STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mrs. FEINSTEIN:

S. 1888. A bill to facilitate a land exchange involving certain National Forest System land in the Inyo National Forest, and for other purposes; to the Committee on Energy and Natural Resources.

Mrs. FEINSTEIN. Mr. President, I rise today to introduce the Inyo National Forest Land Exchange Act.

This legislation will facilitate a land exchange between the operators of the

Mammoth Mountain Ski Area in the Eastern Sierra Nevada region of California and the Inyo National Forest. Enactment of this bill will allow the ski resort to redevelop the parcel of land it currently leases from Forest Service, while providing the Forest Service with a combination of high resource value lands and a cash payment equal to the value of the exchanged land.

Since the Mammoth Mountain Ski Area, LLC, MMSA, began operations in 1953, Mammoth Mountain has grown to be one of the most popular ski areas in the United States, attracting up to two million visitors a year.

However, the Main Lodge area, which is located on approximately 21 acres of land leased by MMSA, has become outdated and inadequate to meet visitor needs. The Main Lodge building and Mammoth Mountain Inn are now more than 50 years old and require significant improvements and upgrades. Insufficient employee housing, parking and guest amenities must be corrected and skier staging and lift line queuing areas must be modernized. In order to make the necessary long-term investments, resort operators are seeking fee title to the land and have been working with the Inyo National Forest since 1998 to complete a land exchange.

Equal-value land exchanges involving Forest Service land are permitted under the Exchange Act. However, the typical land exchange procedures do not conform well to this particular exchange due to the complexity, size and scarcity of large, high resource value parcels in the Inyo National Forest. Consequently, this legislation would authorize a one-time exception to the Exchange Act to accomplish the proposed land exchange. Specifically, the bill would require the Secretary of Agriculture to acquire two parcels of private land outside, totaling approximately 1,500 acres, the boundary the Inyo National Forest in exchange for the conveyance of the 21 acre parcel within the forest currently leased to MMSA; accept a cash equalization payment in excess of the 25 percent value of the federal lands to fully compensate the Forest Service for the exchanged lands; and use the cash payment to acquire land or interests in land for additions to the National Forest System as such lands become available.

This bill will provide both economic and environmental benefits. The new construction that this bill will help facilitate will not only create new construction jobs during renovations, but will also allow the Ski Area to expand and improve its operations, creating more sustainable and permanent jobs. Additionally, the land MMSA will be transferring to the Forest Service includes high resource value lands that have long been desired for protection by local environmentalists and the Forest Service. This includes lands within the view shed of the Mono Basin
