the District of Columbia Council and to align longtime congressional practice and the law. The congressional review process for D.C. bills provides no benefit to Congress, but imposes substantial costs (in time and money) on the District. Indeed, Congress effectively abandoned the congressional review process as a mechanism for overturning D.C. legislation twenty-three years ago, yet it still requires the D.C. Council to use Kafkaesque makework procedures to comply with the abandoned congressional review process established by the Home Rule Act of 1973.

The bill would eliminate the congressional review process for legislation passed by the D.C. Council. Congress would lose no authority it currently exercises because, even upon enactment of my bill, Congress would retain its authority under clause 17 of section 8 of article I of the U.S. Constitution to amend or overturn any D.C. legislation at any time.

The congressional review process (30 days for civil bills and 60 days for criminal bills) includes only those days when both houses of Congress are in session, delaying D.C. bills from becoming law, often for many months. The delay forces the D.C. Council to pass most bills several times, using a cumbersome and complicated process to ensure that the operations of this large and rapidly changing city continue uninterrupted, or in the alternative, the lapse of the bill before it becomes final. The review period, based on legislative, not calendar, days means, for example, that a 30-day period usually lasts three calendar months and often much longer because of congressional recesses. The congressional review period for a bill that changed the word "handicap" to "disability" lasted nine months. The Council estimates that 50-65 percent of the bills the Council passes could be eliminated if the review period did not exist. To ensure predictability, the Council often must pass the same legislation in three forms-emergency (in effect for 90 days), temporary (in effect for 225 days) and permanent. Moreover, the Council has to carefully track the days Congress is in session for each piece of legislation it passes to avoid gaps and to determine when the bills have taken effect. The Council estimates that it could save 5,000 employee-hours and 160,000 sheets of paper per Council period if the review period were eliminated

My bill would do no more than align the Home Rule Act with congressional practice over the last twenty-three years. Since the Home Rule Act, of the more than 4,500 legislative acts transmitted to Congress, only three resolutions disapproving D.C. legislation have been enacted—in 1979, 1981, and 1991—and two of those mistakenly involved federal interests in the Height Act and the location of chanceries. Placing a congressional hold on 4,500 D.C. bills has not only proven unnecessary, but also a waste of money and time for both the District and Congress. Instead of using the congressional review process to overturn D.C. legislation, Congress has preferred to use appropriations riders. It is particularly unfair to require the D.C. Council to engage in a labor-intensive and costly process that Congress has itself long ago abandoned. My bill would only eliminate the automatic hold placed on D.C. legislation and the need for the D.C. Council to use a process initially passed for the convenience of Congress, but one that Congress has since eliminated in all but law.

The bill would promote efficiency and cost savings for the District, and carry out a policy stressed by Congress of eliminating needless paperwork and make-work redundancy.

I urge my colleagues to support this goodgovernment measure.

 $\begin{array}{c} \text{HONORING WILLIESTINE "PEGGY"} \\ \text{LARK} \end{array}$

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES Tuesday, January 7, 2014

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a remarkable unsung hero, Mrs. Williestine "Peggy" Lark, a woman who is truly worthy of admiration.

Mrs. Lark is a wife, a mother, a grandmother, an educator, a mentor, and a friend who exemplifies true womanhood through her virtuous lifestyle. She has dedicated her life to empowering the lives of her family and community.

Mrs. Lark is the third of twelve children born in the small town of Monticello, MS. She has always desired to pursue a good education and become successful in life. After completing high school, she attended Mississippi Valley State University located in Itta Bena, MS. Mrs. Lark was the first in her family to graduate from college. After receiving her degree, she became a teacher in Durant Public Schools. In 1969, she married and started a family there in Durant, MS.

While raising her children, Denise, Monica and LaRonica, Mrs. Lark instilled in them the value of being well-educated. She lived by example and continued to pursue her education as well. She received her Master's Degree in Education in 1979 and continued to further her education with degrees from both Jackson State University and Delta State University. Mrs. Lark was relentlessly involved in her daughters' education and committed to supporting them in their extracurricular activities. She also voluntarily took on mentoring children in her community as well as the students she taught. With her support and encouragement, many of her students have successful careers. Among them are her daughters-Denise, who is an elementary school principal and Monica, a high school teacher.

In the year of 1995, Mrs. Lark lost her daughter, LaRonica to a car accident. Although this was a trying time for her, she thrived by sharing herself with the children in her community. Even through her daughter's death, she allowed her daughter to become an organ donor and donated her heart.

Today, Mrs. Lark is active in her grand-children's education and encourages them to volunteer in their schools and community. Her grandchildren are honor students—one of who has graduated from high school attends college on scholarship, with an ACT score of 25. Her grandson and two granddaughters volunteer every summer in programs for youth.

Mrs. Lark is retired from teaching after 35 years in the Durant Public Schools system. She is presently the coordinator of the after-school tutorial program at the Community Students Learning Center in Lexington, MS, where she teaches and inspires children from her "heart". She can often be found voluntarily transporting community children to summer

programs and activities throughout the community.

In Mrs. Lark's personal time, she often opens up her home to mentor, tutor, feed, and reward children for their achievements. She is also a devoted Christian and Sunday school teacher. She loves to help children learn, be creative, and feel good about themselves.

There is nothing more picturesque than the smile that Mrs. Lark wears for each child's accomplishments. She has the gift of making people feel good about themselves and finds the time to teach and inspire those around her, giving others the ability to wear that same smile that she wears everyday.

Mr. Speaker, I ask my colleagues to join me in recognizing an unsung hero, Mrs. Williestine "Peggy" Lark, for her dedication to serving others

CELEBRATING THE 100TH ANNI-VERSARY OF THE SIGNING OF THE SMITH-LEVER ACT, THE FOUNDING LEGISLATION OF THE NATIONWIDE COOPERATIVE EX-TENSION SYSTEM

HON. BILL FLORES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES $Tuesday, January\ 7,\ 2014$

Mr. FLORES. Mr. Speaker, whereas May 8, 2014 marks the centennial of the signing of the Smith-Lever Act of 1914, which established Cooperative Extension, the nationwide transformational education system operating through land-grant universities in partnership with federal, state and local governments.

Whereas U.S. Senator Hoke Smith of Georgia and U.S. Representative A. F. Lever of South Carolina authored the Smith-Lever Act to expand the "vocational, agricultural and home demonstration programs in rural America" by bringing the research-based knowledge of the land-grant universities to people where they live and work.

Whereas Cooperative Extension is a critical component of the three-part land-grant university mission and works collaboratively with research, particularly the Agricultural Experiment Station System, and academic programs in 106 colleges and universities; including historically black, Native American and Hispanicserving institutions; in all 50 states, the District of Columbia and six U.S. territories to reach traditional and underserved audiences in all communities.

Whereas the Cooperative Extension System continues to receive federal programmatic leadership and support enabled by the Smith Lever Act and other legislation through the U.S. Department of Agriculture's National Institute of Food and Agriculture.

Whereas Cooperative Extension's researchbased education for farmers and ranchers helped establish the United States as a leading agricultural-producing nation in the world.

Whereas since 1924, when the clover emblem was adopted by USDA to represent 4-H, Cooperative Extension's nationwide youth development program has reached millions of youth and helped prepare them for responsible adulthood.

Whereas Cooperative Extension prepares people for healthy, productive lives through sustained education, such as the Expanded Food and Nutrition Education Program, breaking the cycle of poverty and reducing expenditures for federal and state assistance programs.

Whereas Cooperative Extension provides rapid response to disasters and emergencies through the Extension Disaster Education Network and other similar efforts by providing real-time alerts and resources so Extension educators can respond to urgent needs resulting from hurricanes, floods, oil spills, fire, drought, pest outbreaks and infectious diseases affecting humans, livestock and crops.

Whereas Cooperative Extension translates science-based research for practical application through local and online learning networks where educators are uniquely available to identify emerging research questions, connect with land-grant university faculty to find answers and encourage application of findings to improve economic and social conditions.

Whereas Cooperative Extension engages with rural and urban learners through practical, community-based and online approaches, resulting in the acquisition of knowledge, skills and motivation to strengthen the profitability of animal and plant production systems, protect natural resources, help people make healthful lifestyle choices, ensure a safe and abundant food supply, encourage community vitality and grow the next generation of leaders.

Whereas many states and land-grant institutions are celebrating and commemorating the centennial of the signing of the historic Act.

Therefore, be it resolved, that the United States House of Representatives:

Recognizes the significance of the Smith-Lever Act to the establishment of Cooperative Extension nationwide.

Encourages the people of the United States to observe and celebrate the centennial with a focus on launching an innovative and sustainable future for Cooperative Extension.

Honors the university faculty and local educators who dedicate careers to providing trusted education to help people, families, youth, businesses and communities solve problems, develop skills and build a better future.

Expresses its appreciation to Cooperative Extension volunteers who provide thousands of hours to promote excellence for 4-H, Master Gardeners, family and consumer sciences and other programs in their communities.

Encourages the continued collaboration and cooperation among federal, state and local governments to ensure Cooperative Extension's sustainability as the nation's premiere nonformal educational network.

Celebrates the millions of youth, adults, families, farmers, ranchers, community leaders and others who engage in Cooperative Extension learning opportunities designed to extend knowledge and change lives.

HONORING ROGERS BENJAMIN MORRIS, SR.

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, January 7, 2014

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor a remarkable farmer and hero, Mr. Rogers Benjamin Morris, Sr., who is a resident of Mound Bayou. MS.

His father, Mr. Ajax Julius Morris, Sr., was a fortunate man. His parents afforded him the

opportunity to attend Alcorn State College, currently known today as Alcorn State University, during a time when most African Americans received very little or, in many instances, no educational opportunities at all. Also, his wife, Rowena Bell Morris, attended Natchez College. In 1974, after rearing and formally educating all five of their children, Mrs. Morris returned to college at Mississippi Valley State University and graduated with a degree in education at the "tender age of 68."

As staunch proponents of hard work and educational excellence, Mr. and Mrs. Morris worked unstintingly to ensure that their three sons and two daughters received the best education possible. Among those five children was Rogers Benjamin Morris, Sr., the youngest in the family. He was born on November 9, 1945, in the small, rural community of Winterville, MS, where he received his early education.

In 1964, he graduated as salutatorian from O'Bannon High School, in Greenville, MS. In 1968, he graduated from Jackson State University with a Bachelor's Degree in Biology and a Minor in Chemistry. In 1972, Mr. Morris received a Master of Science Degree in Environmental Health from the University of Cincinnati and furthered his education toward a master's degree in Public Health from the University of Michigan in Ann Arbor.

As a youngster growing up on a farm, he learned what it meant to work hard and persevere; these qualities helped direct his career back to the family farm more than 35 years ago. Realizing that farming involves a lot more than the growing of crops, he taught his own sons farm work during the early stages of their lives, thereby providing them with experiences that cultivated and shaped their character, as well as careers.

In the early 1900s his grandfather acquired over 100 acres of land in Washington County, MS—land that has remained in the family for over a century. Presently, as a third generation farmer, he farms this land, in addition to over 600 other acres of crops in the region. As the owner of Morris Farms, he produces corn, rice, soybeans and wheat. He manages some timber and raises sweet potatoes.

Mr. Morris is a member of the Mound Bayou First Baptist Church where he serves as a deacon and chairman of the Board of Trustees, and a member of the sanctuary choir. He is also a member of the Shelby-Bolivar County Credit Union and a past member of the Mound Bayou School District Board of Trustees. As a member of the Bolivar County Farm Bureau and Delta Council of Mississippi, he has an opportunity to communicate the needs of farmers to all political and apiculture leaders. He is the assistant secretary of the National Black Growers Council, an organization that defines its mission as, "We simply love farming".

Mr. Morris states that "We smile knowing the food and fiber we produce feed and clothe the world. We farm on lands handed down from generation to generation. We constantly integrate technology . . . The organization confers with industry leaders to strengthen their mission of improving the efficiency, productivity, and sustainability of Black row crop farmers."

One of Mr. Morris' greatest concerns is the lack of job opportunities for young people in the community. Sweet potato farming allows him to employ a limited number of persons in planting and harvesting.

In June of 2007 a reporter, Carol Guzy, shadowed Mr. Morris for a day on the farm and he was featured in an article in the Washington Post newspaper which detailed the plight of small Black farmers. On July 12–14, 2012, he was selected to present on the African American Farmers' Panel at the Urban-Ag Academy conference in Des Moines, IA.

Mr. Morris has been married to Mrs. DeVoyce Morris for 44 years and they are the proud parents of four adult sons, Rogers Benjamin Morris, Jr., Jeremy Kyle, Justin and Bertrand. They are gracious grandparents of three granddaughters, Jordan, Sydnee and Nia Marie and one grandson, Kyle Rogers.

Mr. Speaker, I ask my colleagues to join me in recognizing an amazing farmer, Mr. Roger Morris for his dedication in agriculture.

TO RECOGNIZE SHUJI MARUYAMA SENSEI

HON. MICHAEL G. FITZPATRICK

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, January 7, 2014

Mr. FITZPATRICK. Mr. Speaker, the House is pleased to recognize Shuji Maruyama Sensei, the founder of Kokikai Aikido, on the 45th anniversary of the introduction of Aikido to the greater Philadelphia region. Mr. Maruyama, who is acknowledged as one of the world's greatest living martial artists, brought Aikido to the United States 45 years ago. Now, at the age when most men are considering retirement, Shuji continues to educate his students and lead Kokikai Aidido on a successful path in the U.S. It is understood that this self-defense training system provides personal realization and ethical self-defense. The students of Aikido learn that as they become stronger, a peaceful resolution of conflict becomes more, not less, possible. So on this special anniversary, I am pleased to acknowledge Mr. Maruyama's personal achievements and the beneficial role Kokikai Aikido has played in enriching the lives of men and women in Bucks County. Pennsylvania and the United States.

HONORING JERRY L. SMITH

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, January 7, 2014

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to honor Mr. Jerry L. Smith, who is a remarkable Small Black Farmer, Businessman and public servant.

Mr. Jerry L. Smith was born in Leflore County, Mississippi on August 29, 1961 to Emma Lee and Elone Smith, Sr. He is the 7th child of twelve.

Mr. Smith attended Amanda Elzy High School. He was reared on a farm with his family. He and his brothers helped his father to farm part-time until their father decided to stop. He and his brothers took over the farming business and started the Smith's Brother Farm in the early 1980's. Later one of Mr. Smith's brothers was killed and one became disabled. He then continued the farming business under the present name Smith's Farm.
