

Foley said the Milken Educator Award is not one that teachers or administrators can apply for. "We don't accept nominations. You don't find us, we find you," Foley said.

"Not an accolade for lifetime achievement or the proverbial gold watch at the exit door, the Milken Educator Awards targets early- to mid-career education professionals for their already impressive achievements and, more significantly, for the promise of what they will accomplish in the future," the website noted.

Accompanying Holliday and Foley was Madeline Abramson, wife of Kentucky Lt. Governor Jerry Abramson.

After the award was announced, the students did a rousing chant with a Bowling Green Purples theme, clapping their hands in staccato fashion, then stamping their feet.

"There's no way I can top that," said Holliday, taking the microphone once again. Looking at King, the commissioner added, "What an honor for Bowling Green High School and Kentucky."

Milken award winners have exceptional educational talent as evidenced by effective instructional practices and student-learning results in the classroom and school; have exemplary educational accomplishments beyond the classroom that provide models of excellence for the profession; are individuals whose contributions to education are largely unheralded yet worthy of the spotlight; are early- to mid-career educators who offer strong long-range potential for professional and policy leadership; and have an engaging and inspiring presence that motivates and impacts students, colleagues and the community, the website noted.

The last south-central Kentucky educator to receive a Milken Educator Award was Karen Branham in 2001. At the time, Branham was a teacher at Glasgow High School. She is now assistant superintendent for student learning for the Elizabethtown Independent School District.

The MPF is headquartered in Santa Monica, Calif.

#### VOTE EXPLANATION

• Mr. NELSON. Mr. President, I was necessarily absent from the votes during yesterday's session on Tuesday, February 25, 2014. Had I been present, I would have supported the nominations of James Donato and Beth Freeman to fill judicial emergency vacancies on the U.S. District Court for the Northern District of California, and James Moody to fill a judicial vacancy on the U.S. District Court for the Eastern District of Arkansas. I also would have voted in favor of the motion to invoke cloture on the motion to proceed to S. 1982, the Comprehensive Veterans Health and Benefits and Military Retirement Pay Restoration Act of 2014. •

#### TRIBUTE TO KATHLEEN RICE

Mr. CHAMBLISS. Mr. President, I wish to pay special tribute to Kathleen B. Rice, a key member of my staff on the Select Committee on Intelligence. Kathleen will leave us shortly to join Boveri Murphy Rice, LLP, a boutique trial and litigation firm in South Bend, IN, which represents clients nationwide, ranging from Fortune 500 companies to smaller businesses and individuals. Kathleen has had a distinguished career in her 19.5 years of service to the

Senate, Federal Bureau of Investigation, Department of Justice, and the U.S. District Court for the Southern District of Florida. I am honored to have the opportunity to publicly thank her and note my appreciation for her outstanding service to the Select Committee on Intelligence during the past 7.5 years.

Since becoming the vice chairman of the committee in 2011, I have routinely relied upon her impressive legal acumen and excellent advice on matters large and small. Kathleen is well known on the Hill and by the private sector as one of the leading congressional staff experts on cybersecurity legislative issues. During the 111th Congress, she distinguished herself as an authority in the field with her work on S. 3538, the National Cyber Infrastructure Protection bill, on behalf of Senators Kit Bond and ORRIN HATCH. Based upon that experience, I selected Kathleen to serve as the lead counsel for all of my cybersecurity legislative efforts. Since then, she has worked tirelessly to develop and negotiate legislative proposals consistent with my strong desire to get an effective cybersecurity information sharing bill enacted into law. During the last Congress, Kathleen was a crucial participant in the negotiations that led the ranking members of eight Senate committees to co-sponsor S. 2151 and S. 3342, the Strengthening and Enhancing Cybersecurity by Using Research, Education, Information, and Technology Act of 2012, more commonly known as "SECURE IT." During this Congress, Senator FEINSTEIN and I have been working very hard to develop a bipartisan cybersecurity information sharing bill that we believe will be well-received by the private sector and our colleagues in the Senate and the House of Representatives. We are finally quite close to being able to mark up our cybersecurity information sharing bill and Kathleen played an integral role every step of the way.

Kathleen is a recognized legislative wizard. When negotiations have stalled, it is usually Kathleen who comes up with the textual solution that provides the basis for a practical and effective bipartisan compromise—a valuable skill that unfortunately has been in short supply on the Hill in recent memory. In addition to cyber, she has been a key staff contributor to the process of passing and enacting the committee's annual intelligence authorization bills. Her expertise on the Foreign Intelligence Surveillance Act (FISA) was invaluable during the negotiation and enactment of the Protect America Act of 2007, the FISA Amendments Act of 2008, Public Laws 111-141 and 112-14, extension of certain expiring FISA sunsets, and the FISA Amendments Act Reauthorization Act of 2012. She routinely monitors the legislative calendar to ensure that pending legislation does not negatively impact intelligence community activities and operations. She also works closely

with the Members and staff of other committees on all issues related to national security.

Kathleen's mastery of criminal and national security law, coupled with her inexhaustible work ethic and sound judgment, have made her an indispensable member of the committee staff and an invaluable resource to other congressional committees. Her quick wit and good humor make her a pleasure to work with—less so, if you unwisely choose to work against the interests of her "client". Kathleen is a team player who makes everyone around her perform better. She has been an astute mentor and guide to the senior staff responsible for assisting the vice chairman and members of the committee with formulating and implementing the committee's legislative and oversight priorities. She also has done a terrific job interfacing and collaborating with my personal staff to ensure that my office is accurately transmitting my views on current national security issues and events.

My colleagues and I trust Kathleen's judgment implicitly. Her example of dedicated public service and exceptional day-to-day performance on the job has earned our respect and admiration, and it inspired a generation of staff who had the privilege to work alongside her. There is no doubt that Kathleen has a bright future in the private sector; however, should the right opportunity present itself, I would strongly encourage my Senate colleagues to entice her back into public service. We will miss Kathleen dearly, but her legacy will remain a part of the Senate Select Committee on Intelligence for years to come.

#### TRIBUTE TO RICHARD S. GIRVEN

Mr. CHAMBLISS. Mr. President, I wish to pay special tribute to Richard S. Girven, a key member of my staff on the Select Committee on Intelligence. Rich has a total of 33 years of distinguished service to the Senate and the U.S. Army. He will leave us shortly to join the Washington office of the Rand Corporation where he will serve as an associate director for the Intelligence Policy Center within the National Security Research Division. I am honored to have the opportunity to publicly thank Rich and note my appreciation for his outstanding service to the Select Committee on Intelligence during the past 5½ years.

Since becoming the vice chairman of the committee in 2011, I have often relied upon Rich's impressive analytical skills and teamwork on a wide range of intelligence issues. As the committee's director of analysis, he has routinely mentored our senior staff members in the execution of their substantive and regional portfolios. Rich is well known on the Hill and throughout the intelligence community as a leading expert on issues related to Asia and the Middle East, with special emphasis on South and Southeast Asia. He has also

done superlative oversight work on issues related to analytic quality, linguists in the intelligence community, human intelligence, technology, education and training, and intelligence authorities and reform. He has conducted and participated in many committee studies involving analysis, analytic tradecraft, and analyst technologies.

Rich even has a “superpower”—he reads faster than anyone I have ever met. I have been told by reliable sources that he can read at least 1,600 words per minute. This sometimes worked to his personal disadvantage, because he was frequently tasked with reading very large bills, some in excess of 1,000 pages, to assess whether any provisions could negatively impact intelligence authorities and operations. Rich’s inexhaustible work ethic and sound judgment have made him an indispensable member of the committee staff and an invaluable resource to other congressional committees. His quick wit and good humor make him a pleasure to work with. He is the consummate team player who improves the performance of everyone around him.

My colleagues and I trust Rich’s judgment implicitly. His example of dedicated public service and exceptional day-to-day performance on the job has earned our respect, admiration, and it inspired a generation of staff who had the privilege to work alongside him. There is no doubt that Rich has a bright future at the Rand Corporation; however, should the right opportunity present itself, I would hope that he will consider another stint in public service. We will miss Rich deeply, but his legacy will remain a part of the Senate Select Committee on Intelligence for years to come.

#### ADDITIONAL STATEMENTS

##### REMEMBERING MAJOR GENERAL FLOYD L. EDSALL

• Mr. HELLER. Mr. President, I wish to recognize an exceptional Nevadan and veteran, Army MG Floyd Edsall. On January 29, 2014, Nevada’s humble servant was called home after 92 years of devoted community advocacy.

Born December 21, 1921, Mr. Edsall answered a call for military service at an early age through his involvement at UNR in their ROTC program. In 1944, he fought in World War II and was awarded the Silver Star and three Bronze Stars for his valiant bravery.

Upon his return from service with the Army’s 63rd Infantry Division, Major General Edsall taught at Elko and Sparks High Schools as well as his alma mater UNR, where he coached football and track and field. Throughout his teaching and coaching career, he remained active in the Nevada Guard.

Major General Edsall is recognized as the Nevada National Guard’s first full-

time adjunct general. From 1967 to 1979, he commanded the Nevada Air and Army Guard all while maintaining a steadfast dedication to expanding the Guard’s enlistments during the Vietnam war. His focus and recruitment abilities exhibited with the Guard were widely regarded, and Major General Edsall retained his role of leadership over the span of three Nevada gubernatorial administrations.

Recognizing a lifetime of commitment to service, the Nevada Army Guard dedicated a 1,697-acre training facility in his honor in 1997, and on May 10 of the same year, the Maj. Gen. Floyd Edsall Training Center opened to further the foundations of service his namesake bears.

Major General Edsall’s passing is a great loss and his loyal commitment to the Silver State will never be forgotten. I ask my colleagues to join me in remembering the life of a devoted Nevadan and honoring his accomplishments.●

##### REMEMBERING WALTER “DOC” HURLEY

• Mr. MURPHY. Mr. President, earlier this month, a Hartford icon, Walter “Doc” Hurley, passed away at the age of 91. For some, Doc was a teacher, for others a coach, and for many more he was a dedicated philanthropist and friend. No matter what role he played at any given time, Doc Hurley worked his entire life to positively impact the Hartford community, and he will be sorely missed.

Doc led an eclectic and inspiring life. After attending Weaver High School in the North End of Hartford, he served in World War II as a marine. Upon coming home from the war, he finished college, worked as a teacher in Virginia, and spent a brief stint as a professional football player in the All-American Football Conference before finally returning to Hartford in 1959.

It was when he became vice principal at Weaver High School in Hartford that he began in earnest his lifelong goal of inspiring students to pursue a college degree. The most visible piece of Hurley’s lasting legacy in the community is the Doc Hurley Scholarship Foundation and the renowned Doc Hurley Scholarship Basketball Classic. Over the years, Doc’s foundation was responsible for awarding more than \$570,000 in scholarships to 550 high school seniors. Many of these students who went on to successful careers owe their start to Doc Hurley and his scholarship foundation. Doc was a once-in-a-generation mentor, coach, teacher, and positive inspiration for Hartford’s youth.

Last October, I held an antiviolence basketball tournament for nearly 1,000 kids with the University of Connecticut men’s basketball team in the field house that bears Doc Hurley’s name at Weaver High School. I was proud to have had the chance to work with him on that basketball tournament and, more importantly I will

work to continue his legacy of encouraging Hartford’s students to achieve their highest potential.

I join everyone in Hartford and around Connecticut in celebrating the life of Walter “Doc” Hurley and mourning the loss of this great man.●

##### BROWN UNIVERSITY

• Mr. WHITEHOUSE. Mr. President, this March, Providence, RI, celebrates the 250th anniversary of the founding of Brown University, known as one of the world’s great universities.

In 1764, the American Colonies were on a headlong course toward Revolution. Many of those who would lead the charge to independence also had a hand in establishing this great American college. Among the founding Fellows and Trustees of what was then called the College in the English Colony of Rhode Island and Providence Plantations were future signers of the Declaration of Independence, delegates to the Continental Congress and Congress of the Confederation, and members of the prominent Brown family of Providence. One of them, John Brown, was later in the 1772 attack on the royal customs vessel HMS Gaspee in Narragansett Bay, an act of violence against the crown that drew the first British blood in the conflict that led to the American Revolution, more than a year before the Boston Tea Party.

Since then, prominent Brunonians have included Secretaries of State John Hay and Charles Evans Hughes, Federal Reserve Chair Janet Yellen, and our own Governor Lincoln Chafee and Congressman DAVID CICILLINE, to name just a few. For two and a half centuries, bright and eager young Americans have arrived in Providence’s beautiful College Hill neighborhood, greeted by historic architecture and the famous Van Wickles Gates. They brought their ambition and their talent and, inevitably, they left their mark and continue to leave their mark—on our State and our Nation.

Today, Brown University is a hub of research, innovation, and learning, and an integral partner in our capital city’s culture and economy. As a magnet for talent and resources, Brown has helped fuel Providence’s Knowledge District, and the university itself is the fifth-largest private employer in Rhode Island. Brown’s Alpert Medical School has helped bolster our State’s leadership in the health care field, with more than 1,700 physicians—43 percent of all physicians in the State—affiliated with the school. And Brown’s heralded BrainGate program famously helped Cathy Hutchinson use a robotic arm to pick up a cup of coffee and take a sip 15 years after a stroke left her paralyzed and unable to speak. These and countless other contributions continue to put Rhode Island on the forefront of the innovation economy, and I am grateful for Brown’s role in driving our Ocean State forward.

Brown is a wonderful place. As I travel the country and encounter Brown
