

to the residents and small businesses in the Sixth District, and throughout Massachusetts.

For the last twelve years, Christine has served as the CEO of the Enterprise Center at Salem State University. Under Christine's leadership, the Enterprise Center has grown to provide numerous opportunities for local small businesses to improve and expand their operations. The Center offers more than 70 annual business skill workshops as well as a variety of specialized development programs including the Million Dollar Women Symposium, the 128 Venture North Breakfast series, and an extensive Mentor Program and the Growth Program.

The Enterprise Center currently works with more than 6,000 small business owners and employees in more than 142 communities throughout the state.

Before joining the Enterprise Center, Christine founded and served as CEO of Hawthorne Associates, a marketing, advertising and public relations firm serving clients in the US and internationally. Christine also served as Massachusetts Secretary of Consumer Affairs, Chief of Staff to former Congressman Michael Harrington, and Chair of the Communications Department at Endicott College.

Christine not only serves her community through her work at the Enterprise Center, she serves as a Director of Beverly Cooperative Bank, the North Shore Alliance for Economic Development, the Salem YMCA, the Salem Chamber of Commerce, the Salem Award for Human Rights and Social Justice, and the Creative Economy Council of Massachusetts.

I congratulate Christine on her successful career and wish her well as she begins her retirement.

PERSONAL EXPLANATION

HON. GARY C. PETERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 30, 2014

Mr. PETERS of Michigan. Mr. Speaker, on Monday April 28, 2014 I was not present for 2 votes. I wish the record to reflect my intentions had I been present to vote.

Had I been present for rollcall No. 178, I would have voted "yea."

Had I been present for rollcall No. 179, I would have voted "yea."

RECOGNIZING MAINE APPALACHIAN TRAIL CLUB FOR WHITE CAP MOUNTAIN PROJECT

HON. CHELLIE PINGREE

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 30, 2014

Ms. PINGREE of Maine. Mr. Speaker, I'm proud to be from a state that features some of the most beautiful and diverse natural landscapes in the country. From the mountains to the sea, with deep woods in between, Maine has many places that inspire a sense of wonder for the world around us.

That said, they are not always easy to reach. For that reason, I'm grateful for organizations and volunteers in our state who work so hard to protect these special places while

building trails and other accommodations so the public can enjoy them.

I would like to recognize one of these groups in particular for recently restoring a key section of the Appalachian Trail, which stretches from Georgia to Maine. With partner organizations and dedicated volunteers, the Maine Appalachian Trail Club rebuilt the trail up White Cap Mountain, whose summit boasts some of the most spectacular views in the state. Support from the Federal Recreational Trails Program—an absolutely critical source of funding that has helped build thousands of miles of public trails across the country—was also critical to the project's success.

The difficulty of the rebuilding should not be understated. The trail is in a remote location on very rugged terrain. But the club's care and hard work have resulted in a path that will last for many years, accommodate more hikers, and limit environmental impacts on the mountain. Thousands of hikers have already used the newly refurbished trail.

Mr. Speaker, projects like this that benefit our community and deepen our appreciation of nature should not go unrecognized. My sincere congratulations go to the Maine Appalachian Trail Club on a job well done.

IN SPECIAL RECOGNITION OF JASON HUG ON HIS OFFER OF APPOINTMENT TO ATTEND THE UNITED STATES MILITARY ACADEMY

HON. ROBERT E. LATTA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 30, 2014

Mr. LATTA. Mr. Speaker, it is my great pleasure to pay special tribute to an outstanding student from Ohio's Fifth Congressional District. I am pleased to announce that Jason Hug of Bryan, Ohio has accepted an offer of appointment to the United States Military Academy in West Point, New York.

Jason's offer of appointment poises him to attend the United States Military Academy this fall with the incoming Class of 2018. Attending one of our nation's military academies is an invaluable experience that offers a world-class education, while placing demands on those who undertake one of the most challenging and rewarding experiences of their lives.

Jason brings an enormous amount of leadership, service, and dedication to the incoming Class of 2018. While attending Bryan High School in Bryan, Ohio, Jason was on the Honor Roll, was awarded numerous outstanding scholar athlete awards, a member of the National Honor Society, and maintained a 4.0 grade point average that placed him first in his class.

Throughout high school, Jason played football, basketball, baseball, and track and field, being voted captain of his football team his senior year. In addition, Jason was class president and volunteered at his church and other community events. I am confident that Jason will carry the lessons of his student and athletic leadership to the Military Academy.

Mr. Speaker, I ask my colleagues to join me in congratulating Jason Hug on the acceptance of his appointment to the United States Military Academy. Our service academies offer the finest military training and education avail-

able. I am positive that Jason will excel during his career at the Military Academy, and I ask my colleagues to join me in extending their best wishes to him as he begins his service to the Nation.

RECOGNIZING THE ILLINOIS MATHEMATICS AND SCIENCE ACADEMY STUDENTS SELECTED AS FINALISTS IN NASA'S EXPLORATION DESIGN CHALLENGE

HON. BILL FOSTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 30, 2014

Mr. FOSTER. Mr. Speaker, I rise today to congratulate the student engineers of Team Titan from the Illinois Mathematics and Science Academy for being selected as national finalists in NASA's Exploration Design Challenge. Team Titan, led by Dr. Eric Hawker, is one of just five high school teams from across the country to be selected as finalists for the opportunity to contribute to the design of radiation shields for NASA's Orion spacecraft.

Over 125,000 students from 81 countries have participated in NASA's Exploration Design Challenge. This competition is designed to engage students on the topic of space exploration and challenge them to think like scientists and engineers.

The shield designed by Team Titan could protect a sensor inside the Orion spacecraft against space radiation. Team Titan's design was reviewed by Orion engineers, as well as educators from NASA and the National Institute of Aerospace, and selected as a finalist among the forty-six teams that submitted engineering notebooks with radiation shield designs.

IMSA has continuously demonstrated a dedication to offering the kind of education necessary to create future generations of scientists and engineers. Team Titan's selection as a finalist in NASA's Exploration Design Challenge provides a shining example of why IMSA is internationally recognized for its leadership in teaching science, technology, engineering, and mathematics to students in grades 10–12.

Mr. Speaker, I ask my colleagues to join me in congratulating the Illinois Mathematics and Science Academy, Dr. Eric Hawker, and the students of Team Titan: Cassandra Erwin, Ryan Franks, Claire Hensley, Michael Hreck, Alec Mangan, and Alonzo Marsh, for being selected as finalists in NASA's Exploration Design Challenge.

ARTICLE FROM TODAY'S FINANCIAL TIMES ENTITLED, "CHINA TO OVERTAKE U.S. AS TOP ECONOMIC POWER THIS YEAR"

HON. JIM COOPER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 30, 2014

Mr. COOPER. Mr. Speaker, I would like to submit the following article from today's Financial Times entitled, "China To overtake U.S. as top economic power this year".

[From Financial Times, Apr. 30, 2014]
CHINA TO OVERTAKE US AS TOP ECONOMIC
POWER THIS YEAR
(By Chris Giles)

The US is on the brink of losing its status as the world's largest economy and is likely to slip behind China this year, sooner than widely expected, to the world's leading statistical agencies.

The US has been the global leader since overtaking the UK in 1872. Most economists previously thought China would pull ahead in 2019.

The data, compiled by the International Comparison Programme hosted by the World Bank, and to be released today, are the most authoritative estimates of what money can buy in different countries and are used by most public and private sector organisations, such as the International Monetary Fund. This is the first time they have been updated since 2005.

After extensive research on the prices of goods and services the ICP concluded that money goes further in poorer countries than previously thought, prompting it to increase the relative size of emerging market economies.

The estimates of the real cost of living, known as purchasing power parity, or PPPs, are recognised as the best way to compare the size of economies rather than using volatile exchange rates, which rarely reflect the true cost of goods and services: on this measure the IMF put US GDP in 2012 at \$16.2tn, and China's at \$8.2tn.

In 2005, the ICP thought that China's economy was less than half the size of the US, accounting for only 43 per cent of America's total. Using the new methodology—and reflecting the fact that China's economy has grown much more quickly—the research placed China's GDP at 87 per cent of the US in 2011.

For 2011, the report says: "The US remained the world's largest economy, but it was closely followed by China when measured using PPPs".

With the IMF expecting China's economy to have grown 24 per cent between 2011 and 2014 while the US is expected to expand only 7.6 per cent, China is likely to overtake the US this year.

The figures revolutionise the picture of the world's economic landscape, boosting the importance of large middle-income countries. India becomes the third-largest economy having previously been in 10th place. The size of its economy almost doubled from 19 per cent of the US in 2005 to 37 per cent in 2011.

Russia, Brazil, Indonesia and Mexico make the top 12 in the global table. In contrast, high costs and lower growth push the UK and Japan further behind the US than in the 2005 tables while Germany improved its relative position a little and Italy remained the same.

The findings will intensify arguments about control over global international organisations such as the World Bank and IMF, which are increasingly out of line with the balance of global economic power.

When looking at the actual consumption per head, the report found the new methodology together with faster growth in poor countries have "greatly reduced" the gap between rich and poor, "suggesting that the world has become more equal".

The world's rich countries still account for 50 per cent of global GDP while containing only 17 per cent of the world's population.

Having compared the cost of living in different countries, the report also found that the four most expensive countries to live in are: Switzerland, Norway, Bermuda and Australia, with the cheapest Egypt, Pakistan, Myanmar and Ethiopia.

RECOGNIZING DR. CHRISTOPHER
"CHRIS" ARTERTON

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 30, 2014

Ms. NORTON. Mr. Speaker, I rise today to ask my colleagues in the House to join me in recognizing Dr. Christopher "Chris" Arterton, the Founding Dean of the nation's first school for professional politics, The George Washington University (GWU) Graduate School of Political Management who will be leaving his full-time post at GWU, but will remain on staff serving in a research capacity.

Dr. Arterton earned his B.A. from Trinity College, his M.A. from American University and his PhD from the Massachusetts Institute of Technology. Dr. Arterton is a distinguished author who has written several books on American politics and leadership. He is also a noted expert in political strategy and tactics, public opinion, and ethics and leadership in politics. His vision is to make democracy work where it is welcomed around the globe.

Prior to coming to GWU, Dr. Arterton was a professor at Yale University for 10 years, teaching in both the Political Science Department and the School of Organization and Management. Additionally, Dr. Arterton played an active role at The Institute of Politics at Harvard University's Kennedy School of Government, having served on five faculty study groups.

Dr. Arterton's research, his 20 years of teaching, and his considerable experience as a consultant on American public opinion make him an expert on the strategic environment of American political leaders, an area that encompasses the news media and communications technology generally and political strategy. Dr. Arterton continues to travel around the globe to teach about democracy.

Mr. Speaker, I ask my colleagues to join me in recognizing Dr. Christopher Arterton with heartfelt congratulations on a job well done for GWU and our country.

CITIZEN CONCERN ABOUT CON-
GRESS PASSING A RESPONSIBLE
BUDGET

HON. JASON T. SMITH

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 30, 2014

Mr. SMITH of Missouri. Mr. Speaker, I submit the following response to a letter from a concerned citizen.

DEAR MR. MCANULTY: Thank you for contacting me with your concerns about Congress passing a responsible budget. I appreciate the time you took to reach out to me on this important issue. In my first few days in Congress, I introduced H. J. Res. 49, which is an amendment to the U.S. Constitution that would require an annual balanced budget. I believe that the federal government, like families throughout Missouri, should only spend what it has.

On December 12, 2013 the House of Representatives voted on a budget compromise that set spending levels for the next two years. While I believe Congress must pass a budget, I ultimately could not support this

compromise plan that immediately raised new revenues without giving immediate attention to Washington's spending addiction and our massive national debt. We must start paying down our national debt.

Another reason I voted against the budget compromise were the changes made to veteran's benefits. Our men and women in uniform deserve unwavering support from every Member of Congress and all Americans. It is wrong to balance budgets on the backs of troops who voluntarily put themselves in harm's way so that we can all be free. The livelihood of our troops should not be negotiable.

While I appreciate the time and effort that went into crafting this budget deal, I could not support this plan because it immediately increases spending without immediately reducing the deficit. Simply put this agreement raises revenue and spends more money.

Again, I appreciate the time you have taken to reach out to me. Please do not hesitate to contact me should you have any additional questions or concerns. I am honored to have the opportunity to represent the Eighth Congressional District of Missouri and encourage you to visit my website at www.jasonsmith.house.gov/contact/newsletter to sign up for my e-newsletter and receive regular updates from Washington, DC.

HONORING KATHRYN MOIRA
HAYES

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 30, 2014

Mr. THOMPSON of California. Mr. Speaker, I rise today to recognize Kathryn Moira Hayes for her thirty years of service to the people of Sonoma County in both the public and private sector. Ms. Hayes has been an honorable and effective advocate for the community in which she lives, for Sonoma County's business community and for all those in need.

Ms. Hayes' leadership of the North Bay Board of Realtors (NORBAR) over the last sixteen years has grown the organization to serve over 3,000 members in Lake, Mendocino, Napa and Sonoma Counties. During her tenure, NORBAR has been known not only for a high degree of professionalism and dedication to its members, the industry and community, but also for promoting professional standards and ethics, and seeking to preserve property rights and services of importance.

Prior to joining the North Bay Association of Realtors, Kathy was a member of my district staff for six years, responsible for district and field activities in Sonoma and Mendocino counties. During her time on my staff, she was a tireless advocate for constituents. In particular, I commend her work on issues related to Leaking Underground Storage Tanks, which was critical to maintaining a healthy community in our district.

Ms. Hayes' catalog of community involvement and achievements is far too prolific to list here. She is a past President of the Santa Rosa Education Cooperative Board and past Chair of the Board for the Sonoma County Chapter of the American Red Cross, as well as a current member of the Board for Habitat for Humanity of Sonoma County. She has received numerous prestigious awards, including the George Escoffier Distinguished Board Service Award from the American Red Cross, the Sonoma County Spirit Award from the
