

I thank my colleague Representative GARDNER and Chairman UPTON and Ranking Member WAXMAN for their cooperation and support in bringing this measure to the floor.

External power supplies have become regular fixtures in homes and workplaces around the world as we have expanded our use of rechargeable batteries to power the many electronic products we use every day. Because these products are so common, lowering their power consumption translates into substantial energy savings for consumers and savings for businesses.

Earlier this year, the Department of Energy finalized a rule to strengthen the energy efficiency standards for these products. I support that rule.

H.R. 5057 is not intended to undermine the new standard. H.R. 5057 simply creates a short-term targeted exemption to enable a smooth and orderly transition to the new standard for both manufacturers and for the current owners of equipment purchased prior to the adoption of the new standard.

This narrow exemption enables manufacturers to continue to provide service and replacement parts for existing equipment. It allows owners of equipment to keep it functioning for the full intended life of that given product.

The bill ensures the exemption included in this legislation will not result in a significant delay in reaching the new energy efficiency targets for EPS equipment.

The bill provides DOE with the authority to establish a reporting requirement to track the number of parts that are shipped and of those that do not meet the efficiency standard.

If the Department finds that this exemption is undermining the energy savings that are projected under the new efficiency regulations, the Secretary can issue a rule to limit or rescind the exemption.

H.R. 5057 strikes an appropriate balance, I believe, that keeps us moving forward on efficiency goals for external power supplies while providing manufacturers and owners of current products the assurance that service and spare parts will be available.

Again, I want to thank my colleague, Representative GARDNER, for working with me and working with our colleagues on this bill.

I urge all Members to support the legislation, and with that, Mr. Speaker, I reserve the balance of my time.

Mr. WHITFIELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I also want to thank Mr. TONKO and Mr. GARDNER for being the cosponsors of this legislation and thank Mr. WAXMAN and Mr. UPTON for working with all of us to bring it to the floor, as well as the staffs on both sides of the aisle.

As both Mr. TONKO and Mr. GARDNER stated, this bill is a technical correction to existing law that will allow ex-

ternal power supply manufacturers to continue to sell service parts compatible with older technology to the benefit of consumers and manufacturers. It is a good piece of legislation.

I would urge all the Members to support this legislation, and I reserve the balance of my time.

Mr. TONKO. Mr. Speaker, I have no other speakers, and with that, I yield back the balance of my time.

Mr. WHITFIELD. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kentucky (Mr. WHITFIELD) that the House suspend the rules and pass the bill, H.R. 5057, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. WHITFIELD. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 1 o'clock and 45 minutes p.m.), the House stood in recess.
