

its Distinguished Service Award to our colleague, Senator JIM INHOFE.

Since 1978, NERO has recognized in a nonpartisan manner outstanding achievements in the energy field, particularly in the areas of public awareness regarding energy development and use. In addition to working for 30 years in the private sector, JIM is the past mayor of Tulsa, U.S. Congressman, and has represented the State of Oklahoma in the U.S. Senate since 1994.

Senator INHOFE was recognized for his service as the lead Republican on the Senate Environment & Public Works Committee for 10 years, 4 of those years as its chairman. He has been a strong proponent of Oklahoma's energy resources and truly believes in an "all of the above" approach to American energy. Through his work on both of his committees, he has demonstrated that energy independence is not just an economic issue but a national security issue.

Senator INHOFE is well respected in the Senate on energy issues, and he has been in the forefront of every energy and environmental issue in the Senate for the last 20 years.

All of us know of Senator INHOFE's dedication to this Nation, his faith, and to a strong energy production. We also know of his giving spirit and his heart for Africa. We are amazed at all he accomplishes. Every day he gives his total and relentless effort towards making America a better place.

I wanted to share this good news with our colleagues.

#### FOREIGN DUMPING

Ms. KLOBUCHAR. Madam President, I wish to speak about the importance of a level playing field for Minnesotan miners and American steel. My State's iron ore mines and the thousands of Minnesota jobs they support are the backbone of the Iron Range. It started in the days when miners like my grandfather worked in the underground mines with picks and shovels and continues today in open-pit mines with giant electric shovels and haul trucks.

Through the generations, these Minnesotans have earned a reputation for possessing a strong work ethic. They have proven that our miners on the range can compete with anybody in the world on a level playing field. Unfortunately, that fairness is being compromised by foreign trading practices that are putting steelworker jobs in jeopardy.

The U.S. Department of Commerce is currently investigating the trading practices of countries that are dumping steel products in the U.S. market. This flood of foreign oil country tubular—OCTG—goods is causing our Nation's steel industry to lose sales and market to underpriced foreign competitors. An example is South Korea, which is the world's largest steel industry but has no domestic OCTG market. The result is Korean producers exporting more to the United States, creating a drop in the price of steel.

While the U.S. demand for OCTG products is increasing, American producers are not seeing the benefits. In fact, they are losing sales to foreign competitors, with imports of OCTG doubling since 2008 and increased by 61 percent this year compared to the previous year. This is already having an impact in American facilities with reduced hours and the threat of layoffs for workers.

Dumping of steel products has nationwide economic implications. The OCTG steel produced for the U.S. energy market accounts for approximately 10 percent of domestic steel production. U.S. OCTG producers directly employ nearly 8,000 workers across the country, and every one of those jobs in turn supports another 7 jobs in the supply chain. Here in Minnesota, where the steelmaking process begins, there are more than 10,000 high-quality, steel-related jobs.

That is why I recently joined 58 of my colleagues in sending a bipartisan letter to the Secretary of Commerce expressing concern at the antidumping investigation of OCTG imports from South Korea. The letter asks the administration to more closely examine these imports for any misrepresentations in origin and nature of the products and to take action against any unfair dumping practices.

We all know our industries need to be competitive—but they also need to be competing on fair terms. It is critical that our trade laws serve as the last line of defense for American companies and workers. I will continue fighting to ensure that we have a level playing field for this Minnesota industry vital to the economic prosperity of our State.

#### PENNSYLVANIA'S ACA MARKETPLACE

Mr. CASEY. Madam President, I wish to speak about encouraging news from Pennsylvania. A June 17 article from the Pittsburgh Post-Gazette details how Pennsylvania's health insurance marketplace, established through the Affordable Care Act, is working as intended for enrollees. I would like to enter this article into the RECORD as evidence of how the Affordable Care Act is expanding access to health insurance, in Pennsylvania and throughout our Nation. I ask unanimous consent that the full text of the article be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Pittsburgh Post-Gazette, June 17, 2014]

PA. HEALTH MARKETPLACE 'WORKING' FOR ENROLLEES

68% HAD PREMIUMS OF \$100 OR LESS: REPORT  
(By Steve Twedt)

Pennsylvanians who selected midrange coverage "silver" plans in the new private health insurance marketplace created as part of the federal Affordable Care Act paid an average monthly premium of \$60 with tax

credits, according to a new report by the U.S. Department of Health and Human Services.

Overall for all four plans—bronze, silver, gold and platinum—68 percent of enrollees had premiums of \$100 or less after factoring in tax credits and 47 percent found plans with premiums of \$50 a month or less, the report said.

"What we're finding is that the marketplace is working for Pennsylvanians," said HHS Secretary Sylvia Burwell in a release. "Consumers have more choices, and they're paying less for their premiums."

More than 300,000 Pennsylvanians have signed up for a marketplace health plan since enrollment began Oct. 1. Nationally, the number of enrollees has surpassed 8 million who HHS says have collectively saved nearly \$1.2 billion in premiums from what insurers had originally sought.

The exchanges are an integral part of the 2010 Patient Protection and Affordable Care Act, designed to give people, and particularly the uninsured, access to low-cost health insurance.

The tax credits for lower income enrollees are a major factor in plan affordability, as the HHS report said; Pennsylvanians who were eligible for tax credits saw their monthly premiums decrease by 74 percent, from \$330 to \$84.

Information about the tax credits, including eligibility requirements, can be found at the IRS website: [www.irs.gov/uac/Newsroom/Questions-and-Answers-on-the-Premium-Tax-Credit](http://www.irs.gov/uac/Newsroom/Questions-and-Answers-on-the-Premium-Tax-Credit).

#### LITTLE LEAGUE INTERNATIONAL ANNIVERSARY

Mr. TOOMEY. Madam President, I wish to recognize Little League International on its 75th anniversary. Little League International was founded in Williamsport, PA, in 1939 by Carl Stotz as a means for area youth to learn the sport at a time when they were considered too young to play organized baseball. The basic goal of Little League was, and remains, to introduce children to a game that teaches its set of values, including courage, character and loyalty, that will guide them throughout their lives. Congress recognized the valuable role Little League has played in America's communities when it unanimously granted Little League a Federal charter on July 16, 1964. That charter was signed into law by President Lyndon B. Johnson the very next day.

Over the course of its 75 years, Little League Baseball has become the world's largest organized youth sports program, growing from 3 teams in 1939 to nearly 200,000 teams located in all 50 States and more than 80 countries worldwide. Each year, more than 2.4 million children participate in Little League Baseball in various divisions, including baseball, softball, and a challenger division for physically and developmentally challenged children. Some notable Little League alumni include former U.S. President George W. Bush, two Vice Presidents, numerous U.S. Senators and Representatives, two Nobel Prize laureates, and a Medal of Honor recipient. Also, several professional athletes and Hall of Fame baseball players began their journey in Little League. In keeping with the tradition of our national pastime, thousands

of games are played throughout the summer months at various levels of competition. These events bring together children from the international community and foster principles that transcend cultural or regional differences.

Since the very first game was played on June 6, 1939, Little League International has made an invaluable contribution to the lives of millions of children across the globe. I wish Little League International all the best as it continues to grow and fulfill its mission by laying a strong foundation for today's youth.

#### ADDITIONAL STATEMENTS

##### CONGRAULATING SOUTHEAST ISLAND SCHOOL DISTRICT

• Mr. BEGICH. Madam President, I wish to pay tribute to the hard work of the students and faculty of the Southeast Island School District, their local community members, and their Superintendent, Lauren Busch.

In response to high food costs, the school district sought funding and community support to build greenhouses for students at each of its four schools: Thorne Bay, Coffman Cove, Naukat, and Barry Stewart. Students and community members found funding, purchased and constructed greenhouses and are now using locally sourced biomass to heat them.

While building a few greenhouses may not sound like much to those in the lower 48, things are different in Alaska. High transportation costs, high energy costs, the lack of access to raw materials, and sometimes severe weather all combine to make for a high cost of living. This makes this district-wide greenhouse project a tremendous achievement.

A central part of my job is to explain how different Alaska is to my colleagues here and to help them understand these high costs our Alaska communities face. These are the central challenges of our State and, in one project, have been smartly and creatively addressed through the Southeast Island School District greenhouse program. In addition, the program also teaches students many other valuable skills, including entrepreneurship.

I am proud to congratulate these hard-working and resourceful Alaskans and I wish them continued success.●

##### VAN BUREN COUNTY, IOWA

• Mr. HARKIN. Madam President, the strength of my State of Iowa lies in its vibrant local communities, where citizens come together to foster economic development, make smart investments to expand opportunity, and take the initiative to improve the health and well-being of residents. Over the decades, I have witnessed the growth and revitalization of so many communities across my State. And it has been deep-

ly gratifying to see how my work in Congress has supported these local efforts.

I have always believed in accountability for public officials, and this, my final year in the Senate, is an appropriate time to give an accounting of my work across four decades representing Iowa in Congress. I take pride in accomplishments that have been national in scope—for instance, passing the Americans with Disabilities Act and spearheading successful farm bills. But I take a very special pride in projects that have made a big difference in local communities across my State.

Today, I would like to give an accounting of my work with leaders and residents of Van Buren County to build a legacy of a stronger local economy, better schools and educational opportunities, and a healthier, safer community.

Between 2001 and 2013, the creative leadership in your community has worked with me to successfully acquire financial assistance from programs I have fought hard to support, which have provided more than \$13 million to the local economy.

Of course, one of my favorite memories of working together is the success that the Van Buren County Hospital has had in securing funds for wellness activities and facilities expansions through programs I fought for as chair of the Senate Agriculture Committee.

Among the highlights:

**Main Street Iowa:** One of the greatest challenges we face—in Iowa and all across America—is preserving the character and vitality of our small towns and rural communities. This isn't just about economics. It is also about maintaining our identity as Iowans. Main Street Iowa helps preserve Iowa's heart and soul by providing funds to revitalize downtown business districts. This program has allowed towns like Bonaparte to use that money to leverage other investments to jumpstart change and renewal. I am so pleased that Van Buren County has earned \$55,000 through this program. These grants build much more than buildings. They build up the spirit and morale of people in our small towns and local communities.

**School grants:** Every child in Iowa deserves to be educated in a classroom that is safe, accessible, and modern. That is why, for the past decade and a half, I have secured funding for the innovative Iowa Demonstration Construction Grant Program—better known among educators in Iowa as Harkin grants for public schools construction and renovation. Across 15 years, Harkin grants worth more than \$132 million have helped school districts to fund a range of renovation and repair efforts—everything from updating fire safety systems to building new schools. In many cases, these Federal dollars have served as the needed incentive to leverage local public and private dollars, so it often has a tre-

mendous multiplier effect within a school district. Over the years, Van Buren County has received \$2,722,823 in Harkin grants. Similarly, schools in Van Buren County have received funds that I designated for Iowa Star Schools for technology totaling \$144,729.

**Agricultural and rural development:** Because I grew up in a small town in rural Iowa, I have always been a loyal friend and fierce advocate for family farmers and rural communities. I have been a member of the House or Senate Agriculture Committee for 40 years—including more than 10 years as chairman of the Senate Agriculture Committee. Across the decades, I have championed farm policies for Iowans that include effective farm income protection and commodity programs; strong, progressive conservation assistance for agricultural producers; renewable energy opportunities; and robust economic development in our rural communities. Since 1991, through various programs authorized through the farm bill, Van Buren County has received more than \$5 million from a variety of farm bill programs.

**Keeping Iowa communities safe:** I also firmly believe that our first responders need to be appropriately trained and equipped, able to respond to both local emergencies and to statewide challenges such as, for instance, the methamphetamine epidemic. Since 2001, Van Buren County's fire departments have received over \$2,000,000 for firefighter safety and operations equipment.

**Wellness and health care:** Improving the health and wellness of all Americans has been something I have been passionate about for decades. That is why I fought to dramatically increase funding for disease prevention, innovative medical research, and a whole range of initiatives to improve the health of individuals and families not only at the doctor's office but also in our communities, schools, and workplaces. I am so proud that Americans have better access to clinical preventive services, nutritious food, smoke-free environments, safe places to engage in physical activity, and information to make healthy decisions for themselves and their families. These efforts not only save lives, they will also save money for generations to come thanks to the prevention of costly chronic diseases, which account for a whopping 75 percent of annual health care costs. I am pleased that Van Buren County has recognized this important issue by securing more than \$350,000 in grants for community wellness activities.

**Disability Rights:** Growing up, I loved and admired my brother Frank, who was deaf. However, I was deeply disturbed by the discrimination and obstacles he faced every day. That is why I have always been a passionate advocate for full equality for people with disabilities. As the primary author of the Americans with Disabilities Act, ADA, and the ADA Amendments Act, I
