So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. HIMES. Mr. Speaker, on September 10, 2013. I was unable to be present for rollcall vote 454 on S. 256. Had I been present, I would have voted "yea."

MINUTEMAN MISSILE NATIONAL HISTORIC SITE BOUNDARY MODI-FICATION ACT

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill (S. 459) to modify the boundary of the Minuteman Missile National Historic Site in the State of South Dakota, and for other purposes, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Washington (Mr. HASTINGS) that the House suspend the rules and pass the bill.

This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 414, nays 5, not voting 13, as follows:

CORRECTION

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Ms. CLARKE. Mr. Speaker, I was unavoidably detained and missed the first series of votes today.

Had I been present, Mr. Speaker, I would have voted "yes" on rollcall No. 450, H.R. 1155, the National Association of Registered Agents and Brokers Reform Act of 2013. I would have voted "yes" on rollcall No. 451, H.R. 2747, Streamlining Claims Processing for Federal Contractor Employees Act. I would have voted "yes" on rollcall No. 452, S. 130, Powell Shooting Range Land Conveyance Act.

REPORT ON RESOLUTION PRO-VIDING FOR CONSIDERATION OF H.R. 2775, NO SUBSIDIES WITH-OUT VERIFICATION ACT

Mr. BURGESS, from the Committee on Rules, submitted a privileged report (Rept. No. 113–206) on the resolution (H. Res. 339) providing for consideration of the bill (H.R. 2775) to condition the provision of premium and cost-sharing subsidies under the Patient Protection and Affordable Care Act upon a certification that a program to verify household income and other qualifications for such subsidies is operational, and for other purposes, which was referred to the House Calendar and ordered to be printed.

CONTINUATION OF THE NATIONAL EMERGENCY WITH RESPECT TO CERTAIN TERRORIST ATTACKS—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 113–59)

The SPEAKER pro tempore (Mr. ROTHFUS) laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, referred to the Committee on Foreign Affairs and ordered to be printed:

 ${\it To the Congress of the United States:}$

Section 202(d) of the National Emergencies Act, 50 U.S.C. 1622(d), provides for the automatic termination of a national emergency unless, within 90 days prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. Consistent with this provision, I have sent to the Federal Register the enclosed notice, stating that the emergency declared in Proclamation 7463 with respect to the terrorist attacks on the United States

of September 11, 2001, is to continue in effect for an additional year.

The terrorist threat that led to the declaration on September 14, 2001, of a national emergency continues. For this reason, I have determined that it is necessary to continue in effect after September 14, 2013, the national emergency with respect to the terrorist threat.

BARACK OBAMA. THE WHITE HOUSE, September 10, 2013.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2109

Mr. MORAN. Mr. Speaker, I ask unanimous consent to withdraw my name as a cosponsor of H.R. 2019.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

END SCHOOL VIOLENCE NOW

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON LEE. Mr. Speaker, just last week, the beginning of the school year, in Houston, Texas, we experienced an enormous tragedy in the loss of a young man due to school violence inside one of Houston's Harris County high schools.

I rise today to extend sympathy to the family of Joshua Broussard and his friends, teachers, parents, and administrators, for it is an unspeakable act to have an incident that causes children to fear the very place where they should be safe and secure. I and all of our elected officials and law enforcement have already offered their commitment and time to work with the young people to restore their faith in the sanctity and security of schools, but, more importantly, to speak to the issue of bullying, to speak to the issue of violence, and to work with the parents to be able to say that violence in America's schools must end. We must also end it in terms of knives and guns. Children must feel loved.

And so to Spring ISD, we look forward to coming to your school district and standing with the children to ensure that they know that there are those in the United States Congress like my good friend, Mr. HOYER, and others that have stood against school violence and will stand together to ensure that our children can learn and are safe.

SAFE CLIMATE CAUCUS

(Mr. MORAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MORAN. Mr. Speaker, yesterday, the "Intergovernmental Panel on Climate Change" report indicated that there are now dire new estimates for the rate of warming around the planet in the next century. The report represents the latest finding from the international scientific community that not only is the planet warming, but there is a 95 percent certainty that that warming is being caused by human activity.

We've known for over 100 years how greenhouse gases work in the atmosphere to trap heat. It's basic physics. We also know that atmospheric concentrations of heat-trapping gases have been rising, based on decades of direct measurements. As we directly track and measure the human activities that release heat-trapping gases, such as burning fossil fuels, we understand we are responsible.

Unfortunately, there are some politicians in this body that are content to ignore the overwhelming scientific consensus. That's being done at the bidding of the oil and gas lobby. The House of Representatives has to listen to these experts and take action on climate change.

CONCERNS OVER FOREST FIRES IN THE WESTERN UNITED STATES

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2013, the gentleman from Washington (Mr. HASTINGS) is recognized for 60 minutes as the designee of the majority leader.

Mr. HASTINGS of Washington. Mr. Speaker, as we come back after our August district work period, there have been several major events that have happened and generally do happen in late summer in the western part of the United States. Those events generally revolve around forest fires.

I'm joined on the floor tonight by a number of my colleagues from the western part of the United States in whose districts we've experienced some of these forest fires. But the reason we wanted to have this time, Mr. Speaker, is because this issue about forest management that I'm going to get into and my colleagues will be getting into has been building up for some time.

I have the privilege to chair the House Natural Resources Committee. We have broad jurisdiction over all Federal lands, and that certainly includes our forested lands. And what I have observed in the time that I've had the privilege to be in this body is that our national forests are being badly mismanaged, particularly on Federal lands. They're being badly mismanaged generally because of events and regulations coming from the Federal Government. We'll talk about that a bit tonight. But there is a solution to what we will be discussing tonight for the problems we've had in the western part of the United States with these forest fires—and that's the Healthy Forest Act that we'll have on the floor, hopefully, later on this month.

As the chairman of the Natural Resources Committee, I have always felt
