

Attrition data would help us better understand the impact of charter schools on student retention. It would also bring additional transparency regarding the drivers of attrition issues such as discipline, counseling, drop-outs, bullying, as well as the impact of learning disabilities like dyslexia on student retention.

Although the data reporting is not mandatory, it is my hope that charter school districts and charter schools will take up the challenge of providing hard data to make the case for their approaches to education.

I offered two amendments for consideration by the House Rules Committee that would strengthen the legislative goals of H.R. 10.

The amendments were simple and were an important addition to this strong bipartisan effort from the Education and Workforce Committee to bring clarity and improve transparency of charter schools in communities around the Nation.

#### JACKSON LEE AMENDMENT NO. 1

The Jackson Lee amendment made in order by the Rules Committee for debate of this bill directs State Education Agencies that award Federally funded grants to charter schools to work with those schools so that they provide information on their websites regarding student recruitment, orientation materials, enrollment criteria, student discipline policies, behavior codes, and parent contract requirements, which should include any financial obligations such as fees for tutoring, and extracurricular activities.

This Amendment will make it possible for parents to learn more about how schools deal with important education issues such as academic performance, enrichment programs, and quality of education life issues like reasonable accommodations for students with learning disabilities like dyslexia or physical disabilities.

Many charter schools already provide this information, and the amendment would support this good transparency practice. This Jackson Lee amendment is good for parents and for charter schools because parents would have access to information that helps them make education decisions for their children; and charter schools would speak to a larger audience regarding their education programs.

#### JACKSON LEE AMENDMENT NO. 2

The second Jackson Lee amendment was a "Sense of the Congress" on the promotion of, and support for anti-bullying programs in charter schools, including those serving rural communities.

I regret that this amendment was not made in order by the Rules Committee because the prevention of bullying is one of the most challenging problems focusing school officials.

I am disappointed that the Rules Committee did not make this amendment in order for consideration under this bill.

I introduced H.R. 2585, the Juvenile Accountability Block Grant Reauthorization and the Bullying Prevention and Intervention Act of 2013 because of the unresolved national epidemic of school bullying. This anti-bullying bill amends the Omnibus Crime Control and Safe Streets Act of 1968 by expanding the juvenile accountability block grant program with respect to programs for the prevention of bullying to include intervention programs. The

bill's objective is to reduce and prevent bullying and establish best practices for all activities that are likely to help reduce bullying among young people.

This year a million children will be teased, taunted, and physically assaulted by their peers. Bullying is the most common form of violence faced by our Nation's youth.

The frequency and intensity of bullying that young people face are astounding: 1 in 7 students in grades K–12 is either a bully or a victim of bullying; 90% of 4th to 8th grade students report being victims of bullying of some type, 56% of students have personally witnessed some type of bullying at school; 71% of students report incidents of bullying as a problem at their school; 15% of all students who don't show up for school report it to being out of fear of being bullied while at school; 1 out of 20 students has seen a student with a gun at school; 282,000 students are physically attacked in secondary schools each month.

Consequences of bullying: 15% of all school absenteeism is directly related to fears of being bullied at school; According to bullying statistics, 1 out of every 10 students who drops out of school does so because of repeated bullying; Suicides linked to bullying are the saddest statistic.

Statistics on Gun Violence: Homicide is the 2nd leading cause of death for young people ages 15 to 24 years old; Homicide is the leading cause of death for African Americans between ages 10 and 24; Thirteen young people from ages 10–24 become victims of homicide every day; 82.8% of those youths were killed with a firearm; Every 30 minutes, a child or teenager in America is injured by a gun; Every 3 hours and 15 minutes, a child or teenager loses their life to a firearm; In 2010, 82 children under 5 years of age lost their lives due to guns; One of four high school males reportedly carry a weapon to school, with 8.6% of reportedly carry a gun; 87% of youth said shootings are motivated by a desire to "get back at those who have hurt them," and 86% said, "other kids picking on them, making fun of them or bullying them" causes teenagers to turn to lethal violence in the schools; In 2011, over 707,000 young people, aged 10 to 24 years, had to be rushed to the emergency room as a result of physical assault injuries.

I strongly believe that where our children are concerned, Congress is in a unique position to advocate on their behalf in an effective and forceful way. Letting children know by our actions that members of Congress consider the lives of children and their experience to be of the utmost importance would help them in countless ways.

We cannot gamble with our children's future, and ultimately the future of our nation. I am committed to finding ways to make sure that education is as valued as national defense—because education is crucial to our nation's global success in all areas.

Mr. Speaker, I yield back the balance of my time. Thank you.
