STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. COONS (for himself, Mr. ENZI, Mr. SCHUMER, Mr. RUBIO, Mr. BLUNT, Ms. STABENOW, and Mr. MORAN):

S. 193. A bill to amend the Internal Revenue Code of 1986 to provide for startup businesses to use a portion of the research and development credit to offset payroll taxes; to the Committee on Finance.

Mr. COONS. Mr. President, each and every day the folks I represent in Delaware ask me why doesn't the Senate, why doesn't the Congress focus on jobs and focus on getting our economy moving again instead of what seem to be endless partisan struggles over secondary issues.

What I wanted to speak to was a bipartisan bill, which I am introducing, which focuses on how to help create innovation-focused jobs again in the United States.

As you know all too well, our economic recovery has been slower than we had hoped. Although it has been steady, there are still far too many Americans out of work in my home State of Delaware, more than 30,000, but we are building our way back.

The task before us is to think not just about an immediate economic crisis but to take a breath and, instead, focus strategically on the long-term future, to take account of what kind of an economy we want to build for our children and our grandchildren for the America of today and tomorrow.

The engine of our Nation's greatest economic successes has always been innovation. From the light bulb to the search engine, American inventors and innovators, those who have taken risks and started companies, have created jobs by the thousands and changed lives by the millions. Before new ideas scaled to market and reach out to change the world, they first have to start in a lab or garage.

I know from my own 8 years in the private sector, my work for a materials-based science company in Delaware, the products we take for granted that are today household items in the world marketplace, often started as just the sliver of an idea, an idea that
