recognizing

August 11 through 17, 2013 at National Health Center Week. I encourage everyone to visit their local health center and celebrate the important partnership between America's Health Centers and the communities they serve.

RECOGNIZING THE 40TH ANNIVERSARY
OF THE COUNCIL FOR RESPONSIBLE NUTRITION

HON. JARED POLIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, August 1, 2013

Mr. POLIS. Mr. Speaker, I rise today to honor the Council for Responsible Nutrition (CRN) on its 40th Anniversary.

CRN is the leading trade association representing dietary supplement manufacturers, ingredient suppliers, and companies that supply services for the supplement industry—all of which are committed to responsible industry.

CRN was formed in 1973 by three companies, with the primary objective to establish an association of dietary supplement companies with a strong commitment to science, research and a collaborative approach to working with Congress and government agencies on issues that affect dietary supplements and nutrition.

As the respected voice of the dietary supplement industry, CRN has been at the forefront of supporting landmark legislation and regulation that benefit consumers; playing a key role in the passage of the Nutrition Labeling Education Act of 1990 and the Dietary Supplement Health and Education Act of 1994 (DSHEA).

CRN worked collaboratively with the Food and Drug Administration and the Federal Trade Commission on the implementation of DSHEA, urging the creation and promulgation of Good Manufacturing Practices specific to dietary supplements, and created a voluntary, self-regulatory advertising review program to monitor false, deceptive and misleading dietary supplement advertising.

For consumers, the "Life . . . Supplemented" campaign exemplifies CRN's commitment to helping individuals create a healthier lifestyle by offering actionable suggestions and educational information about the three pillars of a smart wellness regimen: healthy diet, exercise and dietary supplements.

M. Speaker, CRN has created an environment that allows companies to responsibly develop, manufacture and market dietary supplements and nutritional ingredients that enable consumers to live healthier lives. It continues to serve as a credible and respected scientific resource for Congress, regulators, scientists, journalists and consumers on all matters related to dietary supplements, including demonstrating the health-related and economic benefits that dietary supplements can provide.

As a co-chair of the Dietary Supplement Caucus, it is my pleasure to congratulate the Council for Responsible Nutrition on its anniversary, as well as the influence it has had on the dietary supplements over its 40-year history, and the promise it gives for industry and consumers alike in the years to come.
