#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BOOZMAN (for himself and Mr. MERKLEY):

S. 400. A bill to amend the Federal Lands Recreation Enhancement Act to include the Corps of Engineers as a Federal land management agency, and for other purposes; to the Committee on Environment and Public Works.

Mr. BOOZMAN. Mr. President, today Senator MERKLEY and I are introducing the Corps of Engineers Recreation Improvement Act. This legislation enables the U.S. Army Corps of Engineers to reinvest recreation fees to improve facilities where the funds are collected. Our bill creates an incentive for the Corps to maintain good facilities and provide quality recreational opportunities on our public lands. The Corps currently collects recreation fees at many sites. This legislation would not change the way the Corps determines use fee rates. Existing law provides that users of specialized sites, facilities, equipment, or services provided by Federal expense shall be assessed fair and equitable fees. Section 210 of the Flood Control Act of 1968 also provides that no entrance fees shall be charged by the Corps. Our bill is not intended to and does not make any changes in that regard.

In Arkansas, recreation on our public Corps-operated lands is an important driver of economic activity, job opportunities, and tourism. In fiscal year 2012, over \$4.2 million in revenue was collected at Corps recreation sites in Arkansas. When citizens spend money at Corps recreation sites in Arkansas, Oregon, or other States, many of them expect that their money will be invested on-site to improve facilities and create recreation opportunities. Our bill would ensure those expectations are met.

The Corps of Engineers Recreation Improvement Act would also enable the Corps to participate in the interagency America the Beautiful Pass program to allow customers an alternative payment option at sites where entrance or amenity fees are charged. This includes the distribution and sale of the passes and the retention of a portion of the revenue for the sales of those passes. It would also allow the

Corps to distribute Military Passes. This will make it easier for our men and women in uniform and their families to acquire passes. The Corps currently honors these passes but the Corps is not allowed to distribute the passes. Providing the ability for the Corps to offer passes to customers is a commonsense solution that will encourage continued use of Federal recreation sites.

By Mr. WYDEN (for himself and Mr. MERKLEY):

S. 402. A bill to provide for the addition of certain real property to the reservation of the Siletz Tribe in the State of Oregon; to the Committee on Indian Affairs.

Mr. WYDEN. Mr. President, today I rise to introduce a bill that will address a cumbersome and time consuming process in place under existing law within the Bureau of Indian Affairs. This piece of legislation will streamline the land acquisition process for the Confederated Tribes of Siletz Indians. The current process for taking land into trust is simply not working, and I believe there are changes that need to be made in the existing process. I am pleased to be joined by Senator MERKLEY in this effort. I want to note that I introduced similar legislation last Congress that was stalled at the Committee level due to certain language in that bill—language that, at the time, we thought was needed but found later was unnecessary and was preventing the bill from moving forward. In the bill I am introducing today, I took that language out to resolve the needs of the various stakeholders and to ensure the bill has a chance to pass the Committee and be signed into law.

The original Siletz Coastal Treaty Reservation, established by the Executive Order on November 9, 1855, was diminished and then eliminated by the Federal Government's allotment and termination policies. Tribal members and the tribal government have worked to rebuild the Siletz community since the Western Oregon Termination Act of August 1954 stripped the Siletz people of Federal tribal recognition. Since then the tribe has been struggling to rebuild its land base. This legislation would work to facilitate the tribe's land into trust process within the original Siletz coast reservation to overcome chronic agency delays in processing applications. Instead of having two cumbersome processes to bring each piece of former reservation land back into the reservation after purchase, one to bring the land into trust and another to make it reservation land, my legislation would allow the tribe to combine the process.

In this case, because the original reservation was disassembled, and the tribe terminated and provided a very small land base upon restoration, virtually every tract of land the tribe seeks to place into trust today is considered by the Bureau of Indian Affairs,
