By Mr. DURBIN (for himself, Ms. STABENOW, Mr. UDALL of Colorado, Ms. WARREN, Mr. BENNET, Mr. REED, Mr. WHITEHOUSE, Mr. SANDERS, Mr. HARKIN, Mrs. BOXER, Mrs. MURRAY, and Mr. CARDIN):

S. 769. A bill to designate as wilderness certain Federal portions of the red rock canyons of the Colorado Plateau and the Great Basin Deserts in the State of Utah for the benefit of present and future generations of people in the United States; to the Committee on Energy and Natural Resources.

Mr. DURBIN. Mr. President, I rise today to introduce America's Red Rock Wilderness Act of 2013. This legislation continues our commitment to preserve natural resources in this country.

America's Red Rock Wilderness Act will designate as wilderness some of our Nation's most remarkable, but currently unprotected public lands. Bureau of Land Management, BLM, lands in Utah harbor some of the largest and most remarkable roadless desert areas anywhere in the world. Included in the

9.2 million acres I seek to protect are well known landscapes, such as the Grand Staircase-Escalante National Monument, and lesser known areas just outside Zion National Park, Canyonlands National Park, and Arches National Park. Together this wild landscape offers spectacular vistas of rare rock formations, canyons and desert lands, important archaeological sites, and habitat for rare plant and animal species.

I have visited many of the areas this act would designate as wilderness. I can tell you that the natural beauty of these landscapes is a compelling reason for Congress to grant these lands wilderness protection. I have the honor of introducing legislation first introduced by my friend and former colleague in the House of Representatives, Wayne Owens. As a member of the Utah delegation, Congressman Owens pioneered the Congressional effort to protect Utah's red rock wilderness. He did this with broad public support, which still exists not only in Utah, but in all corners of the Nation.

The wilderness designated in this bill was chosen based on more than 20 years of meticulous research and surveying. Volunteers have taken inventories of thousands of square miles of BLM land in Utah to help determine which lands should be protected. These volunteers provided extensive documentation to ensure that these areas meet Federal wilderness criteria. The BLM also completed an inventory of approximately 7.5 million acres of the land that would be protected by America's Red Rock Wilderness Act and agreed that the vast majority qualify for wilderness designation.

For more than 20 years, Utah conservationists have been working to add the last great blocks of undeveloped BLM-administered land in Utah to the National Wilderness Preservation System. The more than 9 million acres of lands that would be protected by this legislation surround eleven of Utah's national park, monument and recreation areas. These proposed BLM wilderness areas easily equal their neighboring national parklands in scenic beauty, opportunities for recreation, and ecological importance. Yet, unlike the parks, most of these scenic treasures lack any form of long-term protection from commercial development, damaging off-road vehicle use, or oil and gas exploration.

Americans understand the need for wise stewardship of these wild landscapes. This legislation represents a realistic balance between the need to protect our natural heritage and demand for energy. While wilderness designation has been portrayed as a barrier to energy independence, it is important to note that within the entire 9.2 million acres of America's Red Rock Wilderness Act the amount of “technically recoverable” undiscovered natural gas and oil resources amounts to roughly 6 days of oil and a little more than three weeks of natural gas at cur-

rent consumption levels. In fact, protecting these lands benefits local economies because of the recreational opportunities they provide. In fact, for many Utah cities and counties, outdoor recreation is the largest sector of the local economy providing up to 44 percent of non-government jobs in the region.

Unfortunately, scientists have already begun to see the impacts of global warming on public lands throughout the West. Hotter and drier conditions, larger wildfires, shrinking water resources, the spread of invasive species, soil erosion, and dust storms are all expected to increase over the next century. These threats make the need to protect the remaining undisturbed landscapes and wildlife habitats in Utah's red rock wilderness even more urgent.

America's Red Rock Wilderness Act is a lasting gift to the American public. By protecting this serene yet wild land we are giving future generations the opportunity to enjoy the same untrammelled landscape that so many now cherish.

I would like to thank my colleagues who are original cosponsors of this measure. Original cosponsors are DEBBIE STABENOW, MARK UDALL, ELIZABETH WARREN, MICHAEL BENNET, JACK REED, SHELDON WHITEHOUSE, BERNARD SANDERS, TOM HARKIN, BARBARA BOXER, PATTY MURRAY, and BENJAMIN CARDIN. Additionally, I would like to thank the Utah Wilderness Coalition, which includes The Wilderness Society, the Sierra Club, the Natural Resources Defense Council, Earthjustice, and the Wasatch Mountain Club, the Southern Utah Wilderness Alliance, the Outdoor Industry Association and all of the other national, regional and local, hard-working groups who, for years, have championed this legislation.

Theodore Roosevelt once stated:

The Nation behaves well if it treats the natural resources as assets which it must turn over to the next generation increased and not impaired in value.

Enactment of this legislation will help us realize Roosevelt's vision. To protect these precious resources in Utah for future generations, I urge my colleagues to support America's Red Rock Wilderness Act.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

(1) the side canyons of Glen Canyon, including the Dirty Devil River and the Red, White and Blue Canyons, contain some of the most remote and outstanding landscapes in southern Utah;

(2) the Dirty Devil River, once the fortress hideout of outlaw Butch Cassidy's Wild Bunch, has sculpted a maze of slickrock canyons through an imposing landscape of monoliths and inaccessible mesas;

(3) the Red and Blue Canyons contain colorful Chinle/Moenkopi badlands found nowhere else in the region; and

(4) the canyons of Glen Canyon in the State should be protected and managed as wilderness areas.

(b) DESIGNATION.—In accordance with the Wilderness Act (16 U.S.C. 1131 et seq.), the following areas in the State are designated as wilderness areas and as components of the National Wilderness Preservation System:

(1) Cane Spring Desert (approximately 18,000 acres).

(a) FINDINGS.—Congress finds that—

(1) more than 1,000 years ago, the Anasazi Indian culture flourished in the slickrock canyons and on the piñon-covered mesas of southeastern Utah;

(2) evidence of the ancient presence of the Anasazi pervades the Cedar Mesa area of the San Juan-Anasazi area where cliff dwellings, rock art, and ceremonial kivas embellish sandstone overhangs and isolated benchlands;

(3) the Cedar Mesa area is in need of protection from the vandalism and theft of its unique cultural resources;

(4) the Cedar Mesa wilderness areas should be created to protect both the archaeological heritage and the extraordinary wilderness, scenic, and ecological values of the United States; and

(5) the San Juan-Anasazi area should be protected and managed as a wilderness area to ensure the preservation of the unique and valuable resources of that area.

(b) DESIGNATION.—In accordance with the Wilderness Act (16 U.S.C. 1131 et seq.), the following areas in the State are designated as wilderness areas and as components of the National Wilderness Preservation System:

(2) areas near Arches National Park and Canyonlands National Park contain canyons with rushing perennial streams, natural arches, bridges, and towers;

(3) the gorges of the Green and Colorado Rivers lie on adjacent land managed by the Secretary;

(4) popular overlooks in Canyonlands National Park and Dead Horse Point State Park have views directly into adjacent areas, including Lockhart Basin and Indian Creek; and

(5) designation of those areas as wilderness would ensure the protection of this erosional masterpiece of nature and of the rich pockets of wildlife found within its expanded boundaries.

(b) DESIGNATION.—In accordance with the Wilderness Act (16 U.S.C. 1131 et seq.), the following areas in the State are designated as wilderness areas and as components of the National Wilderness Preservation System:

(a) FINDINGS.—Congress finds that—

(1) the San Rafael Swell towers above the desert like a castle, ringed by 1,000-foot ramparts of Navajo Sandstone;

(2) the highlands of the San Rafael Swell have been fractured by uplift and rendered hollow by erosion over countless millennia, leaving a tremendous basin punctuated by mesas, buttes, and canyons and traversed by sediment-laden desert streams;

(3) among other places, the San Rafael wilderness offers exceptional back country opportunities in the colorful Wild Horse Badlands, the monoliths of North Caineville Mesa, the rock towers of Cliff Wash, and colorful cliffs of Humbug Canyon;

(4) the mountains within these areas are among Utah's most valuable habitat for desert bighorn sheep; and

By Mr. CARDIN (for himself and Ms. MIKULSKI):

S. 770. A bill to authorize the Secretary of the Interior to conduct a special resource study of President Station in Baltimore, Maryland, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. CARDIN. Mr. President, today marks an important day in history as our nation continues to honor the sesquicentennial of the Civil War. There are many landmarks in my hometown of Baltimore that are significant to the

history of the Civil War that I believe are in the Nation's interests to protect for future generations to experience. As our nation pays tribute to this trying time in our nation's history, I am proud to re-introduce the President Street Station Study Act which would initiate the process for preserving one such landmark in the heart of Baltimore. President Street Station played a crucial role in the Civil War, the Underground Railroad, the growth of Baltimore's railroad industry, and is a historically significant landmark to the presidency of Abraham Lincoln.

The station was constructed for the Philadelphia, Wilmington, and Baltimore, PW&B, Railroad in 1849 and remains the oldest surviving big city railroad terminal in the United States. This historical structure is a unique architectural gem, arguably the first example and last survivor of the early barrel-vault train shed arches, also known as the Howe Truss. The arch-rib design became the blueprint for railroad bridges and roofs well into the 20th century and was replicated for every similarly designed train shed and roof for the next 20 years.

The growth of President Street Station and the PW&B railroad mirror the expansion of the railroad industry throughout the country in the latter half of the 19th century. This station played an essential role in making Baltimore the first railroad and sea-rail link in the nation and helped the city become the international port hub it is today.

In its heyday, President Street Station was the key link connecting Washington D.C. with the northeast States. Hundreds of passengers traveling north passed through this station and, by the start of the Civil War, Baltimore had become our Nation's major southern railroad hub. Not surprisingly, the station played a critical role in both the Civil War and the Underground Railroad.

Perhaps the most famous passenger to travel through the station was President Abraham Lincoln. He came through the station at least four times, including secretly on his way to his first inauguration in 1861. President-elect Lincoln was warned by a PW&B private detective of a possible assassination plot in Baltimore as he transferred trains. While it is unclear if this plot existed and posed a serious threat, Lincoln nevertheless was secretly smuggled aboard a train in the dead of night to complete his trip to Washington.

Just a few months later, President Street Station served as a backdrop for what many historians consider to be the first bloodshed of the Civil War. The Baltimore Riot of 1861 occurred when Lincoln called for Union volunteers to quell the rebellion at Fort Sumter in Charleston. On this day in history, April 19, 1861, Massachusetts and Pennsylvania volunteers were met and attacked by a mob of secessionist and Confederate sympathizers. The

bloody confrontation left four dead and 36 wounded. As the war continued, the Station remained a critical link for the Union. Troops and supplies from the north were regularly shuttled through the station to support Union soldiers.

It is well known that Maryland was a common starting point along the Underground Railroad and that many escaped slaves from Maryland's Eastern Shore plantations were destined for Baltimore and the President Street Station to travel North to freedom. A few weeks ago, President Barack Obama honored Maryland's own Harriet Tubman, the Underground Railroad's most famous "conductor" by establishing the Harriet Tubman Underground Railroad National Monument, the first National Monument to commemorate an African American woman. While she personally led dozens of people to freedom, her courage and fortitude also inspired others to find their own strength to seek freedom. President Street Station was indeed a station on this secret network. Prior to emancipation in 1863, several renowned escapees, including Frederick Douglass, William and Ellen Craft, and Henry "Box" Brown, traveled through the Station, risking their lives for a better and freer life.

Others' journeys for a better life also passed through President Street Station. From its beginning and into the 20th century, Baltimore was both a destination and departure point for immigrants. New arrivals from Ireland, Russia, and Europe arriving on the eastern seaboard traveled by way of the PW&B railroads to the west.

For decades, President Street Station has long been recognized as having an important place in history: In 1992, it was listed on the National Register of Historic Places and the city of Baltimore has dedicated it a local historical landmark. For many years it served as the Baltimore Civil War Museum, educating generations of people about the role Maryland and Baltimore played in the Civil War and the early history of the city. In recent years, the museum, run by dedicated volunteers from the Maryland Historical Society and Friends of President Street Station, have struggled to keep the station's doors open and keeping the station's character true to its historical roots. The area around President Street Station has changed dramatically over the decades, but the Station has worked to preserve its place in history. It has been many years since trains passed through the Presidents Street Station and it is clear that today the best use for this building is to preserve the building and use it to tell Station's American story.

President Street Station is one of America's historical treasures. As we commemorate the 152nd Anniversary of the Baltimore Riot and the start of National Park Week this weekend, we honor some of our country's greatest leaders and remember our own rich and innovative history. This bill authorizes

the Secretary of the Interior to conduct a special resource study of President Street Station to evaluate the suitability and feasibility of establishing the Station as a unit of the National Park Service. President Street Station, a contributor to the growth of the railroad, and a vital player in the Underground Railroad, Lincoln Presidency and Civil War, is part of this history. I urge my colleagues to join me in giving this station the recognition it deserves and support this bill.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:
