

That would be millions upon millions of more American families that would be enrolled in affordable health care.

In the last week before the deadline, every Representative should take this opportunity to do the same job that we have been able to do in my district. We must help families sign up for the Affordable Health Care Act.

The day will come very soon when the truth will overcome the lies that have scared so many people. Billions of dollars have been spent scaring people away from trying to even enroll in the Affordable Care Act.

Let me give you an example. I have met with parents who have come to workshops to sign up, and they have anxiety and fear in their eyes; but thank God, just moments later, their fears go away when they find out that they now have affordable, reliable health care.

People with mild asthma that were once denied health care can no longer be discriminated against. They are no longer denied health care, and they can breathe easy knowing that they can now see a doctor, and they can actually get the medicines that they need just to breathe.

I met with a gentleman who was sitting there with his wife and his daughter, the sole income earner for that family. I don't know how he does it, but with \$9 an hour, he manages to feed a family of three; and he was worried that he couldn't afford maybe \$30, \$40, \$50 a month.

When the person turned the computer around and showed him what his eligibility was, he almost came to tears, realizing that, once and for all, himself, his wife, and his teenage daughter can now have health care.

I will tell you what. This is serious business. America, it is time that you sign up for affordable health care. Just try it. Don't worry; be happy.

Sign up for the insurance that you deserve.

Mr. CASTRO of Texas. Thank you, Congressman CÁRDENAS. Thank you for all of your work.

You also raise a great point, which is folks will often see the sticker price of the insurance on the exchanges.

By the way, I, as well as many other Members of Congress, bought our insurance off of the exchanges. We were getting asked that question a lot. You know, are you going to buy ObamaCare?

The answer is yes. I bought my insurance off the exchanges, and I saved money.

Folks should make sure that they also check, besides the sticker price, what kind of subsidy they get because it is meant to make insurance affordable for middle class Americans and others.

Mr. Speaker, I yield to the gentleman from New Mexico (Ms. MICHELLE LUJAN GRISHAM).

Ms. MICHELLE LUJAN GRISHAM of New Mexico. Thank you very much, Congressman JOAQUIN CASTRO.

Muchas gracias, al congresista JOAQUIN CASTRO.

Thank you so much for calling us together to talk about this critically important issue for our families.

Twenty years ago, when I was running the New Mexico Department on Aging, I remember an incredibly tragic call from a family of a 60-year-old woman who had fallen and broken her hip. She was in a hospital in Albuquerque.

Now, of course, hospitals are required to provide stabilizing emergency treatment and even surgery if that is required in that instance; but unfortunately, this 60-year-old woman didn't have insurance, and she was rolled out of the hospital in a wheelchair without the required surgery for her hip fracture.

If the Affordable Care Act was in place when this happened, this 60-year-old woman could have simply provided her health insurance card to someone at the hospital, and the hospital would have stabilized her hip, performed the surgery, and then provided follow-up rehabilitation care. This would allow this woman to walk again.

The required stabilization is critical for successful recovery of that particular hip injury, and the long-term consequences of not receiving the care, in addition to the pain and suffering of this woman, are significant. Quite frankly, she would never have walked again without that surgery.

Now, thankfully, in her case, the whole community came together to gather enough money to pay for her treatment; but if this were to happen today, she could have already purchased subsidized insurance in the health insurance marketplace or qualified for Medicaid, and she would have been able to receive treatment without the scare and the subsequent fundraising by her family in that instance.

People across the country face situations like this every single day. That is why it is critical that we tell our friends and neighbors that they only have 5 days left to enroll in health insurance through the marketplace—5 days. There is absolutely no time to waste.

Like many of my colleagues, I have been working with groups in my district and have been participating in enrollment events to help provide information and to assist New Mexicans to enroll.

Two of my constituents, Mark and Elizabeth Horst from Albuquerque, signed up for bronze plans through the exchange last fall. They make \$24,000 a year between them and have qualified for \$612 in subsidies, which covers the cost of the bronze plan.

Thousands more New Mexicans are still eligible. New Mexico had the third highest uninsured of any State before the Affordable Care Act went into effect this year. In the Hispanic community, more than 25 percent are uninsured, and more than that are underinsured.

Today, more than 360,000 in New Mexico are still eligible for enrollment. By enrolling in a plan, you don't have to risk injury or a lifetime of debt. You can get your family covered; and, by having access to primary care, your family can stay healthier longer.

I appreciate my colleague's effort today. I thank you very much.

Mr. CASTRO of Texas. Thank you, Congresswoman.

We only have a few minutes left, and I would like to yield to the gentleman from Texas (Mr. DOGGETT).

Mr. DOGGETT. I would just like to thank you for the work that you are doing on this, and I believe our real message is to the many people out there—some of whom may even think that this law has been repealed. They have tried so many times.

As you pointed out a little earlier, this is an opportunity that is there for the next 5 days. Get beyond all the political chatter. Turn to a group like the American Cancer Society or the American Diabetes Association. Look at the information that is there.

Then go to one of the many enrollment fairs we are having across San Antonio this weekend. There is one up in Austin that is going to go almost 24 hours straight. These are opportunities to get out and do this.

I know you had a very successful enrollment fair in San Antonio. I had one over at Progreso Hall. Our colleague, PETE GALLEGOS, had one out at Palo Alto. These have been opportunities for a wide range of our neighbors to come out and participate. We just want to encourage them to do more.

Mr. CASTRO of Texas. Thank you, Congressman DOGGETT, and thank you for your work when this bill was being worked on and drafted. Thank you for helping to pass it and, since then, passionately making sure that people get on to the ACA.

Mr. DOGGETT. I think, if we keep working together, we can find ways to strengthen and improve this, but the main thing is for our families to get out there now.

I think, increasingly, most folks are realizing, as you pointed out, with so many efforts to repeal, that the only alternative that they offer is "Nothing Care."

Mr. CASTRO of Texas. Mr. Speaker, I yield back the balance of my time.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Ms. DELBENE (at the request of Ms. PELOSI) for today and the balance of the week on account of official business in the district.

ENROLLED BILL SIGNED
