

S. RES. 274

Whereas more than 28,000,000 children in the United States have parents who work outside the home and approximately 15,100,000 children in the United States have no place to go after school;

Whereas high-quality programs that expand learning opportunities for children, such as afterschool, before-school, summer, and expanded learning programs, provide safe, challenging, engaging, and fun learning experiences that help children and youth develop social, emotional, physical, cultural, and academic skills;

Whereas high-quality afterschool programs and high-quality expanded learning programs provide students with hands-on, engaging lessons that are aligned with the school day;

Whereas high-quality afterschool programs complement regular and expanded school days, and support working families by ensuring that the children of those families are safe and productive during the hours parents are working;

Whereas high-quality afterschool programs engage families, schools, and diverse community partners in advancing the well-being of children and youth in the United States;

Whereas high-quality afterschool programs that partner with high-quality community-based organizations build stronger communities by integrating the school with the larger community;

Whereas Lights On Afterschool, a national celebration of afterschool, before-school, summer, and expanded learning programs held on October 17, 2013, highlights the critical importance of these high-quality programs in the lives of children, their families, and their communities; and

Whereas nearly 2 in 5 afterschool programs report that their budgets are in worse condition today than at the height of the recession in 2008, and more than 3 in 5 afterschool programs report that their level of funding is lower than it was 3 years ago, making it difficult for afterschool programs across the United States to keep their doors open and their lights on: Now, therefore, be it

*Resolved*, That the Senate supports Lights On Afterschool, a national celebration of afterschool programs held on October 17, 2013.

effects. The information shall be similar to that provided in Table 2 of the Congressional Budget Office's March 20, 2010 estimate of the budgetary effects of the Health Care and Education Reconciliation Act of 2010 and the Patient Protection and Affordable Care Act (PPACA), as passed by the Senate.

**SEC. 502. TO REQUIRE FULLER REPORTING ON POSSIBLE COSTS TO TAXPAYERS OF OBAMACARE.**

When the Congressional Budget Office releases its annual update to the Budget and Economic Outlook, the Congressional Budget Office shall provide an analysis of the budgetary effects of 30 percent, 50 percent, and 100 percent of Americans losing employer sponsored health insurance and accessing coverage through Federal or State exchanges.

**SEC. 503. TO REQUIRE FULLER REPORTING ON POSSIBLE COSTS TO TAXPAYERS OF ANY BUDGET SUBMITTED BY THE PRESIDENT.**

(1) an estimate of the pro rata cost for taxpayers who will file individual income tax returns for taxable years ending during such fiscal year of any deficit that would result from the budget; and

(2) an analysis of the budgetary effects described in paragraph (1).

**SEC. 504. SENSE OF SENATE ON UNDERUTILIZED FACILITIES OF THE NATIONAL AERONAUTICS AND SPACE ADMINISTRATION AND THEIR POTENTIAL USE.**

(a) FINDINGS.—The Senate finds the following:

(1) The National Aeronautics and Space Administration (NASA) is the ninth largest real property holder of the Federal Government, with more than 124,000 acres and more than 4,900 buildings and other structures with a replacement value of more than \$30,000,000,000.

(2) The annual operation and maintenance costs of the National Aeronautics and Space Administration have increased steadily, and, as of 2012, the Administration has more than \$2,300,000,000 in annual deferred maintenance costs.

(3) According to Office of Inspector General (OIG) of the National Aeronautics and Space Administration, the Administration continues to retain real property that is underutilized, does not have identified future mission uses, or is duplicative of other assets in its real property inventory.

(4) The Office of Inspector General, the Government Accountability Office (GAO), and Congress have identified the aging and duplicative infrastructure of the National Aeronautics and Space Administration as a high priority and longstanding management challenge.

(5) In the NASA Authorization Act of 2010, Congress directed the National Aeronautics and Space Administration to examine its real property assets and downsize to fit current and future missions and expected funding levels, paying particular attention to identifying and removing unneeded or duplicative infrastructure.

(6) The Office of Inspector General found at least 33 facilities, including wind tunnels, test stands, airfields, and launch infrastructure, that were underutilized or for which National Aeronautics and Space Administration managers could not identify a future mission use and that the need for these facilities have declined in recent years as a result of changes in the mission focus of the Administration, the condition and obsolescence of some facilities, and the advent of alternative testing methods.

(7) The Office of Inspector General found that the National Aeronautics and Space Administration has taken steps to minimize the costs of continuing to maintain some of these facilities by placing them in an inactive state or leasing them to other parties.

(8) The National Aeronautics and Space Administration has a series of initiatives underway that, in the judgment of the Office of Inspector General, are “positive steps towards ‘rightsizing’ its real property footprint”, and the Office of Inspector General has concluded that “it is imperative that NASA move forward aggressively with its infrastructure reduction efforts”.

(9) Existing and emerging United States commercial launch and exploration capabilities are providing cargo transportation to the International Space Station and offer the potential for providing crew support, access to the International Space Station, and missions to low Earth orbit while the National Aeronautics and Space Administration focuses its efforts on heavy-lift capabilities and deep space missions.

(10) National Aeronautics and Space Administration facilities and property that are underutilized, duplicative, or no longer needed for Administration requirements could be utilized by commercial users and State and local entities, resulting in savings for the Administration and a reduction in the burden of the Federal Government to fund space operations.

(b) SENSE OF SENATE.—It is the sense of the Senate that the levels in this concurrent resolution assume—

(1) the National Aeronautics and Space Administration should move forward with plans to reduce its infrastructure and, to the greatest extent practicable, make property available for lease to a government or private tenant or report the property to the General Services Administration (GSA) for sale or transfer to another entity;

(2) the National Aeronautics and Space Administration should pursue opportunities for streamlined sale or lease of property and facilities, including for exclusive use, to a private entity, or expedited conveyance or transfer to a State or political subdivision, municipality, instrumentality of a State, or Department of Transportation-licensed launch site operators for the promotion of commercial or scientific space activity and for developing and operating space launch facilities; and
