Mr. KINZINGER of Illinois. Mr. Speaker, I rise today to celebrate the life of Lance Corporal Steven Hancock of Goose Lake, Illinois, who faithfully served our Nation in the United States Marine Corps. He was a member of the Second Marine Aircraft Wing and died while participating in a training exercise on an MV-22B Osprey aircraft on May 19, 2014.

Lance Corporal Hancock was one of three children and attended Coal City High School. He was known as a quiet leader and earned the distinguished rank of Eagle Scout as a member of Scout Troop 466. His family, friends. and colleagues will always remember his constant smile, cheerfulness, and strong faith in Jesus Christ.

Lance Corporal Hancock joined the Marine Corps on March 5, 2012, and was the crew chief of the Osprey aircraft on which he served. His sense of duty and willingness to voluntarily serve our country demonstrates what makes our Nation exceptional. He will be sorely missed, and I am extremely grateful for his service

It is because of people like him who are willing to defend our country that we are allowed to stand here and deliberate on behalf of the American people.

God bless Lance Corporal Hancock, and God bless his family.

THANKING CAPITOL VISITOR CENTER STAFF

(Mr. SIRES asked and was given permission to address the House for 1 minute.)

Mr. SIRES. Mr. Speaker, I rise today to thank the Capitol Visitor Center employees for their hard work during this popular tourist season at the United States Capitol. I recognize the great effort, organization, and knowledge it takes not only to lead tours of the United States Capitol, but to help visitors navigate this sometimes confusing building.

In addition, CVC staff is instru-

mental in assisting congressional offices, such as mine, with coordinating staff-led tours through the Capitol. My constituents enjoy visiting this historic building not only to learn about United States history, but to see where their legislators work each and every day. The staff of the United States Capitol Visitor Center make their visits more enjoyable, informative, and help to ensure history comes alive here at the Capitol.

The Capitol Visitor Center has welcomed approximately 2.2 million visitors since the Visitor Center opened its doors in December of 2008. In March of this year, the Capitol Visitor Center assisted over 155,000 visitors on Capitol tours. In April, despite construction of the rotunda on the second floor of the Capitol Building, the Visitor Center assisted over 209,000 visitors.

Today, I recognize their hard work and thank each and every one of them for what they do for my constituents in the Eighth District and throughout this country.

THE MEDAL OF HONOR PRIORITY CARE ACT

(Mr. WALBERG asked and was given permission to address the House for 1

Mr. WALBERG. Mr. Speaker, last week, I introduced bipartisan legislation to honor our Congressional Medal of Honor recipients. H.R. 4720, the Medal of Honor Priority Care Act, would place Medal of Honor recipients in the VA's highest priority group to make certain they receive timely access to their health benefits.

Medal of Honor recipients have gone above and beyond the call of duty by putting themselves in harm's way to protect their position and fellow soldiers in combat. Currently, there are 78 living recipients of the Medal of Honor, including two from Michigan—Corporal Duane E. Dewey and Private First Class Robert E. Simanek-who both received the decoration for their heroic actions in the Korean war.

These heroes should have access to the VA when they need it, and the Medal of Honor Priority Care Act will ensure that this select group of individuals is guaranteed the highest level of care.

MUSEUM OF SCIENCE AND INDUSTRY

(Ms. KELLY of Illinois asked and was given permission to address the House for 1 minute.)

Ms. KELLY of Illinois. Mr. Speaker, as Chicago's Museum of Science and Industry commemorates the 70th anniversary of the capture of the U-505 submarine, I recognize the museum for offering world-class experiences that inspire children to achieve their full potential in science, technology, medicine, and engineering.

The U-505 German submarine terrorized the Atlantic Ocean as part of a massive U-boat campaign that almost altered the outcome of World War II. On June 4, 1944, it was brought to the ocean's surface with a depth charge attack from the USS Chatelain, after which crew from the USS Pillsbury boarded the sub and helped Allied forces gain valuable defense intelligence that forever changed the course of world events.

The U-505 exhibition is not only a memorial to the sailors who gave up their lives on the high seas, it is a reminder of the role that science and technology plays in keeping the world safe and changing history for the better. I thank the Museum of Science and Industry for molding the minds of the future while celebrating America's innovative past

In closing, I want to salute the students watching from the museum.

IN HONOR OF THE BOBBY RAY DETACHMENT

(Mr. DESJARLAIS asked and was given permission to address the House

for 1 minute and to revise and extend his remarks.)

Mr. DESJARLAIS. Mr. Speaker, it is with great pride I rise today to honor the Marine Corps League's Bobby Ray Detachment of McMinnville in the Fourth Congressional District.

For the past 238 years, the Marine Corps has stood as a symbol of America's strength and valor. The level of commitment, honor, discipline, and courage exemplified by the Corps is unparalleled. By banding together both Active Duty and retired marines, the Marine Corps League preserves these same values and proves true the motto, "Once a Marine, Always a Marine,"

Members of the Marine Corps League play an important role in our communities. Whether offering assistant service to members, commemorating historical occasions, or organizing fundraisers for local charities, these individuals embody the principle of "ductus exemplo," or "lead by example."

Next month, the Bobby Ray Detachment will host the Marine Corps League State Convention. It is an honor to recognize these patriots as they bond together to promote the ideals of freedom and democracy.

I, along with the grateful citizens of Tennessee's Fourth District, extend to these marines a heartfelt thanks for the sacrifices made and the services rendered to our country.

2014 SCIENCE FAIR AND STEM **EDUCATION**

(Mrs. DAVIS of California asked and was given permission to address the House for 1 minute.)

Mrs. DAVIS of California. Mr. Speaker, this week, the White House hosted high school students from across the country for its 2014 Science Fair.

San Diego high school student Eric Chen was among the attendees and was praised by President Obama for his award-winning research into combating influenza. I rise to congratulate Eric and celebrate all students across the country who eagerly pursue scientific research.

We must continue to provide students with opportunities to demonstrate their excitement and their mastery in science, technology, engineering, and math. Soon we will depend on these same students to tackle our biggest challenges; and at times, they will inherit problems that seem daunting: climate change, antibioticresistant bacteria, drought, food scarcity, the list goes on.

We are at a critical crossroads in so many areas and cannot afford to lose our technological edge. We must provide students with the tools necessary for success by further investing in STEM education. It begins by heavily recruiting teachers who go beyond the traditional role of educators, teachers that become mentors and explorers and visionaries with their students; and we need teachers who inspire our best and

brightest young minds to do more than the generation before them ever could imagine.

STEM education is an issue that we can all rally around, and I urge my colleagues to do so when supporting this important initiative.

THE ELECTRICITY SECURITY AND AFFORDABILITY ACT

(Mr. DAINES asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAINES. Mr. Speaker, coal is vital to our way of life in Montana. It provides thousands of jobs, affordable electricity for families, and millions of dollars that fund our schools and our parks. So when Montanans hear about new coal regulations from the EPA, we get a bit nervous.

A new study predicts that President Obama's rules will effectively ban new coal generation—killing jobs and causing energy prices to skyrocket.

The House passed the Electricity Security and Affordability Act, a bill I cosponsored, to halt these job-killing regulations. I urge the Senate to also take action to stop President Obama and protect Montana families who rely on coal for affordable energy and whose livelihoods are supported by Montana's coal industry.

ASIAN PACIFIC AMERICAN HERITAGE MONTH

(Mr. JOHNSON of Georgia asked and was given permission to address the House for 1 minute.)

Mr. JOHNSON of Georgia. Mr. Speaker, I rise today to recognize Asian Pacific American Heritage Month. I want to honor Helen Ho Kim and the entire staff of the Asian American Legal Advocacy Center of Georgia.

Based in the city of Norcross, part of which I represent, the center is dedicated to promoting the rights of Asian Americans in the Southeast. They protect and promote the civil, social, and economic rights of Asian Americans through policy, community organizing, leadership development, and legal education. The center strives towards individuals who are fully empowered, active in civic life, and working together to promote equity and fair treatment for all

The center is also proof that Asian and Pacific Islanders are part of every community in this country. As this month comes to a close, I encourage all Americans to take pride in the diversity of our country and to consider the contributions of Asian and Pacific Islanders in their communities.

RECOGNIZING MURRAY WISE

(Mr. RODNEY DAVIS of Illinois asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to recognize a great friend of mine and a great friend of agriculture, Murray Wise.

Farming and agriculture have always played an integral role in Murray's life. He grew up on his parents' grain and livestock farm and even acquired his first farm before attending college.

After graduating early from Iowa State University, Murray continued to show his commitment to agriculture through his first job with Allied Mills, Incorporated, and his second with The Sandage Companies. And, now, years later, Murray is the chairman and CEO of Murray Wise Associates, a leading authority on land marketing based in Champaign, Illinois.

In 2 weeks, Murray will be honored as Parkland College's V. Dale Cozad Entrepreneur of the Year. I can't think of a more deserving individual than Murray to receive this prestigious award.

Murray is recognized not only for his years of hard work and education but also for his innovative ideas and position as a national leader in agriculture.

Congratulations, Murray, on this incredible achievement, and I look forward to working with you for years to come on behalf of the agricultural communities in central Illinois. Congrats again, Murray.

CONGRATULATING BRANDIN COOKS OF STOCKTON, CALIFORNIA, FOR MAKING THE NFL ROSTER.

(Mr. McNERNEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McNerney. Mr. Speaker, I rise to congratulate Brandin Cooks, a native of Stockton, California, who was selected by the New Orleans Saints in the first round of the NFL draft.

Our region is proud to see one of its own achieve his childhood dream. While there are many young men who set the goal of becoming an NFL athlete, it is an incredibly difficult task to make it to that level. According to the NFL's Players Association:

Of the 100,000 high school seniors who play football every year, only 215 will ever make an NFL roster. That is a mere 0.2 percent.

Since he was a child, Brandin loved football and worked hard to develop his skills. He started playing for the North Stockton Bengals youth football program, then Lincoln High School and Oregon State.

Brandin earned the Biletnikoff Award his junior year as the Nation's top receiver and made history at Oregon State. This past February at the NFL Combine, he ran the fastest 40yard dash—in 4.33 seconds.

Brandin credits his mother, Andrea Cooks, as his inspiration for becoming one of the Nation's elite college receivers.

I ask my colleagues to join me in congratulating Brandin Cooks and wish him a long and successful career in the NFL..

HONORING ILLINOIS' FALLEN BROTHERS G. EARLE AND CHARLES MARCUS ELDREDGE

(Mr. HULTGREN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HULTGREN. Mr. Speaker, I rise today to honor two brothers, G. Earle and Charles Marcus Eldredge, who fell in the line of duty a century ago.

After serving the community for 7 years as an officer in the Illinois Department of Natural Resources and Conservation, Earle's own gun was used against him while he investigated a report of poaching on McHenry County soil in 1907.

Charles was a successful attorney until his brother's murder pushed him to join the department as well. He served the State for the next decades, enforcing conservation law and pursuing his brother's killer. Sadly, Charles was also shot down in 1931, near where his brother fell.

To date, the two heroes are the only department officers murdered in the line of duty. Both served their county and their State with honor and bravery, and I support local efforts to honor their lives of devotion to our community.

MEMORIAL DAY IN FOREST HILL, TEXAS

(Mr. VEASEY asked and was given permission to address the House for 1 minute.)

Mr. VEASEY. Mr. Speaker, I would like to thank the citizens of Forest Hill, Texas, for their recent Memorial Day celebration to honor the military service contributions of the men and women of our Armed Forces as well as our public safety officers who have lost their lives in that city in the line of duty.

I was proud to attend the ceremony, which included 375 names of men and women who have proudly served the city of Forest Hill and lived there and have lost their lives in the line of duty.

Also at the park is the Court of Honor, where the names of prisoners of war and the missing in action serve as a solemn reminder of the sacrifices for freedom.

We must remember—perhaps now more than ever—that our debt of gratitude for veterans that have served us can never be repaid in full, but we owe it to them to keep our commitments to them as a country.

I would like to thank the citizens of Forest Hill for their display of thanks and respect.

RECOGNIZING THE 70TH ANNIVER-SARY OF THE D-DAY LANDINGS ON THE BEACHES OF NORMANDY

(Mr. LATTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)
