“(a) IN GENERAL.—Each agency shall, unless otherwise expressly prohibited by law, assess the effects of Federal regulatory ac-

tions on State, local, and tribal governments and the private sector (other than to the extent that such regulatory actions incorporate requirements specifically set forth in law) in accordance with the following principles:

“(1) Each agency shall identify the problem that it intends to address (including, if applicable, the failures of private markets or public institutions that warrant new agency action) as well as assess the significance of that problem.

“(2) Each agency shall examine whether existing regulations (or other law) have created, or contributed to, the problem that a new regulation is intended to correct and whether those regulations (or other law) should be modified to achieve the intended goal of regulation more effectively.

“(3) Each agency shall identify and assess available alternatives to direct regulation, including providing economic incentives to encourage the desired behavior, such as user fees or marketable permits, or providing information upon which choices can be made by the public.

“(4) If an agency determines that a regulation is the best available method of achieving the regulatory objective, it shall design its regulations in the most cost-effective manner to achieve the regulatory objective. In doing so, each agency shall consider incentives for innovation, consistency, predictability, the costs of enforcement and compliance (to the government, regulated entities, and the public), flexibility, distributive impacts, and equity.

“(5) Each agency shall assess both the costs and the benefits of the intended regulation and, recognizing that some costs and benefits are difficult to quantify, propose or adopt a regulation, unless expressly prohibited by law, only upon a reasoned determination that the benefits of the intended regulation justify its costs.

“(6) Each agency shall base its decisions on the best reasonably obtainable scientific, technical, economic, and other information concerning the need for, and consequences of, the intended regulation.

“(7) Each agency shall identify and assess alternative forms of regulation and shall, to the extent feasible, specify performance objectives, rather than specifying the behavior or manner of compliance that regulated entities must adopt.

“(8) Each agency shall avoid regulations that are inconsistent, incompatible, or duplicative with its other regulations or those of other Federal agencies.

“(9) Each agency shall tailor its regulations to minimize the costs of the cumulative impact of regulations.

“(10) Each agency shall draft its regulations to be simple and easy to understand, with the goal of minimizing the potential for uncertainty and litigation arising from such uncertainty.

“(b) REGULATORY ACTION DEFINED.—In this section, the term ‘regulatory action’ means any substantive action by an agency (normally published in the Federal Register) that promulgates or is expected to lead to the promulgation of a final rule or regulation, including advance notices of proposed rulemaking and notices of proposed rulemaking.”.

“(ii) If the agency does not resolve the petition under the procedures of clause (i), it shall grant any such petition that presents a prima facie case that evidence or other information upon which the agency bases the proposed rule fails to comply with the Information Quality Act, hold the requested hearing not later than 30 days after receipt of the petition, provide a reasonable opportunity for cross-examination at the hearing, and decide the issues presented by the petition not later than 60 days after receipt of the petition. The agency may deny any petition that it determines does not present such a prima facie case.

“(C) There shall be no judicial review of the agency's disposition of issues considered and decided or determined under subparagraph (B)(ii) until judicial review of the agency's final action. There shall be no judicial review of an agency's determination to withdraw a proposed rule under subparagraph (B)(i) on the basis of the petition.

“(e) **HEARINGS FOR HIGH-IMPACT RULES.**—Following notice of a proposed rule making, receipt of comments on the proposed rule, and any hearing held under subsection (d)(4), and before adoption of any high-impact rule, the agency shall hold a hearing in accordance with sections 556 and 557, unless such hearing is waived by all participants in the rule making other than the agency. The agency shall provide a reasonable opportunity for cross-examination at such hearing. The hearing shall be limited to the following issues of fact, except that participants at the hearing other than the agency may waive determination of any such issue:

“(1) Whether the agency's asserted factual predicate for the rule is supported by the evidence.

“(2) Whether there is an alternative to the proposed rule that would achieve the rel-

evant statutory objectives at a lower cost (including all costs to be considered under subsection (b)(6)) than the proposed rule.

“(3) If there is more than one alternative to the proposed rule that would achieve the relevant statutory objectives at a lower cost than the proposed rule, which alternative would achieve the relevant statutory objectives at the lowest cost.

“(4) Whether, if the agency proposes to adopt a rule that is more costly than the least costly alternative that would achieve the relevant statutory objectives (including all costs to be considered under subsection (b)(6)), the additional benefits of the more costly rule exceed the additional costs of the more costly rule.

“(5) Whether the evidence and other information upon which the agency bases the proposed rule meets the requirements of the Information Quality Act.

“(6) Upon petition by an interested person who has participated in the rule making, other issues relevant to the rule making, unless the agency determines that consideration of the issues at the hearing would not advance consideration of the rule or would, in light of the nature of the need for agency action, unreasonably delay completion of the rule making. An agency shall grant or deny a petition under this paragraph within 30 days of its receipt of the petition.

No later than 45 days before any hearing held under this subsection or sections 556 and 557, the agency shall publish in the Federal Register a notice specifying the proposed rule to be considered at such hearing, the issues to be considered at the hearing, and the time and place for such hearing, except that such notice may be issued not later than 15 days before a hearing held under subsection (d)(4)(B).

“(f) **FINAL RULES.**—(1) The agency shall adopt a rule only following consultation with the Administrator of the Office of Information and Regulatory Affairs to facilitate compliance with applicable rule making requirements.

“(2) The agency shall adopt a rule only on the basis of the best reasonably obtainable scientific, technical, economic, and other evidence and information concerning the need for, consequences of, and alternatives to the rule.

“(3)(A) Except as provided in subparagraph (B), the agency shall adopt the least costly rule considered during the rule making (including all costs to be considered under subsection (b)(6)) that meets relevant statutory objectives.

“(B) The agency may adopt a rule that is more costly than the least costly alternative that would achieve the relevant statutory objectives only if the additional benefits of the more costly rule justify its additional costs and only if the agency explains its reason for doing so based on interests of public health, safety or welfare that are clearly within the scope of the statutory provision authorizing the rule.

“(4) When it adopts a final rule, the agency shall publish a notice of final rule making. The notice shall include—

“(A) a concise, general statement of the rule's basis and purpose;

“(B) the agency's reasoned final determination of need for a rule to address the problem the agency seeks to address with the rule, including a statement of whether a rule is required by statute and a summary of any final risk assessment or regulatory impact analysis prepared by the agency;

“(C) the agency's reasoned final determination that the benefits of the rule meet the relevant statutory objectives and justify the rule's costs (including all costs to be considered under subsection (b)(6));

“(D) the agency's reasoned final determination not to adopt any of the alternatives to the proposed rule considered by the agency during the rule making, including—

“(i) the agency's reasoned final determination that no alternative considered achieved the relevant statutory objectives with lower costs (including all costs to be considered under subsection (b)(6)) than the rule; or

“(ii) the agency's reasoned determination that its adoption of a more costly rule complies with subsection (f)(3)(B);

“(E) the agency's reasoned final determination—

“(i) that existing rules have not created or contributed to the problem the agency seeks to address with the rule; or

“(ii) that existing rules have created or contributed to the problem the agency seeks to address with the rule, and, if so—

“(I) why amendment or rescission of such existing rules is not alone sufficient to respond to the problem; and

“(II) whether and how the agency intends to amend or rescind the existing rule separate from adoption of the rule;

“(F) the agency's reasoned final determination that the evidence and other information upon which the agency bases the rule complies with the Information Quality Act;

“(G) the agency's reasoned final determination that the rule meets the objectives that the agency identified in subsection (d)(1)(E)(iii) or that other objectives are more appropriate in light of the full administrative record and the rule meets those objectives;

“(H) the agency's reasoned final determination that it did not deviate from the metrics the agency included in subsection (d)(1)(E)(iii) or that other metrics are more appropriate in light of the full administrative record and the agency did not deviate from those metrics;

“(I)(i) for any major rule, high-impact rule, or negative-impact on jobs and wages rule, the agency's plan for review of the rule no less than every ten years to determine whether, based upon evidence, there remains a need for the rule, whether the rule is in fact achieving statutory objectives, whether the rule's benefits continue to justify its costs, and whether the rule can be modified or rescinded to reduce costs while continuing to achieve statutory objectives; and

“(ii) review of a rule under a plan required by clause (i) of this subparagraph shall take into account the factors and criteria set forth in subsections (b) through (f) of section 553 of this title; and

“(J) for any negative-impact on jobs and wages rule, a statement that the head of the agency that made the rule approved the rule knowing about the findings and determination of the agency or the Administrator of the Office of Information and Regulatory Affairs that qualified the rule as a negative impact on jobs and wages rule.

All information considered by the agency in connection with its adoption of the rule, and, at the discretion of the President or the Administrator of the Office of Information and Regulatory Affairs, information provided by that Office in consultations with the agency, shall be placed in the docket for the rule and made accessible to the public for the public's use no later than when the rule is adopted.

“(g) **EXCEPTIONS FROM NOTICE AND HEARING REQUIREMENTS.**—(1) Except when notice or hearing is required by statute, the following do not apply to interpretive rules, general statements of policy, or rules of agency organization, procedure, or practice:

“(A) Subsections (c) through (e).

“(B) Paragraphs (1) through (3) of subsection (f).

“(C) Subparagraphs (B) through (H) of subsection (f)(4).

“(2)(A) When the agency for good cause, based upon evidence, finds (and incorporates the finding and a brief statement of reasons therefor in the rules issued) that compliance with subsection (c), (d), or (e) or requirements to render final determinations under subsection (f) of this section before the issuance of an interim rule is impracticable or contrary to the public interest, including interests of national security, such subsections or requirements to render final determinations shall not apply to the agency’s adoption of an interim rule.

“(B) If, following compliance with subparagraph (A) of this paragraph, the agency adopts an interim rule, it shall commence proceedings that comply fully with subsections (d) through (f) of this section immediately upon publication of the interim rule, shall treat the publication of the interim rule as publication of a notice of proposed rule making and shall not be required to issue supplemental notice other than to complete full compliance with subsection (d). No less than 270 days from publication of the interim rule (or 18 months in the case of a major rule or high-impact rule), the agency shall complete rule making under subsections (d) through (f) of this subsection and take final action to adopt a final rule or rescind the interim rule. If the agency fails to take timely final action, the interim rule will cease to have the effect of law.

“(C) Other than in cases involving interests of national security, upon the agency’s publication of an interim rule without compliance with subsection (c), (d), or (e) or requirements to render final determinations under subsection (f) of this section, an interested party may seek immediate judicial review under chapter 7 of this title of the agency’s determination to adopt such interim rule. The record on such review shall include all documents and information considered by the agency and any additional information presented by a party that the court determines necessary to consider to assure justice.

“(3) When the agency for good cause finds (and incorporates the finding and a brief statement of reasons therefor in the rules issued) that notice and public procedure thereon are unnecessary, including because agency rule making is undertaken only to correct a de minimis technical or clerical error in a previously issued rule or for other noncontroversial purposes, the agency may publish a rule without compliance with subsection (c), (d), (e), or (f)(1)–(3) and (f)(4)(B)–(F). If the agency receives significant adverse comment within 60 days after publication of the rule, it shall treat the notice of the rule as a notice of proposed rule making and complete rule making in compliance with subsections (d) and (f).

“(h) ADDITIONAL REQUIREMENTS FOR HEARINGS.—When a hearing is required under subsection (e) or is otherwise required by statute or at the agency’s discretion before adoption of a rule, the agency shall comply with the requirements of sections 556 and 557 in addition to the requirements of subsection (f) in adopting the rule and in providing notice of the rule’s adoption.

“(i) DATE OF PUBLICATION OF RULE.—The required publication or service of a substantive final or interim rule shall be made not less than 30 days before the effective date of the rule, except—

“(1) a substantive rule which grants or recognizes an exemption or relieves a restriction;

“(2) interpretive rules and statements of policy; or

“(3) as otherwise provided by the agency for good cause found and published with the rule.

“(j) RIGHT TO PETITION.—Each agency shall give an interested person the right to petition for the issuance, amendment, or repeal of a rule.

“(k) RULE MAKING GUIDELINES.—(1)(A) The Administrator of the Office of Information and Regulatory Affairs shall establish guidelines for the assessment, including quantitative and qualitative assessment, of the costs and benefits of proposed and final rules and other economic issues or issues related to risk that are relevant to rule making under this title. The rigor of cost-benefit analysis required by such guidelines shall be commensurate, in the Administrator’s determination, with the economic impact of the rule.

“(B) To ensure that agencies use the best available techniques to quantify and evaluate anticipated present and future benefits, costs, other economic issues, and risks as accurately as possible, the Administrator of the Office of Information and Regulatory Affairs shall regularly update guidelines established under paragraph (1)(A) of this subsection.

“(2) The Administrator of the Office of Information and Regulatory Affairs shall also issue guidelines to promote coordination, simplification and harmonization of agency rules during the rule making process and otherwise. Such guidelines shall assure that each agency avoids regulations that are inconsistent or incompatible with, or duplicative of, its other regulations and those of other Federal agencies and drafts its regulations to be simple and easy to understand, with the goal of minimizing the potential for uncertainty and litigation arising from such uncertainty.

“(3) To ensure consistency in Federal rule making, the Administrator of the Office of Information and Regulatory Affairs shall—

“(A) issue guidelines and otherwise take action to ensure that rule makings conducted in whole or in part under procedures specified in provisions of law other than those of subchapter II of this title conform to the fullest extent allowed by law with the procedures set forth in section 553 of this title; and

“(B) issue guidelines for the conduct of hearings under subsections 553(d)(4) and 553(e) of this section, including to assure a reasonable opportunity for cross-examination. Each agency shall adopt regulations for the conduct of hearings consistent with the guidelines issued under this subparagraph.

“(4) The Administrator of the Office of Information and Regulatory Affairs shall issue guidelines pursuant to the Information Quality Act to apply in rule making proceedings under sections 553, 556, and 557 of this title. In all cases, such guidelines, and the Administrator’s specific determinations regarding agency compliance with such guidelines, shall be entitled to judicial deference.

“(l) INCLUSION IN THE RECORD OF CERTAIN DOCUMENTS AND INFORMATION.—The agency shall include in the record for a rule making, and shall make available by electronic means and otherwise, all documents and information prepared or considered by the agency during the proceeding, including, at the discretion of the President or the Administrator of the Office of Information and Regulatory Affairs, documents and information communicated by that Office during consultation with the Agency.

“(m) MONETARY POLICY EXEMPTION.—Nothing in subsection (b)(6), subparagraphs (F) and (G) of subsection (d)(1), subsection (e), subsection (f)(3), and subparagraphs (C) and (D) of subsection (f)(5) shall apply to rule makings that concern monetary policy proposed or implemented by the Board of Governors of the Federal Reserve System or the Federal Open Market Committee.”.

“(1) make and document a reasoned determination that—

“(A) assures that such guidance is understandable and complies with relevant statutory objectives and regulatory provisions (including any statutory deadlines for agency action);

“(B) summarizes the evidence and data on which the agency will base the guidance;

Upon issuing major guidance, or guidance that involves a novel legal or policy issue arising out of statutory mandates, the agency shall publish the documentation required by subparagraph (1) by electronic means and otherwise.

“(b) Agency guidance—

“(1) is not legally binding and may not be relied upon by an agency as legal grounds for agency action;

“(2) shall state in a plain, prominent and permanent manner that it is not legally binding; and

“(3) shall, at the time it is issued or upon request, be made available by the issuing agency to interested persons and the public by electronic means and otherwise.

Agencies shall avoid the issuance of guidance that is inconsistent or incompatible with, or duplicative of, the agency’s governing statutes or regulations, with the goal of minimizing the potential for uncertainty and litigation arising from such uncertainty.

“(g) Upon receipt of a petition for a hearing under this section, the agency shall grant the petition in the case of any major rule, unless the agency reasonably determines that a hearing would not advance consideration of the rule or would, in light of the need for agency action, unreasonably delay completion of the rule making. The agency shall publish its decision to grant or deny the petition when it renders the decision, including an explanation of the grounds for decision. Section 610 of title 5, United States Code, is amended to read as follows:

“§ 610. Periodic review of rules

“(a) Not later than 180 days after the enactment of this section, each agency shall publish in the Federal Register and place on its website a plan for the periodic review of rules issued by the agency which the head of the agency determines have a significant economic impact on a substantial number of small entities. Such determination shall be made without regard to whether the agency performed an analysis under section 604. The purpose of the review shall be to determine whether such rules should be continued without change, or should be amended or rescinded, consistent with the stated objectives of applicable statutes, to minimize any adverse significant economic impacts or maximize any beneficial significant economic impacts on a substantial number of small entities. Such plan may be amended by the agency at any time by publishing the revision in the Federal Register and subsequently placing the amended plan on the agency’s website.

“(b) The plan shall provide for the review of all such agency rules existing on the date of the enactment of this section within 10 years of the date of publication of the plan in the Federal Register and for review of rules adopted after the date of enactment of this section within 10 years after the publication of the final rule in the Federal Register. If the head of the agency determines that completion of the review of existing rules is not feasible by the established date, the head of the agency shall so certify in a statement

published in the Federal Register and may extend the review for not longer than 2 years after publication of notice of extension in the Federal Register. Such certification and notice shall be sent to the Chief Counsel for Advocacy of the Small Business Administration and the Congress.

“(c) The plan shall include a section that details how an agency will conduct outreach to and meaningfully include small businesses (including small business concerns owned and controlled by women, small business concerns owned and controlled by veterans, and small business concerns owned and controlled by socially and economically disadvantaged individuals (as such terms are defined in the Small Business Act)) for the purposes of carrying out this section. The agency shall include in this section a plan for how the agency will contact small businesses and gather their input on existing agency rules.

“(d) Each agency shall annually submit a report regarding the results of its review pursuant to such plan to the Congress, the Chief Counsel for Advocacy of the Small Business Administration, and, in the case of agencies other than independent regulatory agencies (as defined in section 3502(5) of title 44) to the Administrator of the Office of Information and Regulatory Affairs of the Office of Management and Budget. Such report shall include the identification of any rule with respect to which the head of the agency made a determination described in paragraph (5) or (6) of subsection (e) and a detailed explanation of the reasons for such determination.

“(e) In reviewing a rule pursuant to subsections (a) through (d), the agency shall amend or rescind the rule to minimize any adverse significant economic impact on a substantial number of small entities or disproportionate economic impact on a specific class of small entities, or maximize any beneficial significant economic impact of the rule on a substantial number of small entities to the greatest extent possible, consistent with the stated objectives of applicable statutes. In amending or rescinding the rule, the agency shall consider the following factors:

“(1) The continued need for the rule.

“(2) The nature of complaints received by the agency from small entities concerning the rule.

“(3) Comments by the Regulatory Enforcement Ombudsman and the Chief Counsel for Advocacy of the Small Business Administration.

“(4) The complexity of the rule.

“(5) The extent to which the rule overlaps, duplicates, or conflicts with other Federal rules and, unless the head of the agency determines it to be infeasible, State, territorial, and local rules.

“(6) The contribution of the rule to the cumulative economic impact of all Federal rules on the class of small entities affected by the rule, unless the head of the agency determines that such calculations cannot be made and reports that determination in the annual report required under subsection (d).

“(7) The length of time since the rule has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the rule.

“(f) Each year, each agency shall publish in the Federal Register and on its website a list of rules to be reviewed pursuant to such plan. The agency shall include in the publication a solicitation of public comments on any further inclusions or exclusions of rules from the list, and shall respond to such comments. Such publication shall include a brief description of the rule, the reason why the agency determined that it has a significant

economic impact on a substantial number of small entities (without regard to whether it had prepared a final regulatory flexibility analysis for the rule), and request comments from the public, the Chief Counsel for Advocacy of the Small Business Administration, and the Regulatory Enforcement Ombudsman concerning the enforcement of the rule.”.

DIVISION IV—JUDICIARY

TITLE I—REGULATIONS FROM THE EXECUTIVE IN NEED OF SCRUTINY

SEC. 101. SHORT TITLE.

This title may be cited as the “Regulations From the Executive in Need of Scrutiny Act of 2014”.

SEC. 102. PURPOSE.

The purpose of this title is to increase accountability for and transparency in the Federal regulatory process. Section 1 of article I of the United States Constitution grants all legislative powers to Congress. Over time, Congress has excessively delegated its constitutional charge while failing to conduct appropriate oversight and retain accountability for the content of the laws it passes. By requiring a vote in Congress, the REINS Act will result in more carefully drafted and detailed legislation, an improved regulatory process, and a legislative branch that is truly accountable to the American people for the laws imposed upon them. Moreover, as a tax on carbon emissions increases energy costs on consumers, reduces economic growth and is therefore detrimental to individuals, families and businesses, the REINS Act includes in the definition of a major rule, any rule that implements or provides for the imposition or collection of a tax on carbon emissions.

SEC. 103. CONGRESSIONAL REVIEW OF AGENCY RULEMAKING.

Chapter 8 of title 5, United States Code, is amended to read as follows:

SEC. 311. CREATION OF O&C TRUST AND DESIGNATION OF O&C TRUST LANDS.

(a) **CREATION.**—The Oregon and California Railroad Grant Lands Trust is established effective on October 1 of the first fiscal year beginning after the appointment of the Board of Trustees. As management authority over the surface of estate of the O&C Trust lands is transferred to the O&C Trust during the transition period pursuant to section 331, the transferred lands shall be held in trust for the benefit of the O&C Trust counties.

(b) **TRUST PURPOSE.**—The purpose of the O&C Trust is to produce annual maximum sustained revenues in perpetuity for O&C Trust counties by managing the timber resources on O&C Trust lands on a sustained-yield basis subject to the management requirements of section 314.

(c) **DESIGNATION OF O&C TRUST LANDS.**—

(1) **LANDS INCLUDED.**—Except as provided in paragraph (2), the O&C Trust lands shall include all of the lands containing the stands of timber described in subsection (d) that are located, as of January 1, 2013, on Oregon and California Railroad Grant lands and O&C Region Public Domain lands.

(G) Tribal lands addressed in subtitle D.

(d) COVERED STANDS OF TIMBER.—

(1) DESCRIPTION.—The O&C Trust lands consist of stands of timber that have previously been managed for timber production or that have been materially altered by natural disturbances since 1886. Most of these stands of timber are 80 years old or less, and all of such stands can be classified as having a predominant stand age of 125 years or less.

(2) DELINEATION OF BOUNDARIES BY BUREAU OF LAND MANAGEMENT.—The Oregon and California Railroad Grant lands and O&C Region Public Domain lands that, immediately before transfer to the O&C Trust, were managed by the Bureau of Land Management are timber stands that have predominant birth date attributes of 1886 or later, with boundaries that are defined by polygon spatial data layer in and electronic data compilation filed by the Bureau of Land Management pursuant to paragraph (4). Except as provided in paragraph (5), the boundaries of all timber stands constituting the O&C Trust lands are finally and conclusively determined for all purposes by coordinates in or derived by reference to the polygon spatial data layer prepared by the Bureau of Land Management and filed pursuant to paragraph (4), notwithstanding anomalies that might later be discovered on the ground. The boundary coordinates are locatable on the ground by use of global positioning system signals. In cases where the location of the stand boundary is disputed or is inconsistent with paragraph (1), the location of boundary coordinates on the ground shall be, except as otherwise provided in paragraph (5), finally and conclusively determined for all purposes by the direct or indirect use of global positioning system equipment with accuracy specification of one meter or less.

(3) DELINEATION OF BOUNDARIES BY FOREST SERVICE.—The O&C Trust lands that, immediately before transfer to the O&C Trust, were managed by the Forest Service are timber stands that can be classified as having predominant stand ages of 125 years old or less. Within 30 days after the date of the enactment of this Act, the Secretary of Agriculture shall commence identification of the boundaries of such stands, and the boundaries of all such stands shall be identified and made available to the Board of Trustees not later than 180 days following the creation of the O&C Trust pursuant to subsection (a). In identifying the stand boundaries, the Secretary may use geographic information system data, satellite imagery, cadastral survey coordinates, or any other means available within the time allowed. The boundaries shall be provided to the Board of Trustees within the time allowed in the form of a spatial data layer from which coordinates can be derived that are locatable

on the ground by use of global positioning system signals. Except as provided in paragraph (5), the boundaries of all timber stands constituting the O&C Trust lands are finally and conclusively determined for all purposes by coordinates in or derived by reference to the data provided by the Secretary within the time provided by this paragraph, notwithstanding anomalies that might later be discovered on the ground. In cases where the location of the stand boundary is disputed or inconsistent with paragraph (1), the location of boundary coordinates on the ground shall be, except as otherwise provided in paragraph (5), finally and conclusively determined for all purposes by the boundary coordinates provided by the Secretary as they are located on the ground by the direct or indirect use of global positioning system equipment with accuracy specifications of one meter or less. All actions taken by the Secretary under this paragraph shall be deemed to not involve Federal agency action or Federal discretionary involvement or control.

(4) DATA AND MAPS.—Copies of the data containing boundary coordinates for the stands included in the O&C Trust lands, or from which such coordinates are derived, and maps generally depicting the stand locations shall be filed with the Committee on Energy and Natural Resources of the Senate, the Committee on Natural Resources of the House of Representatives, and the office of the Secretary concerned. The maps and data shall be filed—

(A) not later than 90 days after the date of the enactment of this Act, in the case of the lands identified pursuant to paragraph (2); and

(B) not later than 180 days following the creation of the O&C Trust pursuant to subsection (a), in the case of lands identified pursuant to paragraph (3).

(5) ADJUSTMENT AUTHORITY AND LIMITATIONS.—

(A) NO IMPACT ON DETERMINING TITLE OR PROPERTY OWNERSHIP BOUNDARIES.—Stand boundaries identified under paragraph (2) or (3) shall not be relied upon for purposes of determining title or property ownership boundaries. If the boundary of a stand identified under paragraph (2) or (3) extends beyond the property ownership boundaries of Oregon and California Railroad Grant lands or O&C Region Public Domain lands, as such property boundaries exist on the date of enactment of this Act, then that stand boundary is deemed adjusted by this subparagraph to coincide with the property ownership boundary.

(B) EFFECT OF DATA ERRORS OR INCONSISTENCIES.—Data errors or inconsistencies may result in parcels of land along property ownership boundaries that are unintentionally omitted from the O&C Trust lands that are identified under paragraph (2) or (3). In order to correct such errors, any parcel of land that satisfies all of the following criteria is hereby deemed to be O&C Trust land:

(i) The parcel is within the ownership boundaries of Oregon and California Railroad Grant lands or O&C Region Public Domain lands on the date of the enactment of this Act.

(ii) The parcel satisfies the description in paragraph (1) on the date of enactment of this Act.

(iii) The parcel is not excluded from the O&C Trust lands pursuant to subsection (c)(2).

(C) NO IMPACT ON LAND EXCHANGE AUTHORITY.—Nothing in this subsection is intended to limit the authority of the Trust and the Forest Service to engage in land exchanges between themselves or with owners of non-Federal land as provided elsewhere in this title.

(A) USE AUTHORIZED; PURPOSE.—For maintenance or construction on the road system under the control of the O&C Trust or for non-Federal lands intermingled with O&C Trust lands, the Board of Trustees may—

(i) utilize rock or gravel found within quarries in existence immediately before the date of the enactment of this Act on any Oregon and California Railroad Grant lands and O&C Region Public Domain lands, excluding those lands designated under subtitle C or transferred under subtitle D; and

(ii) construct new quarries on O&C Trust lands, except that any quarry so constructed may not exceed 5 acres.

(B) EXCEPTION.—The Board of Trustees shall not construct new quarries on any of the lands transferred to the Forest Service under section 321 or lands designated under subtitle D.

(c) ROADS.—

(1) IN GENERAL.—Except as provided in subsection (b), the Board of Trustees shall assume authority and responsibility over, and have authority to use, all roads and the road system specified in the following subparagraphs:

All of the lands transferred to the Forest Service under section 321 shall be considered as part of the tributary area used to calculate pro-rata maintenance expense and road use fees.

(B) All roads and road systems owned or administered by the Forest Service immediately before the date of the enactment of this Act and subsequently included within the boundaries of the O&C Trust lands.

(C) All roads later added to the road system for management of the O&C Trust lands.

(2) LANDS TRANSFERRED TO FOREST SERVICE.—The Secretary of Agriculture shall assume the obligations of the Secretary of Interior for pro-rata maintenance expense and road use fees under reciprocal rights-of-way agreements for those Oregon and California Railroad Grant lands or O&C Region Public

Domain lands transferred to the Forest Service under section 321.

(3) **COMPLIANCE WITH CLEAN WATER ACT.**—All roads used, constructed, or reconstructed under the jurisdiction of the O&C Trust must comply with requirements of the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) applicable to private lands through the use of Best Management Practices under the Oregon Forest Practices Act.

(d) **PUBLIC ACCESS.**—

(1) **IN GENERAL.**—Subject to paragraph (2), public access to O&C Trust lands shall be preserved consistent with the policies of the Secretary concerned applicable to the O&C Trust lands as of the date on which management authority over the surface estate of the lands is transferred to the O&C Trust.

(2) **RESTRICTIONS.**—The Board of Trustees may limit or control public access for reasons of public safety or to protect the resources on the O&C Trust lands.

(e) **LIMITATIONS.**—The assets of the O&C Trust shall not be subject to the creditors of an O&C Trust county, or otherwise be distributed in an unprotected manner or be subject to anticipation, encumbrance, or expenditure other than for a purpose for which the O&C Trust was created.

(f) **REMEDY.**—An O&C Trust county shall have all of the rights and remedies that would normally accrue to a beneficiary of a trust. An O&C Trust county shall provide the Board of Trustees, the Secretary concerned, and the Attorney General with not less than 60 days notice of an intent to sue to enforce the O&C Trust county's rights under the O&C Trust.

(g) **JUDICIAL REVIEW.**—

(1) **IN GENERAL.**—Except as provided in paragraph (2), judicial review of any provision of this title shall be sought in the United States Court of Appeals for the District of Columbia Circuit. Parties seeking judicial review of the validity of any provision of this title must file suit within 90 days after the date of the enactment of this Act and no preliminary injunctive relief or stays pending appeal will be permitted. If multiple cases are filed under this paragraph, the Court shall consolidate the cases. The Court must rule on any action brought under this paragraph within 180 days.

(2) **DECISIONS OF BOARD OF TRUSTEES.**—Decisions made by the Board of Trustees shall be subject to judicial review only in an action brought by an O&C County, except that nothing in this title precludes bringing a legal claim against the Board of Trustees that could be brought against a private landowner for the same action.

SEC. 313. BOARD OF TRUSTEES.

The plan shall optimize the ability of the O&C Trust to re-establish forest stands after harvest in compliance with the Oregon Forest Practices Act and to create diverse early seral stage forests. The plan shall allow for the eradication, containment and suppression of disease, pests, weeds and noxious plants, and invasive species as found on the State Noxious Weed List and prioritize ground application of herbicides and pesticides to the greatest extent practicable. The plan shall be completed before the start of the second year of the transition period. The planning process shall be open to the public and the Board of Trustees shall hold not less than two public hearings on the proposed plan before final adoption.

(g) ACCESS TO LANDS TRANSFERRED TO FOREST SERVICE.—Persons acting on behalf of the O&C Trust shall have a right of timely access over lands transferred to the Forest Service under section 321 and Tribal lands transferred under subtitle D as is reasonably necessary for the Board of Trustees to carry out its management activities with regard to the O&C Trust lands and the O&C Trust to satisfy its fiduciary duties to O&C counties.

(1) IN GENERAL.—The O&C Trust lands shall be managed with timber harvesting limited in riparian areas as follows:

(A) STREAMS.—For all fish bearing streams and all perennial non-fish-bearing streams,

there shall be no removal of timber within a distance equal to the height of one site potential tree on both sides of the stream channel. For intermittent, non-fish-bearing streams, there shall be no removal of timber within a distance equal to one-half the height of a site potential tree on both sides of the stream channel. For purposes of this subparagraph, the stream channel boundaries are the lines of ordinary high water.

(B) LARGER LAKES, PONDS AND RESERVOIRS.—For all lakes, ponds, and reservoirs with surface area larger than one quarter of one acre, there shall be no removal of timber within a distance equal to the height of one site potential tree from the line of ordinary high water of the water body.

(C) SMALL PONDS AND NATURAL WETLANDS, SPRINGS AND SEEPS.—For all ponds with surface area one quarter acre or less, and for all natural wetlands, springs and seeps, there shall be no removal of timber within the area dominated by riparian vegetation.

(3) RULES OF CONSTRUCTION.—Nothing in paragraph (1) shall be construed—

(A) to prohibit the falling or placement of timber into streams to create large woody debris for the benefit of aquatic ecosystems; or

(B) to prohibit the falling of trees within riparian areas as may be reasonably necessary for safety or operational reasons in areas adjacent to the riparian areas, or for road construction or maintenance pursuant to section 312(c)(3).

(j) FIRE PROTECTION AND EMERGENCY RESPONSE.—

(1) RECIPROCAL FIRE PROTECTION AGREEMENTS.—

(A) CONTINUATION OF AGREEMENTS.—Subject to subparagraphs (B), (C), and (D), any reciprocal fire protection agreement between the State or any other entity and the Secretary concerned with regard to Oregon and California Railroad Grant lands and O&C Region Public Domain lands in effect on the date of the enactment of this Act shall remain in place for a period of ten years after such date unless earlier terminated by the State or other entity.

(C) EFFECT OF EXPIRATION OF PERIOD.—Following the expiration of the ten-year period under subparagraph (A), the Board of Trustees shall continue to provide for fire protection of the Oregon and California Railroad Grant lands and O&C Region Public Domain lands, including those transferred to the Forest Service under section 331, through continuation of the reciprocal fire protection agreements, new cooperative agreements, or by any means otherwise permitted by law. The means selected shall be based on the review by the Board of Trustees of whether the reciprocal fire protection agreements were effective in protecting the lands from fire.

(D) EMERGENCY RESPONSE.—Nothing in this paragraph shall prevent the Secretary of Agriculture from an emergency response to a fire on the O&C Trust lands or lands transferred to the Forest Service under section 321.

(2) EMERGENCY RESPONSE TO FIRE.—Subject to paragraph (1), if the Secretary of Agri-

culture determines that fire on any of the lands transferred under section 321 is burning uncontrolled or the Secretary, the Board of Trustees, or contracted party does not have readily and immediately available personnel and equipment to control or extinguish the fire, the Secretary, or any forest protective association or agency under contract or agreement with the Secretary or the Board of Trustees for the protection of forestland against fire, shall summarily and aggressively abate the nuisance thus controlling and extinguishing the fire.

(k) NORTHERN SPOTTED OWL.—So long as the O&C Trust maintains the 100-120 year rotation on 50 percent of the harvestable acres required in subsection (c), the section 321 lands representing the best quality habitat for the owl are transferred to the Forest Service, and the O&C Trust protects currently occupied northern spotted owl nest sites consistent with the forest practices in the Oregon Forest Practices Act, management of the O&C Trust land by the Board of Trustees shall be considered to comply with section 9 of Public Law 93-205 (16 U.S.C. 1538) for the northern spotted owl. A currently occupied northern spotted owl nest site shall be considered abandoned if there are no northern spotted owl responses following three consecutive years of surveys using the Protocol for Surveying Management Activities that May Impact Northern Spotted Owls dated February 2, 2013.

SEC. 315. DISTRIBUTION OF REVENUES FROM O&C TRUST LANDS.

(a) ANNUAL DISTRIBUTION OF REVENUES.—

(2) AMOUNT.—The amount paid to an O&C Trust county in relation to the total distributed to all O&C Trust counties for a fiscal year shall be based on the proportion that the total assessed value of the Oregon and California Railroad Grant lands in each of the O&C Trust counties for fiscal year 1915 bears to the total assessed value of all of the Oregon and California Railroad Grant lands in the State for that same fiscal year. However, for the purposes of this subsection the portion of the reverted Oregon and California Railroad Grant lands in each of the O&C Trust counties that was not assessed for fiscal year 1915 shall be deemed to have been assessed at the average assessed value of the Oregon and California Railroad Grant lands in the county.

(3) LIMITATION.—After the fifth payment made under this subsection, the payment to an O&C Trust county for a fiscal year shall not exceed 110 percent of the previous year's payment to the O&C Trust county, adjusted for inflation based on the consumer price index applicable to the geographic area in which the O&C Trust counties are located.

(b) RESERVE FUND.—

(1) ESTABLISHMENT OF RESERVE FUND.—The Board of Trustees shall generate and maintain a reserve fund.

(2) DEPOSITS TO RESERVE FUND.—Within 10 years after creation of the O&C Trust or as soon thereafter as is practicable, the Board of Trustees shall establish and seek to maintain an annual balance of \$125,000,000 in the Reserve Fund, to be derived from revenues generated from management activities involving O&C Trust lands. All annual revenues generated in excess of operating costs and payments to O&C Trust counties required by subsection (a) and payments into the Conservation Fund as provided in subsection (c) shall be deposited in the Reserve Fund.

(3) EXPENDITURES FROM RESERVE FUND.—The Board of Trustees shall use amounts in the Reserve Fund only—

(A) to pay management and administrative expenses or capital improvement costs on O&C Trust lands; and

(B) to make payments to O&C Trust counties when payments to the counties under subsection (a) are projected to be 90 percent or less of the previous year's payments.

(c) O&C TRUST CONSERVATION FUND.—

(1) ESTABLISHMENT OF CONSERVATION FUND.—The Board of Trustees shall use a portion of revenues generated from activity on the O&C Trust lands, consistent with paragraph (2), to establish and maintain a O&C Trust Conservation Fund. The O&C Trust Conservation Fund shall include no Federal appropriations.

(2) REVENUES.—Following the transition period, five percent of the O&C Trust's annual net operating revenue, after deduction of all management costs and expenses, including the payment required under section 317, shall be deposited to the O&C Trust Conservation Fund.

(3) EXPENDITURES FROM CONSERVATION FUND.—The Board of Trustees shall use amounts from the O&C Trust Conservation Fund only—

(A) to fund the voluntary acquisition of conservation easements from willing private landowners in the State;

(B) to fund watershed restoration, remediation and enhancement projects within the State; or

(C) to contribute to balancing values in a land exchange with willing private landowners proposed under section 323(b), if the land exchange will result in a net increase in ecosystem benefits for fish, wildlife, or rare native plants.

SEC. 316. LAND EXCHANGE AUTHORITY.

(a) AUTHORITY.—Subject to approval by the Secretary concerned, the Board of Trustees may negotiate proposals for land exchanges with owners of lands adjacent to O&C Trust lands in order to create larger contiguous blocks of land under management by the O&C Trust to facilitate resource management, to improve conservation value of such lands, or to improve the efficiency of management of such lands.

(b) APPROVAL REQUIRED; CRITERIA.—The Secretary concerned may approve a land exchange proposed by the Board of Trustees administratively if the exchange meets the following criteria:

(2) The non-Federal lands have high timber production value, or are necessary for more efficient or effective management of adjacent or nearby O&C Trust lands.

(3) The non-Federal lands have equal or greater value to the O&C Trust lands proposed for exchange.

(4) The proposed exchange is reasonably likely to increase the net income to the O&C Trust counties over the next 20 years and not decrease the net income to the O&C Trust counties over the next 10 years.

(c) ACREAGE LIMITATION.—The Secretary concerned shall not approve land exchanges under this section that, taken together with all previous exchanges involving the O&C Trust lands, have the effect of reducing the total acreage of the O&C Trust lands by more than five percent from the total acreage to be designated as O&C Trust land under section 311(c)(1).

SUBDIVISION B—NATIONAL STRATEGIC AND CRITICAL MINERALS PRODUCTION

SEC. 100. SHORT TITLE.

This subdivision may be cited as the "National Strategic and Critical Minerals Production Act of 2014".

SEC. 100A. FINDINGS.

Congress finds the following:

(1) The industrialization of China and India has driven demand for nonfuel mineral commodities, sparking a period of resource nationalism exemplified by China's reduction in exports of rare-earth elements necessary for telecommunications, military technologies, healthcare technologies, and conventional and renewable energy technologies.

(2) The availability of minerals and mineral materials are essential for economic growth, national security, technological innovation, and the manufacturing and agricultural supply chain.

(3) The exploration, production, processing, use, and recycling of minerals contribute significantly to the economic well-being, security and general welfare of the Nation.

(4) The United States has vast mineral resources, but is becoming increasingly dependent upon foreign sources of these mineral materials, as demonstrated by the following:

(A) Twenty-five years ago the United States was dependent on foreign sources for 30 nonfuel mineral materials, 6 of which the United States imported 100 percent of the Nation's requirements, and for another 16 commodities the United States imported more than 60 percent of the Nation's needs.

(B) By 2011 the United States import dependence for nonfuel mineral materials had more than doubled from 30 to 67 commodities, 19 of which the United States imported 100 percent of the Nation's requirements, and for another 24 commodities, imported more than 50 percent of the Nation's needs.

(C) The United States share of worldwide mineral exploration dollars was 8 percent in 2011, down from 19 percent in the early 1990s.

(D) In the 2012 Ranking of Countries for Mining Investment, out of 25 major mining countries, the United States ranked last with Papua New Guinea in permitting delays, and towards the bottom regarding government take and social issues affecting mining.

(h) **APPLICATION TO EXISTING PERMIT APPLICATIONS.**—This section shall apply with respect to a mineral exploration or mine permit for which an application was submitted before the date of the enactment of this Act if the applicant for the permit submits a written request to the lead agency for the permit. The lead agency shall begin implementing this section with respect to such application within 30 days after receiving such written request.

SEC. 103. CONSERVATION OF THE RESOURCE.

In evaluating and issuing any mineral exploration or mine permit, the priority of the lead agency shall be to maximize the development of the mineral resource, while mitigating environmental impacts, so that more of the mineral resource can be brought to the market place.

SEC. 104. FEDERAL REGISTER PROCESS FOR MINERAL EXPLORATION AND MINING PROJECTS.

(a) **PREPARATION OF FEDERAL NOTICES FOR MINERAL EXPLORATION AND MINE DEVELOPMENT PROJECTS.**—The preparation of Federal Register notices required by law associated with the issuance of a mineral exploration or mine permit shall be delegated to the organization level within the agency responsible

(b) **DEPARTMENTAL REVIEW OF FEDERAL REGISTER NOTICES FOR MINERAL EXPLORATION AND MINING PROJECTS.**—Absent any extraordinary circumstance or except as otherwise required by any Act of Congress, each Federal Register notice described in subsection (a) shall undergo any required reviews within the Department of the Interior or the Department of Agriculture and be published in its final form in the Federal Register no later than 30 days after its initial preparation.

TITLE II—JUDICIAL REVIEW OF AGENCY ACTIONS RELATING TO EXPLORATION AND MINE PERMITS

SEC. 201. DEFINITIONS FOR TITLE.

In this title the term “covered civil action” means a civil action against the Federal Government containing a claim under section 702 of title 5, United States Code, regarding agency action affecting a mineral exploration or mine permit.

SEC. 202. TIMELY FILINGS.

A covered civil action is barred unless filed no later than the end of the 60-day period beginning on the date of the final Federal agency action to which it relates.

SEC. 203. RIGHT TO INTERVENE.

SEC. 204. EXPEDITION IN HEARING AND DETERMINING THE ACTION.

The court shall endeavor to hear and determine any covered civil action as expeditiously as possible.

SEC. 205. LIMITATION ON PROSPECTIVE RELIEF.

In a covered civil action, the court shall not grant or approve any prospective relief unless the court finds that such relief is narrowly drawn, extends no further than necessary to correct the violation of a legal requirement, and is the least intrusive means necessary to correct that violation.

SEC. 206. LIMITATION ON ATTORNEYS' FEES.

Sections 504 of title 5, United States Code, and 2412 of title 28, United States Code (together commonly called the Equal Access to Justice Act) do not apply to a covered civil action, nor shall any party in such a covered civil action receive payment from the Federal Government for their attorneys' fees, expenses, and other court costs.

TITLE III—MISCELLANEOUS PROVISIONS

SEC. 301. SECRETARIAL ORDER NOT AFFECTED.

Nothing in this subdivision shall be construed as to affect any aspect of Secretarial Order 3324, issued by the Secretary of the Interior on December 3, 2012, with respect to potash and oil and gas operators.

The SPEAKER pro tempore. The gentleman from Michigan (Mr. CAMP) and the gentleman from New York (Mr. RANGEL) each will control 60 minutes.

The Chair recognizes the gentleman from Michigan.

GENERAL LEAVE

Mr. CAMP. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and to include extraneous material on H.R. 4.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. CAMP. Mr. Speaker, I yield myself such time as I may consume.

Every day, honest, hardworking men and women are struggling. Far too many families haven't seen a pay raise in years, and many have lost hope and stopped looking for work entirely. H.R. 4, the Jobs for America Act, will strengthen the economy by creating more jobs with higher take-home pay.

The House has already passed dozens of bipartisan solutions that will break down burdensome regulations and promote policies that allow businesses, large and small, to do what they do best: grow, innovate, and hire new workers.

The bill we have before us today, the Jobs for America Act, includes provisions that have strong bipartisan support in both the House and the Senate.

The research and development credit, which has been around for over 30 years, is a proven way to incentivize U.S. companies to innovate, create new products, and invest in the U.S.

The United States is the only country that allows important pieces of its Tax Code to expire on a regular basis. Businesses cannot grow and invest when the Tax Code is riddled with instability and uncertainty.

Making the R&D tax credit permanent also supports good-paying jobs. According to the National Association of Manufacturers, 70 percent of research and development credit dollars are used to pay salaries of R&D workers.

The nonpartisan Joint Committee on Taxation estimates that making the R&D credit permanent could increase the amount of research and development American companies undertake by up to 10 percent. That translates into more workers, higher wages, and increased innovation here in the United States.

This bill would also make permanent bonus depreciation and section 179 expensing at higher levels, allowing businesses, farmers, and ranchers to plan for the future and expand their businesses. The result of that is more jobs and higher wages for hardworking Americans. The Tax Foundation analysis found that permanent bonus depreciation would add \$182 billion to the economy and increase wages by 1 percent, which creates 212,000 jobs.

□ 1415

Additionally, the bill would make permanent several expired tax provisions that benefit S corporations, a popular and important business structure that is used by millions of small businesses across the country.

This commonsense effort will give small businesses some much-needed relief from the burdens of the Tax Code, allowing them to invest and create new jobs.

This bill would also repeal some of the job-killing provisions of the health care law. The current 30-hour rule in the Affordable Care Act's employer

mandate results in fewer jobs, reduced hours, and less opportunity for Americans.

By changing the definition of "full-time work," ObamaCare places an unprecedented government regulation on workers. As a direct result, Americans across the country are having their hours cut at work and seeing smaller paychecks. At a time when the cost of groceries, gas, and health care keep increasing, lower paychecks are simply unacceptable.

Worst of all, the law hits lower-income Americans the hardest: 2.6 million workers with a median income of under \$30,000 are at risk of losing jobs or hours; 89 percent of workers impacted by the rule don't have college degrees, 63 percent of which are women; and over half have a high school diploma or less.

So simply restoring the definition of "full-time work" to 40 hours will ensure the hardest-working Americans don't see their hours and wages cut as a result of the health care law.

This bill also ensures that small businesses that hire veterans returning from service overseas, who already have coverage through TRICARE or the VA, are not counted under the employer mandate.

And we repeal the onerous medical device tax, which is stifling medical innovation and hurting jobs. According to a survey by AdvaMed, the medical device tax has already resulted in 14,000 jobs lost in the industry and prevented 19,000 jobs from being created. This tax is contributing to lackluster job creation and hampering medical innovation.

We have strong bipartisan support for repeal of this tax, and for repealing it before even more detrimental harm is done to the workforce and medical community.

These are only a few among a long list of policies that will ultimately get Americans back to work and increase their quality of living. With better jobs, higher take-home pay, and a stronger economy, we can offer a brighter future for our youth and ease the everyday burdens felt by individuals nationwide.

It is time to create an America that works.

Mr. Speaker, I reserve the balance of my time.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I might consume.

It is awkward and embarrassing to stand on this floor to discuss something described as a Jobs for America bill.

Fortunately, we Democrats don't have to expend too much energy because of the lack of credibility that the majority party has with any type of legislation designed to help those people who are without employment.

The irony of this whole thing is that our distinguished chairman spent hours, days, weeks, and months putting together a tax reform bill that, even though it could be challenged in parts,

all tax writers and people who respect the necessity of reforming the Tax Code lauded him for the work, the fairness, and, most of all, the lack of partisanship that went into that bill.

Indeed, many of the provisions that are in this bill that could better be described as an opportunity for corporates to avoid paying taxes, many of those provisions in this bill were repealed in the chairman's bill that he presented to the Congress to be considered for reform.

Let me strike that from the record. He did not bring it to the floor for it to be considered for anything. It was a strong political statement that he knew the majority of his party would not support.

Having said that, it was a fine piece of legislation that gained support by eliminating the very same violations of equity and fair play that are now in this bill.

\$500 billion tab. \$500 billion cost, not paid for, not a promise to pay for. And half of this is to make permanent the extension of bonus appreciation, which all economists, including those in the Congressional Research Service, say that in order to be effective, it should not be made permanent.

In any event, I think, as we go home, we should recognize that there will be opportunity when we come back to really get together and have an effective bill.

To do this, the Republican majority should not bring to the floor bills that have passed the House and been rejected already by the Senate, but should sit down with the administration, with the Senate, with the minority in the House and work out something that is for the good of all Americans.

This happened yesterday, where we had honest, serious disagreements. But at the same time, we came together as a Congress in the House at least on what is good for the country.

So, quite frankly, I don't think I will be using all of my time because what is before the House today is not a jobs bill but a public relations piece of political advertisement.

I reserve the balance of my time.

Mr. CAMP. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia (Mr. GOODLATTE), the distinguished chairman of the Judiciary Committee.

Mr. GOODLATTE. Mr. Speaker, I thank the chairman for yielding, and I very much appreciate his leadership on this issue.

In every State across this country, and most certainly in the Commonwealth of Virginia, there are folks still looking for good full-time jobs and businesses who want to hire them but can't for fear of government imposed regulations that increase expenses.

The administration's tax, regulate, and spend response to this problem hasn't worked, and it is incumbent upon us to enact necessary reforms to restore the American economy.

The legislation we consider today includes many provisions to combat excessive regulations that have already been passed by the House of Representatives and await action in the Senate, which has been moribund in dealing with a whole host of issues that are sitting over there on the majority leader's desk, including provisions to restore the 40-hour workweek, to permanently ban taxation of Internet access, to prevent secret settlement deals between Federal bureaucrats and pro-regulatory plaintiffs in lawsuits, to require bureaucrats to consider the cost of regulations to small businesses, to require agencies to adopt the least costly method of implementing the law, and to require Federal agencies to submit major regulations to Congress for approval. We know these provisions will help spur our economy and create jobs.

America's labor force participation rate has essentially remained stagnant for the past several months and job creation and economic growth continue to fall short of what is needed to produce a real and durable recovery in our country. It is imperative that we again take action to pass these commonsense reforms, return discouraged workers to full-time jobs, and restore America to prosperity.

I urge the Senate to stop stalling and to join us in this effort.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

If we were serious about passing a bill that has been rehashed in this House and no action has been taken upon it, common sense and reason would dictate that we would work with the Democrats, work with the Senate, and work with the President to get one passed.

This bill transcends over eight or nine different legislative committees, and the ranking member—one who has so much jurisdiction over this issue—would share with the House and the country what parts of this bill she believes would create jobs, if any part.

Mr. Speaker, I yield 3 minutes to the distinguished gentlewoman from California (Ms. WATERS).

Ms. WATERS. Mr. Speaker, I thank Mr. RANGEL for yielding.

Mr. Speaker, I rise to oppose H.R. 4, the so-called Jobs for America Act.

Six years ago this week marked the collapse of Lehman Brothers. That bankruptcy on Wall Street quickly spread across our country, bringing small business lending to a halt, causing a devastating number of foreclosures, and pushing far too many of our fellow Americans into personal bankruptcy.

In the wake of this devastation, Democrats in Congress worked diligently to put in place serious and comprehensive safeguards to prevent another collapse. And, today, my Republican colleagues continue their hard work to thwart that effort and roll back meaningful reform.

Indeed, this bill, H.R. 4, places significant additional administrative hur-

dles on our Federal regulatory agencies, particularly on our independent financial regulators, like the Securities and Exchange Commission and the Commodity Futures Trading Commission.

Certain provisions of this bill would impose requirements on our financial regulators to conduct onerous cost-benefit analysis, to submit their rules for review to the Office of Management and Budget, and to delay effectiveness of major rules until Congress enacts an unprecedented joint resolution.

Not only would these provisions limit the independence of our Wall Street sheriffs, it would also tie up their already insufficient resources and put them at even greater risk of litigation for every rule. In fact, this bill would create a constitutional crisis by allowing the "do-nothing" Republican Congress to intervene in the actions of our executive branch, which is diligently trying to implement critical portions of the Wall Street Reform Act.

The effect of this legislative effort would be to grind to a halt all meaningful regulation on everything from payday loans to mortgage services to the types of risky trading that caused the 2008 crisis. And, ironically, it would stop JOBS Act implementation dead in its tracks. Worst, this comes at a time when House Republicans want to hold funding for our financial regulators flat, despite their new responsibilities, the increase in the number of entities they oversee, and the growth in the complexity and size of U.S. financial markets.

With our economy still recovering from the \$14 trillion financial crisis, we simply cannot, under the guise of so-called "job creation," afford to destroy crucial reforms and hamstringing our financial regulators.

I enter the following letter of opposition from Public Citizen into the RECORD.

PUBLIC CITIZEN,
Washington, DC

A VOTE FOR THE "JOBS FOR AMERICA ACT" IS
A VOTE AGAINST PUBLIC HEALTH AND SAFETY

Republicans will have you believe that a vote for H.R. 4, the "Jobs for America Act," is not a vote against clean air and water, against food safety, against safe consumer products, against safe workplaces, and against a stable financial system less prone to excessive risk-taking. But that is false. The Impact of the "Jobs for America" Act is clear and simple: it will lead to more polluted air and water, more dangerous workplaces, more tainted and contaminated food, more dangerous workplaces, and a deregulated Wall Street allowed to gamble our economy into the next financial crash. By taking regulators "off the beat" and preventing them from updating and modernizing basic health and safety protections, the public is once again dependent on Big Business to "self-regulate." Our public has seen the disastrous impact of letting industry regulate itself whether it's the BP Gulf Oil Spill, the West Virginia Chemical Spill, The Upper Big Branch Mine explosion, oil train derailment explosions, or the Wall Street financial meltdown. The solution is not to make our public even more vulnerable to deregulatory disasters that put Americans in

harm's way and damage our economy as the "Jobs for America Act" would do.

THE ENORMOUS COSTS OF DEREGULATION

a. West Virginia Chemical Spill: those who were hurt by the damage caused by the spill are claiming 160 million in damages from the spill. These include small businesses in Charleston who were forced to shut down for days and the many thousands of residents who were forced to buy bottled water because of the severe water contamination. <http://www.insurancejournal.com/news/south-east/2014/08/12/337282.htm>

b. Lake Erie Algae Bloom: a half million Ohio residents were forced to buy bottled water because their water had become so badly contaminated from algae. In 2008, the government estimated algae blooms resulted in 82 million dollars annually in economic damages: <http://www.cop.noaa.gov/stressors/extremeevents/hab/current/econimpact/08.pdf> the damage to Lake Erie can be directly traced to successful attempts to roll back the Clean Water Act by special interests. <http://www.foodandwaterwatch.org/blogs/the-toledo-water-crisis-wont-be-the-last/>

c. Oil Freight Train Explosions: Trains carrying highly explosive crude oil are traveling through communities every day without most of those communities even aware of the threat. A massive oil train derailment and explosion in Canada killed 47 people and will cost 2.7 billion in economic damages over the next decade. <http://bangordailynews.com/2014/04/17/news/state/after-end-of-the-world-explosion-Quebec-town-tries-to-find-hope/>

d. Preventable Workplace Deaths and Injuries: Every day, an average of 150 workers die from job injuries or occupational diseases. Every year, the lack of effective workplace safety protections costs our country 250 billion to 330 billion in injuries and illnesses. <http://www.afcio.org/content/download/126621/34645631/DOTJ2014.pdf>

e. Climate Inaction: Blocking or delaying new carbon emission rules from the EPA and other climate change measures will cost our country up to 150 billion dollars annually in economic damage in the future. <http://fortune.com/2014/07/29/white-house-in-action-on-climate-costs-150-billion-a-year/>

f. BP Oil Spill: This massive environmental disaster in the Gulf ended up costing more than 42 billion dollars. The oil spill harmed thousands of Gulf Coast residents and destroyed many local small businesses. BP has now been found "grossly negligent" in causing the disaster and faces up to 18 billion in fines, some of which will go to Gulf Coast restoration projects. <http://www.edf.org/blog/2014/09/05/bp-oil-spill-ruling-could-jumpstart-gulf-coast-restoration-work>

g. 2008 Wall Street Crash: The rampant deregulation that led to the crash cost our economy anywhere from 6 trillion to 14 trillion dollars or 50,000 to 120,000 for every US household. In addition, 8.7 million Americans lost their jobs during or immediately following the crisis. <http://ourfinancialsecurity.org/blogs/wp-content/ourfinancialsecurity.org/uploads/2012/09/Costs-of-The-Financial-Crisis-September-20142.pdf>

THE "JOBS FOR AMERICA ACT" WILL NOT CREATE A SINGLE JOB

The bill trades on the fallacy that deregulation leads to job growth by freeing up capital to invest in labor. There is simply no neutral, non-partisan empirical evidence to back this up. In fact, journalists and academics who have thoroughly studied this claim have concluded that regulations have no overall effect on job growth. The claim that regulations kill jobs is the very definition of a baseless and fabricated talking point.

A thorough investigative report by the Washington Post concluded that regulations

have no effect on jobs (highlights below): http://www.washingtonpost.com/business/economy/does-government-regulation-really-kill-jobs-economists-say-overall-effect-minimal/2011/10/19/gIQAALRF5IN_story.html.

Conservative thinker Richard Morganstern (Resources for the Future): "Based on the available literature, there's not much evidence that EPA regulations are causing major job losses or major job gains."

Mike Morris, CEO of AEP, one of America's largest coal-based utilities even admitted EPA regulations will create jobs: "We have to hire plumbers, electricians, painters, folks who do that kind of work when you retrofit a plant" Morris said. "Jobs are created in the process—no question about that."

A recent and exhaustive exploration of the "job-killing regulation" claim by Academics from across the political spectrum concluded that regulations have no net impact on jobs: <http://www.upenn.edu/pennpress/book/15183.html>

The editors of "Does Regulation Kill Jobs?" Cary Coglianese and Christopher Corrigan conclude: "the empirical work suggests that regulation plays relatively little role in affecting the aggregate number of jobs in the United States."

BIG BUSINESS "JOB-KILLING" CLAIMS ARE ALWAYS WRONG

Big Business groups have been making hyperbolic claims about regulations killing jobs for decades and it never comes true. Not only is this talking point patently false, but it also never dies despite being proven wrong every time. The following examples are from Public Citizen's recent report, "It's an Outrage: Regulations are Entirely to Blame for Unemployment and a Leading Cause of Death, According to Industry and Allies" <http://www.citizen.org/documents/regulations-are-to-blame-unemployment-death-report.pdf>

1974: OSHA bans the carcinogenic vinyl chloride. The plastics industry claimed that the OSHA regulation would kill 2.2 million jobs. Those claims were proven completely false and a new way manufacture vinyl chloride was developed within a year without any jobs lost.

1975: NHTSA increases fuel efficiency standard. Industry reports warned of 1.5 million jobs lost. By 1985, auto makers had met the higher standard without losing any jobs.

1990: EPA sets new pollution standards under the Clean Air Act. In response the Business Roundtable (BRT) and National Federation of Independent Business (NFIB) responded with doomsday hysterics, claiming up to 2 million jobs would be lost. Those were proven entirely wrong. Instead, according to the Investor's Business Daily, "Pollution has been falling across the board for decades, even while the nation's population and economy have expand

1995: EPA removes lead from gasoline. A Monsanto official testified to Congress that the regulation would cost up to 43 million jobs. The removal of lead is now considered one of the biggest public health success stories while gas prices did not dramatically increase and no jobs were lost.

THE NEW INDUSTRY-FUNDED STUDY ON REGULATIONS DOESN'T PASS THE LAUGH TEST

The study just released by the National Association of Manufacturers (NAM) is not worth the paper it is printed on. NAM turned to discredited economists whose last study was so poorly done and inaccurate that it was roundly criticized by observers in bipartisan fashion, including by the CRS, Republican economists, and then OIRA Administrator Cass Sunstein. The study brought so much negative attention that the agency which commissioned it, the Small Business Administration, had to formally and publicly disavow it.

Business Media Push Industry-Funded Study On Federal Regulations Experts Call "Bogus": Reuters and CNBC uncritically promoted a new report claiming that government regulations cost the economy over \$2 trillion each year, ignoring any benefits of regulation. But the study uses the same flawed methodology as an earlier report by the same authors that was so widely panned that even the organization that commissioned it distanced itself from it. <http://mediamatters.org/research/2014/09/11/business-media-push-industry-funded-study-on-fe/200732>

NAM's "Cost of Regulations" Estimate: An Exercise in How Not to Do Convincing Empirics: The bulk of these costs (75 percent) are estimated using a cross-country regression analysis. This cross-country analysis, however, is completely unconvincing and should be ignored. <http://www.epi.org/blog/inams-cost-regulations-estimate-exercise/>

THE "JOBS FOR AMERICA ACT" IS A BROKEN RECORD

The "Jobs for America Act" is just a repackaging of the same old and tired legislation that the House has already passed. Each of these bills, if enacted, will significantly exacerbate the current problems in our regulatory system. Collectively, these bills amount to a virtual shutdown of our system of public protections by blocking federal agencies from responding to public health and safety crises and putting forth strong new safeguards to prevent the next one.

1. Regulations from the Executive in Need of Scrutiny Act (REINS, HR): This bill is a blatant power grab by the House GOP. Requiring Congressional approval of regulations before they take effect means, in practical terms, that the House GOP can unilaterally veto any regulation it opposes. Even Congressional inaction would kill a regulation. This is a recipe for extending the same paralysis and dysfunction that has plagued our lawmaking process to the regulatory process.

2. Regulatory Accountability Act (RAA, H.R. 2122): This bill would re-write dozens of critical public health and safety laws, including the Clean Air Act, to require agencies to choose safety standards not based on whether they are the most effective but on whether they are the least burdensome to regulated special interests. This bill is a backdoor way of gutting laws that the GOP knows are too politically popular to overturn directly.

3. Regulatory Flexibility Improvements Act (RFIA, H.R. 2542): This bill is a small business bill in name only. It does nothing to help small businesses directly. Instead, it would delay or block rules that in many instances disproportionately impact Big Business. For example, the bill requires agencies to consider the "indirect" effects of their rules on small businesses without ever defining what constitutes an "indirect" effect. Ordering an agency to discern all indirect economic impacts of any rule, however small, is akin to ordering a meteorologist to discern the effects on Washington, D.C. weather of a butterfly flapping its wings in Japan. Even worse, agencies could be sued by industry for not complying with this wholly undefined mandate. Agencies will be forced to waste precious time and resources looking for small business impacts where there clearly are none. In the meantime, lives could be lost and people could be needlessly injured.

4. Unfunded Mandates Reform Act (UMRA, H.R. 899): Once again, this legislation forces agencies to pick the least costly rule to industry, rather than the rule that is most effective at keeping the public safe. It also undermines the independence of important

agencies that are working to put new Wall Street reforms and product safety standards in place. Ironically, the new mandates in this bill do not come with any additional funding for agencies, making them the very definition of "unfunded mandates."

5. The Sunshine for Regulatory Decrees and Settlements Act (H.R. 1493): This legislation targets citizen suits aimed at spurring agencies to move forward with overdue and congressionally mandated protections. Consent decrees and settlement agreements have long been an effective tool to provide citizens and the courts with a means of ensuring that Congressional mandates are implemented, whether they are new environmental safety standards or civil rights and antidiscrimination measures. This bill would force them to run a gauntlet of burdensome, time-consuming, and redundant procedures—furthering slowing agency action. This bill would weaken the power of citizens to ensure agencies follow the law—and waste government resources in the process.

6. The All Economic Regulations are Transparent ("ALERT") Act (H.R. 2804): This legislation would add a blanket six-month delay to most rules essential to protecting the health, safety, and welfare of the American public. When the norm is federal agencies missing Congressional and legal deadlines for new public protections, rather than meeting or beating deadlines, the last thing our public needs is more delays.

BOTTOM LINE

A vote for H.R. 4, the "Jobs for America Act," is a vote against life-saving public health and safety standards and will put American lives at risk without creating any jobs. We need stronger public protections, not a weaker system of safeguards. We need better enforcement of health and safety and environmental rules, not more needless delays.

We urge you in the strongest terms to vote against the "Jobs for America Act."

Mr. CAMP. Mr. Speaker, at this time, I yield 3 minutes to the gentleman from Washington (Mr. HASTINGS), the gentleman from the Natural Resources Committee.

Mr. HASTINGS of Washington. Mr. Speaker, I want to thank my friend, Mr. CAMP, the chairman of the Ways and Means Committee, for yielding me the time.

Mr. Speaker, this jobs package includes important legislation, H.R. 1526, the Restoring Healthy Forests for Healthy Communities Act, which passed the House almost 1 year ago today. It is a long-term sustainable solution to put Americans back to work, restore forest health, and prevent wildfires.

Our national forests, unless otherwise designated, should be open for multiple uses for everything from recreation to job-creating economic activities. Instead, Mr. Speaker, due to onerous Federal regulations and litigation, our Federal forests have increasingly been shut down.

Mr. Speaker, timber harvests have dropped by 80 percent in the last 30 years. We have seen catastrophic wildfires destroy our Federal forests. We have seen loggers, mill workers, and truck drivers put out of work, and we have seen rural communities turned into ghost towns.

It is long past time for the Senate to join with the House to provide better

stewardship over our Federal forest lands. It is disappointing and, frankly, unacceptable that a year later the Senate is still sitting on the sidelines. Meanwhile, rural communities continue to suffer.

This legislation requires responsible timber production on at least one half of the Federal Forest Service's non-environmentally sensitive timber lands.

□ 1430

By restoring active forest management, this bill will create over 200,000 direct and indirect jobs. It also maintains and strengthens the historic sharing of timber receipts with local counties which is essential, given the upcoming expiration of the Secure Rural Schools program.

Instead of having to pay for wildfire suppression, this bill would allow us to reap the benefits of a responsible timber harvest that reduces wildfire threats to our communities.

Mr. Speaker, Congress must act to restore the promise that the Federal Government made over a century ago to actively manage our forests and create jobs for the benefit of rural communities. Today, the House is, once again, living up to this promise. We hope that the Senate will join us and support this commonsense reform of Federal forest management.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

Certainly, we all will be getting a lot of mail from the logging companies asking for this legislation in order to create jobs. I wish included in this package would have been the earned income tax credit, a bill that keeps people who work hard each and every day out of poverty by subsidizing their wages, but that is too much like creating jobs, and it is not in this package.

I yield 3 minutes to the gentleman from Georgia (Mr. JOHNSON), a distinguished and articulate Member who serves on the Judiciary Committee and has a ranking position on the subcommittee that has jurisdiction over part of this bill.

Mr. JOHNSON of Georgia. I thank the gentleman from New York.

Mr. Speaker, I rise in strong opposition to H.R. 4, the so-called Jobs for America Act. It brings to mind occasions where, as a youth, my sister and I would go to my uncle's house in Cleveland. My uncle's wife would prepare a lot of food, and we would sit down and eat. The food would taste terrible. We had a couple of more days to be there, and so we hoped for the best. The next day, when we sat down at dinner, we had leftovers.

This is what this bill reminds me of. It is a package of anti-consumer, anti-safety, anti-environment bills that the House has already passed. This omnibus legislation is emblematic of a Republican Party that lacks vision or direction for Americans that demand cooperation and leadership.

This bill smacks of a new Republican leadership that is still on training

wheels, unable to work across the aisle to deliver real solutions to grow the economy and create jobs; but what is new from a Republican Party that voted dozens and dozens of time to defund and defeat the Affordable Care Act, the same law that is helping American families by keeping millions of young people—be they recent college graduates looking for their first job or students still in school—on their parents' insurance and out of a cycle of unpayable medical debt?

Well, Mr. Speaker, it is time for the training wheels to come off so that this Chamber can, once again, do the work of the American people.

There is a clear, unmistakable thirst in our country for cooperation, bipartisan solutions, and getting things done. The American people look to the House of Representatives for leadership, not one-sided messaging bills that this Chamber has already warmed up, served yesterday—it was bad—and, today, we are eating the leftovers.

This Chamber has already considered and passed these bills, and they have no chance, no hope, of becoming law. The so-called Jobs for America Act includes a number of dangerous bills straight from the wish list of industrial polluters and unsafe manufacturers. This legislation will not create a single job.

It exists only to minimize corporate accountability while maximizing the likelihood of dangerous, unsafe conditions in our homes, vehicles, workplaces, and throughout the environment.

It is time to work together to forge real solutions, Mr. Speaker, not the same dangerous legislation that this Chamber has already passed.

Mr. CAMP. Mr. Speaker, I yield 3 minutes to the gentleman from Pennsylvania (Mr. KELLY), a distinguished member of the Ways and Means Committee.

Mr. KELLY of Pennsylvania. I thank the chairman for his great work.

Mr. Speaker, I rise in strong support of H.R. 4, and I will tell you why: the world is looking for the next great, emerging economy, and you know where it is? It is right here. It is us. It sits here, in this country.

We talk about the American people. What are they tired of? They are tired of political talk and not policy change that will get them back to work.

This morning, Mr. Speaker, 92 million Americans woke up and decided they weren't even going to go look for a job today because there is no hope in finding a job today. That is 92 million Americans.

Now, I don't know if they vote Republican. I don't know if they vote Democrat. I think they are getting to the point where they don't want to vote for either side because all they are asking is: work together to fix America.

The President of Ukraine came to the United States today to ask for help. He didn't go anywhere else in the world.

He came here. Why did he come to the United States? Why did he come to America? Why, for centuries, have people come to America? For opportunity, for jobs, and to make their life better.

We sit and debate a jobs package, and we want to talk about politics. We don't want to talk about the policy of it; we don't want to talk about the opportunity that this country has always presented. Are you kidding me?

If there is dysfunction, it is in the Senate, where 360 pieces of legislation are on a table because one man stands in the way of this legislation, and it is the leader of the Senate.

If the American people—and I am not talking about Republicans or Democrats, I am talking about the American people—are to see what actually takes place in this great House, where so much policy has been driven in the past—please, get away from the politics; we are sick of it as a people.

The opportunity is off the charts. A new day is dawning. The only thing holding it back right now is the cloud cover that comes from Washington, D.C., where we refuse to create opportunity and, instead, create anger and we create dissatisfaction and we create confusion.

The American people sit back and say, "Why me? Why now? Why here?" That is the great question, "Why?" Does a reelection mean more than the redirection of this country?

After 6 years of waiting to see this great country emerge again with all the assets that we have been given—and they are gifts from God, but we haven't capitalized on them—the American people want something done.

This is a package of jobs bills, my friends. This gets America back to work, my friends. This makes America great again. This makes us who we are. This is the very fabric of who this country has always been, the greatest Nation in the world, always a defender of personal freedoms and liberty, but we can only do it when we have a dynamic and robust company.

It is time to stop talking politics and start talking policy. It is time to get America back to work. A new day is dawning, a new opportunity is waiting for us, and the greatest emerging economy the world has ever seen is sitting right here within our borders, and the only thing it is looking for right now is dynamic leadership and direction.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

I want to thank the gentleman from Pennsylvania, my friend, who eloquently mentioned how the Congress should and could be working more closely together. Again, I say that yesterday proved it.

I am certain that the eloquent gentleman from Pennsylvania would have to agree that, if we were passing bills in the House and they were not going anywhere, any legislator would have to find out why.

It would seem to me that we would go to the minority party, we would ask

to sit down with the Senate, we would work with the Department of Labor and the administration, and we would do that just before we were going home to attempt to get reelected.

I don't challenge the sincerity of the gentleman from Pennsylvania, but just bringing in bills that you know are not going to pass the Senate, bringing in bills the administration has already said that they would veto is not the way to success. It may be a good political statement, but it is certainly not the way to pass legislation.

I have the great honor to yield 3 minutes to the gentleman from Maryland (Mr. CUMMINGS), who has distinguished himself nationally in terms of being a legislator with a heart and common sense.

He is the ranking member of the Oversight Committee, that has attempted to show the entire country exactly what is going on and not going on in the Congress. I look forward to his eloquent remarks on this sensitive, important subject.

Mr. CUMMINGS. Mr. Speaker, I rise in opposition to H.R. 4. The special interest bills that make up this package have all passed the House before and went nowhere in the Senate. This is not just a waste of time, it is a waste of taxpayer money. Americans work hard for their money, and here we are wasting time, and everybody knows that.

This legislation is simply a gimmick. It hurts me to even say that, but it is, in fact, a gimmick. The Republican leadership in the House cannot fool the American people by passing the same bad bills over and over again.

Just because Republican leadership has slapped the word "jobs" on this bill does not change the fact that the bill will not create jobs, and they know that. We each represent 700,000 people. Those people have sent us here with the mission of making their lives better.

The legislation we are considering today will not help the people we represent. This bill would help big corporations.

Let me give you an example. Under this legislation, private companies would have the ability to weigh in on agency rulemakings before individual citizens and most other stakeholders. That means that oil companies could weigh in on drilling regulations before the American public even gets a chance to submit comments.

Another section of the bill would explicitly prohibit the Office of Information and Regulatory Affairs from taking into account benefits when providing total cost estimates for proposed and final rules as required by the bill.

The bill also contains numerous provisions to degrade the regulatory process and make it nearly impossible for agencies to take actions that protect our health, our safety, our air, our water, our food, and our environment.

This is a terrible piece of legislation, and I urge my colleagues to vote against it.

Mr. CAMP. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Illinois (Mr. RODNEY DAVIS).

Mr. RODNEY DAVIS of Illinois. Thank you, Mr. Chairman, for your service in this great institution.

Mr. Speaker, we are here debating this jobs package because our economy is stagnant. Our unemployment rate hasn't fallen below 6 percent since this President took office 6 years ago.

Although growing the economy may not remain a number one priority for the Senate, it may not remain a number one priority for the President, I assure you it is for millions of Americans who can't find a job or who continue to look for that job promotion or who feel their paycheck isn't going as far as it should.

My bill, the Hire More Heroes Act, is not a waste of our time, is not a waste of taxpayer dollars, and it overwhelmingly passed this House with only one "no" vote. You can't get much more bipartisan than that, Mr. Speaker.

It is part of this jobs package because the Senate has yet to take up this bipartisan bill that would help our veterans. This bill will help incentivize small businesses to hire more of our heroes. It takes away a punitive punishment in ObamaCare.

We have been told that we can't change ObamaCare, but this bill does, and it does it because any veteran who gets their health care through the VA or TRICARE wouldn't count toward a small business' 50-employee limit which would, in turn, incentivize small businesses who create the jobs in this country to hire more of our veterans.

That is not a waste of taxpayer dollars. That is not a waste of time. Frankly, we need to do what we can to stop what ObamaCare has been doing to small businesses and disincentivizing them from hiring more people and, therefore, lowering our unemployment rate.

This jobs package is crucial. This jobs package is something that we in this House should continue to push. I would urge my colleagues on the other side of the aisle to make sure that they call their colleagues in the Senate and say, "Pass this bill."

□ 1445

Pass this bill. Do what is right. Help our veterans. Help Americans find jobs.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would not suggest to the distinguished gentleman from Illinois what he should be doing as a part of the majority, but if I had a bill as good as the one that he had, I certainly would not allow it to be included in this piece of political legislation. Because it would serve the veterans of this great country, I would say, give me a break and let the House and the Senate and the President give this legislation a chance.

But I am not in the majority, and I respect that you are doing the best you

can with what you have to work with, and I respect you for that.

Mr. Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. VAN HOLLEN), who is the ranking member of the Budget Committee.

Most Americans know, like with our family, he has the responsibility to suggest to this august body exactly how much we are spending, how much we owe, and which is the best way to bring some balance to it, and I am so proud to be able to serve with him.

Mr. VAN HOLLEN. Mr. Speaker, I thank my good friend from New York for all his good work on these issues.

Just to underscore what he said with respect to Mr. DAVIS' proposal, we would love to have that proposal on veterans come before the floor as a stand-alone bill. Of course it has been wrapped into a much larger package that has nothing to do with jobs and everything to do with rewarding special interests at the expense of middle class families and taxpayers. It is a continuation of the failed strategy that responds to every economic challenge with more tax breaks to corporations and more breaks to folks at the very top of the economic ladder, the old, failed trickle-down theory of economics.

There is nothing to raise the minimum wage, nothing to achieve pay equity for women, nothing to invest in America's infrastructure or our education system. Instead, it is a collection of tax cuts that together would add \$572 million to the deficit over the next 10 years—no attempt to offset that cost.

That is a lot of work in one afternoon, to add over half a trillion dollars to the deficit, totally in violation of the Republican budget that was brought to the floor.

Nor is this a bill that attempts to reform the Tax Code. I have great respect for the chairman of the Ways and Means Committee, and he did a credible effort in coming up with a reform plan. It wasn't perfect, lots of things that a lot of people don't like, but it was a credible effort.

This bill takes us in the opposite direction. When the chairman introduced that bill, the Speaker of this House ran away faster than anybody else from that proposal, and this proposal runs away from it as well.

Let me give you one example. The reform bill that was proposed by Mr. CAMP repealed bonus depreciation. This bill adds \$270 billion to the deficit by making bonus depreciation permanent.

Mr. CAMP's proposal was revenue-neutral in the first 10 years. This one adds over half a trillion dollars to the deficit, and it doesn't close a single corporate tax loophole.

Look, if we are going to provide over a half a trillion dollars in tax breaks to large corporations, you would think that our Republican colleagues would at least deal with the issue of inversions, this sweep we see toward more and more corporations changing their

address offshore to avoid their tax obligations to the American people. But, no, nothing to deal with inversions. In fact, this bill rewards a number of companies that have recently engaged in inversions.

I want to call attention to section 701 of the bill because it says a lot about the priorities reflected on the floor today. That section repeals the excise tax paid by medical device companies that was put in place to help finance health care reform.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. RANGEL. I yield the gentleman from Maryland 30 more seconds.

Mr. VAN HOLLEN. So it repeals that—no effort to replace that. So it adds \$26 billion to the deficit, just that provision. Not only that, but it repeals it going forward, and it also gives a rebate going backwards. So a company, Medtronic, which is right now moving its tax address overseas to avoid its tax obligations to the American people, is going to get a \$200 million plus interest tax bonus.

So here is this bill in a nutshell: do nothing to boost the middle class.

The SPEAKER pro tempore. The time of the gentleman has again expired.

Mr. RANGEL. I yield the gentleman as much time as he may consume to close.

Mr. VAN HOLLEN. So just to wrap this up, because I hope people will focus on this, the bottom-line message of this is: sorry to see you leave our shores, but you know what? As a good-bye present, we are going to hand you \$200 million in tax breaks.

That sums up the problems with this bill, Mr. Speaker. I urge my colleagues to vote “no.”

Mr. CAMP. Mr. Speaker, I yield myself such time as I may consume.

I would just say my friend from Maryland mentioned the Hire Our Heroes Act. That received virtually every Democrat vote and Republican vote on the floor but one. I certainly trust that the gentleman from Maryland has urged his two Democrat Senators in the Senate to take this bill up and pass it. It has been sitting in the Senate. It is blocked.

Certainly, we don't think those who fight for our country should be penalized when they come back to the United States in terms of getting their health care. This would certainly help tremendously, and it is something that has received large bipartisan support.

Every one of these provisions help create jobs, and certainly all of them have bipartisan support:

R&D, the research and development credit, 62 Democrat votes;

Section 179, extending, 53 Democrat votes;

The S corporation reform, 42 Democrat votes;

Bonus depreciation, 34 Democrat votes;

Repealing the 30-hour work week rule, 18 Democrat votes.

All of these have bipartisan support. They are all sitting in the Senate.

I heard the gentleman say maybe nothing is being done. Well, I would submit, my friends on the other side, other than voting for these bills, have done nothing to urge their colleagues who have the majority in the Senate to move something that will actually get people back to work and really bring the American Dream back in reach for millions of Americans, and it isn't now.

Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Georgia (Mr. KINGSTON).

Mr. KINGSTON. Mr. Speaker, I thank the gentleman for yielding.

And I wanted to also say, the gentleman from Maryland talked about a company, and I am not familiar with this company, but a company that is moving out of America because of our burdensome Tax Code. Does that not prove the point that we need tax reform as championed by Mr. CAMP, the chairman of the Ways and Means Committee?

We need a Tax Code that is competitive. This company is probably leaving to get away from a burdensome, complicated tax system that is killing jobs. Those jobs are going overseas. They need to stay in America.

Mr. Speaker, to create jobs, we have to have a Tax Code that is clear, fair, concise, one that creates jobs. But we also need a regulatory burden that does the same thing: one that is clear; one that is concise; one that uses cost-benefit analysis.

I can't understand why there are Members of the House that oppose cost-benefit analysis on new regulations. It is a matter of common sense, because our regulatory burden, as much as the Tax Code, is driving jobs offshore. We don't need that.

One of the things that was lost in the debate earlier that I find just mind-boggling is the ability to fight forest fires, of all things. As Smokey the Bear says, “Only you can prevent forest fires.” Well, I guess towards this administration he is saying, “Only you can promote forest fires through your ridiculous regulatory climate.”

And then let me say this. To create jobs in America, we need to have competitive energy. We need to use American energy resources.

As somebody who represents four military installations, I know well that it is not a matter of cheap and abundant energy for manufacturing and traveling and transportation purposes. It is also a matter of national security. Because when we depend so heavily on Middle East oil and oil from unstable anti-American countries, what we are, in fact, doing is funding both sides in the war on terrorism.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. CAMP. I yield the gentleman an additional 1 minute.

Mr. KINGSTON. We need to develop American energy, and that is what this bill does. It is commonsense tax re-

form, commonsense regulatory reform, and commonsense energy reform.

I am appalled that the United States Senate has not had time to take up one of these bills. And, as Mr. CAMP just outlined, as a matter of public record, the number of Democrats who have supported these pieces of legislation, we need to get the Senate moving.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, before I yield to the gentleman from Maryland to inform the gentleman from Georgia more about these corporations that are attempting to flee the United States, I would like to have good news for the distinguished chairman of the committee that this veterans bill has been so popular on the other side of the Capitol that it appears as though it is included in a Senate bill and, as we talk, is actually being attacked by the Republican minority on the other side. So, at least as relates to the veterans, if we can take it out of this hodgepodge that has politically been put together, maybe collectively we can do something for our beloved veterans.

As far as the gentleman from Georgia is concerned, he had a problem in identifying the U.S. company that is going to receive a bonus, that is fleeing their tax obligation.

Mr. Speaker, I yield such time as he may consume to the gentleman from Maryland (Mr. VAN HOLLEN) so he can help clarify those issues to explain exactly how this provision is costing us.

Mr. VAN HOLLEN. Mr. Speaker, I thank my friend.

Look, the Joint Tax Committee has suggested that if we don't deal with this problem of corporations changing their tax address to escape their responsibilities to the citizens of this country, it will add \$20 billion to the deficit, which taxpayers will have to make up.

I just want to emphasize the point the gentleman made because Mr. CAMP has called upon Senate Democrats to vote on the Hire Our Heroes bill. In fact, that bill is in the Senate 2-year extender bill in the United States Senate, which is currently being blocked and filibustered by our Republican Senate colleagues.

I would also point out that the cost of that bill, which we all accept, is \$700 million added to the deficit. You are now putting it in a package with all sorts of corporate giveaways that doesn't cost \$700 million but, together, costs \$573 billion to the deficit, all in an afternoon's work.

Mr. Speaker, this is an irresponsible bill. We should vote “no.”

Mr. CAMP. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana (Mr. YOUNG), a distinguished member of the Ways and Means Committee.

Mr. YOUNG of Indiana. Mr. Speaker, I rise today to speak in support of H.R. 4, the Jobs for America Act.

The undeniable fact is the U.S. House has passed more than 40 individual jobs bills, sent them to the Senate, and

they remain untouched by the Democratic majority leader.

Many of the jobs proposals included in this broader package, H.R. 4, have bipartisan support and include commonsense ideas like extending the section 179 tax benefits for small businesses, helping our veterans get back to work, and a repeal of the medical device tax.

Medical device companies, in particular, play an integral role in my home State of Indiana and our economy—more than 71,000 jobs and \$44 billion in personal income on account of the industry—and I hear every day how this tax has stifled innovation and led to a decrease in jobs for my fellow Hoosiers.

In 2013, 79 Senators, many of them champions of ObamaCare, took a symbolic vote to eliminate that tax. I hope that the Democrat-controlled Senate will move beyond political symbolism—and for many, political self-preservation—and vote to repeal this tax on innovation, job creation, and patient care.

Finally, I am pleased that two pieces of legislation which I authored are included in H.R. 4. The Save American Workers Act, which is also bipartisan, would simply change the definition of full-time employment within ObamaCare from 30 hours back to the traditional definition of 40 hours.

□ 1500

Now, 40 hours is what everyone agrees is full time, so let's not further harm small business employees, school cafeteria workers, adjunct university professors, and other hourly workers with this arbitrary change in the definition of "full time."

Also included is the REINS Act. This bipartisan bill aims to relieve much of the regulatory burden on our Nation's small- and medium-sized businesses and on all Americans who benefit from affordable goods and services.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. CAMP. I yield the gentleman an additional 1 minute.

Mr. YOUNG of Indiana. The legislation ensures that, when unelected, unaccountable bureaucrats in Washington enact rules and regs that impact our economy, these regulations will be voted on by Congress to ensure that your elected Representatives are held accountable for the laws our constituents are subjected to.

I respectfully urge the American people to take a very close look at H.R. 4 and to demand that the Democratic-controlled Senate bring these bills up for consideration so we can enable people to get back to work and see their personal incomes grow.

Mr. RANGEL. Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. DOGGETT), a hardworking gentleman on the Ways and Means Committee, one who has been outspoken on all of the issues that concern national security as well as the protection of our economy.

Mr. DOGGETT. I thank the gentleman.

Mr. Speaker, House Republicans are shutting down this House early today, and they are shutting it down with the same happy talk and tax cut hocus pocus that they began this Congress with 21 months ago, last January.

That is when Speaker BOEHNER reserved H. Res. 1 for a form of Miracle-Gro. They were going to sprinkle around Miracle-Gro tax cuts—more special interest tax breaks on everyone—and they would grow money faster than it could grow on trees. They have given us so much talk and so many press conferences about how they would do away with all of these complex special interest provisions that Republicans have spent years writing into law for their buddies—into their Tax Code—and we would all have brighter smiles and, certainly, fatter wallets. All of that joy, all of those wonders, would be accomplished debt free. We wouldn't have to borrow another dime from the Chinese or the Saudis or from whoever would lend it to us. We would get all that and more with their proposal.

Unfortunately, their old time medicine show started brightly, but it fizzled out rather quickly.

No Democrat stood in the way of their introducing and voting in the Ways and Means Committee on a tax cut Miracle-Gro elixir. There is no reason they couldn't have brought it out here on the floor on any day the Speaker wanted to consider Miracle-Gro. Yet we are here today, closing out, and H. Res. 1 says on the Republican Web site that it is still reserved for the Speaker, as is most attention to any major issue in this country reserved, because these folks don't want to work here in Washington. Instead, we get to this sorry bill today that is before us that provides more debt, more complexity, and more sweetheart deals.

When we consider the difficult budget choices, Republicans claim that we just don't have enough money. As much as they would like to provide full funding for Alzheimer's research, for cancer, for multiple sclerosis, for diabetes, for Parkinson's, we just don't have the money. We would like to do more to prevent the many forest fires that are spreading across the country—wildfires of all types—and provide the National Weather Service better funding to deal with the dramatic changes in our climate and our weather, but we just don't have the money to do that.

And what about our roads and bridges? We can't figure out a way to fund them, even to this time next year, because we just don't have the money.

Yes, we would like each child to be able to accomplish their full, God-given potential, but we just can't afford to fund from pre-K to post grad. But somehow we can afford more Miracle-Gro today—\$500 billion taken right out of the debt, added to the debt.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. RANGEL. I yield the gentleman an additional 2 minutes.

Mr. DOGGETT. I am for—and I know the gentleman is for—a pro-growth, pro-job creation set of government policies that focus on workforce development, on having the research in medicine and technology not only to find cures but to produce another round of jobs.

If we lack the Federal resources to do that, we certainly don't have the Federal resources today to hand out one bonus after another, as their bill does, to corporations with special interest provisions that will ultimately fail our economy.

This bill that we have does everything that they said their tax elixir would not do. It borrows money from many to give money to a few who already have the most. This represents the first installment in new national debt, a big chunk of the more than \$1 trillion that these Republicans told us they wouldn't bury us in, but they proposed the first big installment today. They continue a Tax Code that is riddled with special interest tax preferences and giveaways while making a bonus depreciation provision that even failed as a temporary stimulus measure.

The only jobs that this bill is really designed to protect—and the reason that it is here right now before they rush to the airport—are the jobs of the Republican Members of this House of Representatives, and they sure do a good job of trying to accomplish that.

We ought to reject this package that is motivated solely by a looming election for a Republican majority whose biggest contributions to job creation in America have cost us dearly. They stand steadfast against the proposal that the U.S. Chamber of Commerce and one business group after another tells us will grow this economy—that is immigration reform—because they can't overcome the Know Nothings within their party who stand against the reform that we know would grow so many jobs.

Of course, their major accomplishment that they can point to right now out of this Congress was when they put the country on Cruz control, and it cost us \$24 billion in economic growth. Reject this bill.

Mr. CAMP. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Virginia (Mr. HURT).

Mr. HURT. I thank Chairman CAMP for his leadership on this bill. I thank Chairman HENSARLING for his leadership on the issue that I rise to speak about today.

Mr. Speaker, I rise to support the Jobs for America Act, H.R. 4.

In Virginia's Fifth District, our district, there are literally thousands of jobs that exist because of private equity investments. These critical investments allow our small businesses to innovate, expand their operations, and create the jobs that our communities need.

Unfortunately, Dodd-Frank has placed the costly and unnecessary regulatory burden of SEC registration on advisers to private equity while exempting advisers to similar investment funds. These registration requirements do not improve the stability of our financial system, and they restrict the ability of private equity to invest capital in small businesses, which would spur job growth.

Instead of complying with costly SEC registration, private equity should be encouraged to focus on investing capital in companies such as Virginia Candle, a company in our district that, through private equity investment, expanded from a garage in Lynchburg to millions of homes across the world.

That is why I, along with my colleagues Representative COOPER and Representative HIMES, introduced the Small Business Capital Access and Job Preservation Act, a provision of H.R. 4 which previously passed the House with bipartisan support.

Unfortunately, the Senate has failed to consider this and dozens of other House-passed jobs bills. At a time when unemployment in Virginia's Fifth District is still too high, the Senate needs to join us immediately in enacting pro-growth policies to spur job creation for our communities.

I ask my colleagues to join me in supporting H.R. 4 to increase the flow of private capital to our small businesses so they can innovate, grow, and create jobs for the American people.

Mr. RANGEL. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. KIND), my friend and a distinguished, eloquent member of the Ways and Means Committee.

Mr. KIND. I thank my friend for yielding me this time.

Mr. Speaker, I am not quite sure if I have been living in a parallel universe over the last few years, but I thought there was genuine concern in this body about getting a grip on our budget deficits, about trying to get our fiscal house put back in order. Yet here we are, in the eleventh hour, before they cut us loose for the fall campaign season, and we have another bill pending before this body that costs \$573 billion—with a B—with not a penny of offset, with not a dime of it paid for. Then people wonder where these budget deficits come from.

What is unfortunate is some of the policy proposals in this legislation I actually support. We have got five bills coming out of the Ways and Means Committee with some permanent changes to the Tax Code that I happen to agree with, whether it is the R&D—research and development—tax credit; the 179 expensing; the S Corp Modernization bill, which is a bill that I and my friend from Washington State (Mr. REICHERT) introduced earlier this year to help with the S corporation businesses in this country; the bonus depreciation; and the repeal of the medical device tax—again, legislation that I and my friend from Minnesota,

ERIK PAULSEN, had introduced because we didn't think it was a good idea for us to be taxing our domestic medical device manufacturers, especially on a pre-revenue basis.

I always believed that, with these changes being made, they should be offset, that they should be paid for. That is the fiscally responsible approach to take, and yet we have a \$573 billion bill with not one offset. This is following on the heels earlier this year of 15 permanent changes to the Tax Code being reported out of the Ways and Means Committee, at a cost approaching \$1 trillion, with none of it being offset.

I would submit that, if we went forward on that type of policy prescription, we might as well forget about comprehensive tax reform because we wouldn't have any tools left to do anything with.

I give the chairman of the committee, Mr. CAMP, who is going to be retiring at the end of this year, a lot of credit for having the guts to come out with a discussion draft on what comprehensive reform should look like. In that draft, he was making some tough decisions. He was finding offsets to lower rates and simplify the Tax Code in order to help us be more competitive in the global marketplace. That is not what is being done here today.

I would request with the Republican leadership that, instead of cutting us loose today, what we ought to be doing is staying in longer and working on a true innovation agenda for our Nation, one that invests in quality educational opportunities for all of our students and good job training programs for workers in transition or for those looking to upgrade their skills so they can be competitive in the global marketplace, the crucial investments we have to make in broadband expansion, basic research funding through NIH and NSF grants and infrastructure modernization in this country, that is long overdue. We know we have to do it. Let's do it now when we need the jobs. That would be a true jobs package that, I think, we could rally around so as to get this economy humming again.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. RANGEL. I yield the gentleman an additional 1 minute.

Mr. KIND. Rather than this dog and pony show and the message piece that is before us today, right before the November 4 elections, I think the American people are a lot smarter than what some people give them credit for. They know we have a fiscal problem that has to be addressed, and I think most people would realize that, by coming forward with yet another bill at a cost of \$573 billion, with no offsets and no pay-fors, it is only going to make the situation worse and truly jeopardize the economic opportunities for our children and grandchildren in the future.

Instead of coming out with this legislation today, which is a grab bag for powerful special interests, let's do the tough, heavy lifting that needs to be

done. Let's make these policy changes but in a fiscally responsible way, by finding offsets in the code to pay for them, so we can get our fiscal house put back in order and create the good-paying jobs that America needs today.

Mr. CAMP. Mr. Speaker, I yield myself such time as I may consume.

I would just say to my good friend from Wisconsin that that was part of the story. Many of these provisions that are bipartisan job-creating provisions have been extended time and time again without being "offset," without being "paid for."

Look at the research and development tax credit. It has been extended 15 times over a 33-year period. It has never been paid for, but it is temporary, so it doesn't have the impact on innovation and research and development. That is what drives economies. That is what grows jobs.

Let's make this permanent. Let's not be the only nation in the world with a temporary tax policy. Then we wonder why we are not growing. Then we wonder why median incomes are flat or are declining. Then we wonder why people aren't achieving the American Dream.

Some of my friends have talked about the Senate. They didn't pay for this. What did they do? They extended some of these policies backwards a year and forward 1 year. How can anyone decide to hire a worker, to build a new building, to buy equipment, to start a new production line on 1 year of policy? This is about permanency, and it is about growing jobs.

I yield 3 minutes to the distinguished gentleman from Minnesota (Mr. PAULSEN), a member of the Ways and Means Committee.

□ 1515

Mr. PAULSEN. I thank the gentleman for yielding.

Mr. Speaker, Americans have been pleading for Congress to take action to spur economic growth and create jobs. And the House has repeatedly acted to pass bipartisan legislation to get people back to work, and we are doing so once again today.

Today in this jobs bill is a provision that I authored to repeal the destructive medical device tax. It is destructive because it is a tax not on profit but on sales.

The medical device industry directly employs more than 400,000 people across the country, including 35,000 jobs in my home State of Minnesota. These companies create the lifesaving and life-improving technologies for our patients.

But, because of the President's new health care law, the device industry is now facing one of the highest effective tax rates in the world. This device tax has already resulted in the loss of 33,000 American jobs. That is the equivalent of the entire Minnesota medical device industry being wiped off the map. Another 132,000 jobs are expected to disappear or now go overseas. And these are good-paying jobs, Mr. Speaker—\$60,000 to \$80,000 per job. Eighty

percent of these companies are small businesses, employing 50 people or less.

I asked one company that I recently visited, with 60 employees: What does the device tax mean to you? It means I have six projects now instead of 10 projects; I will have two fewer engineers and two fewer technicians.

Another Minnesota company that I recently talked to with 20 employees that is not yet profitable told me that now they are borrowing—they are borrowing—\$100,000 a month just to pay the tax. That is crazy.

So companies are cutting back on their research and development. Venture capital is disappearing. And we are seeing less innovation.

The bottom line is, this device tax is so poorly conceived, it kills jobs, it is stifling lifesaving and life-enhancing innovation, and both Democrats and Republicans in the House agree on this.

My legislation to repeal this harmful tax has 275 coauthors in this body, 46 of whom are Democrats. There is overwhelming bipartisan support to repeal this job-killing tax. But we need the Senate to take action. We need the Senate to stop blocking this bill from moving forward. That way, we can get this done.

It is time, Mr. Speaker, to come together to protect American jobs by repealing the device tax.

Mr. RANGEL. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois (Mr. DAVIS), one of the hardest working members of the Ways and Means Committee.

Mr. DANNY K. DAVIS of Illinois. Mr. Speaker, I want to thank my colleague from New York for yielding.

I rise in strong opposition to H.R. 4 because it adds over \$500 billion in permanent corporate tax giveaways that could end up causing 1 million hard-working Americans to lose their employer-provided health coverage and do nothing to help the tens of thousands of my constituents and tens of millions of Americans who are experiencing deep poverty, unemployment, and economic distress.

I cannot support adding over \$500 billion to our deficit for permanent handouts to big corporations while 3.3 million long-term unemployed go unaided, while repairs and renovations to our Nation's infrastructure are threatened, while the Medicare doctors' fix goes unresolved, and while irrational budget cuts strangle education, health, research, and innovation.

This bill marks the height of Republican irresponsibility on both fiscal and policy grounds. I ask, how many millions of low-income students could complete college using Pell grants with just a fraction of the cost of this bill? How many long-term unemployed could pay their rent or provide food for their families with even a tiny amount of the cost of this bill? How many more small businesses could receive investment grants or critical low-cost loans?

Our government, yes, has the responsibility to advance policies that create

jobs, strengthen our citizens, and grow our economy, not ones that undermine the health and well-being of Americans and advance the wealthiest among us at the expense of the struggling.

I will vote "no" on this sham jobs-creating bill.

Mr. CAMP. I am prepared to close, so I reserve the balance of my time.

Mr. RANGEL. I yield myself the balance of my time.

Mr. Speaker, as we close out on this bill, I would like to enter into the RECORD a report by the Center on Budget and Policy Priorities. This is an objective report on the subject that we have just talked about, and that is whether or not the Affordable Care Act has caused a loss in full-time jobs. This report clearly shows that we have had a rise in full-time work in connection with the health care reform bill.

[From Off the Charts, Sept. 17, 2014]

CENSUS REPORT SHOWS RISE IN FULL-TIME WORK, UNDERCUTTING CLAIMS BY HEALTH REFORM OPPONENTS

(By Paul N. Van de Water)

Yesterday's Census Bureau report shows that the share of workers with full-time, full-year work rose in 2013, while the share with part-time, part-year work fell. This finding further undercuts assertions that health reform is causing a large increase in part-time employment—as proponents of a House measure to change health reform's rules on covering full-time workers claim.

Health reform requires employers with at least 50 full-time-equivalent workers to offer coverage to full-time employees—defined as those who work at least 30 hours a week—or pay a penalty. Critics claim that employers are shifting some employees to part-time work to avoid offering them health insurance. But the data provide scant evidence of such a shift.

To the contrary, part-time work became less frequent last year. "An estimated 72.7 percent of working men with earnings and 60.5 percent of working women with earnings worked full time, year round in 2013, both percentages higher than the 2012 estimates of 71.1 percent and 59.4 percent respectively," according to the new Census report. These data are consistent with a recent Urban Institute analysis that found little evidence that health reform has increased part-time work.

The share of involuntary part-timers—workers who'd rather have full-time jobs but can't find them—tells a similar story. If health reform were distorting hiring practices, as critics assert, we'd expect the share of involuntary part-timers to be growing. Instead, as the chart (based on Labor Department data) shows, it's down by 1½ percentage points from its post-recession peak. My colleague Jared Bernstein finds that this pattern is typical for this stage of a recovery.

Later this week, the House will consider a proposal (part of a so-called "jobs bill") to raise health reform's threshold for full-time work from 30 to 40 hours. But this step would make a shift toward part-time employment much more likely—not less so.

Only about 7 percent of employees work 30 to 34 hours (that is, at or modestly above health reform's 30-hour threshold), but 44 percent of employees work 40 hours a week and thus would be vulnerable to cuts in their hours if the threshold rose to 40 hours. Employers could easily cut back large numbers of employees from 40 to 39 hours so they wouldn't have to offer them health coverage.

If you exclude workers at firms that already offer health insurance and thus won't be tempted to cut workers' hours, more than twice as many workers would face a high risk of reduced hours under a 40-hour threshold than under the current 30-hour threshold, according to New York University economist Sherry Glied.

There's little evidence to date that health reform has caused a shift to part-time work. There's every reason to expect the impact to be small as a share of total employment, as we have explained. And raising the cutoff for the employer mandate from 30 to 40 hours a week would be a step in the wrong direction.

Mr. RANGEL. Now, the gentleman knows also that in order to get a bill passed, it really helps if you get the cooperation of the President of the United States.

I would like to submit a statement for the RECORD from the administration which says that if this bill was to reach him that he would be forced to follow the advice of his administration specialists and veto it.

On the other hand, I think it is abundantly clear that the Speaker knows that the President has reached out to him and to the Senate to come together to create jobs.

STATEMENT OF ADMINISTRATION POLICY

H.R. 4—JOBS FOR AMERICA ACT

(Rep. Camp, R-Michigan, and 4 cosponsors)

The Administration strongly opposes House passage of H.R. 4, which incorporates several bills that have previously been passed by the House during this Congress, including a number of bills for which the Administration issued Statements of Administration Policy strongly opposing passage and indicating that, if presented to the President, his senior advisors would recommend that he veto them.

The Administration wants to work with Congress to make progress on measures that strengthen the economy and help middle class families, including pro-growth business tax reform. The Administration continues to support tax proposals that would benefit the Nation's economy and small businesses, such as making permanent the research and experimentation tax credit and increased expensing for small businesses. However, making traditional tax extenders and costly business tax cuts permanent without offsets, while at the same time allowing taxes to increase on 26 million working families, represents the wrong approach.

In addition, the Administration welcomes ideas to improve the Affordable Care Act. However, H.R. 4 would undermine that Act by shifting costs to taxpayers and causing fewer Americans to have employer-sponsored health insurance coverage.

Also, the Administration is committed to ensuring that the benefits of regulation justify their costs and that they are tailored to advance statutory goals in a manner that is efficient, is cost-effective, and minimizes uncertainty. However, H.R. 4 would throw all major regulations into a months-long limbo, marking a significant departure from the longstanding separation of powers between the Executive and Legislative branches and, fostering uncertainty and impeding business investment that is vital to economic growth. Furthermore, the bill would impose other unnecessary requirements on agencies that would seriously undermine their ability to execute their statutory mandates.

Finally, the Administration is committed to sound long-term management of Federal lands for continued productivity and economic benefit, as well as for the long-term

health of the wildlife and ecological values sustained by these holdings. However, H.R. 4 includes numerous harmful provisions that would impair responsible management of Federally-owned lands and undermine many important existing public land and environmental laws, rules, and processes.

If the President were presented with H.R. 4, his senior advisors would recommend that he veto the bill.

Mr. RANGEL. Lastly, I would like to say, as the distinguished chair moves on to his retirement from this august body, that for as long as the gentleman has been a member of this Ways and Means Committee that I have admired and I continue to respect the fine work that he has contributed to the committee as well as to this House, and that his honesty, candidness, sincerity, and hard work to make this a better Congress and a better country certainly is appreciated now and will be in the future.

And I would hope that the hard work that he has done on tax reform—which is a very difficult, complex subject to deal with—that we might try to remember him for the fine work that he has done over these years, rather than on the eve of an election, where sometimes the leadership would want to make a political statement.

I, for one, will never associate him with this piece of legislation, but, rather, for the outstanding contributions that he has made year after year, session after session—not for Republicans, not for the committee, but for this great country. And I thank him for his friendship over the years.

I yield back the balance of my time.

Mr. CAMP. Mr. Speaker, I yield myself such time as I may consume.

I thank the gentleman from New York for those kind remarks and also for the work we have been able to do together over the years.

I remember the first legislation that we really worked together on was the Adoption and Safe Families Act, which was signed into law and has done a lot to move children from a temporary situation into a permanent loving home. And I want to thank the gentleman for his leadership on that and other issues on the committee.

And as a former chairman of the committee, you have sat in the chair I am sitting in right now and know what a challenge it can be at times. But we have done some great work together.

I do happen to believe, though, that this legislation would create jobs. And it is not just my opinion. These provisions have been analyzed by the non-partisan Joint Committee on Taxation, and that indicates that these are all important provisions.

There has been some reference to the fact that we are close to an election. And I think clearly what most Americans are sick of is the dysfunction in Washington, the lack of ability for the two parties to get together, whether it is the Republicans and Democrats in the House or Democrat majorities in the Senate and Republican majorities in the House. And these are all bipar-

tisan provisions. These are all tax provisions that have had significant Democrat support and votes. In the case of the Help Hire Our Heroes Act, I think every Democrat but one voted for it. Clearly these are things that will help create jobs.

And not only do Americans want to see the dysfunction in this body end, but they would like to see something that will help move the economy forward, that will help make their lives better.

If you look at polling—there is certainly a lot of polling out there right now—a lot of Americans know that things are not as good as they should be. I mean, it clearly comes across in the polls how dissatisfied they are. And there are lots of reasons for that, largely because median incomes are declining.

But what is really troubling is that Americans don't believe that things are going to get better. They are worried that, for the first time, their children or their brothers and sisters or their family members or they will not have the same opportunities that many of their parents or some of their friends have had. That is a very troubling situation.

This is legislation that will help move the ball forward on getting some economic growth, some job creation, a stronger economy. And with that stronger economy comes more jobs, comes higher wages, comes benefits so that people can pay for food and gas and put something aside for their retirement and for their kids' education.

These are all things that have been extended repeatedly with bipartisan support. As I mentioned, R&D, 30 years; section 179, expensing for small businesses, 10 years; some of the S Corp perform, 12 years—seven times since 2006.

So let's not have a temporary policy. Let's make this permanent. Let's get this country moving again. Let's restore that faith that people have had in this country and in the American Dream. Let's vote "yes" on H.R. 4.

Mr. Speaker, I yield back the balance of my time.

Mr. LANGEVIN. Mr. Speaker, it is with a great sense of disappointment that I deliver my remarks today. For the past 21 months, this House has failed to take any meaningful action to reduce unemployment or boost job creation in America. We know what the solutions are, and yet unconscionably the Republican leadership has chosen to engage in divisive political gamesmanship rather than taking on the more challenging task of governing, which is what our constituents sent us here to do.

In my home state of Rhode Island, employers are still struggling to find qualified employees to fill available jobs. This skills gap keeps the unemployment rate stubbornly high, while many middle class families are still struggling to make ends meet.

H.R. 4 contains provisions from several bills that have already passed the House and failed to gain traction in the Senate. Instead of more duplicative messaging bills, we should be

working with our colleagues across the aisles, and across the Capitol, to incentivize companies to bring jobs back home, invest in advanced research and development, educate and train our workforce for a 21st Century economy, and modernize our infrastructure to improve safety, boost commerce and create jobs.

Certainly the House and Senate have different visions about how to proceed. But when disagreements arise, the process should involve working together to find a solution that can pass both houses and reach the President's desk. Instead, House Republican leaders have decided the best course of action is to revisit bills that we already know are unacceptable to the Senate. As a fitting coda to the 113th Congress, we will again squander an opportunity to act while millions of Americans still need our help.

This Congress is set to go down in history as the least productive ever. Many members have taken a "death or glory" approach to legislating, demanding that either we give them everything, or nobody can have anything. It was a year ago that we suffered the first government shutdown in 17 years; a shutdown caused by the House Majority's inability to contemplate negotiation.

Even by the Speaker's own criteria of "laws repealed" instead of laws passed, we have been remarkably unproductive. Without any coherent legislative strategy, the Republican majority has attempted to repeal or undermine the Affordable Care Act over 50 times. However, we still cannot find the time to extend long-term unemployment insurance, fix our broken immigration system, or tackle any of the other challenges that our constituents sent us here to fix.

One of the easiest steps we can take would be to re-authorize the Carl D. Perkins Career and Technical Education Act. This main source of federal funding for career training programs was last re-authorized in 2006 and expired in 2012. There is broad, bipartisan support for revisiting Perkins and updating its provisions to reflect the realities of the 21st Century economy. Advocates across the country support re-authorizing Perkins. Unfortunately, this did not become a priority for the Committee and we are left waiting for action yet again.

There is too much work to be done to waste time on this petty political squabbling. We have the capacity to meet the challenges that face us, but a lack of courage on the part of House leadership keeps us from doing so. It is my sincere hope that in the 114th Congress we return to regular order, negotiate instead of digging in our heels, and solve problems instead of creating them.

Ms. WATERS. Mr. Speaker, I would like to submit the following:

AMERICANS FOR FINANCIAL REFORM,

Washington, DC, September 18, 2014.

DEAR REPRESENTATIVE: On behalf of Americans for Financial Reform (AFR), we are writing to urge you to oppose H.R. 4, the "Jobs For America Act". Division III of the legislation contains a number of extremely problematic provisions that would require regulatory agencies to satisfy dozens of additional mandates prior to any regulation of Wall Street, and which would create numerous additional opportunities for large financial firms to block any government action in court. AFR has joined the Coalition for Sensible Safeguards and dozens of other civil society organizations in a joint letter opposing these provisions.

We would also like to draw attention to Title I of Division II of this legislation, the “Small Business Capital Access and Job Preservation Act”. This legislation would exempt private equity fund advisors—who include some of the wealthiest and most significant entities on Wall Street—from registration and reporting requirements designed to allow regulators to protect investors and the public and monitor risk in the financial system.

Prior to the Dodd-Frank Act, hedge and private equity funds received almost no regulatory monitoring, despite the fact that they manage some \$3 trillion in assets in total on behalf of numerous investors, including many pension funds. The Dodd-Frank Act created more transparency for this previously dark portion of the markets, by requiring hedge and private equity fund advisors to register with the Securities and Exchange Commission (SEC), maintain a code of ethics and a compliance program, and report basic financial information relevant to systemic risk. This legislation would effectively exempt all private equity fund advisors from these requirements.

Since this legislation was voted on as a stand alone bill in December, 2013 as H.R. 1105, the SEC has reported publicly on its basic ‘presence examinations’ of private equity fund advisors pursuant to its new Dodd-Frank responsibilities. These examinations found widespread evidence of abuse of investors and violations of the law. In a recent speech, Andrew Bowden, the SEC’s Director of Compliance Inspections and Examinations, stated that “when we have examined how fees and expenses are handled by advisers to private equity funds, we have identified what we believe are violations of law or material weaknesses in controls over 50% of the time”. The speech details evidence of deception and abuse of investors in other areas as well. Mr. Bowden also stated that due to the opaque nature of the private equity model and the limited information rights of investors, outside investors in private equity funds “often have little to no chance of detecting” these abuses on their own.

Given the findings of the SEC in its initial investigations of private equity advisors, it is deeply disappointing to see that the House is once again pursuing a broad exemption from registration, reporting, and associated ethics requirements for private equity advisors. The passage of “The Small Business Capital Access and Job Preservation Act” would effectively remove the SEC’s most effective tool for addressing the evidence of widespread investor abuses recently uncovered through their examinations. We urge you to oppose this legislation.

Thank you for your consideration. For more information please contact AFR’s Policy Director, Marcus Stanley.

Sincerely,

AMERICANS FOR FINANCIAL REFORM.
