

HONORING THE WORK AND
CAREER OF DR. D. WALTER COHEN

HON. CHAKA FATTAH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 29, 2014

Mr. FATTAH. Mr. Speaker, I rise today to recognize the impact of the work of Dr. D. Walter Cohen. Dr. Cohen's career brought extraordinary accomplishments to both Philadelphia and the global medical community. He set the highest standards in education and forged international partnerships for the promotion of peace. Today, I am pleased to honor Dr. D. Walter Cohen's contributions to education and science.

Dr. Cohen was born and raised in Philadelphia. He earned both his undergraduate degree and a D.D.S. from the University of Pennsylvania. After completing a research fellowship in Pathology and Periodontics at Beth Israel Hospital in Boston, he returned to Philadelphia to commence a distinguished academic career.

In 1951, Dr. Cohen returned to Penn as an associate professor and embarked on a career that would exemplify leadership, dedication, and the highest standard of innovation. During his tenure, he established Penn's Department of Periodontics and served as its first chairman, became a Professor of Periodontics, and ultimately became Dean of Penn Dental Medicine.

As Dean, Dr. Cohen is widely credited for revitalizing the school's educational program by establishing a preceptor model of education, introducing new courses, recruiting a new faculty, and establishing a residency. His book describes the innovative program that changed the way Penn educates dental students; "Educating the dentist of the future: The Pennsylvania Experiment." Dr. Cohen's career was ultimately recognized with the 2013 William J. Gies Award from the American Dental Education Association, which honored his superior achievements in dental education.

His accomplishments have considerable international impact. In the 1950's, he initiated a fellowship exchange between the U.S. and Israel. After raising \$500,000, he was able to bring over 18 full-time faculty members to train at Penn. The program's success paved the way for the creation of The D. Walter Cohen Middle East Center for Dental Education in Israel. The center allowed dentists throughout the Middle East to study at the Hebrew University Hadassah School in Jerusalem. The program strengthened the partnership between the U.S. and Israel while promoting peace and education.

Dr. Cohen's exemplary leadership helped to unite 41 U.S. dental schools under the Alliance for Oral Health Across Borders. The Alliance is committed to promoting peace through health education. By crossing borders, health providers build bridges among dental and health professionals around the world. These connections provide education, improve the state of oral health globally, develop leadership and advocacy, and promote collaborative research.

His legacy will endure through lasting contributions and through those who have recognized them. He was awarded honorary membership by the British Society of

Periodontology, and given the Legion of Merit Award from the French Government. The American Academy of Periodontology offers a grant in his name, the Dr. D. Walter Cohen Teaching Award. It is my privilege to recognize the distinguished career of Dr. Walter Cohen for contributing to peace and education around the world.

USA FREEDOM ACT

SPEECH OF

HON. JOHN CONYERS, JR.

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 22, 2014

Mr. CONYERS. Mr. Speaker, H.R. 3361, the USA FREEDOM Act, is intended to provide strong, concrete limits that prevent mass and untargeted collection of records and information using domestic intelligence authorities, Section 215 of the PATRIOT Act, the intelligence pen/trap statute, and national security letters. The USA FREEDOM Act is designed to prevent bulk collection on a nationwide scale and other broad collection of information that pertains to large numbers of people who share an identifier. The substitute amendment's definition of "specific selection term" is an integral part of our effort to end, and prevent, such broad collection. The identifiers that fit this definition should be narrowly construed to further this goal.

Under the bill, a specific selection term is defined as, "a discrete term, such as a term specifically identifying a person, entity, account, address, or device, used by the Government to limit the scope of the information or tangible things sought pursuant to the statute authorizing the provision of such information or tangible thing to the government."

This definition includes a non-exclusive list of discrete identifiers—person, entity, account, address, device—that are associated with a specific person or a very small group of people. The list is non-exclusive because there may be other discrete identifiers that pertain only to a specific person or a small group. Using an illustrative list rather than an exhaustive list provides necessary flexibility in choosing selection terms that identify particular people or small groups, and is not intended to permit collection of information about large numbers of people who may have some tie to an identifier. For example, a "specific selection term" includes the phone number associated with a target's cell phone and the phone number of his home landline he shares with the rest of his family, but not an area code shared by thousands or millions.

The substitute amendment includes "device" and "address" among the illustrative examples of specific selection terms. Use of these examples is not intended to permit large scale collection. They were added to broaden the type of specific identifiers that could be employed, not to permit broad collection of information that pertains to vast numbers of people. In both cases, these terms apply to a personal identifier—a personal device or address—in which the "device" or "address" takes the place of another unique identifier, such as a name or account.

For example, the IMEI number of cell phone identifies that "device" and is an appropriate selection term because the device is associ-

ated with a specific person. However, the IP address of an Internet router that acts as a hub for thousands of email users, while it identifies a specific device, does not qualify as a specific selection term because the records associated with it pertain to so many people. Similarly, an "address" could serve as a selection term permitting the government to name the physical address of a home, but not an IP address shared by thousands of Internet users. To use a selection term in a manner that would sweep up the records that pertain to dozens, hundreds, or thousands of individuals is exactly the type of mass surveillance that this legislation is designed to prevent.

The USA FREEDOM Act is intended to stop both bulk and "bulky" collection, and I expect it to fulfill this function as a critical safeguard to Americans' privacy.

PERSONAL EXPLANATION

HON. JIM JORDAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 29, 2014

Mr. JORDAN. Mr. Speaker, my scheduled flight into Washington yesterday was delayed significantly by bad weather. As a result, I was absent from the House floor during Wednesday's two rollcall votes.

Had I been present, I would have voted in favor of both H. Res. 599 and H.R. 503.

CONDOLENCES TO THE PEOPLE OF
TURKEY

HON. ADAM KINZINGER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 29, 2014

Mr. KINZINGER of Illinois. Mr. Speaker, I join my colleagues offering their condolences and prayers to the people of Turkey in the wake of the worst mining disaster in that country's history. I am deeply saddened by the tragic loss of life, and share the pain of the victims' families and friends.

As a former Air Force pilot who continues to serve in the Air National Guard, I have experienced our close relationship with Turkey, and can attest to the sincerity, kindness, and generosity of the Turkish people.

The way forward will be long and painful, but the people of Turkey should know they are not alone, and are in my thoughts and prayers at this difficult time.

COMMERCE, JUSTICE, SCIENCE,
AND RELATED AGENCIES APPROPRIATIONS ACT, 2015

SPEECH OF

HON. MICHAEL G. FITZPATRICK

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 28, 2014

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 4660) making appropriations for the Departments of Commerce and Justice, Science, and Related

Agencies for the fiscal year ending September 30, 2015, and for other purposes:

Mr. FITZPATRICK. Madam Chair, I thank the gentleman from New York, Mr. CROWLEY, for his bringing attention to an important program that deserves the support of this body. The importance of Science Technology Engineering and Math (or STEM) education has been recognized by this administration and members of Congress from both sides of the aisle. Investment in these fields will prepare our students for good paying jobs and strengthen our economy by ensuring that our workforce stays competitive in a globalized world. Entrepreneurs with specialties in these fields are creating exciting new start-ups and jobs while more established companies are being encouraged to reshore jobs in this country when our workers are better trained. In short the value of STEM education is universally understood.

Madam Chair, the gentleman's colloquy allows us the opportunity to demonstrate congressional intent to support STEM education, particularly in our Nation's Hispanic Serving Institutions. HSIs serve an important population and educate students of all backgrounds. The program directed the National Science Foundation to help create additional capacity for STEM education in these institutions of higher learning. The National Science Foundation directs investment in American innovation and is uniquely equipped to focus efforts on bringing more students into these important fields.

This amendment supports a worthy program that returns a value to our students and the economy that is well beyond the investment.

RECOGNIZING THE 85TH ANNIVERSARY OF ALPHA XI OMEGA CHAPTER OF ALPHA KAPPA ALPHA SORORITY, INC., DALLAS, TEXAS

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 29, 2014

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today to recognize the 85th Anniversary of the Alpha Xi Omega Chapter of the Alpha Kappa Alpha Sorority, Incorporated—the first Greek letter sorority for African-American women. The Alpha Xi Omega Chapter was established in Dallas, Texas on June 6, 1929. Since its inception, its members have provided outstanding community service throughout the City of Dallas. They have displayed a constant commitment to serving those in need through varied volunteer activities—from tutoring children, raising money to fight cancer, increasing awareness to combat AIDS, supporting research for sickle cell anemia to feeding the hungry.

Through programs of service, they encourage young men and women to develop high standards of character and excellence in education. They support a myriad of other programs, including: health and social services for women and children and the development of art, cultural and educational groups. They understand the great price of liberty—the duty of each of us to give back freely. They understand that by investing their time, energy and talent, they strengthen the very fiber of our Nation.

While my colleagues and I draft education reform legislations, we cannot be on the ground in every community: staffing after-school programs, coordinating back-to-school supply drives or organizing domestic violence seminars. Our success as a nation is, in no small part, due to the leadership and passion of citizens who are helping people lead healthier and more purposeful lives—those who focus on student achievement to foster innovation and creativity. The Alpha Xi Omega Chapter has improved the social stature of Dallas' youth by cultivating and encouraging high scholastic and ethical standards. Because of their work, the next generation of leaders is energized to innovate and move the country forward.

Mr. Speaker, I have been a Member of this organization for more than 40 years, and I can say with great pride that the City of Dallas is a better place because of the dedicated and selfless service of the distinguished women of The Alpha Xi Omega Chapter of the Alpha Kappa Alpha Sorority, Incorporated. Their unparalleled and unprecedented community involvement will impact the Dallas community for years to come. They epitomize the power of an engaged citizenry and reflect our nation's great tradition of service. I ask my colleagues to join me in recognizing their service today in the U.S. House of Representatives.

RECOGNITION OF THE 96TH ANNIVERSARY OF REPUBLIC DAY IN AZERBAIJAN

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 29, 2014

Mr. CUELLAR. Mr. Speaker, I rise today in recognition of the 96th anniversary of Republic Day in Azerbaijan on May 28. Azerbaijan is a secular, modern, Muslim country, which practices broad religious tolerance. Established in May 28, 1918, the Azerbaijan Democratic Republic was the first republic in any majority-Muslim country. In 1920 Russia occupied Azerbaijan and several Azeris lost their lives fighting for their independence. After years of living under Soviet rule, Azerbaijan reclaimed its independence in 1991 following the collapse of the Soviet Union.

Over the last twenty-three years, the Republic of Azerbaijan has strengthened its sovereignty and independence, and has developed into one of the fastest growing economies in the region. Azerbaijan is also a staunch ally and strategic partner of the United States in the decisively important Caspian region. As a valuable international ally, Azerbaijan provided aid to the United States directly following the devastating events of 9/11, assisting the United States on matters of international security.

Azerbaijan resides in one of the world's most dangerous neighborhoods, with Russia to the north and Iran to the south; however, the U.S. and Azerbaijan have developed a steadfast relationship through the opening of Caspian energy sources for development. Making significant contributions to the energy security of Europe, Turkey, and Israel, Azerbaijan has materialized as a fundamental player in global energy security.

Again, it is my pleasure to honor the Republic of Azerbaijan on the occasion of the 96th

anniversary of the Republic Day, and to distinguish the many achievements of Azerbaijan along with the remarkably valuable partnership between the United States and Azerbaijan.

CONGRATULATING THE HONOREES OF THE ELLSWORTH CHAMBER OF COMMERCE'S ANNUAL AWARDS DINNER

HON. MICHAEL H. MICHAUD

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 29, 2014

Mr. MICHAUD. Mr. Speaker, I rise today to recognize the honorees of the Ellsworth Chamber of Commerce's Annual Awards Dinner. The Ellsworth Chamber of Commerce serves the people and business communities of the region, working hard to strengthen economic opportunity throughout the area and the state.

Each year, the Ellsworth Chamber of Commerce recognizes local businesses, business leaders, and individuals who promote and advance a vital and healthy business environment. These individuals and businesses are committed to strengthening opportunity, prosperity, and community service in Maine.

The 2014 award winners are: Merrill Enterprises, Top Drawer Award; Eleanor Jones, Citizen of the Year; Friends and Family, Customer Service Award; Shinbashi, Revitalization Award; and Z Photography, Chamber New Business of the Year.

These recipients are among the best that Maine has to offer. Through their leadership and their incredible commitment to their communities and to the region, Maine is a better place in which to live and do business.

Mr. Speaker, please join me again in congratulating the Ellsworth Chamber of Commerce and the award recipients on their outstanding service and achievements.

CONFERENCE REPORT WATER RESOURCES REFORM AND DEVELOPMENT ACT (H.R. 3080)

HON. BETTY MCCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 29, 2014

Ms. MCCOLLUM. Mr. Speaker, had I been present, I would have voted in support of the Water Resources Reform and Development Act (H.R. 3080) Conference Report. Unfortunately, I attended the funeral for a family member and missed the vote.

The Water Resources Reform and Development Act authorizes the U.S. Army Corps of Engineers' mission, ensuring our nation's waterways have the resources to improve infrastructure and create jobs while providing flood protection and environmental restoration. Long overdue, the conference report to H.R. 3080 will ensure economic growth for years to come.

I'm pleased that the conference report includes my language addressing the threat of Asian carp in the Upper Mississippi and Ohio River basins and tributaries. The Fish and Wildlife Service in coordination with the Army Corps of Engineers, the National Park Service,
