HIGHER EDUCATION BILLS

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Madam Speaker, I rise today to discuss efforts to strengthen America's higher education system, make it more affordable, and provide students the tools they need to make smart investments in their futures.

Later this week, the House will consider three bipartisan bills that recently passed the House Education and the Workforce Committee, which include H.R. 3136, the Advancing Competency-Based Education Demonstration Project Act; H.R. 4983, the Strengthening Transparency in Higher Education Act; and H.R. 4984, the Empowering Students Through Enhanced Financial Counseling Act.

Together, Madam Speaker, these measures will support innovation, strengthen transparency, and enhance financial counseling, which will ultimately help students access a more affordable education.

These legislative proposals are part of a broader effort to reauthorize the Higher Education Act. The House remains determined to strengthen America's higher education system and provide students the tools that they need to succeed.

I encourage my colleagues in the House to support these commonsense bills and call on the Senate to join us in working to make a difference in the lives of students and families.
