

done superlative oversight work on issues related to analytic quality, linguists in the intelligence community, human intelligence, technology, education and training, and intelligence authorities and reform. He has conducted and participated in many committee studies involving analysis, analytic tradecraft, and analyst technologies.

Rich even has a “superpower”—he reads faster than anyone I have ever met. I have been told by reliable sources that he can read at least 1,600 words per minute. This sometimes worked to his personal disadvantage, because he was frequently tasked with reading very large bills, some in excess of 1,000 pages, to assess whether any provisions could negatively impact intelligence authorities and operations. Rich’s inexhaustible work ethic and sound judgment have made him an indispensable member of the committee staff and an invaluable resource to other congressional committees. His quick wit and good humor make him a pleasure to work with. He is the consummate team player who improves the performance of everyone around him.

My colleagues and I trust Rich’s judgment implicitly. His example of dedicated public service and exceptional day-to-day performance on the job has earned our respect, admiration, and it inspired a generation of staff who had the privilege to work alongside him. There is no doubt that Rich has a bright future at the Rand Corporation; however, should the right opportunity present itself, I would hope that he will consider another stint in public service. We will miss Rich deeply, but his legacy will remain a part of the Senate Select Committee on Intelligence for years to come.

##### REMEMBERING MAJOR GENERAL FLOYD L. EDSALL

• Mr. HELLER. Mr. President, I wish to recognize an exceptional Nevadan and veteran, Army MG Floyd Edsall. On January 29, 2014, Nevada’s humble servant was called home after 92 years of devoted community advocacy.

Born December 21, 1921, Mr. Edsall answered a call for military service at an early age through his involvement at UNR in their ROTC program. In 1944, he fought in World War II and was awarded the Silver Star and three Bronze Stars for his valiant bravery.

Upon his return from service with the Army’s 63rd Infantry Division, Major General Edsall taught at Elko and Sparks High Schools as well as his alma mater UNR, where he coached football and track and field. Throughout his teaching and coaching career, he remained active in the Nevada Guard.

Major General Edsall is recognized as the Nevada National Guard’s first full-

time adjunct general. From 1967 to 1979, he commanded the Nevada Air and Army Guard all while maintaining a steadfast dedication to expanding the Guard’s enlistments during the Vietnam war. His focus and recruitment abilities exhibited with the Guard were widely regarded, and Major General Edsall retained his role of leadership over the span of three Nevada gubernatorial administrations.

Recognizing a lifetime of commitment to service, the Nevada Army Guard dedicated a 1,697-acre training facility in his honor in 1997, and on May 10 of the same year, the Maj. Gen. Floyd Edsall Training Center opened to further the foundations of service his namesake bears.

Major General Edsall’s passing is a great loss and his loyal commitment to the Silver State will never be forgotten. I ask my colleagues to join me in remembering the life of a devoted Nevadan and honoring his accomplishments.●

##### REMEMBERING WALTER “DOC” HURLEY

• Mr. MURPHY. Mr. President, earlier this month, a Hartford icon, Walter “Doc” Hurley, passed away at the age of 91. For some, Doc was a teacher, for others a coach, and for many more he was a dedicated philanthropist and friend. No matter what role he played at any given time, Doc Hurley worked his entire life to positively impact the Hartford community, and he will be sorely missed.

Doc led an eclectic and inspiring life. After attending Weaver High School in the North End of Hartford, he served in World War II as a marine. Upon coming home from the war, he finished college, worked as a teacher in Virginia, and spent a brief stint as a professional football player in the All-American Football Conference before finally returning to Hartford in 1959.

It was when he became vice principal at Weaver High School in Hartford that he began in earnest his lifelong goal of inspiring students to pursue a college degree. The most visible piece of Hurley’s lasting legacy in the community is the Doc Hurley Scholarship Foundation and the renowned Doc Hurley Scholarship Basketball Classic. Over the years, Doc’s foundation was responsible for awarding more than \$570,000 in scholarships to 550 high school seniors. Many of these students who went on to successful careers owe their start to Doc Hurley and his scholarship foundation. Doc was a once-in-a-generation mentor, coach, teacher, and positive inspiration for Hartford’s youth.

Last October, I held an antiviolence basketball tournament for nearly 1,000 kids with the University of Connecticut men’s basketball team in the field house that bears Doc Hurley’s name at Weaver High School. I was proud to have had the chance to work with him on that basketball tournament and, more importantly I will

work to continue his legacy of encouraging Hartford’s students to achieve their highest potential.

I join everyone in Hartford and around Connecticut in celebrating the life of Walter “Doc” Hurley and mourning the loss of this great man.●

##### BROWN UNIVERSITY

• Mr. WHITEHOUSE. Mr. President, this March, Providence, RI, celebrates the 250th anniversary of the founding of Brown University, known as one of the world’s great universities.

In 1764, the American Colonies were on a headlong course toward Revolution. Many of those who would lead the charge to independence also had a hand in establishing this great American college. Among the founding Fellows and Trustees of what was then called the College in the English Colony of Rhode Island and Providence Plantations were future signers of the Declaration of Independence, delegates to the Continental Congress and Congress of the Confederation, and members of the prominent Brown family of Providence. One of them, John Brown, was later in the 1772 attack on the royal customs vessel HMS Gaspee in Narragansett Bay, an act of violence against the crown that drew the first British blood in the conflict that led to the American Revolution, more than a year before the Boston Tea Party.

Since then, prominent Brunonians have included Secretaries of State John Hay and Charles Evans Hughes, Federal Reserve Chair Janet Yellen, and our own Governor Lincoln Chafee and Congressman DAVID CICILLINE, to name just a few. For two and a half centuries, bright and eager young Americans have arrived in Providence’s beautiful College Hill neighborhood, greeted by historic architecture and the famous Van Wickles Gates. They brought their ambition and their talent and, inevitably, they left their mark and continue to leave their mark—on our State and our Nation.

Today, Brown University is a hub of research, innovation, and learning, and an integral partner in our capital city’s culture and economy. As a magnet for talent and resources, Brown has helped fuel Providence’s Knowledge District, and the university itself is the fifth-largest private employer in Rhode Island. Brown’s Alpert Medical School has helped bolster our State’s leadership in the health care field, with more than 1,700 physicians—43 percent of all physicians in the State—affiliated with the school. And Brown’s heralded BrainGate program famously helped Cathy Hutchinson use a robotic arm to pick up a cup of coffee and take a sip 15 years after a stroke left her paralyzed and unable to speak. These and countless other contributions continue to put Rhode Island on the forefront of the innovation economy, and I am grateful for Brown’s role in driving our Ocean State forward.

Brown is a wonderful place. As I travel the country and encounter Brown

graduates, and attend Brown functions and meet undergraduates, I have been struck at how much they love this college. For a great many of our best and brightest high school seniors, Brown is their decided first choice among all the great universities of the world.

In its original charter, it was said that Brown, "to which the youth may freely resort for education in the vernacular and learned languages, and in the liberal arts and sciences, would be for the general advantage and honor of the government." Two hundred fifty years later, it is clear that Brown has lived up to that expectation.

I am proud to congratulate the president of Brown University, Christina Hull Paxson, Brown's trustees and faculty, and its students and alumni on 250 remarkable years.●
