Mr. SMITH of New Jersey. Mr. Speaker, I continue to reserve the balance of my time.

Mr. ENGEL. Mr. Speaker, I yield myself such time as I may consume.

In closing, I would like to once again thank Congresswoman Frederica Wilson and Chairman Royce for helping to move this resolution forward in a timely manner. The Senate passed a similar resolution last week, and I am pleased that we will soon follow suit.

We must do all we can to hold Boko Haram accountable for the mass abduction of schoolgirls and the many other terrorist attacks it has committed.

Our thoughts and prayers remain with the families and friends of the abducted girls, and we will not rest until they are returned to their loved ones. We will do everything in our power to get them home safely and soundly.

I urge my colleagues to support this important resolution, and I yield back the balance of my time.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me just say that we are really speaking with one voice tonight, and that is on behalf of the young women, the young girls, who have been abducted by Boko Haram. Thankfully, there is absolutely no divide between Republicans or Democrats, and really the world. The world is speaking out.

This is absolutely outrageous, but it is part of a trend and a surge that is happening in many parts of the world, including in Africa. Al-Shabaab in Somalia. We know the terrible killing spree that went on in Kenya, in Nairobi, not so long ago. Al Qaeda in the Arabian Peninsula, al Qaeda in the Islamic Maghreb. Ansar-al-Dine and Mujao in Mali. And then, of course, Seleka in the Central African Republic. And then, of course, Boko Haram.

Number nine of the whereas be it resolved 'calls on the President to provide Congress a comprehensive strategy to counter the growing threat posed by radical Islamist terrorist groups in West Africa, the Sahel, and North Africa.'

They are bad, Mr. Speaker, and they are getting worse. Many of us have been calling in a bipartisan way for years that Boko Haram be designated a foreign terrorist organization, and it was belated. It took years to designate this organization, this cruel, insensitive, and murderous organization. Thankfully, at least now everyone gets it, but unfortunately there are many, many victims who are suffering.

The war on terrorism, Mr. Speaker, remains largely unfinished. My hope is that this resolution and the commitment of the U.S. Government, the French, and the European allies, and frankly people around the world, even the Chinese know because they were recently hit as well, will understand that Boko Haram has to be stopped. All means necessary have to be employed to mitigate—no, not mitigate—destroy this threat to children, to women.

Let's not forget: here is a group that targets schools, literally abducts children, kills the men, the boys, and abducts the young girls. Just in May and April they conducted the worst attack on bus stations throughout Abuja. The worst hit. It barely made the papers, Mr. Speaker.

Boko Haram is a murderous organization, and it is about time we all did our part to ensure that they end their rein of terror.

I yield back the balance of my time. Mr. HOYER. Mr. Speaker, I rise in strong support of this bill, which I am proud to cosponsor, and I thank the Gentlelady from Florida, Congresswoman WILSON, for spearheading this effort.

It has now been over a month since over 230 girls and young women were kidnapped from their school in northeastern Nigeria. Boko Haram, the terrorist organization that has been attempting to impose its extremist views onto millions of people in Nigeria and in neighboring Niger and Cameroon, is a dangerous and destabilizing force in West Africa.

This is a region where millions of people are trying hard to overcome poverty and where national and local governments are focused on creating opportunities that can expand a growing middle class—ingredients for peace,

prosperity, and democracy.

The very name of Boko Haram means a rejection of secular education and the democratic values it teaches. The girls who were kidnapped—in an action that is nearly unthinkable to those of us here in America in 2014—are courageous individuals who dared to go to school and pursue opportunities that generations of girls and women before them never

Congress ought to condemn Boko Haram forcefully and send a clear message not only that the world cannot—and will not—accept its brand of violent extremism, but also that the American people stand in solidarity with all the girls and young women of West Africa who are bravely pursuing an education or yearning to do so. West Africa faces many challenges, and it's time to marshal the resources of the U.S. government and our allies to help address those challenges and to ensure that all the girls and young women who were abducted can return safely home.

I urge all of my colleagues to join me in supporting this bill so we can bring our girls home.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. SMITH) that the House suspend the rules and pass the resolution, H. Res. 573, as amended.

The question was taken; and (twothirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on

HOWARD P. "BUCK" MCKEON NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2015

#### GENERAL LEAVE

Mr. McKEON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and insert extraneous material on H.R. 4435.

The SPEAKER pro tempore (Mr. FORBES). Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. Pursuant to House Resolution 585 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 4435.

The Chair appoints the gentleman from Utah (Mr. STEWART) to preside over the Committee of the Whole.

#### □ 1924

#### IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 4435) to authorize appropriations for fiscal year 2015 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for such fiscal year, and for other purposes, with Mr. Stewart in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from California (Mr. McKeon) and the gentleman from Washington (Mr. SMITH) each will control 30 minutes.

The Chair recognizes the gentleman from California.

Mr. McKEON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in support of H.R. 4435, the National Defense Authorization Act for Fiscal Year 2015.

First, let me express my appreciation to Ranking Member SMITH for his leadership and friendship. He has been an invaluable partner in upholding our committee's focus on providing for our men and women in uniform. I would also like to thank our colleagues on the Armed Services Committee for

their professionalism and their hard work.

I am incredibly proud of the bipartisan, transparent, and inclusive process our committee undertakes each year. The bill under consideration today is a strong reflection of the bipartisan priorities and concerns shared by members of the committee, and is the result of diligent oversight that has been conducted throughout the year. It contains 154 amendments that were adopted during markup, and it passed out of committee with unanimous support.

The bill would authorize \$521 billion for national defense and an additional \$79 billion for overseas contingency operations, consistent with the 2013 bipartisan budget agreement and the

House-passed budget.

While we do not yet have the details of the OCO request, our committee, the House Budget Committee, and the administration, all agree that these funds will be required to support a residual U.S. presence in Afghanistan; other ongoing operations, including in Africa; and the reset and retrograde of equipment for the active, Guard, and Reserve forces.

The bill contains no earmarks. It provides vital national security resources for our troops while also maintaining our stewardship over the tax-

payer dollar.

The bill provides our warfighters, veterans, and their families with the care and support that they need, deserve, and have earned. It continues to advance the substantial reforms introduced in last year's NDAA aimed at preventing sexual assault in the military, and it takes several steps aimed at improving the military's suicide prevention programs. The bill would increase troop pay while rejecting cuts to TRICARE, housing allowances, and commissary benefits that would increase out-of-pocket expenses for military families

The legislation would provide our warfighters with the resources and authorities they need to support an enduring mission in Afghanistan and to continue pressuring al Qaeda and its affiliates. It also maintains strong accountability and monitoring mechanisms for U.S. funds, ensures the development of sound plans tied to resources, and continues the prohibitions on the transfer of detainees to the United States.

I recently visited Afghanistan and was encouraged by the progress of coalition forces and developments within the Afghan society. Nearly 8 million kids are in school, and a large percentage of those are girls, compared to the 700,000 that were attending school under Taliban rule. We need the President to signal his commitment and remove the uncertainty that persists among the Afghan people and our coalition partners, which al Qaeda and the Taliban continue to exploit. Afghanistan cannot return to being a safe haven for al Qaeda.

In this era of declining resources, the committee was faced with difficult choices as we sought to preserve key capabilities and to ensure our Armed Forces could meet current threats and prepare for future challenges. The bill identifies savings in less critical areas that do not permanently damage the force or harm recruiting and retention.

The legislation guards against achieving false short-term savings at the expense of vital long-term strategic capabilities.

#### □ 1930

For example, it supports the refueling of the USS George Washington—an aircraft carrier with 25 years of service life remaining—and it prohibits the early retirement of Navy cruisers, dock landing ships, and the Air Force U-2 spy planes.

These capabilities are vital to our commanders in the Pacific, as well as elsewhere across the globe. It also addresses shortfalls in readiness by resourcing several unmet requirements in equipment, training, and depot maintenance and by fully funding flying hour programs across the services.

We must also get more defense for the dollar, which is why the committee has initiated a comprehensive defense reform effort. This bill begins that process with a series of provisions on institutional, acquisition, security, and strategy reforms.

However, we must recognize that cost savings and reforms alone do not compensate for the significant cuts to defense in recent years. The Department of Defense has seen over \$1 trillion cut from its budget. This year's budget request is over \$30 billion less than last year's.

The padding has been cut, and the Department is now cutting into the bone—cutting end strength, force structure, and readiness—which is increasing risk to our forces and their core missions. While this bill makes tough choices, Congress will be called upon to make impossible choices in the years ahead if sequestration is not addressed

For 52 straight years, the National Defense Authorization Act has been passed and signed into law. Congress has no higher responsibility than to provide for the common defense, and with that in mind, I look forward to passing this bill for the 53rd consecutive year, my last year as chairman and as a Member of Congress.

Serving as chairman has been the great honor of my career. I am humbled by the many soldiers, sailors, airmen, and marines whom I have met over the years and by the sacrifices that they and their families make to keep America safe. I am thankful for my colleagues on both sides of the aisle, and I am very appreciative of our staff

I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Chairman, I yield myself such time as I may consume.

First of all, I want to join the chairman in thanking him for the working relationship that he and I have enjoyed now through 4 years and four national defense authorization acts. It is one of the main principles of our committee in that it is bipartisan, that we work together, and we produce a product every year—52 straight years, the National Defense Authorization Act.

That doesn't happen as a starting point, unless the chair of the committee takes the responsibility very seriously to make sure that our committee remains bipartisan. We have had a whole series of chairmen during my tenure who have done that, and Mr. McKeon has followed that tradition just as well as his predecessors. He has worked very closely with us.

We do not always agree, but we work closely together, understanding that, at the end of the day, we have to produce a bill. So I thank him for that, and I recognize that this will be his last NDAA. In fact, this is the Buck McKeon National Defense Authorization Act. Mr. Thornberry and I were proud to cosponsor the amendment in committee to name this after Buck, for his great service to our committee.

As always, I also want to thank the staff. I can't thank them enough for the work that they do and for the hours that they put in. They spent yesterday going through 320 amendments.

Their expertise that they bring to this process is invaluable, and someday, I hope that the House Administration Committee recognizes that and actually gives us the amount of money we need to keep them. That is just a little sidenote on a different piece of legislation.

This is, by and large, a good bill with one significant problem, which I will get to in a minute.

First of all, as the chairman notes, we are still at war in Afghanistan. I would say that I think, at this point, our continuing commitment to Afghanistan is up to the Afghan people and, most importantly, is up to the next Afghan President. We need the bilateral security agreement to be signed. It has been agreed to.

President Karzai has refused to sign it, but hopefully, the next President will. We have troops in harm's way, and this bill prioritizes protecting them. Nothing is more important than what we do here today.

I am also pleased that this bill prioritizes Special Operations Command and cyber warfare, recognizing, as we heard in the previous piece of legislation about Boko Haram, that the main threat that we face going forward is from terrorism and asymmetric threats.

I think we reflect that in this bill by funding those portions in the Defense Department that deal with those issues, and I think that is incredibly important.

However, we do have a budget problem, and put simply, we have a lot less money now than we thought we were going to have. So that means that 3 years ago, when the Pentagon was planning what they were going to spend over the course of a decade, they had a much larger number than they have now.

There are a whole bunch of reasons that number has gotten smaller, but it has. It will get even smaller if 8 more years of sequestration come to pass.

Now, the administration put out a plan 3 years ago when they looked out 10 years and said: What should our strategy be? Then they looked out 10 years and said: What are the likely resources?

When they put that plan out, they said: we know we are going to have to live with, roughly, \$500 billion less than we thought we were. We can do it. Here is the strategy. Here is the plan that fits that.

Since then, the budget has been shredded. It has been cut by even more. The plan they put forward now recognizes the fact that it doesn't fund what they would like to fund because Congress passed a budget that cuts the Defense Department by more than they would like. In fact, the administration asked for an additional \$28 billion this year and an additional \$150 billion over 5 years, in order to fully fund that.

That, apparently, is not forthcoming, so what they did is they put forward a series of proposals to try as best as they could to save money in a way that protects our force, and they did it in a number of different areas.

They proposed a BRAC; they proposed about \$2 billion in savings over 5 years to various personnel accounts; they got rid of the A-10; they got rid of the U-2; they proposed laying up 14 ships. Those were the main proposals out.

I am sorry. I forgot that they proposed shifting air assets in the Guard and Reserve to save \$12 billion over 5 years. Those were the proposals they put on the table.

The problem with this bill is that it rejects every single one of those proposals. How do we make the money work on that? Primarily by creative accounting; with the Guard and Reserve, for instance, we say no changes can be made in 2015.

They weren't planning on making any changes in 2015 that were going to cost money, but if this stops them from doing it going forward, they are put into a deep hole.

On the 14 ships that they wanted to lay up, we raid the modernization account to pay for keeping those 14 ships operational. So we get creative about it, but next year, the reckoning will come, frankly, sequestration or no sequestration. If sequestration happens, it is going to be really bad; but even if it doesn't, we still will not have addressed the long-term needs of our budget.

I will have a couple of amendments, one on BRAC and one on those 14 ships, that will give us an opportunity to, I think, make a better choice because the other way that we are able to preserve those programs is that we cut from the President's budget about \$1.8 billion in readiness.

\$1.2 billion is clear. The other 633 was to save the A-10, and it comes out of OCO. A good chunk of OCO goes to rebuild readiness; so basically, we take \$1.8 billion out of readiness, which puts us down the path to a hollow force that none of us wants. As we go forward to conference, we are going to need to make some of those tougher choices.

I do thank the chairman for his work and for what is contained in this bill. I look forward to debating the amendments, and I look forward to—knock on wood—passing for the 53rd straight year the National Defense Authorization Act, as is our primary responsibility.

I reserve the balance of my time.

Mr. McKEON. Mr. Chairman, I yield 3 minutes to the gentleman from Texas (Mr. Thornberry), my friend and colleague, who is the vice chairman of the Armed Services Committee and who is the chairman of the Intelligence, Emerging Threats, and Capabilities Subcommittee.

Mr. THORNBERRY. I thank the chairman for yielding.

Mr. Chairman, I want to start by commending the leadership of Chairman McKeon and Ranking Member SMITH in getting this bill to the floor in such a timely way, especially after the President's budget was quite late, but also in getting this bill here on a unanimous vote by the committee.

None of us agrees with every provision that is in this bill, but members of the committee were able to put aside personal preferences on individual issues to support a bill that benefits the Nation overall, and I hope that the House will do likewise.

I think it is important to emphasize that it has been a bipartisan effort, working together with the chairman and the ranking member and also with the chairmen of the subcommittees and with the ranking members of the subcommittees, that has gotten us to this place.

I think it is especially appropriate for this bill to be named for Chairman McKeon, not only in recognition for his leadership on this bill, but for his leadership of the committee during some very challenging circumstances throughout his tenure.

Some of those challenges have included our own budget issues, as was just addressed by the ranking member, as well as a myriad of threats around the world, so this measure that does so much for our country's security will always be associated with the many contributions of Chairman McKeon to our country's security.

Mr. Chairman, this bill meets the budget targets of the House-passed budget resolution and also of the Ryan-Murray budget agreement. I agree with the ranking member in that it does not solve our budget issues in the future—we still have to grapple with those—

but this year, it meets those requirements, and it does so by making some difficult choices.

In addition, among the many provisions of this bill, there are those that start to make a modest start on some defense reforms that are being worked on by both the House and the Senate in coordination with the Pentagon and with private industry.

I think everyone recognizes that we have to find a way to get more defense out of the money we spend, and there are some small but important steps to enable us to make greater progress in that area in the future, both by reducing overhead and by improving the way we acquire goods and services.

This bill is also active in all areas of responsibility for the Subcommittee on Intelligence, Emerging Threats, and Capabilities, including military cyber, science and technology, information technology, defense intelligence, special operations, and counterterrorism and irregular warfare.

I agree with the ranking member on the importance, especially, of cyber and special operations. In addition, we have coordinated with other subcommittees on a number of provisions that touch on the areas I have mentioned. In fact, I think the work among the subcommittees has been closer than I have ever seen it.

In that regard, I want to express my appreciation for my partner on the IETC Subcommittee, the gentleman from Rhode Island (Mr. Langevin), for all of his insights and cooperative spirit that make our work together so beneficial and rewarding. Like the chairman, I appreciate all of the work of the staffs of the subcommittee and the full committee.

Mr. SMITH of Washington. Mr. Chairman, I yield 2 minutes to the gentleman from Rhode Island (Mr. LANGEVIN), the ranking member of the Intelligence, Emerging Threats and Capabilities Subcommittee.

(Mr. LANGEVIN asked and was given permission to revise and extend his remarks.)

Mr. LANGEVIN. I thank the gentleman for yielding.

Mr. Chairman, I rise in support of H.R. 4435, the National Defense Authorization Act for Fiscal Year 2015.

I would like to begin by thanking Chairman McKeon for his leadership of the committee and for all of his years of dedication to national security. It is appropriate that this act is named after him.

I want to thank and recognize the ranking member, ADAM SMITH, for his leadership on the committee as well. He deeply cares about national security, and I appreciate the work that he has done on this mark.

I also want to thank Congressman MAC THORNBERRY, the chair of the Intelligence, Emerging Threats, and Capabilities Subcommittee. It has been a privilege working with him. As the ranking member of the IETC Subcommittee, I do appreciate his bipartisan work, and I am pleased with the bill that we have produced this year.

Mr. Chairman, the IETC portion of the bill authorizes approximately \$7.6 billion for the U.S. Special Operations Command. Authorities necessary for Special Operations Forces to combat terrorism are extended in the bill, which also provides an additional \$20 million for the Combating Terrorism Technical Support Office, which gives our Special Operations Forces the cutting-edge capabilities and technologies that they need.

The IETC Subcommittee also made investments in emerging technologies like electrical weapons, and I want to commend especially the Navy's efforts to move technologies like directed energy and railguns, in particular, out of the labs and into the field.

Getting this game-changing technology into the hands of the Nation's sailors and into the hands of all of our warfighters will ultimately serve to realize the promise of research investment.

In addition to our focus on research and development efforts, we must also put investments into education programs, so that there is a qualified science, technology, engineering, and mathematics—or STEM—talent pool to benefit the DOD.

I am particularly pleased that the bill provides a total of \$55.5 million for the National Defense Education Program. Additionally, the IETC portion of the bill includes provisions to strengthen the oversight of the intelligence community while ensuring that combat and commander intelligence, surveillance, and reconnaissance requirements are met.

The Acting CHAIR (Mr. RICE of South Carolina). The time of the gentleman has expired.

Mr. SMITH of Washington. I yield the gentleman an additional 1 minute. Mr. LANGEVIN. I thank the ranking member.

Mr. Chairman, last but certainly not least, the bill also supports cyber operations and U.S. Cyber Command, while reducing redundant programs and increasing transparency and oversight.

#### □ 1945

As recent revelations of cyber incidents demonstrate, a trained and ready cyber force and robust defensive capabilities have never been more integral to our national security.

These are just but a few of the highlights in the bill. In the interest of time, I will end there. But I do want to again thank the chairman and the ranking member for their leadership, all the members of the Armed Services Committee, as well as the staff of the committee, for all the work that they have put into this mark.

I urge my colleagues to support the

Mr. McKEON. Mr. Chairman, I yield 3 minutes to the gentleman from Virginia (Mr. FORBES), my friend and colleague and a member of the Armed Services Committee and chairman of the Seapower and Projection Forces Subcommittee.

Mr. FORBES. Thank you, Mr. Chairman

Mr. Chairman, I rise in support of the Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015. With the chairman's leadership and stewardship, I believe that this bill provides the right authorities within the budget limits provided.

I continue to be impressed by Chairman McKeon's commitment to our national defense and particularly his leadership and zeal to complete the 54th annual National Defense Authorization Act. His inspirational determination and effort to provide for our national security will undoubtedly serve as a benchmark for our future.

I also want to recognize my friend and ranking member of the Seapower and Projection Forces Subcommittee on the occasion of his retirement from the House of Representatives. MIKE MCINTYRE has been a resolute supporter of the men and women in uniform. His departure after providing 18 years of support for our national defense and this institution will be sorely missed.

As to the National Defense Authorization Act for Fiscal Year 2015, I continue to be concerned about the trajectory of our national defense and believe that our national security will be irreparably harmed if we continue on our current path. History is full of examples of nation-states that underestimate the value of national security and the severe consequences of their failure. Our inability to change these trend lines will be measured in the sweat and blood of the men and women whom we collectively hold in such high esteem.

While we support these men and women in words, I fear that the real damage to our servicemembers is being caused by the benign neglect of this administration and, at times, Congress, in terms of funding and effort. We must not stand idly by watching the continued dismantling of the world's finest military.

As to the Seapower and Projection Forces Subcommittee mark, I am pleased that we were successful in reversing the administration recommendation to eliminate an aircraft carrier. By restoring \$796 million for the long lead item procurement and detailed planning for the refueling and complex overhaul of the USS George Washington, we are taking the right steps to retain strategic options for future Presidents.

I am also pleased that we funded two Arleigh Burke class destroyers, two Virginia class submarines, and two littoral combat ships. I want to especially highlight our incremental funding of the San Antonio class amphibious ship. This amphib will bring important support to our United States Marine Corps as we continue our strategic rebalance toward the Pacific.

I remain very pleased with the direction of our projection forces. This bill provides strategic Air Force invest-

ments in terms of procuring 13 C-130J military transport variants, six KC-46A tankers, and significant research and development investments in the long-range strike bomber.

While we have a long way to go to reverse some negative trends, I think this bill does a good job of supporting our forces within the budget constraints provided. However, we need to vigorously and resolutely seek another path to change our national security funding trajectory.

I think this bill is another positive step on a long road to adequately support our national security, and I would urge my colleagues to support the Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015.

Mr. SMITH of Washington. Mr. Chairman, I yield 2 minutes to the gentlelady from California (Ms. Loretta Sanchez), ranking member of the Tactical Air and Land Forces Subcommittee.

Ms. LORETTA SANCHEZ of California. Mr. Chair, I thank the ranking member and my colleague from California, Chairman McKeon, in particular, for all the work and guidance that he has given us as he leaves the Congress at the end of this year. I am sure we will fete you in better ways, but thank you for the work you have done.

I want to thank the chairman of the Tactical Air and Land Forces Subcommittee, Chairman MIKE TURNER, for his leadership this year.

We have worked in a bipartisan manner. We have had three critical goals in mind as we have done this: supporting our troops with the equipment that they need, cutting wasteful spending, and investing in our future.

The subcommittee's portion of H.R. 4435 supports all of the high-priority acquisition programs in the President's budget.

H.R. 4435 provides \$8.3 billion for the F-35 Joint Strike Fighter, \$3.8 billion for Army aviation upgrades, \$1.4 billion for the Ospreys, and \$997 million for U.S. Marine Corps ground equipment.

However, our subcommittee didn't just rubberstamp everything. We actually took a very careful look at what programs were working, which ones were slow, and what wasn't getting done. We were able to identify more than \$600 million in funding that we put in other places in the bill. They were used to increase funding in numerous areas in an effort to provide additional equipment for our military and preserve critical production capabilities for the future.

Specifically, the bill provides an additional \$450 million for the EA-18G Growler aircraft for the Navy, \$340 million for additional ground combat vehicles for the Army, \$80 million in additional funds for the procurement of body armor, \$250 million in funding for the National Guard and Reserve equipment account, and numerous other investments.

Please vote for it.

Finally, the chairman's mark includes important oversight legislation on numerous major DOD programs to ensure that the Congress has the information it needs to make future judgments.

The Acting CHAIR. The time of the gentlewoman has expired.

Mr. SMITH of Washington. I yield the gentlelady an additional 1 minute. Ms. LORETTA SANCHEZ of California. This is a good government bill.

Mr. McKEON. Mr. Chairman, I yield 3 minutes to the gentleman from South Carolina (Mr. WILSON), my friend and colleague and a member of the Armed Services Committee and chairman of the Military Personnel Subcommittee.

Mr. WILSON of South Carolina. Thank you, Chairman McKeon, for your leadership. Congratulations on the deserved naming in your honor of the National Defense Authorization Act.

Mr. Chair, the military personnel provisions of H.R. 4435 are a product of an open, bipartisan process. H.R. 4435 provides our warfighters, veterans, and military families the care and support they need, deserve, and have earned.

Specifically, this year's proposal continues to refine the Department of Defense sexual assault and response program while at the same time actively monitoring the Department's implementation of the significant reforms enacted by Congress over the past 2 years.

In particular, the mark requires performance evaluations for commanding officers to include assessments of the command climate pertaining to sexual assault.

In addition, the mark would require the Secretary of Defense to conduct a review, utilizing the services of an independent organization experienced in grocery retail analysis, of the defense commissary system and reverse some of the reductions to the commissary system.

The mark would express the sense of Congress that the United States has a responsibility to continue to search for missing or captured members of the Armed Forces, leaving no one behind.

Additionally, this would standardize the collection reporting and assessments of suicide data involving members of the Armed Forces and their family members.

Although the mark follows the administration's request for annual end strength reductions, I have serious reservations about the end strength and force structure reduction of our military. America remains at war today, and will continue a global conflict with murderous illegal enemy combatants.

We must not forget the attacks of September 11, 2001, and September 11, 2012, in the global war on terrorism.

This report does not include the administration's request for military retirees to pay more for health care. Congress established the Military Compensation and Retirement Moderniza-

tion Commission, and we need to be informed of their analysis before proceeding with changes impacting military families.

In conclusion, I want to thank Ranking Member Susan Davis and her staff for their input in this process. We were joined by an active, informed, and dedicated group of subcommittee members supported by a professional staff in the tradition of the late John Chapla.

I urge my colleagues to support this legislation.

Mr. SMITH of Washington. Mr. Chairman, I yield 2 minutes to the gentleman from North Carolina (Mr. McIntyre), the ranking member on the Seapower and Projection Forces Subcommittee.

Mr. McINTYRE. Mr. Chairman, the Seapower and Projection Forces portion of this bill continues this subcommittee's tradition of strong bipartisan support for our men and women in uniform. I would like to thank Subcommittee Chairman FORBES for working together in such an open and bipartisan manner.

This is a good bill. This is an extremely challenging time, we know, for the Department of Defense, given the fiscal constraints that it is being required to operate under.

With this bill, the Armed Services Committee has attempted to strike the difficult balance of providing for the current force while also looking forward to the requirements of the future force.

I am pleased in particular this bill includes provisions that restore funding for the refueling and complex overhaul of the USS George Washington, which is the first step needed to ensure we maintain the requirement of 11 aircraft carriers. This bill also authorizes two Virginia class submarines, two Arleigh Burke destroyers, and an additional 96 Tomahawk missiles.

This bill creates a national sea-based deterrence fund that is designed to provide the Navy with some flexibility when it begins construction of the *Ohio* class replacement submarine.

With this being my last defense bill before retiring at the end of this term, I want to thank my good friend RANDY FORBES for his leadership as chairman of the subcommittee and his friendship through the years.

I also want to thank my friend and my classmate, ADAM SMITH, for his great leadership, and our gracious chairman, BUCK MCKEON, for the leadership that he has given our committee overall and for his friendship as well. I wish him well on his retirement.

I am glad that all of these gentleman that I have named and those that I have served with on the subcommittee and the full committee have together shared that position for making sure we do right by our men and women in uniform.

With that, Mr. Speaker, I support the passage of this defense bill. I urge other Members here in the Congress to do the same.

I pray God's blessings be upon all of those who serve and will benefit from this bill.

Mr. McKEON. Mr. Chairman, I yield 3 minutes to the gentleman from Ohio (Mr. Turner), my friend and colleague and a member of the Armed Services Committee and chairman of the Tactical Air and Land Forces Subcommittee.

Mr. TURNER. Mr. Chairman, I rise in strong support of H.R. 4435, the National Defense Authorization Act for Fiscal Year 2015.

I want to begin by thanking Chairman McKeon and Ranking Member SMITH for their leadership in this committee and this being truly a bipartisan effort.

This will be Chairman McKeon's last bill. He has not only been a leader for our committee and in Congress, but he has been a tremendous mentor for so many of us in Congress. His legacy will leave a lasting impact not only in legislation affecting the Department of Defense, our national security, and our men and women in uniform, but the Members of Congress who serve. And certainly, as we look to the future of the Armed Services Committee, his legacy will be in his mentoring of the other members of the committee.

I serve as chairman of the Tactical Air and Land Forces Subcommittee as well as the cochair of the Military Sexual Assault Prevention Caucus. I first want to thank the subcommittee's ranking member, LORETTA SANCHEZ from California, for her support in completing the markup of this bill.

The committee's focus has been to support the men and women of the Armed Forces and their families, providing them the equipment they need and the support that they so deserve. This bill helps to retain defense technology superiority, sustains the defense industrial base, and maintains effective modernization for our military.

The committee bill includes additional funding for Abrams Tanks, Bradley Fighting Vehicles, Stryker Combat Vehicles, Tactical Wheeled Vehicles, body armor, and unmanned aerial systems

I believe the committee bill strikes the appropriate balance between equipping our military to effectively carry out its mission while also providing aggressive oversight to ensure appropriate use of taxpayers' dollars.

The bill again this year takes a significant step in combating the issue of sexual assault in the military by incorporating the FAIR Military Act of 2014, a bipartisan bill first introduced by myself and Representative NIKI TSONGAS.

I would like to thank Representative TSONGAS, Military Personnel Subcommittee Chairman Joe Wilson, and Representative DAVIS, ranking member on the Personnel Subcommittee, for their leadership on this issue. I want to thank Chairman McKeon and Ranking Member SMITH for their leadership that has allowed a bipartisan solution on sexual assault.

Under this bill, Congress limits the use of the "good soldier defense," which allows a defendant to cite unrelated, subjective factors during trial, such as military record. It requires commanders be assessed on their ability to create a climate where a victim can report a crime without fear of retaliation. It ensures that the changes and provisions regarding military sexual assault prevention from the FY14 defense authorization apply to the military service academies.

#### □ 2000

Finally, this bill provides the child custody protections that our military men and women deserve.

I, again, want to thank Chairman McKeon for his help on protecting the custody rights of our men and women in uniform. No longer will our men and women face deployment while having to worry whether or not they have the custody of their children upon return.

I urge my colleagues on both sides of the aisle to support this bill and to vote "yes" on H.R. 4435.

Mr. SMITH of Washington. Mr. Chairman, I yield 2 minutes to the gentlewoman from California (Mrs. DAVIS), ranking member of the Military Personnel Subcommittee.

Mrs. DAVIS of California. Mr. Chairman, I want to thank Mr. WILSON and the committee staff for working in a bipartisan manner to develop this bill.

The Buck McKeon NDAA continues the committee's focus on sexual assault and includes such provisions as requiring the judicial panel to assess the use of mental health records by the defense in preliminary hearings and to compare this with the civilian use of mental health records in criminal proceedings; clarifying that the service academies, including the Coast Guard Academy, are subject to the same sexual harassment and assault requirements; requiring an inspector general review of the separation records of servicemembers who made unrestricted reports and determining whether such separation was in retaliation for filing said report; requiring performance appraisals of a commanding officer to include whether a command climate has been established in which allegations of sexual assault are properly managed and victims feel free to report; and requiring the Secretary of Defense to modify rule 404 of the Military Rules of Evidence to clarify that general military character of an accused is not admissible, except in cases where the military character of the accused is relevant to the offense being charged.

Mr. Chairman, oversight of sexual assault in the military remains a priority of the committee, and we will continue to identify gaps that need to be addressed and to enable the Department of Defense to reduce these numbers.

We all want to get to the same place—safe working conditions and a harassment-free, sexual assault-free environment for all, and there are different views of how to get there; but

the bill, as it is now, gives us the opportunity to create a military where change can and must occur.

On other personnel matters, our bill does not include the proposed legislative changes to the commissary system, housing allowances, and the health care modifications requested by the Department of Defense.

As a result of that, the Department will need to address the \$1.5 billion savings it already took in its fiscal year 2015 budget.

The Acting CHAIR. The time of the gentlewoman has expired.

Mr. SMITH of Washington. I yield the gentlewoman an additional 30 seconds.

Mrs. DAVIS of California. In addition, the restoration of the 1 percent COLA reduction that was in the budget agreement and restored earlier this year left the Department with an additional hole of \$500 million for fiscal year 2015, and these savings will need to be paid for from other Department of Defense accounts.

We must begin that discussion, and I hope that the Military Compensation and Retirement Modernization Commission will be the start of that.

We know these are difficult times, and difficult decisions need to be made to protect and sustain our All-Volunteer Force. It has already been stated that ignoring these issues will only lead the Department to take significant cuts to our end strength and readiness.

Despite these concerns though, Mr. Chairman, this bill deserves passage.

Mr. McKEON. Mr. Chairman, I yield 3 minutes to the gentleman from Alabama (Mr. Rogers), my friend and colleague, a member of the Armed Services Committee and the chairman of the Strategic Forces Subcommittee.

Mr. ROGERS of Alabama. Mr. Chairman, I rise today in support of the Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015.

This is an important annual bill, not just because, as you have heard, it is the 53rd in a row; it is what is in the bill for our men and women in uniform and our national security that counts.

For example, we fully support the Israeli Cooperative programs, including Iron Dome, while also continuing to make progress on U.S.-based coproduction to strengthen our ally, Israel.

We include increased resources for our GMD system, which is our only homeland missile defense capability.

We support critical nuclear weapons capabilities, including programs the President promised to support as a part of the deal to ratify the New START treaty, which are \$2 billion short of what was promised with several key programs years behind schedule.

We have initiated in this bill the development of a competitively sourced next-generation rocket engine. We will not permit the kleptocrats in charge of Russia to hold our national security

space programs hostage. It is past time that we reinvigorate our rocket motor industrial base.

I am pleased that we also are able to begin a pilot program for a new and more commonsense public-private partnership acquisition approach for the procurement of commercial satellite communication services.

We also begin the same public-private partnership process to deal with the scores of obsolete, decrepit, non-nuclear facilities in the NNSA.

Mr. Chairman, in taking a look at the amendments that were filed with the Rules Committee, it is clear to me that plenty of our colleagues are not happy with the tough choices made by the 2-year budget deal reached last year, and I join them.

As we debate these amendments over the next couple of days, I think Members will see what those of us on the Armed Services Committee have been warning for about a year. There are no more easy choices. We are not just cutting into the muscle and bone; we are amputating vital limbs.

I have a warning for every Member of this body. If you think the choices that we made were tough this year, wait till next year, when sequestration returns.

I wish to thank the ranking member, the gentleman, and my friend from Tennessee, for his outstanding leadership on this subcommittee.

I wish to thank Chairman McKeon for all he has done over his long career for the men and women of our armed services. They may never know all he has done for them, but I know. If he had to do it here again, he would.

Mr. Chairman, I thank you for your service, and I look forward to working with you to see that the Howard P. "Buck" McKeon National Defense Authorization Act is signed into law later this year.

Mr. SMITH of Washington. Mr. Chairman, I now yield 2 minutes to the gentlewoman from Massachusetts (Ms. TSONGAS), the ranking member of the Oversight and Investigation Subcommittee.

Ms. TSONGAS. Mr. Chairman, I rise in support of H.R. 4435. I want to begin by thanking Chairman McKeon for his decades of service in the House and for his evenhanded tenure leading the Armed Services Committee.

I also want to thank Ranking Member SMITH for his leadership and his willingness to address the tough issues that face the United States military.

This year's NDAA takes further necessary steps toward eliminating sexual assault in our military ranks. I appreciate the efforts of Congressman WILSON and Congresswoman DAVIS to ensure the inclusion of the FAIR Military Act into this bill.

I would also like to thank my cochair of the Military Sexual Assault Prevention Caucus and coauthor of the FAIR Military Act, Congressman MIKE TURNER.

The fiscal year '15 NDAA ensures servicemembers at all levels are held

to the highest standard, and no more will the so-called "good soldier defense" allow criminal behavior to go unpunished and prevent justice from prevailing.

This NDAA also makes strides toward addressing the epidemic of suicide surrounding our military. It requires the Department of Defense to establish a system to track all suicides and attempted suicides for Active Duty, Reserves, and Guard servicemembers, as well as military family members, so that we can better understand the full scope of this tragedy.

I would also like to highlight the important work that his bill does with regard to research and development. In this era of increasingly capable enemies and constrained budgets, the DOD must rapidly take advantage of technological advancements and deliver these capabilities to the field.

Key provisions in the NDAA will enhance the DOD's ability to recruit and retain the Nation's best talent, talent needed to develop the resources that are key to keeping servicemembers safe and successful around the globe.

Similarly, I was encouraged that this bill incorporates language creating opportunities for investment in critical R&D programs like the Combat Feeding program at Natick Soldier Systems. This center finds ways to make sure our servicemembers are fed and fed well in some of the world's most unforgiving climates.

Finally, I would like to thank the committee staff who worked closely with all of our staffs to include these important provisions in the bill.

Mr. McKEON. Mr. Chairman, I yield 3 minutes to the gentleman from Virginia (Mr. WITTMAN), my friend and colleague, a member of the Armed Services Committee and the chairman of the Readiness Subcommittee.

Mr. WITTMAN. Mr. Chairman, and Ranking Member SMITH, thank you so much for your leadership in leading this bill to the floor.

I rise in support of the Howard P. "Buck" McKeon National Defense Authorization Act, which provides funding for ongoing operations in Afghanistan and, most critically, for our men and women on the front lines, where they continue to fight and die on our behalf each and every day.

No one in this Chamber should forget that most of the decisions we make impact them first and foremost. It is our constitutional responsibility and should be our highest priority to ensure that they have the training and equipment they need to do their missions and come home safely. We must be committed to ensuring that our force is always ready to respond if a crisis arises.

This bill attempts to limit operational risk, while also balancing present and future readiness requirements with an unrealistic and ultimately damaging topline.

When we legislate to an arbitrary budget number rather than to a national security strategy, we inevitably make ill-advised choices that impact our capacity and capability to respond to global threats, such as the crisis in Ukraine, an emboldened and increasingly aggressive Russia, an increasingly aggressive China, and growing tensions in the Asia Pacific.

If circumstances demand that we call up our forces to respond at this point in time, our military options would be limited.

That is why I strongly oppose BRAC at this time. We just don't have the money to fund it, and we have higher priorities that directly impact the safety of our troops, and every effort and every dollar must be focused on them

This means funding the Marine Corps Air-Ground Task Forces, or MAGTAFs, in SOUTHCOM and CENTCOM, which are needed to secure embassy and military installations across the globe, a requirement made clear after the terrorist attack at Benghazi; funding flying hour programs, training, and depoing hour programs, training, and depoing robust steaming days critical to fleet training; and restoring CVN-73 funding to retain its viability as a fleet asset.

These fixes, of course, don't alleviate my concerns about readiness shortfalls or risk to our warfighters. We here in Washington need to do all we can to decrease such risks.

We ask a lot of our men and women who serve. We must not ask them to go into a fight without the training and equipment they need to succeed.

When I took my oath of office to serve in Congress, I swore that I would abide by the principles laid out in the Constitution to ensure a robust national defense. While I believe this bill reflects that commitment, we cannot lose sight of the fact that FY16 is ominously looming, and sequestration remains the law of the land.

The short-term and often shortsighted choices we have been forced to make will only exacerbate our readiness levels.

We must continue to focus on restoring the readiness lost as a result of sequestration, but the fact remains that the national security requirements, as outlined in the defense strategy, far exceed the budget.

I remain deeply concerned about the overall readiness of our force, not just the men and women that are fighting in Afghanistan, but those stationed around the globe. We must ensure they are properly trained, equipped, and prepared to meet the challenges on the horizon with overwhelming strength and superiority.

It is time to fix sequestration and start budgeting to meet our defense strategy, not a senseless and arbitrary budget number.

Mr. SMITH of Washington. Mr. Chairman, I yield 2 minutes to the gentleman from California (Mr. GARAMENDI), a member of the committee

Mr. GARAMENDI. Mr. Chairman, congratulations to the chair of the committee and the ranking member for putting together a unanimous bipartisan bill. There is much to say in this bill that is good, and I would like to say about two things. One, the ISR capabilities of the military, particularly the Air Force, are maintained in this bill. The U-2 and the Global Hawk will continue to operate and provide critical intelligence to our military, operating now in the Sahel of Africa, chasing off Boko Haram.

This bill also provides us with the continuability to get to where we need to go. The KC-10 will remain in the force for the foreseeable future, until it is fully replaced by the KC-46s.

All of this is good. You need to know what is going on around the world, and you need to be able to get there, and this bill provides for that.

However, there are issues in this bill that we need to spend some time working on. It has been some 20 years since we have taken a hard look at the nuclear triad, an extraordinarily expensive and extraordinarily dangerous part of our military apparatus.

We are talking nuclear weapons here and the triad—the bombers, the ICBMs, and the submarines.

#### $\Box$ 2015

How do they fit? What do we need? How much do we really need to spend upon them?

Also, the nuclear weapons that go with them. The rebuilding of our nuclear weapons is a 20- to 30-year process, and we are talking about tens of billions of dollars. Too much? Enough? Maybe. Too much? Probably.

We also have to dispose of some 43 tons of unnecessary plutonium. How is that going to be done at the Savannah facility? There is money in this budget to continue a dead-end process. We ought to take a new look at that. And there will be amendments that will be proposed.

And finally, the big elephant in the room. We are talking about Afghanistan. \$74 billion in this bill not debated, not discussed. We must do that. It is our obligation as Members of the House of Representatives and the representatives of the people of the United States to talk about what we are going to do in Afghanistan, and that needs to be done.

Mr. McKEON. Mr. Chairman, I yield 3 minutes to the gentleman from Nevada, Dr. Heck, my friend and colleague, who is a member of the Armed Services Committee and is the chairman of the Oversight and Investigations Subcommittee.

Mr. HECK of Nevada. Mr. Chairman, I rise to thank the committee chairman, the gentleman from California, for his years of service to the Nation, this body, and for his mentorship, and also to voice my strong support for H.R. 4435, the National Defense Authorization Act of 2014.

The bill under consideration is the result of an open process that truly reflects the bipartisan nature of the

House Armed Services Committee and the bipartisan support of our military men and women.

Although fiscal realities and constrained resources have forced us to make difficult trade-offs, the committee maintained its commitment to those currently serving in uniform as well as to our veterans and their families.

In last year's NDAA, Congress established the Military Compensation and Retirement Commission to evaluate and analyze potential reforms to pay and benefits. This report, expected to be delivered in February of 2015, will inform the debate on the future of military and retiree compensation. As such, I am pleased that this bill rejects the Department's request to cut the pay and benefits of our troops, which would have included significant reforms to TRICARE and cuts to housing and commissary benefits.

Any attempts to change pay and benefits before Congress receives the commission's report are premature and illadvised, and I applaud the committee for rejecting these proposals and for remaining steadfast in its support of our servicemembers, our veterans, and their families.

Mr. Chairman, H.R. 4435 also acknowledges the work that the Armed Services Committee has completed over the last year to address some of the deficiencies made evident by the tragedy in Benghazi. The Department of Defense has determined that being prepared for an uncertain, volatile, complex, and ambiguous security environment, especially at remote diplomatic outposts, is the new normal that confronts our Nation. This bill expresses concern that U.S. Africa Command does not have sufficient assigned military forces, including specialized military capabilities, which this new normal requires.

As such, this legislation requires the Secretary of Defense, in consultation with the Secretary of State and the Chairman of the Joint Chiefs of Staff, to submit a report on how this evolving security environment has changed AFRICOM's force posture and force structure requirements. This provision will help ensure that AFRICOM receives the resources it needs to protect posts in high-risk, high-threat areas and the capability to respond to future crises.

Mr. Chairman, H.R. 4435 is an important bill that strikes the appropriate balance between priorities in a fiscally constrained environment. I urge my colleagues to support the Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015.

Mr. SMITH of Washington. Mr. Chairman, I yield 2 minutes to the gentleman from Texas (Mr. GALLEGO), a member of the committee.

Mr. GALLEGO. Mr. Chairman, I, too, would like to thank Chairman McKeon and Ranking Member SMITH for their leadership. I am glad to have had the opportunity to work with and learn

from each of them, and I certainly wish the chairman well in his future endeavors.

This legislation marks more than 50 years of bipartisan agreements on national defense. Not many committees in the U.S. Congress can say that. As a new Member, I am proud to be part of that tradition.

However, the bill only buys us a little time. Unless Congress provides relief from sequestration, next year's decisions will be exponentially more difficult. Yet we must do everything to be sure that our sons and daughters have what they need to be successful and safe, both at home and abroad. That means training or weapons or materials or supplies or equipment or machinery. Our sons and our daughters deserve the very best.

Texas is extremely proud of its connection to our military. Important installations like Fort Bliss, Laughlin Air Force Base, and Joint Base San Antonio are core parts of our economy and our communities. Texas is home to many of our warfighters—soldiers, sailors, airmen, and marines—and both the civilian and military personnel who support them.

I, too, am proud to support our men and women in uniform. Thus, I urge all of my colleagues to support this bill and, like today, work in a bipartisan fashion that ends sequestration tomorrow, and from here on out, work in that same bipartisan fashion.

May God's blessings be upon all the men and women in uniform who are impacted by this bill and their families.

I want to thank Chairman McKeon and Ranking Member SMITH. It was a pleasure working with them both on this bill.

Mr. McKEON. Mr. Chairman, I yield 1 minute to the gentlelady from Indiana (Mrs. Walorski), my friend and colleague, who is a member of the Armed Services Committee.

Mrs. WALORSKI. Mr. Chairman, we have the strongest and best military in the world.

Thanks to the hard work of Chairman McKeon and Ranking Member SMITH, this year's defense bill works within budgetary constraints to ensure that our military continues to have the best people, the best training, and the best hardware. This bill guards against irresponsible cuts to pay and benefits. It improves readiness, and it provides our men and women in uniform with the vital aircraft, ships, and ground vehicles they need to fight and win today's increasingly complex battle space.

We also included several bipartisan commonsense provisions that build on our important work last year to combat military sexual assault.

We hold Russia accountable for its aggression against Ukraine and its treaty violations.

Finally, we lay the groundwork for a comprehensive defense reform effort, including finding ways to stretch the

taxpayer dollars for the defense of this Nation.

I urge my colleagues to support this bill.

Mr. SMITH of Washington. Mr. Chairman, I yield myself the balance of my time.

I just want to again thank the chairman for his leadership and thank all of the folks who have done so much hard work in pulling this bill together.

I will make two other quick points. One, to sort of reemphasize, we have heard a couple of times that this bill makes the tough choices. I can't see one at this point. You know, we have sort of dodged and bobbed and weaved. Some of that I actually support. Some of it made sense.

One of the issues that we have to wrestle with on the committee is how do we preserve the industrial base? When you are talking about making submarines or tanks or jet fighters, if you don't keep making them, you can't say, well, we are going to shut it down for 3 years and then we are going to start making them again, because that workforce is gone, the plants are gone. Those decisions do have to be made.

I just think at this point, on balance, in this instance, every single hard choice that the administration laid out on compensation—I know health care is difficult. I think that the men and women who serve in our military should have the best health care while they are serving and after of anyone in this country, and they will. But there is an important statistic.

In 1996, your average servicemember paid 27 percent of the cost of his or her health care. This year, that number is 10 percent. Why? Because health care costs went through the ceiling, but we didn't raise a single penny in costs for anyone serving in the military. Is that sustainable?

They also make cuts in some of the subsidies for the commissaries, subsidies for housing. They looked for places where they could save some money. Again, no BRAC. Again, the A-10 we keep. The ships we keep. I understand those decisions, but they are building up an awful bellwether.

And the final thing I will say is that I will again bring my amendment on closing Guantanamo Bay. The one thing we are slowly learning is that as we, fortunately, get fewer and fewer inmates in Guantanamo, it becomes more and more expensive to maintain what was supposed to be a temporary facility. Aside from all the arguments about how the international community feels about Guantanamo, arguments that President George W. Bush made when he said he supported closing Guantanamo, it is the sheer cost of maintaining that prison in such an obscure place. So I will again offer that amendment, and again we will have a robust debate on it.

But the one point I want to make on that amendment—we have heard people say, well, gosh, we can't release these people in the United States. We are not going to release them in the United States. We are going to lock them up, as we currently lock up over 300 terrorists, countless mass murderers, and some of the worst, most violent people this country knows. They are locked up in secure facilities. We can do the same with the dangerous inmates who remain at Guantanamo. But keeping Guantanamo open is not intelligent, both in terms of cost and in terms of our standing in the international community.

With that, I look forward to seeing how many of those 320 amendments the Rules Committee is going to throw at us, and I look forward to a robust debate starting this evening into the next couple of days.

I yield back the balance of my time. Mr. McKEON. I yield myself the balance of my time.

Mr. Chairman, this has been a great opportunity for an American to serve his community, to be able to come to the Capitol of this great land and serve in the House of Representatives. It is something I had never, ever contemplated growing up. It is something I never had thought about. But it has been a tremendous education and a tremendous opportunity to serve. It has been a tremendous opportunity to meet some really good people.

You know, I have heard from the polls that the Congress has a rating of like 13 percent. That may be a little high. It may be lower than that. I heard somebody say that our rating was so low that it is just basically family and staff, and then after we cut the staff's health care, that it probably was just down to family. Fortunately, I have a large family.

But I have mentioned to members of this committee—and those who are probably watching tonight have seen members of the committee that have talked about this bill that we have been working on, and I hope that they have felt of their strength, of their commitment, of their desire to do the things that their constituents sent them here to do.

I told members of the committee recently that if people at home could sit in on the markup, if they could sit in on some of the discussions that members of the committee have had, I think our ratings would probably be much higher, because these things that we grapple with aren't easy. They are not simple "yes" and "no" answers to the things that we deal with.

For instance, I know many of us a couple of years ago voted for the Budget Control Act, which brought us sequestration. It also kept the government open, because that was one of the parts of the vote. If we had voted against it, the government would have been shut down. I think it was a bad choice that we had to make, but I was assured that sequestration would never happen. Well, we found out it happened, and it is causing us a lot of problems with our national defense.

You know, the beauty of being able to serve on this committee is we get to

serve with men and women who really sacrifice much. The men and women and their families sacrifice much to look out for our interests both at home and abroad, and I want to thank them.

I want to thank all of the members of the committee. I want to thank all of our staff for the tremendous work that they do. They spent hours last night just going through these amendments, and they have been there constantly. They are all people of great expertise and great understanding of the issues that we face.

With that, Mr. Chairman, I would like to ask all of my colleagues to follow this debate closely and support this bill as we come to final passage.

With that, I yield back the balance of my time.

Mrs. MILLER of Michigan. Mr. Chair, earlier this year, President Obama released his 2015 budget proposal that makes another attempt to eliminate the entire A–10 fleet, which is the most effective weapons system used to protect our combat forces on the ground. I know how effective the A–10s have been in support of our troops because the 107th Fighter Squadron of the Michigan Air National Guard fly A–10s out of Selfridge Air National Guard Base in my district.

This is not the first time that the Administration has attempted to eliminate the A–10s from the inventory. In 2012, the defense budget submitted by the Administration also included a proposal to retire several A10 units, particularly those flown by the Air Guard, without an acceptable alternative to provide the critical ground support mission. That proposal was beaten back by those of us who realize the value of the Warthog and, more importantly, by those who rely on its protection.

Two weeks ago, when testifying before the Senate Armed Services Committee, U.S. Army Chief of Staff Gen. Raymond Odierno told members of the committee that our ground troops "believe" in the A-10 "Warthog" and have confidence in its ability, above any other aircraft, to protect them in combat.

Throughout this debate, Members of the Senate and the House have reiterated their opposition to the proposed divestment by highlighting the cost efficiency of the A-10, which costs an estimated \$17,000 per hour to operate compared to one of its proposed replacements, the B-1, which costs \$54,000 per hour to fly, and most importantly, the support of those engaged in combat on the ground.

I am very pleased that during the House Armed Services Committee markup of the bill we are considering today, a bipartisan majority of that committee reaffirmed the importance of these aircraft with the adoption of an amendment that will preserve the fleet through 2015.

Our unwavering support for the A-10 is not based on a perceived reluctance to cut anything military, it is based on facts, the cost effective nature of these aircraft and the strong support of our soldiers who depend on the close air support provided by the Warthog.

I hear it time and time again from our troops who have served in combat in defense of freedom as well as those that operate A–10s out of Selfridge. They all agree that it is the most dependable aircraft. They use words like "proven, effective and reliable" to describe it. They say that it is the only weapon system that can do what it does, and what it does, is protect them in combat.

Our troops put their lives in harm's way for our liberty, and we need to make sure we do everything possible to protect them in battle. I am glad that today a bi-partisan majority in the House agreed with me and so many across this nation about the importance of the A-10 to our national defense. It is my firm hope that the Senate will join us and pass similar protections as this process moves forward.

# SEC. 3113. COST CONTAINMENT FOR URANIUM CAPABILITIES REPLACEMENT PROJECT.

- (a) Sense of Congress.—It is the sense of Congress that—
- (1) the April 2010 Nuclear Posture Review, a February 2011 letter from the President to the Senate, and many other policy statements and documents have identified the Uranium Capabilities Replacement Project as a critical nuclear modernization priority;
- (2) the failure of the Department of Energy and the National Nuclear Security Administration to successfully and efficiently execute and oversee the Uranium Capabilities Replacement Project undermines national security and jeopardizes the long-term credibility of the nuclear deterrent:
- (3) the April 8, 2014, testimony of the Acting Administrator for Nuclear Security that "close to half" of the \$1,200,000,000 taxpayers have spent on the design of such project has been wasted is a grievous misuse of limited taxpayer funds, and the appropriate officials of the Federal Government and contractors must be held accountable:
- (4) the uranium capabilities and modern infrastructure that are to be provided by all three phases of the Uranium Capabilities Replacement Project are critical to national security and Congress fully supports efforts to deliver all of these capabilities efficiently and expeditiously;
- (5) focused attention and robust leadership from the highest levels of the executive branch and Congress are required to ensure that such project delivers such critical national security capabilities: and
- (6) the Secretary of Energy and the Administrator for Nuclear Security must ensure that lines of responsibility, authority, and accountability for such project are clear going forward.

- "(2) ADJUSTMENT.—If the Secretary determines the total cost of Phase I will exceed the amount set forth in paragraph (1), the Secretary may adjust such amount if, by not later than March 1, 2015, the Secretary submits to the congressional defense committees a detailed justification for such adjustment, including—
- "(A) the amount of the adjustment and the proposed total cost of Phase I;

"(B) a detailed justification for such adjustment, including a description of the changes that would be required to the project referred to in subsection (a) if Phase I were to not exceed the total cost set forth in paragraph (1);

"(C) a detailed description of the actions taken to hold appropriate contractors, employees of contractors, and employees of the Federal Government accountable for the repeated failures within the project;

"(D) a description of the clear lines of responsibility, authority, and accountability for the project as the project continues, including descriptions of the roles and responsibilities for each key Federal and contractor position; and

"(E) a detailed description of the structural reforms planned or implemented by the Secretary to ensure Phase I is executed on time and on schedule.

"(3) Annual certification.—Not later than March I of each year through 2025, the Secretary shall certify in writing to the congressional defense committees and the Secretary of Defense that Phase I under subsection (a) of the project referred to in such subsection will meet—

"(A) the total cost set forth in paragraph (1) (as adjusted pursuant to paragraph (2) if so adjusted); and

(2) in subsection (e), by adding at the end the following new paragraph:

"(3) REPORT.—Not later than March 1, 2015, the Secretary of Energy and the Secretary of the Navy shall jointly submit to the congressional defense committees a report detailing the implementation of paragraphs (1) and (2), includ-

"(A) a description of the program management, oversight, design, and other responsibilities for the project referred to in subsection (a) that are provided to the Commander of the Naval Facilities Engineering Command pursuant to paragraph (1); and

#### SEC. 3114. PLUTONIUM PIT PRODUCTION CAPAC-ITY.

- (a) FINDINGS.—Congress finds the following:
  (1) In 2008, the Department of Defense and the Department of Energy, acting through the Nuclear Weapons Council established by section 179 of title 10, United States Code, agreed on a strategy to balance cost, risk, and stockpile needs and established the requirement for the Department of Energy to produce 50 to 80 plutonium pits per year.
- (2) In a memorandum of agreement dated May 3, 2010, entered into by the Secretary of Defense and the Secretary of Energy, the Secretaries agreed that the Department of Energy would achieve a minimum pit production capacity of 50 to 80 pits per year by 2022.
- (3) The current plans of the Secretary of Energy would achieve a pit production capacity of 50 to 80 pits per year by 2031, resulting in a delay of nearly a decade as compared to the agreement described in paragraph (2).
- (4) In a report dated January 14, 2014, that the Secretary of Defense submitted to Congress,

the Secretary stated that "the Department of Defense has revalidated its requirement for 50 – 80 pits per year based on the demands of stockpile modernization, the commitments to a modern physical infrastructure, and the ability to hedge against technical failure or geopolitical risk"

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the requirement to create a modern, responsive nuclear infrastructure that includes the capability and capacity to produce, at minimum, 50 to 80 pits per year, is a national security priority;

(2) delaying creation of a modern, responsive nuclear infrastructure until the 2030s is an unacceptable risk to the nuclear deterrent and the national security of the United States; and

(3) timelines for creating certain capacities for production of plutonium pits and other nuclear weapons components must be driven by the requirement to hedge against technical and geopolitical risk and not solely by the needs of life extension programs.

(c) PIT PRODUCTION.—

(1) In General.—Title XLII of the Atomic Energy Defense Act (50 U.S.C. 2521 et seq.) is amended by inserting after the item relating to section 4218 the following new section:

"(a) REQUIREMENT.—Consistent with the requirements of the Secretary of Defense, the Secretary of Energy shall ensure that the nuclear security enterprise—

"(1) during 2023, produces not less than 30 war reserve plutonium pits;

"(2) during 2026, produces not less than 50 war reserve plutonium pits: and

"(3) during a pilot period of not less than 90 days during 2027, demonstrates the capability to produce war reserve plutonium pits at a rate sufficient to produce 80 pits per year.

"(b) ANNUAL CERTIFICATION.—Not later than March 1, 2015, and each year thereafter through 2027, the Secretary shall certify to the congressional defense committees and the Secretary of Defense that the programs and budget of the Secretary will enable the nuclear security enterprise to meet the requirements under subsection

(a).

"(c) PLAN.—If the Secretary does not make a certification by March 1 of any year in which a certification is required under subsection (b), by not later than May 1 of such year, the Chairman of the Nuclear Weapons Council shall submit to the congressional defense committees plan to enable the nuclear security enterprise to meet the requirements under subsection (b). Such plan shall include identification of the resources of the Department of Energy that the Chairman determines should be redirected to support the plan to meet such requirements."

The Chair recognizes the gentleman from Oregon.

Mr. BLUMENAUER. Mr. Chairman, as I have been listening to the debate this evening following the process, I, too, would offer my congratulations to the chair of the committee and the committee itself dealing with a very difficult situation. There are lots of pressures. They are not just faceless special interests, but we are dealing with businesses, with unions, with the military itself, concerns for their family, the armed services, and the traditions. All of these things make for a very complicated situation.

But I relate to something Mr. SMITH said a moment ago, the ranking member, talking about the really hard questions are not really being addressed. We are sort of pushing them down the road when the administration and the Pentagon offered them forward.

I am concerned that we have yet to come to grips with the costs of between a half-trillion and two-thirds of a trillion dollars for our nuclear capacity over the next 10 years. Well, I am offering tonight an easy opportunity to deal with something that can make a big difference to support thousands of brave men and women who make up the Air National Guard, who have proven themselves, especially over the last 13 years, answering the call of duty in Iraq and Afghanistan. In addition to protecting the homeland without wavering, they have responded time and time again when disaster strikes.

But I want to focus on one particular area dealing with the Air Guard and Reserves' capacity to be able to meet their challenges. My amendment would call the question of whether the House is ready to make a modest change in other funding levels to support the Air

The amendment would authorize the Secretary of the Air Force to procure 10 Active Electronically Scanned Array radar upgrades for the Air Guard's F-15 fleet. We have around the country people who are relying upon a variation of the oldest radars, which are late 1970s technology that went out of production in 1986. It limits their capacity to meet even the most basic of threats and has serious maintenance—not just capacity—but maintenance and operational problems.

I would like to include for the RECORD this letter of support from the National Guard Association of the United States, which shows why they so strongly support this amendment.

> NATIONAL GUARD ASSOCIATION OF THE UNITED STATES, Washington, DC, May 19, 2014.

Hon. EARL BLUMENAUER,

Longworth House Office Building,

Washington, DC.

DEAR CONGRESSMAN BLUMENAUER: On behalf of the members of the National Guard Association of the United States (NGAUS), I would like to thank you for introducing an amendment to the National Defense Author-

ization Act of 2015 to increase funding for Air National Guard (ANG) F-15 Active Electronic Scanned Array (AESA) radar upgrade.

As you may know, the Air Force currently possesses 248 F-15C/D aircraft worldwide, with the ANG maintaining 130 (52 percent) of those aircraft. Of the 130 F-15 aircraft the ANG maintains, 74 possess the oldest APG-63v(0) radar system. This V(0) radar is a mechanically scanned system and has significant limitations in capability against most threats across the globe.
Upgrading the F-15 with the APG-63(V)3

AESA radar provides a significant technological advantage for both homeland defense

and world-wide operations.

Additionally, the V(3) is dramatically easier and cheaper to maintain due to its sold state electronics. Studies indicate that the AESA radar generates approximately 800 percent more reliability than the V(0) radar. It also allows for true and effective multitrack and attack capability and increased capability against advanced electronic attack and small radar cross section targets.

Though the President's budget this year provides for \$32.5 million for ANG radar upgrades, NGAUS believes additional funding on top of this request will help to maintain parity amongst the Combat Air Force's F-15 in the Active and the National Guard. Considering the Air Force will have to maintain F-15s for the foreseeable future, we believe it. is paramount to ensure additional upgrades to the ANG fleet.

NGAUS supports your efforts in the House to increase funding for ANG F-15 AESA radar upgrades.

Thank you for your leadership and strong support on this issue and of our National Guard.

Sincerely.

GUS HARGETT, Major General, USA, (Ret), NGAUS President.

Mr. BLUMENAUER. Mr. Chairman, an upgrade for these 10 operating systems would not only provide significant technological advantage for both homeland defense and worldwide operation, but it would—and this is very important—it is actually going to save money over the next 10 years. It is much easier and cheaper than to maintain the current outmoded radars. A small, upfront investment makes our F-15 fighter pilots safer and more effective and saves money in the long run.

Looking for offsets is obviously difficult to do, but what we have done is identify modest reductions in areas that are already far in excess of what the President has requested. In some cases, they are even an additional increment above that which has been offered by the committee in its proposal.

I would hope that the House would approve this modest reduction in these seven accounts. It is not going to undercut our nuclear deterrent, but it will make a huge difference for the men and women who serve in the Air National Guard in terms of their safety, their effectiveness, and in the long run will save money.

Mr. Chairman, I reserve the balance of my time.

Mr. ROGERS of Alabama. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman is recognized for 5 minutes

Mr. ROGERS of Alabama. Mr. Chairman, I yield myself 2 minutes.

Mr. Chairman, this amendment is part of a long running effort to reduce funding for an already chronically underfunded nuclear deterrent. Advocates of unilateral U.S. disarmament try unsuccessfully each year to cut nuclear weapons funding. We see it on the NDAA, we see it on the appropriations bills, and we see it in stand-alone bills.

For instance, in February, the gentleman from Oregon introduced H.R. 4107, the REIN-IN Act. The bill would devastate our nuclear deterrent by mandating the following: reducing the number of ICBMs from 450 to 150 and delay development of follow-on systems, cutting the number of ballistic missile submarines from 12 to eight, delaying development of the nuclearcapable, long-range bomber, prohibiting the F-35 from being nuclear capable, and terminating several nuclear infrastructure modernization construction projects.

The amendment we are considering today is part of the broader effort that you will see reflected in that bill. It is part of the Disarm-America agenda that is so dangerous to U.S. nuclear security and our international stability. Let's call this amendment what it is: a sly attempt to undercut and undermine our nuclear deterrent by pitting us against the Air National Guard. It is a unilateral disarmament, and I stand here in firm opposition.

The offset of this amendment is also bad policy. Over the last 3 years, the Department of Energy's nuclear weapons program is already a total of \$2 billion short of the funding the administration committed in 2010. The administration committed to this funding to win ratification of the New START treaty. Now that it is a treaty, it is unwilling to request the money the nuclear deterrent needs.

We must hold the administration to its commitment, provide the money, and oppose this amendment. I strongly urge my colleagues to vote "no" on this amendment, and I reserve the balance of my time.

Mr. BLUMENAUER. May I inquire as to the amount of time I have remaining?

The Acting CHAIRMAN. The gentleman from Oregon has 1 minute remaining.

Mr. BLUMENAUER. Mr. Chairman, I reserve the balance of my time.

Mr. ROGERS of Alabama. I yield 2 minutes to the gentleman from Ohio (Mr. TURNER), my friend and colleague. Mr. TURNER. I want to join Chair-

man Rogers in his effort to oppose this amendment.

Mr. Chair, as we know, this is one of the annual reoccurring Representative Blumenauer's reductions of nuclear weapons efforts. And I would support reducing spending on nuclear weapons if we were talking about Mr. Putin's reducing his funding on nuclear weapons or Russia reducing their funding on nuclear weapons, which we know they are not going to do.

So this is a continued unfortunate exercise of discussing unilateral reductions in the United States' funding its

nuclear weapon deterrent, which is a dangerous thing to do, especially as Mr. Putin is continuing his efforts to escalate conflict throughout the world and also is looking to increase his overall nuclear weapons capability.

Now, the other thing is, this isn't even needed. The bill already provides the budget request level of \$117.5 million to purchase 17 of these radars that would be purchased under this amendment, 15 of which will go to the Air Guard, and it is certainly a prudent and efficient investment, but, additionally, the HASC bill also funds the National Guard and Reserve equipment account, which, if the Air Guard really thought they needed these radars, they could go buy them from that without turning to our nuclear deterrent.

So why would this be damaging? Well, already, the DOD nuclear activities are \$2 billion short of their 2010 commitment, and our deferred maintenance across the DOD, the deferred maintenance—stuff that we need to be fixing that we are not fixing—has a backlog of \$3.5 billion, and this amendment would take another \$39 million out of that effort to satisfy that backlog.

This should, as Chairman ROGERS said, be seen exactly for what it is, another effort to unilaterally reduce the nuclear deterrent of the United States. I think this would be a better focus if it was focused on Russia, and it certainly does nothing to improve the overall capability of our Air National Guard. They have all the resources that they would need.

Mr. BLUMENAUER. It is laughable to say that our Air National Guard has all the resources they need. It is not true. And I have entered into the RECORD argument to the contrary from the people who are actually administering it.

I am happy to debate our REIN-IN legislation, which would be \$100 billion. We have far more than we need and can afford. But what I am talking about is \$100 million for items that are specified that are modest reductions that aren't going to cripple us and will give the Air National Guard a modern, updated radar system that makes them safer and more efficient.

This is an example of the tradeoffs, sadly, that are not part of this bill that we do need to make. Sooner or later, the day of reckoning will come. In the meantime, this is a small gesture to help approve the capacity of the Air National Guard, and I urge its adoption

I yield back the balance of my time. Mr. ROGERS of Alabama. Mr. Chairman, I would like to yield 15 seconds to the gentleman from Ohio (Mr. TURNER) to respond.

Mr. TURNER. As Mr. Blumenauer knows, my comment is that they have all the resources they need to make a decision to purchase these radars. Everyone knows that this bill is underfunded, and it certainly underfunded nuclear weapons, and your bill, your

amendment would only further reduce our nuclear weapons capability.

Mr. ROGERS of Alabama. I yield 1 minute to the gentleman from Texas (Mr. THORNBERRY).

Mr. THORNBERRY. I thank the gentleman for yielding.

Mr. Chairman, the centerpiece of our national security is our nuclear deterrent, and we have neglected it terribly for years, both in the administration and in Congress, and we have got a lot of catching up to do.

So as the gentleman from Ohio said and the administration itself says, we have a \$3.5 billion maintenance backlog on our facilities. Thirty percent of the facilities we are using were built during the Manhattan Project, and 50 percent of the facilities we are using are more than 40 years old.

Now, we are fortunate that we have got some engineers and other highly skilled workers who are willing to work in those conditions, but they are not going to be willing to work in it forever. And so this bill doesn't solve that problem by any stretch of the imagination, but at least this extra \$39 billion helps it from getting too much worse. It takes a step in the right direction.

These nuclear weapons are aging machines, just like the facilities are aging machines, and they require care and trading out parts if the people who have to work around them are going to be safe. That is why it is a mistake to take away from this central element of our facility.

Mr. ROGERS of Alabama. Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Oregon (Mr. BLU-MENAUER).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. BLUMENAUER. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Oregon will be postponed.

AMENDMENT NO. 2 OFFERED BY MR. GOHMERT

The Acting CHAIR. It is now in order to consider amendment No. 2 printed in House Report 113–455.

Mr. GOHMERT. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle C of title V, add the following new section:

#### SEC. 5 ... AUTHORIZING COMMANDERS TO PER-MIT MEMBERS OF THE ARMED FORCES TO CARRY A FIREARM ON A MILITARY INSTALLATION.

- (a) GENERAL AUTHORIZATION.—Notwithstanding any other provision of law, regulation, or directive, the Secretary of Defense shall—
- (1) authorize DoD personnel to openly carry a loaded firearm for the purpose of pro-

viding 24-hour security monitoring in order to ensure the safety of DoD military and civilian personnel and their dependents who reside on military installations; or

(2) establish and carry out a procedure to permit qualified military personnel to openly carry a loaded firearm on a military installation for personal protection.

(b) COMMANDER CONTROL OVER AUTHORIZATION.—Commanders at all levels will exercise sufficient control over authorizations involving the carrying of firearms in accordance with subsection (a).

(1) is in addition to other programs that permit DoD personnel to perform law enforcement and security duties;

(2) shall be carried out as a program on the duty roster; and

(3) at a minimum, include placing security personnel at all points of entry into barracks and multi-family residences on military installation.

(d) QUALIFIED MILITARY PERSONNEL DE-FINED.—For purposes of subsection (a)(2), the term "qualified military personnel" means a member of the armed forces on active duty who—

(1) has passed a gun safety course that is certified by any State, the District of Columbia, or any territory or possession of the United States as providing adequate training to enable the member to carry a concealed handgun in such State, the District of Columbia, or such territory or possession;

(2) is not the subject of any disciplinary action under the Uniform Code of Military Justice for an assaultive offense that could result in incarceration or separation from the Armed Forces under other than honorable conditions;

(3) meets annual eligibility requirements for use of any military firearm, as established by the Secretary of the military department concerned;

(4) passes a background check, as established by the Secretary of the military department concerned;

(5) passes a psychological evaluation, as established by the Secretary of the military department concerned;

(6) is not under the influence of alcohol or another intoxicating or hallucinatory drug or substance; and

(7) is not prohibited by Federal law from receiving a firearm.

The Acting CHAIR. Pursuant to House Resolution 585, the gentleman from Texas (Mr. GOHMERT) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

Mr. GOHMERT. Mr. Chairman, at this time, I yield to the gentleman from California (Mr. McKeon), the chairman of the committee, for a colloquy.

Mr. McKEON. Mr. Chairman, I want to thank the gentleman. We just had a little discussion. The amendment he plans on presenting tonight is something that we have not in the committee been able to hold hearings on and to really discuss fully in the committee.

It didn't come up at the full committee or the subcommittee level, but he has an issue that is very important to him, it is very important to his State, it is very important to many people around this Nation.

What I told him is that this is the start of a process. It is a continuation of a process that we started in January with hearings, with subcommittee hearings, with subcommittee markups, and full committee markups, but we are not even halfway through the process yet.

After we pass our bill on the floor, the Senate is marking their bill up this week, and at some point, they will mark it on the floor, and then there will be a conference, so there is much to do between now and the end.

Mr. GOHMERT. Reclaiming my time, my concern has been when we had a second shooting without the administration having done anything after the first Fort Hood shooting and then we have a second Fort Hood shooting 4½ years later, it made no sense not to do something.

My own feeling was we should just allow all of our military members, they may be carrying automatic weapons, they may be authorized to shoot RPGs, drop bombs, all kinds of weapons in a foreign theater, why shouldn't they be able to carry weapons on military installations here in the United States?

So my first amendment was simply to just allow every military member to carry, and then the issue came open or concealed. There are some commanders that have an issue both ways.

In talking to other commanders, some commanders have said: look, there are some people overseas we don't let carry weapons, and we know from experience that some have returned where you have someone suffering potentially from PTSD that needs to be checked out.

So commanders have encouraged that: gee, if that is going to happen, we ought to be able to check them out.

Everybody knows nobody stands stronger for Second Amendment rights than me, but when you are in the military, you do give up certain rights, including free speech and freedom of assembly; and so it shouldn't be inappropriate to have someone go through an extra check before they were allowed to carry.

Then bowing further to current commanders and former commanders like Jerry Boykin—former Delta Force—thought, gee, we can give them a choice, either have a duty roster where people walk around with weapons, and that would discourage further shooting because, clearly, as an article by Arthur Berg says in The Wall Street Journal, these people want to conclude it themselves. If they are afraid someone will shoot them before they conclude it, then that would not be—they wouldn't be going through it.

So those are all things that motivate my amendment being filed, and the chairman here tells me that this is an issue that they would like to push in conference with the Senate bill that will be brought through.

Since there is an ongoing concern about what would be the best way to do this, as I have experienced with commanders I have talked to, I have been encouraged—and not in a bad way—that this would be a way that we could do it, I would be consulted on what was being done in conference and that it would be brought up there.

As a result, based on the assurances of my friend, the chairman, I ask unanimous consent to withdraw my amendment at this time.

The Acting CHAIR. Is there objection to the request of the gentleman from Texas?

Mr. SMITH of Washington. Reserving the right to object, I just want to talk for a moment or two. I hear all that, and I am happy to have the amendment withdrawn. I think this is a bad idea from our side of the aisle. I have talked to a lot of people in the military, and they are deeply concerned about the notion of allowing people to be armed on base at all times. The command structure issues that you mentioned and the rights that are given up, this is something that we would strongly oppose.

I just want to make sure for the RECORD a colloquy doesn't put something in conference, okay? I don't know what the Senate is going to do. There is nothing in our bill on this. If there is nothing in the Senate bill, it ain't in conference. So, if you want to withdraw it and keep working on the Senate, that is fine. I just want to make sure that we don't have some record here that thinks that, with this colloquy, it makes this a conference issue.

The Acting CHAIR. Does the gentleman from Washington withdraw his reservation?

#### PARLIAMENTARY INQUIRY

Mr. SMITH of Washington. Mr. Chairman, point of parliamentary inquiry, a colloquy does not put an issue in a position to be in conference, does it? It has to be in either the House or the Senate bill?

The Acting CHAIR. That is a matter for debate.

Mr. SMITH of Washington. All right. Well, if the purpose is to withdraw the amendment, I will withdraw my reservation of objection.

The Acting CHAIR. Without objection, the amendment is withdrawn.

There was no objection.

AMENDMENT NO. 3 OFFERED BY MS. LORETTA SANCHEZ OF CALIFORNIA

The Acting CHAIR. It is now in order to consider amendment No. 3 printed in House Report 113–455.

Ms. LŌRETTA SANCHEZ of California. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 270, line 11, strike "REACTORS," and insert "REACTORS, AND DEFENSE NUCLEAR NONPROLIFERATION.".

Page 270, line 20, insert "or for other national security purposes," before "the Secretary of Defense may".

Page 270, line 25, insert ", defense nuclear nonproliferation programs," before "or weapons activities".

The Acting CHAIR. Pursuant to House Resolution 585, the gentlewoman from California (Ms. Loretta Sanchez) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from California.

Ms. LORETTA SANCHEZ of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, every day, the United States faces an extremely urgent and dangerous threat, and this threat goes beyond the traditional dangers of states possessing nuclear weapons.

What I am talking about right now is the very real possibility of these dangerous materials landing in the hands of terrorist organizations. Because of this real threat, I know that there is no one in this Chamber who will deny the importance of nonproliferation programs and how effective they are in combating one of the greatest threats to the United States' security.

For example, just imagine if Ukraine still had its nuclear materials today. Imagine the disaster we would be in as the administration endeavored to accelerate the removal of nuclear materials from Ukraine, but the Global Threat Reduction Initiative, an incredibly important nonproliferation program, could not adequately respond because it required additional funds, but the Department of Defense could not transfer those necessary funds.

This is exactly the type of situation we are trying to avoid by passing my amendment. Fortunately, the United States removed over 235 kilograms of highly enriched uranium over 2 years from the two remaining sites in Ukraine in 2012. This is enough highly enriched uranium to develop more than nine nuclear weapons.

We do not have the ability to predict the future, especially with challenges and threats we will face. This is why we need the ability to be flexible. This is essential, and that is exactly what my amendment provides.

The Department of Defense has been transferring approximately \$1 billion per year to NNSA weapons programs, and over the next 5 years, DOD will be providing around \$1.5 billion annually for NNSA weapons and Naval Reactor programs.

What the Sanchez amendment would do is to allow the Department of Defense to have the option of transferring funds to nonproliferation programs. It does not remove funding from weapons programs or Naval Reactor Program, but it provides DOD the flexibility to allocate funding to areas which they believe will effectively secure dangerous nuclear material and to respond to emergencies and threats as they may arise.

Nuclear weapons materials remain dangerously vulnerable, so terrorist groups continue to seek these weapons and material every day.

I would like to ask my colleagues from both sides of the aisle, if there was a loose nuclear weapon or missing fissile material or the risk of these materials landing in the hands of terrorists, why would we not want the Department of Defense to have the flexibility to engage nuclear weapons experts from NNSA? That is exactly what my amendment provides.

Once again, my amendment doesn't take any funding away from weapons nor from Naval Reactors, but it simply removes the barriers and provides the Department of Defense the flexibility to use all of its resources to effectively address such nuclear threats.

Mr. Chairman, I reserve the balance of my time.

Mr. ROGERS of Alabama. Mr. Chairman, I claim the time in opposition.

man, I claim the time in opposition.

The Acting CHAIR. The gentleman is recognized for 5 minutes.

Mr. ROGERS of Alabama. Mr. Chairman, this is the fourth year in a row this amendment or something similar to it has been offered. Once again, I am going to ask that this be rejected.

The DOD has asked for the authority to transfer funds to NNSA's nuclear weapons activities and Naval Reactors. It has not asked to move limited resources to pay for NNSA nonproliferation activities.

The Navy may need to utilize authority in FY 2015 to support Naval Reactors, which has taken major funding cuts in recent years, including 23 percent in FY 2014.

As Admiral Richardson, director of Naval Nuclear Propulsion Programs at NNSA said at our hearing on April 8:

A 23 percent shortfall in my operations and infrastructure requirements resulted in insufficient funds to do required maintenance on one of my land-based prototypes, and without relief, I will have no choice but to shut down that reactor, resulting in 450 nuclear-trained operators not reporting to the fleet, putting a greater burden on sailors and families that are already sustaining 9- to 10-month deployments.

Keeping the underlying language sends a clear message to NNSA that nuclear weapons activities and Naval Reactors are the NNSA's primary mission and that it must prioritize those missions and deliver what the military

Any defense funds transferred out of DOD should only be used for activities in line with DOD priorities, so I urge opposition to the gentlelady's amendment.

I reserve the balance of my time.

Ms. LORETTA SANCHEZ of California. Mr. Chairman, may I ask how much time I have left?

The Acting CHAIR. The gentlewoman from California has 1½ minutes remaining.

Ms. LORETTA SANCHEZ of California. Mr. Chairman, I reserve my time to close

Mr. ROGERS of Alabama. I yield such time as he may consume to the gentleman from Colorado (Mr. LAMBORN).

Mr. LAMBORN. Mr. Chair, I thank the subcommittee chairman for yielding, and I do want to applaud my friend and colleague from California for her desire to fund nonproliferation. That is a worthy goal that we all agree with, but right now, NNSA is going to be spending in the bill that we are debating \$1.6 billion for that worthy goal, and to allow the Department of Defense to go in that direction also would dilute the money that they need so badly for readiness and training, paying our men and women in uniform, providing them the food and weapons that they need.

So for that reason, I, too, oppose this amendment and ask for a "no" vote.

Nuclear nonproliferation efforts simply don't need more money, and if you don't believe me, believe General Dempsey, Chairman of the Joint Chiefs of Staff. At our March 16 hearing, he said, in response to a question of my colleague from California, Ms. SANCHEZ:

I speak in this regard on behalf of the Joint Chiefs because, of course, we have discussed and debated this among ourselves, and I think we have allocated an appropriate and adequate amount of money into non-proliferation in our budget.

So simply put, our senior military officials agree that the nonproliferation budget is already sufficient, and therefore, this amendment is unnecessary.

This is the fourth year in a row we have debated it, and I would just ask that we stop the debate on this amendment and vote "no."

Mr. ROGERS of Alabama. I yield back the balance of my time.

Ms. LORETTA SANCHEZ of California. Mr. Chairman, I would like to correct my colleague. It was not the fourth year in a row we have debated it. For example, we didn't debate this last year.

I would further like to say that one of the reasons we have asked for Naval Reactor moneys is because of the shortfall that they had this past year that they weren't able to react to because they didn't have the flexibility.

So with all of these issues going on with terrorists, in particular looking for nuclear arms or material, I think that it is important for us to give the Department of Defense that flexibility.

The same type of thing that they found themselves in a bind for with the reactors this past year, it would be important not to find ourselves in a bind if we would need it for this year.

#### □ 2100

And I would also like to remind my colleagues that yes, we put some more money into nonproliferation this year after many years of cutting it, but we put a significantly more amount of money into the nuclear armament piece.

Mr. Chairman, I would just ask my colleagues to vote for the flexibility for the Department of Defense. I have no further speakers, and I urge my colleagues to support my amendment with the underlying bill.

Mr. Chair, I yield back the balance of my time.

Mr. ROGERS of Alabama. Mr. Chair, I respect my friend from California.

She is very knowledgeable on the subject, but she is wrong on this amendment, and I urge a "no" vote.

Mr. Chair, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentle-woman from California (Ms. LORETTA SANCHEZ).

The question was taken; and the Chair announced that the noes appeared to have it.

Ms. LORETTA SANCHEZ of California. Mr. Chair, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from California will be postponed.

AMENDMENT NO. 4 OFFERED BY MR. LAMBORN

The CHAIR. It is now in order to consider amendment No. 4 printed in House Report 113–455.

Mr. LAMBORN. Mr. Chairman, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

In section 1215, redesignate subsections (d) and (e) as subsections (e) and (f), respectively.

In section 1215, insert after subsection (c) the following:

(d) PROCESS FOR REIMBURSEMENT.-

- (1) IN GENERAL.—The Secretary of Defense shall request submission of claims for reimbursement, including full documentation, from each grantee, contractor, or subcontractor that paid to the Government of Afghanistan taxes assessed on Department of Defense assistance during fiscal year 2014 for an amount equal to the amount the grantee, contractor, or subcontractor paid to the Government of Afghanistan in such taxes.
- (2) PLAN FOR REIMBURSEMENT.—The Secretary of Defense shall seek to establish a plan in conjunction with the Government of Afghanistan to address claims for reimbursement described in paragraph (1) and to provide for reimbursement by the Government of Afghanistan of such claims. The Secretary shall submit any such plan established under this paragraph to the congressional defense committees in a timely manner.
- (3) REIMBURSEMENT.—If the Secretary of Defense does not submit the plan described in paragraph (2) to the congressional defense committees by not later than March 1, 2015, any funds withheld from the Government of Afghanistan pursuant to subsection (a) shall be used to reimburse each grantee, contractor, or subcontractor that submits a claim for reimbursement under paragraph (1) by the amount specified in such claim and verified by the Secretary.

The CHAIR. Pursuant to House Resolution 585, the gentleman from Colorado (Mr. LAMBORN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Colorado.

Mr. LAMBORN. Mr. Chairman, when our soldiers, sailors, airmen, marines, and Defense civilians deploy overseas, the Department of Defense enters into agreements with the host nation to prohibit the taxation of the assistance provided by U.S. companies to support their missions.

We have entered into such agreements with Afghanistan, but in the last 6 years, the Afghan Government has chosen to ignore these agreements. It has levied more than \$1 billion in illegal taxes against our U.S. businesses which are supporting our warfighters.

Last year we took action to withhold assistance funding in response to this illegal taxation, yet the Afghan Government continues to submit tax bills to our companies. If the firms refuse to pay, Afghan officials threaten to deny them permits and visas, to arrest company workers, and to prohibit them from moving mission essential equipment into and throughout the country. Though our committee has now increased the amount of funding to be withheld, I propose this amendment to hopefully end this wrong practice altogether.

This amendment would require two important steps forward: first the Secretary of Defense would take a full account of illegal taxes levied by the Afghan Government against American companies; second, the Secretary will establish a plan for the Afghan Government to reimburse the illegally levied

In short, no U.S. company should be threatened or financially punished for supporting our troops and Department of Defense civilians in Afghanistan. This amendment strikes at the root of the problem, and I urge its adoption.

I reserve the balance of my time. Mr. SMITH of Washington. Mr. Chair, I rise in opposition to the amendment.

The CHAIR. The gentleman is recog-

nized for 5 minutes.

Mr. SMITH of Washington. Mr. Chair, I am very sympathetic to the problem. This is certainly something that the Afghan Government should not be doing. As I understand the amendment, however, this would require the U.S. Government to reimburse those private companies and then seek reimbursement from the Afghan Government.

At the end of the day, that is the problem and concern that we have on our side is that if we want to take all the deliberate steps that we can to try and require the Afghans to repay this money, that is great—I can see the little gathering of staff over there that disagrees with me, so maybe we will have to work on this. But as I understand it. if that reimbursement cannot be achieved from the Afghan Government, this would require the U.S. Government, the U.S. taxpayers to reimburse these companies. For that reason, I would be opposed unless someone can convince me otherwise.

I reserve the balance of my time.

Mr. LAMBORN, Mr. Chairman, in response, and I appreciate the gentleman's comments, the bookkeeping trouble that this would involve is first put on the Afghan Government in an attempt to save the trouble to our own Department of Defense folks.

On your second point, I don't believe U.S. taxpayer dollars would be at risk because this would only be money

withheld that would otherwise go to the Afghan Government and is committed for that purpose is my understanding.

So you raise good questions, but I think both of those objections are satisfied by this amendment.

At this point, Mr. Chairman, I would like to yield as much time as he may consume to the gentleman from California, Representative McKeon, the chairman of the full committee.

Mr. McKEON. Mr. Chairman, I want to thank the gentleman for his concern and for bringing this issue to the floor.

We did address this in the underlying bill. DOD contractors are providing very important services. It supports the ISAF mission in Afghanistan, and they should not be illegally taxed.

We need to address this. I think the gentleman's amendment will move the process forward. I think we have time between now and the Senate passage and conference to resolve the issue. Also, hopefully there will be a new President in Afghanistan that will have a whole different way of addressing the situation. So what I would ask is that we do continue to work together on this as we move the process forward through conference.

Mr. LAMBORN. Mr. Chairman, how much time is left on our side of the issue?

The CHAIR. The gentleman from Colorado has 2 minutes remaining.

Mr. LAMBORN. I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Chair, yield myself the balance of my time.

The problems are there in the drafting of this amendment. Yes, first it does ask for the Afghan Government to step up and find money and do this; but if they don't, it does put DOD in the position of reimbursing them. You can say that would just come from money that they would give to Afghanistan anyway, but that money they are giving to Afghanistan, I am not sure if that is true, first of all. Second of all, whatever money we are giving Afghanistan, we are giving it to them for a reason. So I think there is a problem here.

There is also the problem of do we have a list of these contractors who have been illegally taxed versus legally taxed? How do we sort through all of that?

I am not going to belabor the point. I am going to oppose the amendment. I know how this works. I am going to lose. We will work it out in conference. I do have serious concerns about this amendment and the way it is written and urge a "no" vote.

I yield back the balance of my time. Mr. LAMBORN. Mr. Chairman, to summarize, these are legitimate questions that the ranking member has raised. I appreciate his comments, and there are valid issues in that it is not a clean or perfect situation. But the trouble is a billion dollars is a lot of money to our defense contractors, and to not try to address it would do a really big disservice to them. So I think it is worth tackling the difficulty that might be entailed in getting the paperwork done properly because the goal is worth doing. A billion dollars is a lot of money. Some of these companies might be big contractors; some of them might be small contractors.

So I would urge the adoption of this amendment, and Mr. Chairman, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Colorado (Mr. LAMBORN).

The amendment was agreed to.

AMENDMENT NO. 5 OFFERED BY MR. GARAMENDI

MODIFICATION TO AMENDMENT NO. 5 OFFERED BY MR. GARAMENDI

Mr. GARAMENDI. Mr. Chairman, I ask unanimous consent that my amendment be modified with what I have placed at the desk.

The CHAIR. The Clerk will report the modification.

The Clerk read as follows:

Modification offered by Mr. GARAMENDI to amendment No. 5:

On page 5, line 14 replace "Afghan Security Forces" with "African Union Standby Force (ASF)"

The CHAIR. Without objection, the amendment is modified.

There was no objection.

The CHAIR. Pursuant to House Resolution 585, the gentleman from California (Mr. GARAMENDI) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. GARAMENDI. Mr. Chairman, for some time, like more than an hour today, this House debated and discussed the issue of Boko Haram and the terror that they are enacting throughout Nigeria and the southern Sahel of Africa. This is not a new issue. This is an issue that has been ongoing among several violent extreme organizations operating in that area. We have seen this in Sudan. We have heard about the Lord's Resistance Army. We know this problem also of violent extreme organizations in the Somalia area.

The question arises: How do these organizations finance themselves? Well, over the years previously it was blood diamonds and things of that sort. In recent years, it has now become an issue of killing elephants and selling their tusks.

This amendment deals with the violent extreme organizations and attempts to deal with the way in which they have been able to finance themselves, that is, illegally poaching animals, particularly elephants in Africa.

If we are going to deal with this, we are going to have to use some of the assets that are available through the American military. AFRICOM has shown that they can provide ISR assets. This happened in Mali with the violent extreme organization that eventually was dealt with in Mali. AFRICOM provided the use of the ISR Global Hawk to identify and to support the French troops.

What this amendment would do would be to authorize the military, the Department of Defense, to work with African countries to provide support as they attempt to deal with these violent extreme organizations that are illegally poaching animals and using that revenue from that poaching, particularly the sale of ivory, to support themselves.

The amendment also provides for the opportunity for the African Union forces to receive assistance from the American military in how to position themselves to have the correct military units in place, how to use various intelligence sources that are available. It also provides for the Department of Defense to become part of the organization that we now have in place to deal with illegal poaching throughout Africa. That is basically what it is.

Had this been in place for the last couple of years, would Boko Haram have been successful? Well, they would be less successful. They would have less opportunity to poach the very valuable elephants and their tusks.

So I ask for support of this amendment, and I reserve the balance of my

Mr. THORNBERRY. Mr. Chair, I claim the time in opposition.

The CHAIR. The gentleman from Texas is recognized for 5 minutes.

Mr. THORNBERRY. Mr. Chair, I yield myself 2 minutes.

Mr. Chairman, this issue has been a longstanding concern of the gentleman from California as well as other Members. There is certainly evidence that terrorists and criminal organizations use a variety of illegal methods to fund their organizations. That includes wildlife trafficking. It includes human trafficking. It includes drug trafficking. It includes kidnapping for ransom. A whole variety of illegal methods are used to fund these organizations

Now, in last year's NDAA, we expanded the authority of the military to deal with Ministries of Interior so that in fighting terrorism they can have more options available to them. It is also those Ministries of Interior that deal with these wildlife trafficking issues.

Last year's bill also added 15 countries in Africa to the list of those countries with which DOD can partner on transnational criminal organizations involving drugs.

#### □ 2115

For Boko Haram they already designated a terrorist organization. For them or for drugs those authorities already exist.

The question is: Do we want to make it a priority of the military to focus on this illegal poaching as a priority in itself? My concern is that the military is already stretched thin. If it is terrorism, fine. If it is these transnational organizations, fine. But to give the military poaching as a priority would be a mistake.

The other point I would make is that the President's budget for the State Department cut funding for this very purpose this year. Last year, they spent about \$54 billion. This year the President asked for less than \$30 million.

So my suggestion to the Member is that perhaps he could focus on the President's budget request for the State Department, the Department of the Interior, law enforcement agencies, all of which are engaged in this, and that would be a better use of resources.

I reserve the balance of my time.

Mr. GARAMENDI. Mr. Chairman, the gentleman from Texas makes a very useful and interesting argument, but neglects to focus on one of the principal ways in which these organizations do support themselves, and that is with illegal poaching, particularly of elephants, and the use of their tusks to support themselves. It is about an \$8 billion business.

This does not in any way deter the current power that the Department of Defense has, but rather, it allows them to engage with those organizations in these governments that deal specifically with the conservation of the species in those countries. It does not prioritize. It simply gives an additional role and augments the military's use of their equipment, particularly the ISR equipment, to focus specifically, but not only, on the poaching issue.

It is very clear from studies that have been done by conservation organizations throughout the Sahel of Africa and in other parts of Africa, that this is a significant source of revenue for these violent extreme organizations. We ought not ignore that.

I would ask for a positive vote on this matter in that it does not deter in any way from what the gentleman from Texas says the military is already doing, but adds to it.

With that, I yield back the balance of my time.

Mr. THORNBERRY. Mr. Chairman, I yield 2 minutes to the gentlelady from Indiana (Mrs. WALORSKI), a valuable member of the Armed Services Committee.

Mrs. WALORSKI. Mr. Chairman, I thank the gentleman from Texas.

Mr. Chairman, I rise to oppose the amendment. While I appreciate the good intention of the gentleman from California, I believe we have immense security challenges in Africa and limited defense resources.

Defense has been cut over \$1 trillion in recent years, the military is facing shortfalls in readiness, and terrorism threats across Africa are evolving and expanding.

Given that the military cannot meet our current requirements in Africa, I don't think it is wise to add new requirements at this time. Military commanders in Africa have testified about shortfalls in intelligence, crisis response forces, and enablers to meet the "new normal" security requirements in Africa.

No military commander has highlighted wildlife trafficking as a key issue in their area of responsibility, nor have they recommended it be prioritized before this committee.

Combating wildlife trafficking should not be a core DOD mission. DOD and the administration recognize that combating wildlife trafficking is not a core DOD function, and thus the national strategy for combating wildlife trafficking does not set forth any DOD requirements.

In an era of declining budgets, the DOD should not be duplicating efforts that are already occurring within the interagency, including the intelligence community, the law enforcement community, and the State Department, all of which are already working on and collecting information on this issue.

Mr. THORNBERRY. Mr. Chairman, the bottom line is if there is a terrorism connection to this illegal poaching, the military has full authority to go after it and try to stop it, just like other forms of terrorist financing. But as an independent objective for the military, we are stretched too thin already, and for that reason I recommend that the Members reject this amendment.

I yield back the balance of my time. The CHAIR. The question is on the amendment, as modified, offered by the gentleman from California (Mr. GARAMENDI).

The question was taken; and the Chair announced that the noes appeared to have it.

Mr. GARAMENDI. Mr. Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment, as modified, offered by the gentleman from California will be postponed.

AMENDMENT NO. 6 OFFERED BY MR. DAINES

The CHAIR. It is now in order to consider amendment No. 6 printed in House Report 113–455.

Mr. DAINES. Mr. Chairman, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 515, strike lines 19 and 20.

The CHAIR. Pursuant to House Resolution 585, the gentleman from Montana (Mr. DAINES) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Montana.

Mr. DAINES. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, our country's intercontinental ballistic missiles make the world safer. They are an integral part of the nuclear triad that advances the cause of peace and promotes our national security interests around the world.

The Defense Department recently put forward a nuclear force structure plan under the New START Treaty. It is committed to maintaining 450 nuclear launchers in at least a warm status. In doing so, the Pentagon recognized the strategic value of preserving our robust nuclear deterrent capability.

The base bill would sunset the warm status requirement in 2021. I believe this is unwise and it is premature.

First and foremost, we don't know what the future holds and whether it will be in our strategic and security interests to shut down some of our silos 7 years from now.

On the other hand, what we do know is that maintaining our nuclear launchers provides our commanders with maximum flexibility to respond to potential nuclear threats against the American people and our allies. And we know that preserving this capability complicates our adversaries' ability to target our nuclear assets.

Further, we know that maintaining our current silos is in the best interest of taxpayers because rebuilding them would be very expensive.

In short, there is simply no justification for deciding today how many silos will be needed to safeguard our security interests in 2021.

I urge House passage of my amendment to strike the ill-advised sunset provision in the underlying.

I reserve the balance of my time.

Mr. COOPER. Mr. Chairman, I rise in opposition to the amendment.

The CHAIR. The gentleman from Tennessee is recognized for 5 minutes.

Mr. COOPER. Mr. Chairman, this amendment violates a bipartisan agreement that was reached in the House Armed Services Committee.

I wish that the gentleman would focus on the fact that micromanaging our Nation's nuclear defenses is really not in the best interest of our country. I also urge the gentleman to realize that this is a highly technical issue. We have some 450 Minuteman-III missile silos. This would change the status of about 50 of those 450.

These are probably the least survivable of all our nuclear weapons. They have been targeted by the Russians and probably others for decades. It is very important that we have an appropriate and flexible and survivable nuclear deterrent. As I mentioned, these landbased missiles are probably the least survivable.

It is also important to recognize that, as I understand the way the amendment is drafted, this could even prevent testing and routine maintenance of these silos. I know that is not the gentleman's intent, but we need to make sure that we are not overreaching here and hamstringing our military and their nuclear defenses.

It is no secret that the sponsors of this amendment happen to be from the States of North Carolina, Montana, and Wyoming, and also a gentleman from Colorado. That leads one to think that this might perhaps be a parochial amendment more than a nuclear defense amendment. I hope that is not the case, but it does lead one to think in that direction.

Mr. Chairman, I reserve the balance of my time.

Mr. DAINES. Mr. Chairman, while the President is the Commander in Chief—this is the issue of micromanaging—the Constitution gives Congress the power to raise and support armies and to provide and maintain a Navy. It is our duty and responsibility to help shape our Nation's defense policy.

Regarding the ICBMs, they are deployed in hardened silos. That would tend to force an opponent to exhaust his own nuclear forces to disarm U.S. ICBMs, leaving the opponent vulnerable to a U.S. retaliatory strike. Without ICBMs, as few as five nuclear warheads could successfully disarm the U.S.

Now I yield 1 minute to the gentleman from North Dakota, KEVIN CRAMER, my friend.

Mr. CRAMER. Mr. Chairman, I thank the gentleman for yielding.

With regard to the claims of parochialism, there is no question that those of us from the States that host these ICBMs are technical experts in the field. It only makes sense that we would know a lot about it.

Mr. Chairman, while I am content with the Department of Defense's recent force structure announcement on complying with the New START Treaty to maintain 454 ICBM silos in warm status, I too strongly oppose the hard stop date that maintains these missile

silos in warm status no later than 2021. Members of this body, Members of the Senate, the Secretary of Defense, the Chairman of the Joint Chiefs of Staff, and many others have said the sustainment of our nuclear triad is essential and that any further reductions ought not be done in unilateral fashion.

Maintaining and investing in the modernization of this weapon system is just as important as any other leg of the nuclear triad. From what I can tell and from what the people of North Dakota know, it is a lot cheaper to maintain them than to rebuild them should we err in our judgment currently.

I urge passage of the amendment.

Mr. COOPER. Mr. Chairman, I yield 2 minutes to the gentleman from Washington (Mr. SMITH), the distinguished ranking member of the committee.

Mr. SMITH of Washington. Mr. Chairman, I strongly oppose this amendment. It really doesn't make any sense whatsoever.

What the bill does is it says you can't touch these things since until 2021. Now, we don't like that in the first place because this is micromanaging, again, DOD's ability to make decisions about how best to make sure that we maintain our nuclear deterrence. This is a fine example of why DOD is going to be in so much trouble down the road. Any effort they make to save money is going to be blocked by parochial interest. The people who are from there will rise up and say: No, you can't do that, basically because it negatively impacts my constituents.

The thing that is truly awful about this one is it doesn't negatively impact constituents. It says 2021 sunset. And it is not a hard stop date, regrettably. It is 2021 when it sunsets, and any Congress that wants to extend it between now and, I guess that is 7 years from now, can go ahead and extend it.

DOD should not be forced into a position of saying if a silo exists it has to be maintained forever, which is basically what this amendment says. It says it is completely impossible that under any set of circumstances might it be in the best interest of the Department of Defense and the national security of this Nation to get rid of even one silo. That doesn't make any sense.

The underlying bill more than protects the parochial interests of the sponsors here by making sure that DOD can't touch it until 2021. But that is not enough. They have got to offer an amendment to strip it out so that it goes on forever. That simply doesn't make any sense. This is, again, micromanaging for parochial interests. It is just like when DOD wants to move five C-130s from somewhere. The people from there rise up and say we have to stop them. No, we don't. We have to let DOD make intelligent decisions to spend money wisely to best protect national security. At a minimum, we ought to be able to have a sunset 7 years from now without having to remove even that tiny little possibility that a sensible decision might be allowed to be made by the Department of Defense.

I urge opposition of the amendment. Mr. DAINES. Mr. Chairman, I continue to reserve the balance of my time.

Mr. COOPER. May I inquire as to how much time I have remaining, Mr. Chairman.

The CHAIR. The gentleman from Tennessee has  $1\frac{1}{2}$  minutes remaining.

Mr. COOPER. Mr. Chairman, I yield 30 seconds to the gentleman from California (Mr. GARAMENDI).

Mr. GARAMENDI. Mr. Chairman, I took up an amendment a moment ago and people were talking about how we use our resources to keep these missile silos open when they are not needed and questioning whether missiles are needed. We are talking about billions and billions of dollars. So if we are really, really concerned about how we deploy our precious money, then we ought not be doing this amendment.

#### $\square$ 2130

Mr. DAINES. Mr. Chairman, I continue to reserve the balance of my time.

Mr. COOPER. Mr. Chairman, I urge my colleagues to oppose this amendment.

As I mentioned, it is poorly drafted, and it probably prevents even the routine testing and maintenance of the silos, which could not possibly be an intention of the authors. It also micromanages the Defense Department.

For them to renege on the deal that was made in committee—the bipartisan deal—in order to give you 7 more years of leeway is really a pretty remarkable thing. This sets a new level for parochialism and greed, unfortunately, in this body. I hope the Members will reject this amendment.

I yield back the balance of my time. Mr. DAINES. Mr. Chairman, I am prepared to close.

Again, I urge support for my amendment, which is to protect our country's nuclear deterrent capability by striking this unwise and premature sunset language in the underlying bill.

I yield back the balance of my time. The CHAIR. The question is on the amendment offered by the gentleman from Montana (Mr. DAINES).

The question was taken; and the Chair announced that the ayes appeared to have it.

Mr. COOPER. Mr. Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Montana will be postponed.

AMENDMENT NO. 7 OFFERED BY MR. LAMBORN

The CHAIR. It is now in order to consider amendment No. 7 printed in House Report 113–455.

Mr. LAMBORN. Mr. Chairman, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle B of title XXVIII, add the following new section:

### SEC. 28\_\_\_. SENSE OF CONGRESS ON NATIONAL SECURITY AND PUBLIC LANDS.

It is the sense of Congress that—

(1) national defense should be the top priority for all aspects of the Federal Government; and

(2) national security functions, such as military training and exercises, should be the top priority, particularly with regard to the use of land owned by the United States.

The CHAIR. Pursuant to House Resolution 585, the gentleman from Colorado (Mr. LAMBORN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Colorado.

Mr. LAMBORN. Mr. Chairman, most Americans do not realize that 28 percent of the land across our great country is owned by the Federal Government. In the 11 most western States, the Federal Government owns a staggering 47 percent of all land.

In my State of Colorado, the Federal Government owns 36 percent of the land. Over one-third of all land in Colorado is owned and operated here, out of Washington, D.C.

The management of these lands is often controversial, particularly when the Federal Government owns such a significant portion of the land of a State or of a locality. There are often situations where there are competing and conflicting uses of this publicly-owned land.

This Federal ownership of public land is administered through a variety of Federal agencies and bureaus, making things potentially even more difficult for States and localities.

This public land serves many functions, including, in some cases, as a prime training ground for the U.S. military. In Colorado, for example, the new Combat Aviation Brigade at Fort Carson flies their helicopters up into the mountains around Colorado Springs for training.

To practice high altitude landings in rugged terrain, which is a crucial skill for combat in countries like Afghanistan, the Army must get permission from the various parts of the Federal Government that own the land.

Over the last few years, the Forest Service and the Bureau of Land Management and other agencies have reduced the number of landing sites that are permissible. In the latest permit, they told the Army that Congress has not made national security a priority for public lands.

Unfortunately, this is not just isolated to Colorado. Across the country, military bases are continually fighting with other government agencies to maintain their access to public lands.

Today, my amendment will help set the record straight. National security should be the top priority for our government, and that most certainly includes the ownership of public land—land owned and operated by the Federal Government. We should apply the rule of common sense.

Unless there is an obvious reason not to, public land should, of course, be available so that men and women in uniform can receive realistic, effective training that will save lives in combat. As we stand here tonight, we must remember that the first job of the Federal Government is to protect our Nation.

I urge support for my amendment, resolving that national security should be a top priority for public lands.

Mr. Chairman, I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Chairman, I claim the time in opposition.

The CHAIR. The gentleman is recognized for 5 minutes.

Mr. SMITH of Washington. Mr. Chairman, there are a lot of competing interests for public lands. Certainly, national security is one of them, but it is not the only one. There is domestic aviation, and there are all kinds of considerations.

This is not terribly binding, as it is a sense of Congress, and so it does not change the law. I do, however, think it sets a bad precedent that, somehow, the Department of Defense is going to hold sway over public lands over all of their interests, regardless of what they are.

We have had many, many interests in our public lands. Certainly, defense is one of them. I don't think it should be paramount. Therefore, I oppose the amendment.

I reserve the balance of my time.

Mr. LAMBORN. Mr. Chairman, I just don't want it to happen again that the Forest Service or any other bureaucracy can tell the men and women who are training to protect our country that they can't train and that Congress has never even addressed this situation.

I at least want to have a resolution on record expressing the sense of Congress that national defense is a priority. That is the way our Constitution is written. I think this makes all kinds of sense, and I would urge its adoption.

Mr. Chairman, I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Chairman, I yield myself such time as I may consume.

It sort of depends on why the Forest Service wants to limit that use. If there are other legitimate interests in the area and if the Forest Service doesn't want them test-firing whatever it is they are test-firing, I think we need to have a balance between those interests.

It is conceivable that the Forest Service might have something they are trying to protect that the DOD has not thought about, and I think a balance of those interests is better than making one agency paramount over others.

The Forest Service does not know much about the Department of Defense, but I would submit that the Department of Defense doesn't know much about what the Forest Service is trying to protect. It is a matter of both sides doing their jobs and striking the

proper balance, so I would simply urge a "no" vote.

I yield back the balance of my time. Mr. LAMBORN. Mr. Chairman, may I inquire as to how much time is remaining?

The CHAIR. The gentleman from Colorado has 2 minutes remaining.

Mr. LAMBORN. Mr. Chairman, in conclusion, I would just say that there are balancing interests and that there are competing interests that should be, many times, debated and weighed. That is, actually, what the Army at Fort Carson does.

They have entered into the permitting agreements with the Forest Service and with the Bureau of Land Management, agreeing with the concerns raised by those two bureaucracies, so they have worked together in a cooperative fashion.

What I am addressing, though, is when the Forest Service comes out and says that Congress has never addressed this issue. I think that that is wrong. Now is the time to set the record straight, and this amendment does set the record straight.

We are expressing that national security is a priority. That is what the Constitution says, and that is what we are stating right here. I ask for an "aye" vote.

Mr. Chairman, I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Colorado (Mr. LAMBORN).

The amendment was agreed to.

Mr. LAMBORN. Mr. Chairman, I move that the Committee do now rise. The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. DAINES) having assumed the chair, Mr. STEWART, Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 4435) to authorize appropriations for fiscal year 2015 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for such fiscal year, and for other purposes, had come to no resolution thereon.

## THE DEVASTATION OF ALZHEIMER'S DISEASE

The SPEAKER pro tempore (Mr. STEWART). Under the Speaker's announced policy of January 3, 2013, the gentleman from California (Mr. GARAMENDI) is recognized until 10 p.m. as the designee of the minority leader.

Mr. GARAMENDI. Mr. Speaker, recently, The Sacramento Bee wrote a three-page article on Alzheimer's and the effect that it has.

I would like to quote from that newspaper:

Gasps were audible as the images flashed before the gathering scientists at a recent U.C. Davis Alzheimer's Disease Center pathology conference. On the screen before them were photos of a brain, severely wasted

with age, with what looked like silver rivers of atrophy cutting deeply through the tissues. Even for the experts, it can be shocking to see the damage that Alzheimer's disease inflicts on the aging brain.

What can stop the devastation of Alzheimer's?

Without better answers from researchers, the degenerative brain disease—already the Nation's sixth leading cause of death—will be diagnosed in as many as 16 million aging baby boomers by 2050. Unchecked, it will rob millions of their memories and lives, of their pasts and futures, even as it threatens to overwhelm the health care system.

Tonight, in a bipartisan 1-hour session, we are going to talk about Alzheimer's. Unfortunately, our time is being cut short, but we will take this up again in the weeks ahead as we deal with one of the most profound and expensive and damaging issues Americans face.

I have here a diagram that explains what is going to happen with Alzheimer's cost to Medicare and Medicaid in the years ahead. Right now, it is \$122 billion, and it will rise in 2020 to \$195 billion, to \$346 billion in 2030, and by 2050, it will be approaching \$1 trillion.

We have a problem. Americans—every family is facing this issue. My family has, and I suspect every other family in this Nation at one time or another already has faced this issue, and they will in the years ahead.

This is not a new issue for the Congress. It is an issue that has been dealt with. There has been legislation introduced, and in a few moments, I will talk about some of the bills that have been introduced by my colleagues here in the Congress, both on the Democratic and on the Republican sides of

This issue has to be addressed, and the principal thing we need to do is to provide research and care and support for the families that have this issue in their midsts.

I want to take up a couple of other charts and then turn to my colleague from Kentucky.

This chart deals with the issue of what is going to happen with the funding. If we are going to solve this problem, we are going to have to increase the funding. We are, fortunately, spending around \$5.5 billion a year on cancer through the National Institutes of Health.

HIV/AIDS is close to \$3 billion a year. Cardiovascular issues are around \$2 billion. Alzheimer's is down here at just over \$566 million. We are not yet at \$1 billion on this. As we can see here, this is going to be the most expensive illness facing the Medicare and Medicaid populations in the future years.

We also know of the deaths from the illnesses that have the greatest funding—breast cancer down 2 percent, prostate cancer down 8 percent, heart disease down 16 percent, stroke down 23 percent, and HIV—a remarkable success—with deaths now declining by 42 percent.
