

Bayport Fire Department on the 125th anniversary of its founding. Since 1888, this band of heroes has come to the rescue of community members not only in the City of Bayport but the surrounding townships and villages with their all-volunteer department. With literally generations of families serving in this St. Croix River fire department, the Bayport Fire Department is one of the oldest all-volunteer fire departments in the state of Minnesota.

The Bayport Fire Department was originally established in 1888 when the village of South Stillwater formed its own brigade to fight fires ravaging this small mill town. In the years following department's creation, the town has since changed names and generations of families have diligently volunteered to protect the Bayport community. Most remarkably, it is possibly the oldest all-volunteer fire departments in continuous existence in Minnesota. The fire department's informal motto, "desire to serve, courage to act, ability to perform," is a testament to the inspiring commitment of the Bayport Fire Department's all-volunteer staff. The brave men and women in the Bayport Fire Department have selflessly given untold time and energy to meet the challenges and emergencies this community has faced over the last 125 years.

From community outreach to training drills and even water rescues on the Saint Croix River, the fire fighting volunteers are extremely capable professionals who frequently hold full-time jobs in addition to their fire department duties. Bayport fire fighters are trained as first responders and routinely arrive first to the scene of local medical and fire emergencies. The long and prestigious history of the Bayport Fire Department and its all-volunteer staff is a powerful demonstration of what is possible when a community acts collectively—it is an inspiration to us all.

Mr. Speaker, please join me in rising to honor the commitment and dedication of all-volunteer Bayport Fire Department as we commemorate their 125th anniversary today.

**A CENTENNIAL CELEBRATION FOR  
A NORTH CAROLINA TREASURE,  
MRS. THELMA PATTERSON CAIN**

**HON. VIRGINIA FOXX**

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 20, 2013*

Ms. FOXX. Mr. Speaker, I rise today to recognize the 100th birthday of Mrs. Thelma Patterson Cain, a constituent of mine from Davie County, and longtime North Carolinian. It is an honor to represent Mrs. Cain in Congress and to introduce her to this body and her country as a real national treasure.

The people who know and love Mrs. Cain, which is everyone who meets her, say she is loyal, dutiful, responsible, intelligent, loving, beautiful, kindhearted, and gracious. She is a celebrated cook, a beloved mother, a cherished "Grandma," and an adopted "Auntie" to practically all the children in her neighborhood.

Mrs. Cain was born on September 26, 1913 as the tenth of Henry and Julia Patterson's eleven children. With her four sisters and six brothers, Thelma grew up in a North Carolina farming family, working in tobacco and raising cows, pigs, and chickens.

In 1939, she married Mr. Samuel Cain and the two had a son, William Henry Patterson.

She raised Gary Dulin, her grand nephew and current caretaker, like her own son as well. Today, Mrs. Cain enjoys the blessing of watching her family continue to grow through her four grandchildren and five great-grandchildren.

In earlier years, Mrs. Cain was employed by North Carolina families in Davie and Yadkin as a domestic worker and was also a waitress at Winston-Salem's own Salem Academy.

A woman after my own heart, Mrs. Cain possesses a green thumb and has committed much time in her years to planting flower and vegetable gardens in our fine North Carolina soil. Birds, too, are counted among the beneficiaries of Mrs. Cain's thoughtfulness as feeding and watching them is a favorite of her pastimes.

Her personal relationship with God has been strengthened through her lifetime membership in Mocksville's Chinquapin Grove Missionary Baptist Church. Faith in the Lord Almighty has sustained Thelma Cain for 100 beautiful years, and carried, comforted, and guided her through hardship and loss. The heart of compassion, decency, and spirit of generosity which characterize this woman are so clearly rooted in obedience to God.

It is an absolute joy to recognize Mrs. Cain's on the occasion of her 100th birthday celebration. Mrs. Cain, like strong women often are, is an anchor for her family, church congregation, and community. She is deserving of honor, congratulations, and true celebration on this day and for all her days. May God continue to bless Mrs. Thelma Patterson Cain with good health, dear friendships, hope and happiness for many years to come.

**RESTORING HEALTHY FORESTS  
FOR HEALTHY COMMUNITIES ACT**

SPEECH OF

**HON. CATHY McMORRIS RODGERS**

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Thursday, September 19, 2013*

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 1526) to restore employment and educational opportunities in, and improve the economic stability of, counties containing National Forest System land, while also reducing Forest Service management costs, by ensuring that such counties have a dependable source of revenue from National Forest System land, to provide a temporary extension of the Secure Rural Schools and Community Self-Determination Act of 2000, and for other purposes:

Mrs. McMORRIS RODGERS. Mr. Chair, I rise today in strong support of H.R. 1526, the Restoring Healthy Forests for Healthy Communities Act. This bill is the fulfillment of a promise that the federal government made to counties and communities, particularly those in the Western part of the country, more than a century ago.

For far too long, our national forests have been managed by a strategy that fails to recognize the tremendous resource potential that our national forests hold. At the beginning of the 20th century when our national forest system was being created, the federal government implemented a program to exchange land owned by counties in return for a share of the revenue generated off the land. The

land was managed for resource extraction and forests thrived.

That is until the forest management strategy shifted. As extraction became less popular and increasingly vulnerable to litigation, timber revenue decreased and communities became wards of the federal government. In fact, timber harvests in our National Forests have fallen 80 percent over the last 30 years. Forest health is at an all time low. Jobs are scarce and communities are decimated.

In Eastern Washington, the Colville National Forest has been the economic engine for Ferry, Stevens, and Pend Oreille counties—providing jobs, energy, and recreational opportunities. Yet, mills have closed, jobs lost, and of the 1.1 million acres in the Colville National Forest, over 300,000 are bug infested. This is unacceptable.

This past August, I met with forest officials, community leaders in the Colville National Forest, and other stakeholders to chart a path forward. We need a path that allows states and local governments to manage their affairs because they have shown success.

States have shown that they are able to produce several times more harvest and revenue from a smaller land base than the federal government. For example, Washington State is able to harvest 7 times as much timber, and generate 200 times as much revenue on 1/4 the land area as the Forest Service. We need forest management policies that exploit these successes.

H.R. 1526 does just that. It allows responsible timber production on Forest Service commercial timber lands—areas that were specifically identified by the forest service for timber harvest. It also allows state and local governments to get more involved in preventing wildfires on federal lands, and lets counties actively manage portions of National Forest land.

It is a common sense solution that provides a sustainable revenue stream for rural schools and counties for years to come. It creates jobs, improves forest health, and strengthens our rural communities. It is a win-win for everyone. I urge all of my colleagues to support H.R. 1526, the Restoring Healthy Forests for Healthy Communities Act.

**PERSONAL EXPLANATION**

**HON. ELIOT L. ENGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 20, 2013*

Mr. ENGEL. Mr. Speaker, on rollcall No. 476, the Unfair Food Stamps (SNAP) Reduction Act, had I been present, I would have voted "no."

**HONORING THE 150TH ANNIVERSARY OF THE FIREMAN'S FUND INSURANCE COMPANY**

**HON. ANN WAGNER**

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 20, 2013*

Mrs. WAGNER. Mr. Speaker, today I wish to congratulate the Fireman's Fund Insurance

Company, which on September 24th of this year will celebrate its 150th anniversary in O'Fallon, Missouri. As the representative of Missouri's 2nd district, I am honored to recognize such an innovative company with a long history in the state of Missouri and throughout the country.

Since its founding in 1863 by retired ship captain William Holdredge, Fireman's Fund has been involved with several important events in our nation's history. Fireman's Fund has insured construction of such national treasures as the Golden Gate Bridge and Hoover Dam, in addition to the renovation of the Statue of Liberty in the 1980's. And for those of us from Missouri, we are particularly aware that it was a Fireman's Fund policy which helped provide for the production of Charles Lindbergh's "Spirit of St. Louis" plane in 1927.

The company was also the first to offer a standing grain insurance policy in the United States, and the first to offer nationwide automobile insurance and standardized homeowners insurance. Such innovation has contributed to new ideas for the insurance industry, but more importantly it has contributed to the sustained economic growth of our country over the last century and a half.

Fireman's Fund embodies some of the best values of American business. Not only is the company committed to servicing its customers, it is also committed to giving back to communities all across the country. In fact, the name "Fireman's Fund" comes from the company's founding social mission to award a portion of its profits to the widows and orphans of fallen firefighters. This commitment to the fire service was renewed in 2004, and since that time Fireman's Fund has awarded roughly \$30 million in grants to fire departments across the country. And in the wake of the May 2011 tornado that devastated Joplin, Missouri, Fireman's Fund was there to offer support for the victims of that catastrophe.

It is indeed an honor to recognize such a great American company on its 150th anniversary. I thank the employees of Fireman's Fund for all they do, and wish them many more years of continued success and prosperity.

IN RECOGNITION OF THE 25TH ANNIVERSARY OF THE COMMUNITY ENRICHMENT CENTER

**HON. MICHAEL C. BURGESS**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 20, 2013*

Mr. BURGESS. Mr. Speaker, I rise today to recognize 25 years of service by the Community Enrichment Center (CEC). Located in North Richland Hills, Texas, the CEC serves over 7,000 unduplicated individuals in Tarrant County with food, housing, education classes, free tax preparation, job services and seniors working to stay out of isolation.

Formed in 1998 as a food pantry by the Richland Hills Church of Christ, the CEC has expanded dramatically over the years as they identified the needs of individuals and families in crisis that extended beyond the basic need for food. In their efforts the CEC has partnered with homeless agencies, local municipalities, churches, community organizations, businesses, schools, local and state homeless coalitions.

Toward accomplishing this mission, in 1993 the CEC received the first non-profit U.S. Housing and Urban Development (HUD) homeless grant offered in the 5 state region served by the Region 6 office of the US Department of Housing and Urban Development. Initially extended as a demonstration project and known now as the Continuum of Care grant, the CEC matches federal funding with private resources at approximately 400 percent. CEC was also recognized by HUD Best Practice Award in 1998 for their Adopt-A-Family homeless program.

In their effort to meet broader needs, the CEC absorbed Open Arms Home, Inc. to reduce administrative expenses and allow more funds to be committed to meeting the housing needs of those fleeing from domestic violence. CEC's mission has also led them to provide testing and coaching to the underemployed to identify needs and guide them through education and training resources toward financial independence. Nutritional cooking classes were also added, along with a greater selection of fresh produce and frozen meat to better serve the health needs of those using their food pantry.

I am grateful for the commitment of the CEC staff and volunteers for the 25 years of dedicated service to the underserved of Northern Tarrant County. I join them in celebration of all they have accomplished in meeting the challenges of their mission. It is my privilege to represent the organization and many of their volunteers in the U.S. House of Representatives.

IN HONOR OF EPPAMINONDAS "EPPIE" JOHNSON

**HON. DORIS O. MATSUI**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 20, 2013*

Ms. MATSUI. Mr. Speaker, it is with sadness that I rise in honor of Eppaminondas "Eppie" Johnson, who passed away recently in Sacramento at the age of 85. I ask all my colleagues to join me in honoring Eppie, as his family, friends, and the entire Sacramento community gathers to celebrate his life and legacy.

Eppaminondas Johnson was born on May 7, 1928, in Astoria, New York. After graduating from the University of Nevada, Reno, he moved to Sacramento to work for his father's restaurant and hotel business. In Sacramento, Eppie became a business and community legend. He was to become a symbol for everything great about Sacramento.

Eppie founded a chain of 24-hour coffee shops and he became famous in the 1960s and 1970s for running a popular TV advertisement featuring himself balancing a plate of food while water skiing. He was well-known for his lively marketing campaigns, such as "Professor Eppie" that gave free sundaes to students who earned straight As. He eventually came to own sixteen restaurants in Sacramento, San Francisco, Las Vegas, Fresno, and the Lake Tahoe area, as well as hotels and other properties.

An athletic man, Eppie was also the founder of a beloved Sacramento tradition known as "Eppie's Great Race." Started in 1974 as a promotion and charity fundraiser, this three-

event contest included running, cycling, and kayaking all in the beautiful American River Parkway. Popularly called the "world's oldest triathlon," the contest has grown into a major summer celebration that annually attracts more than 2,000 participants. Next year will mark the 40th anniversary of the Great Race and I know Eppie will be cheering everyone on. His race has raised over \$1 million for the Sacramento County Therapeutic Recreation Services which offers activities to individuals with developmental disabilities. I had the pleasure of visiting Therapeutic Recreation Services with Eppie, and his passion to assist those with disabilities was clear.

Mr. Speaker, I ask that my colleagues join me today in paying honor to Eppaminondas "Eppie" Johnson for being an exemplary member of the Sacramento community. I ask that we all take a moment and give our utmost respect and condolences to his children, George Johnson and Lisa Mangles, and his grandchildren. His life and commitment to our community are an inspiration to us all. The Sacramento area has lost a true legend.

CONGRATULATIONS TO ANDY DILL ON HIS RETIREMENT

**HON. KEVIN BRADY**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 20, 2013*

Mr. BRADY of Texas. Mr. Speaker, I rise today to honor a champion for small business in my district—and a true friend. For the past decade, Andy Dill has served as the President of the Community Chamber of Commerce of East Montgomery County. His leadership has helped grow this important organization and the community it promotes threefold.

Prior to entering Chamber work, Andy served in the telecommunications industry and petrochemical and agricultural chemical industries. Frankly, I've learned there is very little Andy can't do and hasn't done.

A graduate of Nacogdoches High School and Stephen F. Austin State University, Andy's career has taken him across east and southeast Texas. We consider ourselves lucky he settled on the dynamic east Montgomery County.

Andy's community honors are many. From YMCA Volunteer of the Year, Rotary Club Service and Roll of Fame Awards, Andy has been a go-to person when a civic or community organization wants to get going. Andy also serves our communities on the TCC Board of Directors, the Board of the Kingwood Medical Center, Leadership Montgomery County and many others.

When it comes to leadership, Andy is a triple threat. He is a 1988 graduate of Leadership Lufkin, a 1996 graduate of Leadership Montgomery County and a 2005 graduate of Leadership North Houston. It was no surprise to me that when Leadership East Montgomery County needed him, he answered the call.

Andy keeps learning each and every day. He has completed the three-year Community Development Institute program and a fourth-year continuing education year program through the Texas Community Development program.

Andy couldn't be the success he is without his wife Sylvia. For 44 years, she has been
