

Many of these Hungarian emigrants, like my Great Grandparents, traveled to the United States but retained a close tie to their homeland. It is wonderful that those who still retain their Hungarian identity have the ability to remain involved in this democratic process.

Hungary's significance cannot be overstated and the country's position as a world partner before WWII is important to always remember. Hungary has a rich culture and heritage that adds a great dynamic to the world.

As a Member of Congress with deep Hungarian roots, and as a proud Member of the Hungarian Caucus, our nations must continue to build upon our strong bilateral diplomatic and economic relations.

HONORING JIMMY JOE JOHNSON

HON. TIM GRIFFIN

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 8, 2014

Mr. GRIFFIN of Arkansas. Mr. Speaker, I rise today to recognize Jimmy Joe Johnson, whose quick thinking, expertise, and determination helped save Lake Conway from free flowing crude oil on March 29, 2013, when the ExxonMobil Pegasus Pipeline ruptured.

Jimmy Joe has been the Mayflower Street Department Supervisor for 15 years. His swift plan of action helped protect a critical natural resource in central Arkansas. Along with a crew of city, county and local volunteers, he deployed every resource available, including dump trucks and backhoes to construct a barricade that isolated the surging oil.

Racing against time, they first plugged a pair of 48-inch metal pipes that isolated the oil to a 30-acre cove beside Lake Conway, a 6,700-acre body of water.

He then instructed his crew to create a dike the length of a football field with gravel and pipes, allowing the oil to pool where it could be removed with vacuums and skimmers. By the time rain began falling that evening, the Mayflower Street Department had exhausted a supply of 75 tons of gravel.

Lake Conway was created by an Arkansas conservation agency and is the largest man-made lake in the United States. It is renowned for its catfish, crappie, bluegill, and bass. The lake is approximately eight miles long with 52 miles of shoreline.

Jimmy Joe claims that he did what anyone else would have done during the oil spill, but his swift actions demonstrated a tremendous amount of excellence and leadership in the midst of a crisis.

On behalf of Arkansans and Americans everywhere, I honor Jimmy Joe Johnson and his entire crew for their heroic actions.

CONGRATULATING DAVID HAFFNER

HON. BILLY LONG

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 8, 2014

Mr. LONG. Mr. Speaker, I rise to recognize and honor Leggett and Platt CEO David Haffner for receiving the 2014 Richard M. Webster Citizen of the Year Award by the Carthage Chamber of Commerce.

Haffner is the CEO and Chairman of the Board of Leggett and Platt, a Carthage-based business with annual global sales of over \$4 billion. Prior to his appointment as Chairman of the Board, Haffner served as Leggett and Platt's president from 2002 until 2013, and its Chief Operating Officer from 1999 to 2006.

Leggett and Platt, Inc. is one of the largest manufacturing companies in the United States and is listed on the S&P 500. Today, it manufactures a diversified line of products ranging from bedding materials, steel wire products, commercial fixturing, and commercial vehicle products. Through David Haffner's leadership, Leggett and Platt continues to expand its global reach with over 18,000 employee-partners and 130 facilities in 17 countries.

Even as Leggett and Platt expands globally, David Haffner and the entire Leggett and Platt team never forget its importance to the Carthage community. I am certainly proud to recognize David Haffner for receiving the 2014 Richard M. Webster Citizen of the Year Award, and I hope the leadership principles practiced by David continue to inspire the Leggett and Platt team and the Carthage community.

TRIBUTE TO JASON GILES

HON. TOM LATHAM

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 8, 2014

Mr. LATHAM. Mr. Speaker, I rise today to congratulate and recognize Jason Giles of Nyemaster Goode in Des Moines, Iowa for being named a 2014 Forty Under 40 honoree by the award-winning central Iowa publication, Business Record.

Since 2000, Business Record has undertaken an exhaustive annual review to identify a standout group of young leaders in the Greater Des Moines area who are making an impact in their communities and their careers. Each year, forty up-and-coming community and business leaders under 40 years of age are selected for this prestigious distinction, which is based on a combined criteria of community involvement and success in their chosen career field. The 2014 class of Forty Under 40 honorees join an impressive roster of nearly 600 business leaders and growing.

Mr. Speaker, it is a profound honor to represent leaders like Jason in the United States Congress and it is with great pride that I recognize and applaud Mr. Giles for utilizing his talents to better both his community and the great state of Iowa. I invite my colleagues in the House to join me in congratulating Jason on receiving this esteemed designation, thanking those at Business Record for their great work, and wishing each member of the 2014 Forty Under 40 class continued success.

IN RECOGNITION OF THE 60TH ANNIVERSARY OF THE ELECTRONIC PROVING GROUND

HON. RON BARBER

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 8, 2014

Mr. BARBER. Mr. Speaker, I rise today to recognize the sixtieth anniversary of the

founding of the Electronic Proving Ground (EPG), located in my district at Fort Huachuca in Southern Arizona.

The Electronic Proving Ground (EPG) is the Army's C5ISR (Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance) developmental tester under the Army Test and Evaluation Command (ATEC). C5ISR is one of the major components to Cyber Command and is absolutely essential to understanding and controlling the battlefield of the 21st Century.

The mission of EPG is to plan, conduct, and analyze the results of technical tests for C5ISR systems and Electronic Combat (EC)/Electronic Warfare (EW) equipment for the Department of Defense, other federal agencies and private industry.

Southern Arizona is home to an incredible array of national security assets and our community in Southern Arizona does all we can to support our defense industry, military installations and veterans. It is only fitting to mark and celebrate this important event.

Situated within a bowl-like valley enclosed by mountains more than four thousand feet above sea level, the Electronic Proving Ground is an open-air testing range that offers more than nine thousand square miles of land protected and free from outside electromagnetic interference. The terrain and vegetation of EPG is varied, with mountains, desert, and woodlands providing a unique and unparalleled opportunity for testing technology in a multitude of environments. Fort Huachuca also possesses 970 square miles of restricted airspace that is used for airborne Intelligence, Surveillance and Reconnaissance (ISR) and Electronic Warfare systems testing. Combined, these assets help to create the nation's premier testing environment and community.

In 1954, the Army's Chief Signal Officer realized the incredibly unique environment located at Fort Huachuca for electronic and communications equipment testing and since then, EPG has been recognized as one of the best interference free environments in the nation, if not the world.

I am proud to represent the soldiers, civilians, and contractors that support the Electronic Proving Ground. I wish them all the utmost success as they continue to support our warfighter with the best testing capabilities that come from sixty years of experience, intelligence, savvy, and skill. The Army, the Department of Defense, the United States and mankind have benefitted from the work performed at EPG, and we are forever grateful.

TERMINAL VELOCITY

HON. E. SCOTT RIGELL

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 8, 2014

Mr. RIGELL. Mr. Speaker, I rise today to recognize the outstanding accomplishments of the Terminal Velocity team from the Cities of Franklin and Virginia Beach, Virginia. Team members Steve Motley, Steve Poe, Jason Truitt, Donnie Cagle, Bobby Williams, and Elijah Smith have, for an unprecedented fourth consecutive year, won the Operations Challenge competition held annually at the Water Environment Federation's Technical Exhibition and Conference. They competed against 41

other teams in a series of five water utility operations and maintenance events that demonstrate the variety of skills necessary to operate a modern water utility. They are joined today by Team HRSD of the Hampton Roads Sanitation Districts, winners of the competition's Division 2. Team members Kevin Hafner, Jason Hobor, Laura Laxa, and Tim Scott are also talented water quality professionals that provide a vital service to their community. I congratulate Terminal Velocity and Team HRSD for their commitment to high levels of professionalism and their efforts to protect environmental quality and public health.

PERSONAL EXPLANATION

HON. TIM GRIFFIN

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 8, 2014

Mr. GRIFFIN of Arkansas. Mr. Speaker, on Monday, April 7, 2014 I missed two votes due to a family funeral. Had I been present, I would have voted "no" on rollcall vote 165, the Motion to Recommit and "aye" on rollcall vote 166, the passage of H.R. 1872, the Budget and Accounting Transparency Act.

TRIBUTE TO THE BAKERSFIELD CHRISTIAN HIGH SCHOOL EAGLES FOOTBALL TEAM

HON. KEVIN MCCARTHY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 8, 2014

Mr. MCCARTHY of California. Mr. Speaker, I rise today to honor the Bakersfield Christian High School Eagles football team, who courageously fought their way to its first California Interscholastic Federation (CIF) Division IV State Football Championship Bowl Game this past December.

The Eagles utilized an exceptional team effort to get through their daunting season, finishing out with a record of 12 wins and 3 losses. Over the span of the 2013 season, Bakersfield Christian set an astonishing 37 new school records. But lost in this success was the adversity they faced in the beginning of the season. The Eagles started their regular season off with two tough consecutive losses, one of them being to their biggest rival. After their second loss, Coach Jerald Pierucci sat down with his small senior class and challenged them to provide the leadership the team needed to succeed. This proved to be a critical moment for the team, the figurative fork

in the road that would define their season. The path they chose speaks volumes to the team's character as a whole. In the following games, the seniors truly embodied what it meant to be leaders, and the team rallied together as one unit, going undefeated all the way to the State Championship.

When asked to define his team, Coach Pierucci without hesitation replied with one word: selfless. He elaborated that the team was just as rich in role players as it was in playmakers. There was a solid foundation of players each of whom did their job on every play—contributing to the success of their team. These were young men who personified the mantra of "team first" and never gave up in the face of adversity. Even when behind 20–0 in the Valley Championship game against a heavily-favored undefeated rival on a cold December evening, they kept working together and ultimately prevailed. This winning attitude and fierce determination displayed by the Eagles this season proved they earned the right to represent Southern California in the State Championship game.

I join our community in congratulating the coaches and players for their achievement. The 2013 Bakersfield Christian High School Eagles coaching staff includes: Head Coach Jerald Pierucci, Vince Aguilar, Roger Patterson, Tyler Hough, Mike Rodriguez, Sean Lozano, Rick Sotile, Nathan Munson, Larry Whitbey, Tom McCormack, and Ryan Clanton. The 2013 BCHS Eagles football team includes: Keith Blank, Donald Harris, Brad Western, Josh Jackson, Brandon Jones, Nathan DeJager, Tyler Lozano, Feike DeBoer, Kyle Pickinpaugh, Hayden Kuchta, Brock Duffield, John Fulce, Austin Duffield, Kobe Devries, Zach Balfanz, Matt Smith, Fernando Solis, Jordan Smith, Cameron Reeves, Devin Crabtree, Jonathan Loman, Steven Figures, Cole Wymore, Grant Bouma, Hayden Mazone, Chad Wielenga, John Martineau, Tyler Sweaney, Josh Mantle, West Williams, Brett Schuler, Lane Perey, Haiden Drake, Cole Kashwer, Ben Wind, DeAngelo Bragg, Noah Sheetz, Daniel Negron, Jacob Lanuza, Anthony Rodriguez, Jacob Mullins, Titus Goodman, Jack Chance, Carson Balfanz, Morgan Farmer, Brandt Oliver, Taeber Nylander, and William Crockett. You all have made our community proud! Go Eagles!

OUR UNCONSCIONABLE NATIONAL DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 8, 2014

Mr. COFFMAN. Mr. Speaker, on January 20, 2009, the day President Obama took of-

fice, the national debt was \$10,626,877,048,913.08.

Today, it is \$17,559,603,867,896.49. We've added \$6,932,726,818,983.41 to our debt in 5 years. This is over \$6.9 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

STATEMENT ON H.R. 1459

HON. CHRIS VAN HOLLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 8, 2014

Mr. VAN HOLLEN. Mr. Speaker, I rise in strong opposition to H.R. 1459, which would create arbitrary new rules to make it more difficult for presidents to protect our national heritage and resources through the Antiquities Act.

The Antiquities Act is a century-old tool that gives the president the ability to set aside already-public land for protection as a National Monument. Nearly every president since 1906, both Republican and Democratic, has used this authority to designate some of our nation's most iconic treasures, from the Grand Canyon to Acadia National Park. In my own Congressional district, President Eisenhower used the Antiquities Act to designate the Chesapeake and Ohio Canal, the first step in a process to preserve what is now a thriving national park with a scenic towpath that showcases the rich history and natural beauty of the site.

Antiquities Act designations are good for surrounding communities, preserving natural resources, providing outdoor recreation opportunities, and boosting tourism. Moreover, the Antiquities Act complements, rather than overrides, Congressional action, as Congress retains the ability to declare monuments and manage resources for presidentially-proclaimed monuments.

Today's bill places arbitrary limits on designations and needlessly complicates the process, making it far more difficult to achieve permanent designations of heritage spaces. In the last three years, Congress has failed to create even one new unit of the National Park System. We should not prohibit the president from taking action to conserve public land and protect public resources. I urge a no vote.
