THE STANDARD DATA ACT OF 2013

HON. TOM REED

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 5, 2013

Mr. REED. Mr. Speaker, today I join my colleague Mr. DOGGETT of Texas, to introduce the Standard Data and Technology Advancement Act of 2013, or the "Standard DATA Act." This legislation follows legislation previously introduced and championed by former Congressman Geoff Davis during his time as the Committee on Ways and Means Human Resources Subcommittee Chairman.

The Standard DATA Act builds on the progress that has been made to establish consistent requirements for the electronic content and format of data used in the administration of key human services programs authorized by the Social Security Act.

Human services programs serve overlapping populations and should, from an information technology standpoint, operate consistently within and across programs. By continuing the process of data standardization and the use of common reporting mechanisms, this bill will help achieve three goals: better prevent and identify fraud and abuse; increase the efficiency of administrative resources to serve eligible beneficiaries; and produce program savings for U.S. taxpayers.

This bill continues the efforts begun in the bipartisan, bicameral Child and Family Services Extension and Enhancement Act of 2011, which was the first effort at requiring a human services program to implement standard data elements and reporting. President Obama signed that bill into law on September 30, 2011.

The Middle Class Tax Relief and Job Creation Act of 2012, signed by the President in February 2012, applied similar data standards provisions to unemployment insurance and the Temporary Assistance for Needy Families program.

This program-by-program approach has been useful, but the ultimate goal is to work across programs. The legislation being introduced today provides a path forward to cover additional programs under the jurisdiction of the Human Resources subcommittee, with the intention of moving to create a complete system of program information exchange.

As a member of the Human Resources subcommittee I commend these efforts and recognize the data provisions enacted in P.L. 112-96 are designed to be a catalyst for continued action.

Consistent with the bipartisan approach developed and maintained by former Subcommittee Chairman Geoff Davis and Ranking Member LLOYD DOGGETT, today I introduce this bill with the full support of the Human Resources Subcommittee, from both sides of the aisle.

Improved data standards will help increase the efficiency of data exchanges to use and reuse data within and across programs. That will allow States to automate the exchange of claimant data on work and benefit receipt, reducing delays and minimizing improper payments. It will also help to automate application forms by pre-populating them with reliable and verified data, which can reduce the manual burden on staff and allow them more time to engage beneficiaries, all while reducing error.

This efficiency will better serve program beneficiaries and taxpayers at the same time.

I thank my colleagues for co-sponsoring this important legislation, starting with Mr. DOGGETT, the Ranking Member on the Human Resources Subcommittee, Mr. REICHERT, Chairman of the Human Resources Subcommittee, as well as Mr. LEWIS of Georgia, Dr. BOSTANY, Mr. YOUNG of Indiana, Mr. GRIFFIN, Mr. RENACCI, Mr. TIBERI, Mr. PAULSEN and Mr. DANNY DAVIS of Illinois.

I invite all Members to join us in supporting this important legislation designed to improve the integrity of the benefit programs millions of Americans access today, and ensure that taxpayer funds are properly spent.

COMMEMORATING THE 25TH ANNIVERSARY OF THE BEGINNING OF THE NAGORNO KARABAKH INDEPENDENCE MOVEMENT

HON. MICHAEL G. GRIMM

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 5, 2013

Mr. GRIMM. Mr. Speaker, last month marked 25 years since the people of the

Nagorno Karabakh region took a brave and bold first step in asserting their right to political freedom and national independence. Since the early 20th century the Nagorno Karabakh region and its people have been subject to the territorial squabbling and political gamesmanship of a number of foreign powers. In spite of this fact, the proud people of the Nagorno Karabakh have steadfastly asserted their desire for political autonomy, overwhelmingly approving a popular referendum declaring independence from Azerbaijan in 1991 and thereby affirming a distinct national identity driven by deep ethnic, cultural, and religious bonds. The Nagorno Karabakh Republic's steady advances in the industries of banking, agriculture, and telecommunications, provide further testament to their promise as a viable independent partner in the international community. Coupling this with the United States' longstanding and unambiguous role as a defender of free people's right to self-determination across the globe, I hope that my colleagues will join me in commemorating the 25th anniversary of the Nagorno Karabakh liberation movement as part of the promotion of peace, stability, and prosperity in the South Caucasus.

OPPOSITION TO BUDGET SEQUESTRATION

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 5, 2013

Mr. WAXMAN. Mr. Speaker, today we find ourselves in the midst of yet another manufactured crisis that threatens our economic recovery. Last Friday marked the beginning of \$85 billion in arbitrary, across-the-board cuts to key domestic priorities and defense programs.

How did we get here? The Budget Control Act of 2011 created an automatic sequestration plan that was designed to be so senseless and so painful that Democrats and Republicans would be left with no choice but to come together to craft an alternative. Yet, the sequestration that was never supposed to happen has begun.

The impact of these cuts will be real. The Congressional Budget Office estimates that sequestration will reduce GDP by .6% and cost about 750,000 jobs by the fourth quarter of this year. These alarming figures don't even take into account the impact cuts will have on federal protections and services for American families.

They include:

Reductions in FDA funding that will result in fewer scheduled food safety inspections and delays in new drug approvals.

Reductions in substance abuse and mental health programs that will result in nearly 400,000 adults and children with serious mental illnesses going without treatment.

Reductions in funding for the National Institutes of Health (NIH) and National Science Foundation (NSF), resulting in delayed or halted scientific and medical research. Reductions in funding for the Aids Drug Assistance Program, resulting in thousands fewer patients having access to HIV medications, and reductions in funding for Centers for Disease Control (CDC), resulting in over 400,000 fewer AIDS tests being conducted this year.

Reductions in the Environmental Protection Agency (EPA), resulting in cuts in public health and environmental protections, including reductions in safe drinking water and wastewater treatment projects, water quality permitting, air quality monitoring, and hazardous waste cleanups.

Nearly 4 million individuals receiving federally funded unemployment benefits will face an 11% cut in their weekly payments. The WIC nutrition program for low-income pregnant women, infants, and young children could be forced to turn away over 700,000 women and children by the end of the year and 100,000 families could lose their housing vouchers.

California will be particularly hard hit by the deep cuts to defense spending. Billions of dollars and an estimated 225,464 jobs related to aerospace and defense are at risk.

We have an obligation to put partisanship aside and make budget decisions that reflect the priorities of the American people. President Obama has offered to work with Congress on a comprehensive plan to reduce the debt, create a fairer tax system, and rebuild the middle class, all of which are necessary to strengthen the economy and maintain our ability to compete. Democrats have introduced legislation that takes such a balanced approach, and I urge the Republican leadership to allow it to come to the floor for a vote.
