**SA 1929.** Mr. BLUMENTHAL submitted an amendment intended to be proposed by him to the bill S. 1392, to promote energy savings in residential buildings and industry, and for other purposes; which was ordered to lie on the table; as follows:

On page 48, after line 16, add the following:

### SEC. 4. STUDY ON BENEFITS OF ENERGY SAVING DEVICES AND ENERGY CODE COMPLIANCE IN COMMERCIAL BUILDINGS.

(a) IN GENERAL.—The Secretary shall conduct a study of—

(1) the potential future energy and energy cost savings from full implementation of cost-effective investments in energy saving devices, equipment, and systems in the commercial building sector, including—

(A) devices such as timers, dimmers, and sensors with applications for reducing the power consumption of lighting and plug load in a building;

(B) equipment such as air control and hot aisle containment products with applications for reducing power consumption in data centers through signification reduction of cooling requirements; and

(C) systems such as controllers and sensors that work together to reduce power consumption of lighting and plug load at the room, floor, and building levels;

(2) the quantified energy savings and quantified nonenergy benefits of achieving full compliance with national model building energy codes (including any additional energy savings) if all new commercial building construction—

(A) meets national model building energy codes;

(B) exceeds national model codes by 25 percent; and

(C) exceeds national model codes by 50 percent; and

(3) the quantified energy saving and quantified nonenergy benefits realized from conducting comprehensive or deep retrofits in existing commercial buildings, including the effect that expanding the retrofit program would have with respect to—

(A) the United States as a whole; and

(B) 2 States selected for study.

(b) REQUIREMENTS.—

(1) IN GENERAL.—In carrying out studies under paragraphs (2) and (3) of subsection (a), the Secretary shall—

(A) include in nonenergy benefits improved health of building occupants and the general population, and greater office productivity that may be achieved from the adoption of national model building energy codes; and
