GENERAL LEAVE

Mr. COLLINS of Georgia. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on H.R. 1073, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. COLLINS of Georgia. Mr. Speaker, I am pleased to yield as much time as he may consume to the gentleman from Wisconsin (Mr. SENSENBRENNER), the chairman of the Crime Subcommittee and the bill’s sponsor.

Mr. SENSENBRENNER. I thank the gentleman from Georgia for yielding.

I sponsored this legislation to improve the ability to protect the United States from terrorist attacks, including attacks using weapons of mass destruction or attacks involving ships and maritime platforms.

H.R. 1073 implements obligations of four multilateral counterterrorism treaties. Full ratification of the underlying treaties will not be achieved until Congress amends existing criminal provisions of the United States Code.

This legislation was prepared in full cooperation with our Democratic colleagues on the committee, following months of work by committee staff in consultation with the Departments of Justice and State.

The importance of this bipartisan legislation is evidenced by those who have joined me as original cosponsors: the gentleman from Virginia, Judiciary

Committee Chairman BOB GOODLATTE; Ranking Member JOHN CONYERS; and Crime Subcommittee Ranking Member BOBBY SCOTT.

Two of these treaties concern nuclear and radiological materials, the sabotage of nuclear facilities, and the protection of nuclear facilities and materials used for peaceful purposes. The other two treaties relate to the use or targeting of ships or maritime platforms as a part of a terrorist attack, transporting of certain materials by ship for terrorist purposes, and the transport of terrorists by ship, among other things.

The International Convention for the Suppression of Acts of Nuclear Terrorism was signed by President Bush on behalf of the United States on September 14, 2005. It requires the U.S. to criminalize certain unlawful acts relating to the possession and use of radioactive material and radiological dispersal devices and damage to nuclear facilities.

□ 1720

An amendment to the Convention on the Physical Protection of Nuclear Material, which was adopted at a diplomatic conference on July 25, 2005, requires the U.S. to criminalize nuclear smuggling and sabotage of nuclear facilities. The 2005 Protocol to the 1988 Convention for the Suppression of Unlawful Acts Against the Safety of Maritime Navigation requires parties to criminalize the use or targeting of a ship or a fixed maritime platform in an act of terrorism. The Protocol forbids certain maritime terrorism acts and the maritime transport of biological, chemical, or nuclear weapons, or their components, delivery means, or materials under specified circumstances. It also forbids the maritime transport of terrorist fugitives. The 2005 Protocol to the 1988 Protocol for the Suppression of Unlawful Acts Against the Safety of Fixed Platforms Located on the Continental Shelf criminalizes terrorist acts involving a fixed maritime platform.

To combat these types of terrorist threats effectively, we need both a comprehensive domestic legal framework and a broad international legal framework to facilitate international cooperation. Existing law may cover certain obligations under these treaties, but in order to fully comply and ultimately ratify the treaties, parties to the agreements are required to criminalize certain conduct and to fulfill extradition requirements and other obligations relating to international cooperation.

Parties to the underlying treaties are required to criminalize certain acts committed by persons who possess or use radioactive material or a nuclear device. And parties are obligated to “extradite or prosecute” alleged offenders. As they relate to maritime terrorism, the underlying treaties treat vessels and fixed maritime platforms as a potential means of conducting terrorism activity and not just as objects of terrorist activity.

Both the Bush and Obama administrations support ratification of these agreements, which have already received Senate advice and consent. Advancing this legislation strengthens international cooperation and information-sharing, and will ensure that the United States stays at the forefront of global counterterrorism and counterproliferation efforts. These measures are consistent with our domestic efforts to improve homeland security and to promote better international cooperation.

It is my hope the Senate will act swiftly to pass this legislation so that these important multilateral agreements can finally be ratified. I encourage my colleagues to vote in favor of this legislation.

Mr. SCOTT of Virginia. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 1073, the Nuclear Terrorism Conventions Implementation and Safety of Maritime Navigation Act. This bipartisan legislation, which was reported favorably by the Judiciary Committee in March, is nearly identical to legislation that the House passed by voice vote in the last Congress.

H.R. 1073 amends the Federal Criminal Code to conform our laws to our Nation's obligations under four international treaties that are part of an important effort to update international law for the post-September 11th era. Two of the treaties, the International Convention for the Suppression of Acts of Nuclear Terrorism and the Convention for the Physical Protection of Nuclear Material, require party nations to better protect nuclear materials and to punish acts of nuclear terrorism.

Two other treaties, amendments to the Convention for the Suppression of Unlawful Acts Against the Safety of Maritime Navigation and the Protocol for Suppression of Unlawful Acts Against the Safety of Fixed Platforms, address the use of ships and fixed platforms in terrorist attacks, as well as the transport of weapons, weapons delivery systems, and the transport of terrorist fugitives by sea.

The United States signed these treaties in 2005, and the Senate passed resolutions of advice and consent on all four in 2008. We cannot ratify these agreements, however, until Congress amends the Federal Criminal Code to bring it in line with our new obligations. H.R. 1073 does just that—and nothing more. It amends title 18 of the United States Code to explicitly prohibit acts of terrorism involving radioactive material, provide new security requirements for the use and storage of nuclear materials, and address the use of ships and offshore platforms in terrorist attacks.

With the cooperation of the Justice Department, this bill does not include previously proposed language that was outside the scope of the underlying treaties. For example, the original

version proposed by the administration included an expansion of the scope of conduct subject to the death penalty, new wiretap predicates, and authorization for the President to conduct similar agreements in the future without congressional approval. There is no need to argue about these controversial provisions in order to implement the underlying treaties, and those unrelated initiatives have been removed in this version of the bill. So I'm grateful for the spirit of cooperation in which the bill before us has been drafted.

The resulting bipartisan proposal has the full support of the Obama administration. I'm pleased to join my colleagues, the gentleman from Wisconsin, the chair of the Subcommittee on Crime, Mr. SENSENBRENNER, along with Ranking Member CONYERS and Chairman GOODLATTE.

I urge my colleagues to support H.R. 1073. I have one additional speaker, so I will reserve the balance of my time.

Mr. COLLINS of Georgia. I continue to reserve the balance of my time.

Mr. SCOTT of Virginia. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania (Mr. FATTAH).

Mr. FATTAH. Let me thank the ranking member and let me thank the gentleman, Mr. SENSENBRENNER, who brought this bill before us. I rise in support of the bill, and I wanted to use this occasion to make some additional comments.

We recognize that the proliferation of nuclear weapons is the greatest threat that our country faces. I took a trip with Chairman YOUNG to visit the International Atomic Energy Agency in Vienna, Austria, looking at the weapons development program in Iran. This is a big issue that the Congress has got to pay a lot of attention to.

But I also wanted to take a minute as a member of the Energy Appropriations Subcommittee to talk about the administration's request on both nonproliferation and modernization. The nonproliferation request is flatlined. The weapons modernization, which is important as relates to our obligations and agreements relative to the START treaty, is well funded. But we think there are some gaps in terms of the planning. And we need to understand more fully, in terms of both the B-61 and the W-76, where we're headed in terms of the long-term package.

So this bill is important because it deals with terrorism threats in terms of nuclear weapons. Part of dealing with that is to make sure that we continue the work of Senators Nunn and Lugar in nonproliferation. It's also important for our country to modernize our weapons, and to do that with a full understanding that we cannot do that on a year-to-year basis. We have to have a long-term plan and understand the entire package.

Mr. SCOTT of Virginia. Mr. Speaker, I yield back the balance of my time.

Mr. COLLINS of Georgia. Mr. Speaker, I yield myself such time as I may consume.

H.R. 1073, the Nuclear Terrorism Conventions Implementation and Safety of Maritime Navigation Act of 2013, is bipartisan legislation to ratify certain counterterrorism treaty obligations. This legislation was reported by voice vote from the Judiciary Committee last month. Similar legislation was unanimously reported by the committee and passed the House by voice vote also last Congress.

Terrorism and the proliferation of weapons of mass destruction do not recognize international boundaries. These treaties are important tools in the fight against terrorism. Each one builds on an existing treaty to which the United States is a party. The treaties and this legislation complement important U.S. priorities to prevent nuclear terrorism, counterproliferation of weapons of mass destruction, and counterterrorism initiatives. Enacting this legislation will reinforce the United States' leadership role in promoting these and other counterterrorism treaties and will likely prompt other countries to join.

In addition to bolstering broad security and proliferation-prevention goals, these protocols help to promote implementation of certain sanctions against rogue regimes that are hostile to U.S. interests.

I commend Chairman GOODLATTE and Ranking Member CONYERS, along with the sponsor of H.R. 1073, Crime Subcommittee Chairman SENSENBRENNER, and Ranking Member SCOTT for their commitment to this important legislation.

I urge my colleagues to join me in passing H.R. 1073 today, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. COLLINS) that the House suspend the rules and pass the bill, H.R. 1073.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. COLLINS of Georgia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.
