FEMCO'S 50TH ANNIVERSARY

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to recognize FEMCO, a small business located in Punxsutawney, Pennsylvania, which later this month will celebrate its 50th anniversary.

Founded in 1964, FEMCO began as a technical services company catering to the coal industry. During the past two decades, the company has diversified to keep pace with the growing demand in oil and gas, construction, recycling, and industrial manufacturing.

Over the years, FEMCO has relied upon a strong local workforce, which includes welders, engineers, mechanics, business managers, and support staff, among other positions. These talented professionals manufacture and rebuild a wide range of technical components, including drilling rigs for the energy industry, balers, shears, and shredders for the recycling and scrap industry, and also sustain a full-service support team for a wide array of industries that rely on immediate technical expertise and support.

Today, FEMCO is a strong base of economic support for the Punxsutawney area and has over 130 employees.

I want to offer my praise to FEMCO for 50 years of constant innovation and offer my thanks to the extraordinary men and women who work to make their continued success possible.

ADDRESSING THE TRADE DEFICIT

(Ms. KAPTUR asked and was given permission to address the House for 1 minute.)

Ms. KAPTUR. Mr. Speaker, the Obama administration appears to be negotiating the latest job-killing trade deal, as happened under the prior two Bush administrations and the Clinton administration with NAFTA.

Our Nation can't employ the nearly 20 million unemployed and underemployed citizens without addressing what is happening to growing imports and lessening exports.

Here is a bumper sticker: Out of a Job Yet? Keep Buying Foreign.

That was on a car in Michigan as we came back here today.

In 2013, America imported—get this—\$369 billion in petroleum products alone, \$309 billion in automotive vehicles, and \$533 billion in consumer goods, which are not completely offset by exports. We are exporting jobs and importing products from other places.

Think of the jobs we could create here if we could really live the slogan, "Made in America."
