SMALL AIRPLANE REVITALIZATION ACT OF 2013

Mr. POMPEO. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 1848) to ensure that the Federal Aviation Administration advances the safety of small airplanes, and the continued development of the general aviation industry, and for other purposes, with the Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The Clerk will report the Senate amendment.

The Clerk read as follows:

Senate amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the “Small Airplane Revitalization Act of 2013”.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) A healthy small aircraft industry is integral to economic growth and to maintaining an effective transportation infrastructure for communities and countries around the world.

(2) Small airplanes comprise nearly 90 percent of general aviation aircraft certified by the Federal Aviation Administration.

(3) General aviation provides for the cultivation of a workforce of engineers, manufacturing and maintenance professionals, and pilots who secure the economic success and defense of the United States.

(4) General aviation contributes to well-paying jobs in the manufacturing and technology sectors in the United States and products produced by those sectors are exported in great numbers.

(5) Technology developed and proven in general aviation aids in the success and safety of all sectors of aviation and scientific competence.

(6) The average small airplane in the United States is now 40 years old and the regulatory barriers to bringing new designs to the market are resulting in a lack of innovation and investment in small airplane design.

(7) Since 2003, the United States lost 10,000 active private pilots per year on average, partially due to a lack of cost-effective, new small airplanes.

(8) General aviation safety can be improved by modernizing and revamping the regulations relating to small airplanes to clear the path for technology adoption and cost-effective means to retrofit the existing fleet with new safety technologies.

SEC. 3. SAFETY AND REGULATORY IMPROVEMENTS FOR GENERAL AVIATION.

(a) IN GENERAL.—Not later than December 15, 2015, the Administrator of the Federal Aviation Administration shall issue a final rule—

(1) to advance the safety and continued development of small airplanes by reorganizing the certification requirements for such airplanes under part 23 to streamline the approval of safety advancements; and

(2) that meets the objectives described in subsection (b).

(b) OBJECTIVES DESCRIBED.—The objectives described in this subsection are based on the recommendations of the Part 23 Reorganization Aviation Rulemaking Committee:

(1) The establishment of a regulatory regime for small airplanes that will improve safety and reduce the regulatory cost burden for the Federal Aviation Administration and the aviation industry.

(2) The establishment of broad, outcome-driven safety objectives that will spur innovation and technology adoption.

(3) The replacement of current, prescriptive requirements under part 23 with performance-based regulations.

(4) The use of consensus standards accepted by the Federal Aviation Administration to clarify how the safety objectives of part 23 may be met using specific designs and technologies.

(c) CONSENSUS-BASED STANDARDS.—In prescribing regulations under this section, the Administrator shall use consensus standards, as described in section 12(d) of the National Technology Transfer and Advancement Act of 1996 (15 U.S.C. 272 note), to the extent practicable while continuing traditional methods for meeting part 23.

(d) SAFETY COOPERATION.—The Administrator shall lead the effort to improve general aviation safety by working with leading aviation regulators to assist them in adopting a complementary regulatory approach for small airplanes.

(e) DEFINITIONS.—In this section:

(1) CONSENSUS STANDARDS.—

(A) IN GENERAL.—The term “consensus standards” means standards developed by an organization described in subparagraph (B) that may include provisions requiring that owners of relevant intellectual property have agreed to make that intellectual property available on a non-discriminatory, royalty-free, or reasonable royalty basis to all interested persons.

(B) ORGANIZATIONS DESCRIBED.—An organization described in this subparagraph is a domestic or international organization that—

(i) plans, develops, establishes, or coordinates, through a process based on consensus and using agreed-upon procedures, voluntary standards; and

(ii) operates in a transparent manner, considers a balanced set of interests with respect to such standards, and provides for due process and an appeals process with respect to such standards.

(2) PART 23.—The term “part 23” means part 23 of title 14, Code of Federal Regulations.

(3) PART 23 REORGANIZATION AVIATION RULEMAKING COMMITTEE.—The term “Part 23 Reorganization Aviation Rulemaking Committee” means the aviation rulemaking committee established by the Federal Aviation Administration in August 2011 to consider the reorganization of the regulations under part 23.

(4) SMALL AIRPLANE.—The term “small airplane” means an airplane which is certified to part 23 standards.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kansas?

There was no objection.

A motion to reconsider was laid on the table.

OBAMACARE

(Mr. CANTOR asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CANTOR. Mr. Speaker, millions of Americans are coming home and opening their mailboxes to find shocking news; their health care plans are being taken away from them.

The President broke a promise we knew he couldn't keep, and now millions of Americans feel betrayed, wondering why their health care plans are being canceled.

Mr. Speaker, this letter was sent to me by a constituent. His name is Bruno Gora, and he is a constituent of mine in Richmond, Virginia. He is a self-employed individual who purchases health insurance through Anthem BlueCross/BlueShield. A few weeks ago, he was stunned to receive this letter in the mail, and it clearly reads: “To meet the requirements of the new law, your current plan can no longer be offered.”

Any new plan could cost Mr. Gora thousands of dollars more. Why should he or anyone else be forced to buy a different insurance policy if they are happy with the one they have?

With every new day that passes, we continue to learn more and more about people in the same situation. Mr. Gora and this cancellation letter represent millions of ObamaCare victims across the country who are having their health insurance ripped away from them.
