

18 percent of Silicon Valley's jobs are in manufacturing, and that number is growing—the local manufacturing sector is projected to grow by 5 percent by 2018. These advanced manufacturing jobs are offering higher pay than nonmanufacturing jobs. By being co-located with the research and development Silicon Valley is known for, these manufacturers are both boosting R&D investments and experiencing the benefits of more control of their manufacturing processes, quicker turnaround from research to product realization, higher quality, and greater intellectual property security.

The Revitalize American Manufacturing and Innovation Act seeks to replicate some of the important lessons from Silicon Valley around the nation. RAMI will build public-private partnerships through Centers for Manufacturing Innovation between higher education institutions and community colleges, small and large manufacturers, and government to promote best practices and address targeted advanced manufacturing challenges. These advanced manufacturing hubs will also address the skills gap by producing a next generation talent pool of skilled production workers and engineers by focusing on education, workforce training, research and development, and commercialization.

Despite its manufacturing successes, Silicon Valley still continues to experience higher than average unemployment, partly a result of the past outsourcing of manufacturing jobs due to low wages overseas and incentives offered by foreign competitors. With the passage of the RAMI Act, we can we look forward to hosting an advanced manufacturing hub, potentially focused on enabling the transition to the next-generation 450 mm silicon wafer semiconductor manufacturing tools, which would enable Silicon Valley to take advantage of its R&D excellence and bolster its manufacturing sector in new ways, helping us to recover some of those jobs lost to past outsourcing.

Over the past few years, I've been proud to work with House Manufacturing Caucus Co-chairs Reps. TOM REED and JOE KENNEDY on this authorization effort, along with Silicon Valley tech leaders and university stakeholders. I appreciate the willingness of some of our colleagues on the other side of the aisle who were key to building bipartisan support for this effort, particularly my Chairman on the Commerce, Justice, Science Appropriations Subcommittee FRANK WOLF, to talk with us about this legislation and to join as cosponsors of this important bill.

Our competitors around the world are offering American innovators and manufacturers a wide range of incentives to relocate overseas. The RAMI Act will ensure that American innovation and technology development remain at the top of the manufacturing sector, and I urge my colleagues to support it.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Indiana (Mr. BUCSHON) that the House suspend the rules and pass the bill, H.R. 2996, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

THE HOUSE PASSED JOBS BILLS, BUT THE SENATE FAILED TO ACT

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, over the past 2 years, the House of Representatives has advanced bill after bill to grow our economy.

The House has passed legislation to keep our small businesses growing through smarter regulations. We have passed legislation to increase wages and expand job opportunities. The Senate has failed to act.

The House has passed legislation to make energy more affordable for American families and to keep the country on a path to energy security. The Senate has failed to act.

The House has passed legislation to require the U.S. Forest Service to increase timber production on national forest lands and better manage those national treasures.

We have also advanced legislation to modernize the Endangered Species Act, promoting science-based decision-making and improving species recovery while protecting our economy. The Senate has failed to act.

The House has passed a series of reforms to improve the President's health care law, including a repeal of the harmful 2.3 percent medical device tax. The Senate has failed to act.

The American people deserve better, Mr. Speaker.

THE COALITION OF THE UNWILLING

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2013, the gentleman from Texas (Mr. GOHMERT) is recognized until 10 p.m. as the designee of the majority leader.

Mr. GOHMERT. Mr. Speaker, the President had made a speech last Thursday night, and it is amazing that he is ready to go after ISIS or ISIL and that the Islamic State is not Islamic as they say they are.

It is amazing because, from what I have seen in the beheadings, those who were doing the beheadings always think that they are being religious; so, apparently, the President and his advisers are the only ones that think otherwise because they certainly believe it is a religion.

I wanted to hit some key facts very quickly here. President Obama talks about this great coalition. After all those criticisms of President George W. Bush and the 48 countries or so that actually did participate in the war in Iraq, President Obama's coalition of the unwilling is a better way to talk about his coalition.

NATO ally Turkey announced last week they will not allow the U.S. to conduct air strikes against ISIS from Turkish air bases. So much for their real cooperation.

Germany said it is not going to join U.S. air strikes against ISIS. The United Kingdom has their Foreign Minister announce they will not join air strikes only to be later contradicted by Prime Minister Cameron.

Ten Arab countries signed a communique last week in Jeddah agreeing to qualified cooperation with the U.S. but without any specifics. The State Department claims the Arab nations will conduct air strikes against ISIS but refuses to identify which Arab nations will participate.

Top Islamic cleric Yusuf al-Qaradawi has criticized U.S. attacks on ISIS, and the Syrian Muslim Brotherhood refuses to back any U.S. anti-ISIS efforts because it might circumvent Islamist-dominated structures of the Syrian National Council.

It is also important to note that this administration has admitted they are using back channels to cooperate with Iran. Gee, that would have been like, say, maybe Roosevelt saying we are working with Hitler because Japan attacked us when they all want to kill us.

Vetted moderates are losing U.S. weapons. It is important that people know, September 2013, The Wall Street Journal reported that ISIS raided a Free Syrian Army weapons depot taking small arms ammunition that the CIA provided.

In December 2013, the Free Syrian Army weapon warehouses in Bab al-Hawa—that is near the Syria-Turkey border—was seized by the Islamic Front, prompting the U.S. and the U.K. to stop weapons shipments to the FSA.

In April, the Syrian rebel groups began using heavy weapons including TOW antitank missiles provided by the United States. It is a good thing our southern border is not porous, or they might be bringing them to our border.

June of 2014, the Syrian Military Council official expresses concern that the U.S. is providing weapons directly to the FSA, potentially creating Afghan-Somali-style warlords.

September, we see more reports.

For heaven's sake, Mr. Speaker, this is no time to be helping people who want to cooperate with ISIS to help us take out ISIS. We need better than that.

I yield back the balance of my time.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mrs. CAPITO (at the request of Mr. MCCARTHY) for today on account of a death in the family.

Mr. GINGREY of Georgia (at the request of Mr. MCCARTHY) for today on account of official business.

Ms. BROWN of Florida (at the request of Ms. PELOSI) for today on account of prior commitment in district.

Ms. JACKSON LEE (at the request of Ms. PELOSI) for today on account of official business in the district.

Mr. LOWENTHAL (at the request of Ms. PELOSI) for today.

Ms. MOORE (at the request of Ms. PELOSI) for today.

ENROLLED BILL SIGNED

Karen L. Haas, Clerk of the House, reported and found truly enrolled a joint resolution of the House of the following title, which was thereupon signed by the Speaker:

H.J. Res. 120. Joint resolution approving the location of a memorial to commemorate the more than 5,000 slaves and free Black persons who fought for independence in the American Revolution.

ADJOURNMENT

Mr. GOHMERT. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 10 p.m.), under its previous order, the House adjourned until tomorrow, Tuesday, September 16, 2014, at 10 a.m. for morning-hour debate.
