

Care Act which has already significantly improved health care for Americans. The six month enrollment period for Americans to sign up for affordable health care coverage in the state-based Health Insurance Marketplaces has begun. Important decisions on government finding and the debt ceiling await votes while politics take center stage and the soundness of our economy remains in question.

House Republicans have caused a government shutdown in order to advance a delusional political agenda spearheaded by disdain for the Affordable Care Act. In a demonstration of hollow leadership, politics are being placed before people. Instead of approving the Senate-passed funding bill, House Republicans have cast yet another vote to undermine the Affordable Care Act for the forty-third time since its passage.

However, the Affordable Care Act is the law of the land and many have already benefited from its implementation. In Texas, families have saved \$46.3 million in insurance company refunds. Medicare beneficiaries in the "donut hole" have saved \$420.7 million in prescription drugs. More than 40,000 Americans and 17 million American children with pre-existing conditions gained insurance coverage through the Affordable Care Act. The Congressional Budget Office released a study showing that the Affordable Care Act will provide coverage for an additional 32 million people while reducing overall health care costs.

The new health care law will only grow stronger and expand access to quality coverage with the state-based Health Insurance Marketplaces for those who cannot receive coverage through an employer. The Affordable Care Act not only provides increased access to quality care but it marks the beginning of fewer health disparities across the nation and more investment in preventative health care. I am proud to stand with the President and my colleagues in support of the Affordable Care Act.
